On the Toboggan.
No man ever discovers his true powers of locomotion until he starts on the moral and financial down grade.—Puck.

WOMAN SUFFERED TEN YEARS
From Nervousness Caused by Female Ills—Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Auburn, N. Y.—"I suffered from nervousness for ten years, and had such organic pains that sometimes I would lie in bed four days at a time, could not eat or sleep and did not want anyone to talk to me or bother me at all. Sometimes I would suffer for seven hours at a time. Different doctors did the best they could for me until four months ago I began giving Lydia E. Pinkham's Vegetable Compound a trial and now I am in good health."—Mrs. WILLIAM H. GILL, 15 Pleasant Street, Auburn, New York.

"Doctor's Daughter Took It."
St. Cloud, Minn.—"I was so run down by overwork and worry that I could not stand it to have my children talk aloud or walk heavy on the floor. One of my friends said, 'Try Lydia E. Pinkham's Vegetable Compound, for I know a doctor's daughter here in town who takes it and she would not take it if it were not good.'"
"I sent for the Compound at once and kept on taking it until I was all right."—Mrs. BERTHA M. QUICKSTADT, 727 5th Avenue, S., St. Cloud, Minn.

Lydia E. Pinkham's Vegetable Compound may be relied upon as the most efficient remedy for female ills. Why don't you try it?

NATION'S HONOR IS APPEALED TO

Ambassador Bryce Makes Optimistic Farewell Speech.

Believes United States and England Need Never Quarrel—Pays Tribute to Bryan.

New York—James Bryce on the eve of his departure for home after six years as ambassador to the United States from Great Britain, said his farewell to the American people in an address here before the Pilgrims society of the United States. He referred with feeling to his cordial relations with the three presidents in office during his service in Washington and said he had no words to convey his sense of the kindness with which he had been received in America.

Mr. Bryce did not touch on any issue now pending between the American and British governments. This statement, however, was regarded as significant:

"With good will and with a conviction that one of every nation's highest assets is that sense of national honor which will make it live up to its international obligation, all questions between nations can be adjusted, and I am sure that any questions between your country and mine will be adjusted in that way."

Mentioning that more than a dozen important treaties between his government and the United States had been concluded in the last six years, Mr. Bryce said he had come to admire not only the "brilliant gifts of former Secretary Root, but his fairness of mind and his genuine love of peace." He added that he felt sure that Mr. Bryan "would show no less earnest wish to work for accord and good will, and Mr. Bryan, indeed, has given evidence of this."

"My mission," he said, "has been not merely to represent my sovereign and government for diplomatic purposes, but also to bear a message of friendship from the British to the American people."

BRYAN'S TRIP TO BE HASTY

Stay in Sacramento Necessarily Indefinite—Reception Cordial.

Chicago—"I shall go direct to Sacramento and return to Washington as soon as I possibly can," said Secretary of State Bryan here as he boarded his train for the West. "I cannot forecast how long my absence may be, but I hope it will be short. I ought to be in Washington."

Mr. Bryan nodded his head with emphasis and added: "I hated to leave Washington just now. I would not have done so if it had not been necessary. These are important days at the capital."

"My mission," he said in answer to a question, "as far as my memory goes, is without precedent. We may create precedents in our conference, but it would not do to speak of them in advance."

That the secretary will have an hospitable welcome in California was shown in invitations he received here by telegraph to address public bodies in San Francisco and Sacramento.

Socialists Are Surprised.

Brussels—More than half the Belgian workers who took part in the strike for equal suffrage returned to their employment Saturday, but the resumption of work was irregular in some parts of the country. Some of the trade unions ordered their men to begin Saturday, others on Monday, while a few are determined to remain out several days longer.

Disagreeable surprises met the hands who had struck at factories in the suburbs of Brussels. When they appeared at the gates ready to recommence work, all the old employees were refused admission and were told that they were discharged.

Girl Saves Falling Chum.

New York—Eighteen-year-old Margaret Donovan was saved from a 300-foot fall from the head of the Statue of Liberty Saturday by her chum, Gladys Revere, who caught hold of her dress just as she was slipping from the window ledge that surrounds Miss Liberty's crown. Screaming for help, Miss Revere held on to the dress with both hands until other sightseers came to the rescue and dragged the girl in feet first. Miss Donovan ventured out on the ledge on a dare and became dizzy.

Anxiety Felt in France.

Washington, D. C.—Through Ambassador Jusserand here the French government has called the attention of the State department to the probable effect on existing treaties of the new tariff bill. Anxiety has been caused in France by several of the administrative clauses of the new bill, especially those obliging merchants to show their books and papers. In France a decision of a tribunal is required to compel any man to do so.

Canal Zone to Be "Dry."

