Medical Fees in Bygone Days.

At the beginning of the eighteenth century the usual fees to physicians and surgeons in England were "to a graduate in physick, his due is about 10 shillings, though he commonly expects or demands 20. Those that are only licensed physicians, their due is no more that 6 shillings and 8 pence, though they commonly demand 10 shillings."

"A surgeon's fee is 12 pence a mile, be his journey near or far, 10 groats to set a bone broken or out of joint, and for letting blood 1 shilling; the cutting or amputation on any limb, 5 pounds, but there is no settled fee for the cure." The system of regulating the fee according to the pocket of the patient, remarks the Westminster Gazette, is almost as old as history.

Potato Cakes of 1871.

Peel enough good-sized potatoes for a meal for the family, grate on a coarse grater and stir in from three to five eggs, then add a little flour. More eggs will not hurt them. Stir well and fry in hot lard, and if tried once they will be tried again and often.

Upper Burma Home of Ruby.

While certain qualities of rubies are widely distributed and found in Burma, Siam, Ceylon, Afghanistan, India, Brazil, Australia and the United States, the countries of Burma, Siam and Ceylon are beyond question commercially the more important. Just as this is true there rests but little if any doubt that Upper Burma, the Mogok section, furnishes the finest and largest supply.

Drop Hermits.

Two eggs, one cup sugar, one cup molasses, two-thirds cup of butter, one and one-half teaspoons saleratus, three tablespoons sour milk, one teaspoon of spice, one cup of chopped raisins, one quart of flour. Drop by teaspoon on bottom of dripping pan.

SAYS NEY WAS A GERMAN

English Writer Makes Interesting Assertion About Most Prominent French Marshal.

A recent English book about Marshal Ney, Napoleon's historic lieutenant, "the bravest of the brave," brings out some interesting facts.

This Frenchman was really a German. He was born at Saarlouis, now in Prussia, and then and always German. He spoke only German as a child. He was red-haired, with a wide face, and round blue eyes. Five feet eight inches in height, he had a short body and long legs. His comrades called him "le rougeot," which was equivalent to "carrots" or "brick top." He was forty-six years old at Waterloo. So was Napoleon. So was Wellington.

Michel Ney was a man who was trained up to the hardships of a workman's life. His father was a cooper, and in his boyhood work in his father's business he was accustomed to toil and exposure. This enabled him to sleep placidly in the snow on the return from Moscow, wrapped in his cloak, "with the starved, ragged soldiers of the grand army keeping guard, and the Cossacks prowling around in the darkness."

Conservatory Living Room.

A happy idea in house construction, says Country Life in America, is the new plan of combining conservatory and living room. The idea has possibilities, both for the elaborate mansion and the modest cottage. Ferns, flowers, easy chairs and abundant sunlight make the conservatory living room an apartment that radiates beauty, cheerfulness and comfort.

Novelist Plays Safe.

Dickens and Balzac, living before novelists walked in fear of libel actions, took the name of their characters from above the shop doors of London and Paris. Mr. Frankfort Moore confesses to an equally easy, but safer method. He draws the names from tombstones. Dead men read no tales.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Sauce in Stoneware Dish.

Mix in a basin one level tablespoonful of cornstarch with one cupful of milk, then pour it into the chafing dish and boil, stirring all the time. Cook for ten minutes, then add half a teaspoonful of vanilla extract and two yolks of eggs. Sweeten to taste and reheat the sauce without boiling, or it will curdle. Strain and serve hot or cold with any sweet pudding.

Lemon Pudding.

Cream one cup of sugar and three tablespoonfuls of butter, add yolk of four eggs, then two cups bread crumbs and one quart milk with juice and rind of one lemon, one teaspoonful of salt; mix till smooth, put in greased baking dish and bake; beat whites of eggs with one cup powdered sugar and juice of one lemon; spread on top of pudding and brown.

Oil Drilling by Hand.

Oil exists in great quantities in Siam, but the methods of securing it are exceedingly crude. The wells are not more than sixty feet deep and are dug by hand. The oil secured is that which is baled from the bottom of the well by dippers on long sticks of bamboo. The oil is sold to the natives who live within calling distance of the wells.

"Onto" and "Aren't I?"

The word "onto" is defended by the New York Times, and the phrase "Aren't I?" by the Evening Post. Truly, Henry J. Raymond and William Cullen Bryant have been dead a long time.

Disconcerting.

"We formed a club of girls sworn to marry no man commanding less than $10,000 a year." "And what broke it up?" "A young fellow came along who was earning $30 a week."—Buffalo Commercial.

BIG TORNADO HITS NEBRASKA

Twister Wrecks 22 Houses and Kills Ten People.

All Wires Down; Damage in Country Not Known—Many Injured by Wreckage.

Seward, Neb. — A tornado which took a toll of ten lives, injured 30-odd persons and destroyed more than a third of the town passed through Seward shortly before 6 o'clock Thursday night.

