

Prostrated Every Spring

Suffering from dyspepsia, weakness, general run-down condition that some call 'that extreme tired feeling,' was my regular experience until I began to take Hood's Sarsaparilla. It gave me relief almost from the first dose, and soon I was completely restored to health and strength. I have now for some years used this unailing remedy each spring, and have been rewarded with good health in the summer and winter." Mrs. L. U. Bickford, Gossville, N. H.

Wanted His Body Above Ground.

Not so very long ago there died, in the north of England, a farmer who left instructions that his body should be put in a coffin, and then placed in the loft of one of the barns on the farm premises. It was done, and will probably remain there for generations.

Underrating Influenza Germ.

One orange a week is to be given to each child in the Lambeth Guardians' schools at Norwood, England, as a preventive against influenza. All we can say is that, if the influenza germ is to be intimidated by one orange a week, it has sadly lost its pluck since we last met it.

MORGAN ASSERTS PERFECT FAITH

Money Magnate Tells of Belief in Atonement for Sins.

Amount of Fortune Not Revealed—\$20,000,000 Disposed of and Son Gets Residue.

New York—"I commit my soul into the hands of my Savior in full confidence that, having redeemed it and washed it in His most precious blood, he will present it faultless before the throne of my Heavenly Father; and I entreat children to maintain and defend, at all hazard, and at any cost of personal sacrifice, the blessed doctrine of the complete atonement for sin through the blood of Jesus Christ, once offered, and through that alone." This is the extraordinary and striking utterance which begins the last will and testament of John Pierpont Morgan, who died at Rome on March 31 last, whose body, heaped over with flowers from the crowned heads of Europe, was, a fortnight later, brought back to his own land, and last Monday was borne to its last resting place at Hartford.

Ever since the funeral the publication of the great financier's last will has been awaited with keen expectation, and it is safe to say that of all the interesting testaments of eminent citizens of America, that of Mr. Morgan, to be offered for probate here is by far the most interesting.

As to the amount of the estate, which is one of the first questions the public naturally is asking, there is nothing in the will to give any accurate idea, and the executors declare that no announcement will be made on this subject until the appraisal has been made for determining the state inheritance tax.

The amount of trusts and bequests named by specific sums is under \$20,000,000, but the entire residue of the estate is left to J. P. Morgan, Jr., who is designated by his father to become the chief heir, not only to his fortune, but to his many charitable and artistic activities.

JAPANESE IRE IS SOFTENED

Okuma Sarcastic in Reference to Exchange of Lessons.

Tokio—The announcement that President Wilson and Secretary of State Bryan are making efforts to bring about a compromise in the proposed California legislation with respect to the alien land ownership bill, and that Governor Johnson is opposing the bill, has softened Japanese ire, and public opinion now has become more optimistic. The reported unwillingness of the American missionaries to assist in resisting the bill is the subject of harsh criticism in the Japanese newspapers, but after a conference which Count Okuma, the foreign minister, had with the missionaries, the latter dispatched telegrams to California, the exact nature of which were not known.

Count Okuma ironically reminded the missionaries that Japan owed its first lesson in foreign humanitarian principles to the United States. "Now the duty has devolved upon Japan," he added, "to teach the Californians the same principles."

The Japanese consul at Vancouver, B. C., C. Yada, who has arrived here, has caused some excitement by the statement that anti-Japanese legislation is pending in the Canadian province of British Columbia, Saskatchewan and Manitoba.

Warlike Moros Disperse.

Washington, D. C.—Trouble with the Moros in the Philippines, which has threatened for several weeks, has been averted. Reports to the department say the army of belligerent tribesmen, numbering 3000, which practically laid siege to Jolo and dared the American garrison to venture forth and do battle, has dispersed. The Moros threatened to revolt because agitators from the province of Luzon had spread reports that the Americans planned to make them abandon the Mohammedan religion.

Militants Storm Tower.

Plymouth, England—A militant suffrage "bomb troop" attempted to blow up the famous Smeaton Tower on Plymouth Hoe. The tower is the original Eddystone lighthouse, built by John Smeaton in 1759-59, dismantled when it had become antiquated and re-erected on the Hoe as a historic relic. The bomb employed by the militants failed to explode. It consisted of a tin canister, filled with explosive and with a fuse attached to the top.

Navy Plans Long Cruise.

Washington, D. C.—Secretary Daniels announces that next winter practically the entire Atlantic fleet would be sent on a three months' cruise to the Mediterranean. This will be the new secretary's first step in pursuance of his policy to make the navy in times of peace a great educational force for the enlisted men.

Bandits Are Guillotined.

Paris—The auto bandits, Monier, Callemain and Soudy, were guillotined at 4:35 o'clock Sunday morning. The execution of all three took less than 4 minutes. Soudy was the first to suffer the penalty; then came Callemain and last Monier. All died quietly.

USE SNAKES TO KILL SNAKES

South America Has Discovered an Excellent Way to Cope With the Universal Pest.

In South America, where the snake pest is a very serious proposition, they are now using snakes to catch snakes.