Panama—By direction of Lindley M. Garrison, secretary of war, the Panama canal zone will be without saloons during the coming fiscal year. At present there are 35 saloons in the zone towns.

NEW YORK JAPANESE APPEAL

Meeting Adopts Resolutions Regarding California Case.

New York—Resolutions appealing to the authorities and "fair-minded citizens" of this country and Japan to solve fairly the question arising between the two nations through the pending legislation regarding alien land ownership in California were adopted at a meeting of several hundred Japanese residents of this city in Carnegie hall. Speeches denouncing the contemplated action of the California legislature were made and telegrams sent to President Wilson and Secretary of State Bryan thanking them for the friendly spirit they have shown toward the Japanese.

Washington, D. C.—Not the slightest change in the attitude of the Japanese towards the alien land bill has taken place here in the past few days.

Reports that Ambassador Chinda has reiterated the displeasure of the Mikado over any alleged discrimination against citizens were denied at the White House and the State department.

The Japanese protest was made more than two weeks ago, and no other representations have been made by Ambassador Chinda since that time. Sensational reports that Japan had adopted a more aggressive attitude were denied by State department officials.

WIRELESS OPERATORS STRIKE

Western Men Will Be Supported by East If Necessary.

San Francisco—According to Sylvester J. Konenkamp, international president of the Commercial Telegraphers' union of America, who is here directing the strike against the Marconi Wireless company, general orders calling out all wireless operators employed by the corporation in the East will be issued as soon as it becomes evident that the battle of the strikers cannot be won on the Pacific Coast.

Konenkamp professed to be optimistic concerning the outcome of the strike, and is of the opinion that the affair will terminate where it began, in the West, and that the company will be forced to accede to the demand of the union for a higher wage schedule.

"We are asking \$60 a month for first operators and \$50 for second key men, now receiving from \$30 to 45 for their services," said he. "We did not order the strike until every effort to settle the matter by arbitration had failed. The San Francisco Labor Council then took up the matter with the Marconi people, and President Andrew J. Gallagher, after a conference with A. H. Ginman, the Marconi manager, advised us to 'go ahead, the quicker the better.'"

"There are 63 men now on strike in this city. The men at Astoria are also out, and the operators at East San Pedro have left their keys. Many of the maritime unions have assured us of moral and financial support."

CARNIVAL IDEA ORGANIZED

Pacific Coast Cities to Co-operate in Civic Gaiety.

Santa Barbara, Cal.—With the development of the carnival spirit and the making of the entire West into a gigantic playground as its object, the California Celebrations committee has been organized here.

The meeting was attended by prominent California officials of several railroads and representatives from civic bodies. A committee to formulate the general plans of the new organization and to invite representatives of other cities to attend another meeting to be held here as soon as possible was appointed.

The committee expressed the hope that Portland, Seattle, Honolulu and other cities would co-operate with the organization in a plan to have the festivals in the various cities arranged to follow one another, instead of being held simultaneously, and to have features typical of the cities as well as historical.

Krupps Deny Bribery.

Cologne—Director Hugenberg, chairman of the Krupp Arms company board, in an interview published by the Cologne Gazette says that if the Berlin agent of the company bribed officials of the German war office for the purpose of gaining information about armament contracts, it was with his own money and without the knowledge of the company. The secret reports sought were only such as any company should have in order to know what its competitors were doing.

Rebels Busy in North.

Mexico City—Further evidence of the aggressiveness of the northern rebels was given Saturday when several hundred of them, well armed and mounted, captured the town of Vanegas, on the National railway in the state of San Luis Potosi. They cut the railway to the north and then moved to Matequala, a mining and smelter center. The rebels continue to cover new territory and cripple transportation facilities.

Postcards Ordered Back.

Washington, D. C.—Postmaster-General Burleson has ordered that unpaid, misdirected, unmailable and unclaimed postal cards, as well as post cards deposited for local delivery, be returned to the sender when they bear card address. Twelve million post cards annually, it is estimated, will be returned under the order to senders.

100,000 MARCH ON MONTENEGRO

Austrian Troops Rush Forward By Land and Sea.

Italy Expected to Support Austria—Greek and Serbian Forces Face Bulgarians.

London—One hundred thousand Austrian troops now are moving in the direction of the Montenegrin frontier, according to an Antivari dispatch to the Mail. A large number of Austrian troops also are proceeding to Antivari by sea.

A Vienna dispatch to the Times says that in the event of Austria attempting to coerce Montenegro there is little doubt that she would be supported by Italy, which probably would occupy Santa Quaranta and Avlona, while Austria would proceed against Lovchen Mountain and Scutari.

In order to avoid needlessly offending Russia, the action against Scutari would be carried out through Albania, not from Herzegovina.