Twenty-two residences, including several of the best in the town, were entirely destroyed and many more were partially wrecked, but the business portion of the place did not suffer greatly.

The tornado formed northwest of the city and swept across the country, taking many buildings along its course. It struck the western or residence portion of the town of Seward and swept everything in its path clear. It came on the town so suddenly that only part of the people had opportunity to run to cellars or other places of refuge. Those killed generally were caught in the wreckage of their homes, which were crushed to pieces like eggshells.

The tornado, after passing through Seward, continued on its course to the northeast, doing great damage to rural homes. Reports say that the towns of Lushton, Grafton, Utica and McCool were in the path of the twister, but all wire communication to those points was destroyed.

An appeal was sent to Lincoln before the one remaining telephone wire was lost, for physicians and undertakers, and they left on a freight train at 10:30 p. m.

Reports from surrounding sections indicate that the effects of the tornado were felt over a wide range of territory, but until telephone communication is restored the number of casualties will not be known.

The tornado was followed in Seward by a hail and rain storm.

GOVERNOR'S ANSWER IS "NO"

Johnson Stands Firmly Upon Right to Exclude Aliens.

Sacramento, Cal.—Governor Johnson's final answer to the request of the Federal government that he withhold his signature from the Webb alien land bill was telegraphed to Secretary Bryan at Washington, and in substance amounts to a courteous but unequivocal "no."

After making this statement and signing and sending the message, the governor went out to the ball game and spent the afternoon. He intimated that he did not expect any further word from Washington.

By the text of his reply, which was made public as soon as it was dispatched, Governor Johnson feels it his duty to approve the action of the legislature. His message to the secreary of state not only affirms the right of the state to enact a law barring Asiatics from ownership in land, but also defends the public policy of such a measure, citing the vote on the Webb bill as proof of the demand for such an act in California.

With the sending of the telegram the controversy over the bill is at an end, so far as the California administration is concerned. Governor Johnson has until June 16 in which to sign the act, and in the normal course of events it will become a law at the expiration of 90 days from the closing of the legislature, or on August 10 next.

Mexicans Like to Be Prisoners.

El Paso, Tex.—American soldiers at Fort Bliss are engaged more in preventing Mexicans from becoming prisoners than in detaining the 200-odd federal soldiers already held at the Texas army post. A report that many of the Mexican soldiers had escaped from the prison led to a count, which showed that there were six more prisoners than originally were transported here from Naco, Arizona. The recent altering of the prisoners' mess from regular meals to black beans is credited with the popularity of detention.

Train Runs Into Dynamite.

The Dalles, Or.—Striking an automobile truck, a part of the load of which was a box of dynamite, a speeding O.-W. R. & N. passenger train escaped being wrecked here only by reason of the fact that the collision did not cause an explosion. J. W. Blakeney, driver of the motor car, barely escaped with his own life by jumping before the engine hit his machine. The auto was carried more than 100 feet on the pilot of the locomotive.

Six Cars of Mohair Shipped.

Salem, Or.—William Brown & Co., of this city, have just shipped the largest single consignment of mohair ever sent from the Pacific Coast. There were six carloads, containing 200,000 pounds of mohair, valued at $70,000. The consignment went to the Griswold Worsted company, of Darby, Pa.

TRAIN DITCHED; FOUR KILLED

Speeding O.-W. R. & N. Leaves Track Near Tacoma.

Smoker is Telescoped by Steel Baggage Car—Seven Injured—Rails Spread.

Tacoma—Four are dead and seven are injured as the result of the derailment of Oregon-Washington local No. 362, bound from Portland to Seattle, near the Montamara Festo racetrack grandstand at Lakeview, a few miles south of Tacoma, Monday afternoon. The train was ditched while speeding at 65 miles an hour over a perfectly level stretch of track.

All of those killed were riding in the smoking car in the forward three seats, and were crushed beneath the steel baggage coach, which jammed its way 12 feet into the smoker. The remains were not recovered by the wrecking crew until after four hours of hard work.

Although officials of the Northern Pacific railroad, which owns the track, and of the Oregon-Washington Railroad & Navigation company, were on the scene shortly after it happened and made an investigation that lasted all afternoon they were unable definitely to state the cause. General Superintendent Richards, of the Northern Pacific, said the probable cause was a spreading rail.

The engine and eight cars left the track, the engine plowing its way 200 feet before it turned over on its side and was buried five feet in the earth.

Engineer Dunlap escaped uninjured as did his fireman. The wrecking crew reached the scene of the accident about 4 o'clock.

The accident happened on a straight stretch of track in a small cut with a bank about two feet high on each side.

SPAIN WELCOMES ALFONSO

Kaiser Does Not Relish Idea of French-Spanish Alliance.