Even in the most civilized parts of Brazil over 1,000 persons are killed annually by snake bite. The mongoose, which proved so effective in Jamaica and elsewhere, is of little use here. Necessity is the mother of invention, and nature and science together have at last discovered something which it is hoped may eventually exterminate the dreadful pest.

The discovery is nothing else than a "beneficial" snake which is harmless to man, and which kills and eats the poisonous species.

The murrana, as it is called, is a thick, muscular snake about four feet long. It is possessed of an insatiable appetite for poisonous vipers, and it can tell of the approach of one in the same way that a pointer will "scent" game. When tackling its prey, which is frequently considerably bigger than itself, the "good" snake assumes a lethargic air as if it were gluttoned with food and could not fight. Seeing this the bad snake immediately attacks.

This is just what the other wants; for, being rendered by nature completely immune from the poison, it seizes its enemy before it has had time to recover from the charge, and gives a fatal bite at the base of the brain.

Old Treasures Found in India.

Images of Hindu gods and Buddha have been discovered at Dhalagaoon near Rumpal, India, formerly the capital of King Ballal Sen. Two months back, an astrologer of Panchashar, Munshiganj, is said to have predicted that there lay hidden treasures in a piece of building underneath a tank. With the permission of the owner and the government, the tank is being bailed out by him. As a result, the images were recovered and traces of buildings found.

Choir Invisible Has a Recruit.

A Kansas man who has lately been abroad reports that this inscription actually appears on an old tombstone in a cemetery at Saragossa, Spain: "Here lies John Cabeca, precursor of my lord the king. When he is admitted to the choir of angels, whose society he will embellish, and where he will distinguish himself by his powers of song, God shall say to his angels, 'Cease, ye voices! and let me hear John Cabeca, a precursor to the king of Spain!'"

Good Sleeper.

Their political dispute, according to the account in the Kansas City Star, had not been confined to words, and at last one of the antagonists, with great dignity, said to the other: "Sir, you have called me a crook and a fool, you have broken my spectacles, you have punched me twice. I hope you will not rouse the sleeping lion in my breast, for if you should, I cannot tell what may be the consequences."

MR. A. H. POWELL.

Manufacturing Chemist. Spokane, Wash.

Dear Sir: Having suffered with stomach trouble for a number of years, and tried a great many doctors and a great many proprietary preparations but obtained no permanent relief until I took your stomach remedy, and am pleased to say that I have no further stomach trouble and can eat anything I desire and suffer no bad results. I am a professional nurse, having served for 30 years, since the time for Dr. E. W. Grove's Hospital at Wardner, Idaho, for two years. Since learning by my own experience the great benefit from the use of Powell's Stomach Remedy, I have recommended it to a great many for children and adults, and in each case it has been remarkable for the good it has done. I earnestly recommend it to anyone suffering with any kind of stomach trouble, as I am anxious to see anyone suffering from disease of any kind, and I have never known of medicine to compare with Powell's Stomach Remedy for all kinds of stomach trouble. Yours truly,

Coffins Many Centuries Old.
Two tiny coffins have recently been found in the monastic burial ground of Peterborough, Northampton, England, and have been placed in Peterborough cathedral. They are said to be the coffins of the twin children of King Canute, who were drowned in Whittesey Mere as they were crossing to be educated at Peterborough abbey.

First Idea of Sewing Machine.
The earliest attempt at sewing by machinery of which there is any authentic record was in 1755, in which year a machine was patented in England by Charles W. Weisenthal. In this machine the stitch was formed by a needle, having two points with an eye at mid-length, which passed completely through the goods in imitation of hand sewing.

The Stomach Is the Target

Aim to make that strong—and digestion good—and you will keep well! No chain is stronger than its weakest link. No man is stronger than his stomach. With stomach disordered a train of diseases follow.

Dr. Pierce's Golden Medical Discovery

makes the stomach healthy, the liver active and the blood pure. Made from forest roots, and extracted without the use of alcohol. Sold by druggists in liquid form at \$1.00 per bottle for over 40 years, giving general satisfaction.

If you prefer tablets as modified by R. V. Pierce, M. D., these can be had of medicine dealers or trial box by mail on receipt of 50c in stamps.

Enriching the Language.
The growth and change which are inseparable from all living language cannot fail to interest the student, and a special interest attaches to the incorporation of the names of well-known men. Thus Wellington has come to mean a sort of hero; Brougham, a carriage; and Gladstone, appropriate enough, a traveler's bag, as that great man advocated the "bag and baggage" policy, which seems likely at length to be adopted.

Other names have been turned into verbs as well as nouns. For instance, the murderer Burke's name is perpetuated in the words to burke, burked, burking and burkism, while in quite recent times Captain Boycott's experiences resulted in the language being enriched by the phrases to boycott, boycotted, boycotting, etc.

The most notable case was probably that of the great and good man, Rev. T. Bowdler, D. D., who by publishing a "family edition" of Shakespeare in 1811, added the words "bowdlerize" and "bowdlerism" to our language.—Exchange.