The Sofia correspondent of the Times learns that the Greek and Serbian forces now massed in Southern Macedonia aggregate 220,000. They are confronted by three Bulgarian divisions, totalling 60,000 men. Almost all the remaining Bulgarian forces are still before Bolair and Tehtalja.

The Bulgarian government, the dispatch adds, is exhausting every means to arrive at a friendly arrangement with Serbia and Greece, but the danger of a conflict is still imminent.

PLEA FOR "OREGON" MADE

That Battleship Go Through Canal First Is Request.

Salem, Or.—School children to the number of 61,200 in this state have signed a petition asking President Woodrow Wilson to direct that the battleship Oregon be designated to head the fleet that first passes through the Panama canal. The petition of the Oregon school children is in part as follows:

"The incident of history which, more than all others, impressed America with the immediate need of an inter-oceanic waterway at Panama was the famous voyage of the battleship Oregon. That marvelous race of a great battleship around the continent to fight the battles of an alien people staggered the world. She is at once the most famous and most loved vessel in all the fleet of the Great Republic. Therefore we, the school children of the commonwealth of the State of Oregon, whose name this floating fortress so proudly bears, respectfully petition that the battleship Oregon be the first ship to pass through the canal from ocean to ocean."

Sword Final, Says Prince.

Berlin—Crown Prince Frederick William, in writing the preface to a book, "Germany in Arms," just published, of which he is reputed to be the author, exhibits himself, the future German emperor, as a disbeliever in the possibility of ever abolishing war.

He declares that diplomacy "may delay and occasionally avert conflicts, but 'the sword will remain the final and decisive factor until the world's end.'"

The author points out that Germany's unfortunate geographical position, and warns his countrymen that the German army and navy must be kept continually at the highest point of efficiency, and he appeals to all Germans to be ready to sacrifice their blood and their possessions.

Manila Victory Noted.

Washington, D. C.—Dewey's victory over the Spanish fleet in Manila Bay, 15 years ago, was celebrated here Thursday night at the annual reunion and banquet of the Society of Manila Bay. Twenty-two of the survivors of the famous battle, including Rear Admiral A. S. Walker, who commanded the cruiser Concord and the only survivor of the six officers who commanded vessels of Dewey's fleet, were gathered around the banquet table to do honor to Admiral George Dewey, president of the association.

Slave Painting Refused.

New York—A painting entitled "To the Highest Bidder," representing a negro slave woman, with her child, standing on the auction block, was rejected by the Brooklyn Institute because it might "tend to keep alive memories that had better be forgotten." The picture was painted by Harry Roseland, a well-known Brooklyn artist, and offered to the institute by Charles A. Schieren, a former Brooklyn mayor.

Police Herd "Pie" Beggars.

Washington, D. C.—Hungry job-hunters, among them many who have despaired of gaining the official pie counter through official influence, gathered in such numbers Wednesday night in the vicinity of the Civil Service commission headquarters that the police reserves were called out.

Aviator Wins \$10,000 Purse.

Paris—Ernest F. Guillaux, a French aviator, whose aeroplane flight on Sunday last when he traveled from Biarritz, France, to Kollum, Holland, a distance of nearly 1000 miles, won a prize of \$10,000 and the Pommery, or single-day distance, cup.

W. L. DOUGLAS
\$3.00 \$3.50 \$4.00
\$4.50 AND \$5.00
SHOES
FOR MEN AND WOMEN
BEST BOYS SHOES IN THE WORLD

If you could visit W. L. Douglas large factories at Brockton, Mass., and see for yourself how carefully W. L. Douglas shoes are made, you would then understand why they are warranted to fit better, look better, hold their shape and wear longer than any other make for the price.
If W. L. Douglas shoes are not for sale in your vicinity, order direct from the factory and save the middleman's profit. Shoes for every member of the family. Parcel Post, postage free. Write for Illustrated Catalogue. It will show you how to order by mail, and why you can save money on your footwear.
W. L. DOUGLAS — Brockton, Mass.

About as Far as He Could Go.
On the first of the month there was to be a shift in studies in some of the public school grades, and a young man was consulting his father. He had finished with ancient history, which was ancient arbitrarily up to the time of the Christian era. "How far did you get in it?" asked the sire. "Down to zero," responded the heir.

First Umbrella in America.
The first umbrella seen in America was the property of a Baltimore man, who made his first appearance in public carrying the article March 5, 1770. The contrivance excited much comment and ridicule, and for years the use of the umbrella as a protection against rain was considered effeminate.

That Wonderful Event
IF THERE is a time above all times when a woman should be in perfect physical condition it is the time previous to the coming of her babe.
During this period many women suffer from headache, dizziness, pains of various description, poor appetite, and a host of other ailments which should be eliminated in justice to the new life about to be ushered into this world.