Madrid—The Spanish people, proud of King Alfonso's personal popularity in France, greeted the sovereign on his return from Paris with unusual enthusiasm. Women strewed flowers in the king's path between the station and the palace. Governors and diplomatic dignitaries gathered at the station and the queen and queen mother also were there to welcome the king.

King Alfonso and the German emperor will meet in Holland on the occasion of the international regatta in the summer, according to the Tribuna.

This is considered significant, in view of the present strong influence which the triple entente has over the king, possibly foreshadowing a Franco-Spanish military alliance, which the German emperor does not welcome.

Roosevelt May Be Crowned.

London — Theodore Roosevelt can have the throne of Albania, if he wants it. The suggestion already has been carried to the point where the colonel has only to signify his willingness to accept and the crown is his.

"If Roosevelt desires the kingship of Albania we will put him ahead of all others who have been named. I myself would certainly vote for him. Roosevelt is one of the most extraordinary men in the world, being by nature on a higher plane than mere princes."

This was the emphatic statement made by Ismail Kemal, provisional president of Albania and leader of the delegation from the Albanian people authorized to find for them a ruler acceptable to the ambassadorial conference of powers.

Friedmann Sued for $100,000.

New York—There were two things which disturbed Dr. Friedmann and his manager, Moritz Eisner, Monday, even more than the unfavorable government opinion on the tuberculosis remedy. One was the fact that Dr. M. M. Sturm, formerly Dr. Friedmann's close assistant, has begun suit for $100,000 for commission on the sale of the remedy to Mr. Eisner. The other was that the same Dr. Sturm had acquired in its entirety the secret of making and administering the tuberculosis vaccine.

Postmaster Limit Is Set.

Washington, D. C. — Fourth-class postmasters must be able to read, to count accurately the money they receive, to measure the oil cloth on the floors of their offices and to write at least a decipherable letter once in a while, in order to be taken under the wing of the civil service. In effect, they must have a reasonable understanding of "readin,' writin' and 'rithmetic," according to instructions issued by the Postoffice department.

Typhoon Sweeps Islands.

Manila—The worst typhoon experienced in eight years struck the islands Sunday, causing many deaths and wrecking several small steamers and numerous lighter craft. The known fatalities at sea total 58, but the total death list from the storm is swelling with incoming reports. It is believed no Americans have lost their lives.

Hundred Killed In Wreck.

Saloniki — Two Bulgarian military trains collided between Drama and Buk. One hundred persons were killed and 300 injured.

CLASSED SALMON AS LUXURY

Doctor's Explanation of Graded Fees Had to Satisfy Rich but Parsimonious Patient.

A wealthy man, well known for his extreme stinginess, drove up hurriedly in his carriage to the door of a celebrated doctor. He was in a state of acute discomfort and fear, from the simple fact that at the moment a piece of fish bone was sticking somewhere in the region of his throat. The doctor removed the dangerous obstacle, and the gentleman breathed freely.

"Thank you, doctor!" he exclaimed, much relieved. "I'll never eat salmon again—never! And with what ease you removed it. A mere minute's operation, was it not? How much—a—what is your fee?"

"Half a guinea," replied the doctor.

"Half a guinea!" exclaimed the man. For half a minute's work? Impossible!"

"But—consider for a moment!" said the doctor. "It's a salmon bone!"

"What has that to do with it?"

"Oh, a great deal," replied the doctor. "Had it been a halibut, or fresh haddock, I should have charged less—perhaps 5 shillings. For codfish or eels, 2-and-6 would have been ample payment. Mackerel 2 shillings. While a red herring bone I might even have removed free of charge. But salmon! Well, really, sir, one has to pay for these luxuries."

And his patient paid.—London Mail.

Red Cross Ball Blue, all blue, best bluing value in the whole world, makes the laundress smile.

Not for Him.

"Some day," remarked the nice old gentleman, "you may be president of the United States." "Mebbe," replied the son of the very big business man, "but if they want me they will have to raise the salary."

Wasn't Shocked.

"I saw you and your husband at the play last night, Mrs. Wedgecomb. How did you like it?" "I'm sorry we wasted our money on it. Several people told me I would be shocked, but I wasn't."—Chicago Record-Herald.

Montana Woman's Case.

Burns, Mont.—"Lydia E. Pinkham's Vegetable Compound cured me of awful backache which I had suffered with for months. I was so weak I could hardly do my work and my head and eyes ached all the time. Your Compound helped me in many ways and is a great strengthener. I always recommend it to my friends and tell them what a grand medicine it is for women. You may use my name for the good of others."—Mrs. JOHN FRANCIS, Burns, Montana.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—**it has stood the test for years.**

Flowers From Germany.

Germany ships 12,000,000 or 15,000,000 "pips" or "crowns" of lilies of the valley to the United States every year. When these "pips" are planted in pots they bloom and are then thrown away. German soil and the German climate seem especially favorable to their production.
