### TRADES OF LITTLE ANIMALS

Bees Are Geometricians, While Mole Is Meteorologist and Many Birds Are Musicians.

Bees are geometricians. The cells are constructed so that with the least quantity of material they have the largest spaces and least possible loss of interstice.

The mole is a meteorologist. Eels are electricians. The nautilus is a navigator; he raises and lowers his sails—casts and weighs anchor, and performs other nautical acts.

Whole tribes of birds are musicians. The beaver is an architect, builder and wood cutter; he cuts down trees and erects houses and dams.

The marmot is a civil engineer; he not only builds houses, but constructs aqueducts and drains to keep them dry.

The white ants maintain a regular army of soldiers. Wasps are paper manufacturers. Caterpillars are silk spinners. The squirrel is a ferryman; with a chip or a piece of bark for a boat and his tail for a sail he crosses the stream.

Dogs, wolves, jackals and many others are hunters. The monkey is a rope dancer. The black bear and the heron are fishermen, and the busy ants are regular day laborers.

Economy, Frugality, Industry. The original tightwad lives in Missouri. According to those who know him, he is so tight that he saves the tips of his shoe laces and sells them for old iron, and in the last 22 years he has realized 11 cents from their sale.—Popular Magazine.

### GAME FOR RECESS AT SCHOOL

Twenty or Twenty-Five Boys and Girls May Participate in Pastime While Clapping Hands.

This game may be played at recess with as many as twenty or twenty-five girls and boys taking part in it. All of the players except three clasp hands and form a circle. Inside the ring is the orchard where the fox, one of the players, takes his place. The farmer, another one of the extra players, stands on the outside of the ring and calls to another player, who is outside the ring, saying: "Bruno, a fox is in the orchard." Then the fox runs from the circle beneath the players' uplifted hands. Bruno chases him, first entering the circle and then following just where the fox runs.

All through the game the dog, Bruno, must imitate everything that the fox does just as players in "follow your leader" imitate their leader. If the fox jumps up to touch the branch of a tree Bruno must imitate. Sometimes the fox does many stunts which amuse the ring players very much and which make it hard for the dog. If the dog does not follow he cannot go on with his part of the game, but must join the ring. Then the fox becomes dog and a new fox is chosen. When the dog captures the fox he becomes the fox for the new game and the fox goes into the ring. Then a new dog is chosen. When the ring is very large there may be two foxes within the circle and two dogs to chase them.

The Word "Yankee." The origin of the word "Yankee" has been variously explained. Some authorities think it is a corruption of the word English, as it was pronounced by the American Indians who called the white people "Yenglies." It seems first to have been applied to the British soldiers about 1775, as a term of reproach to the New Englanders who afterwards adopted it themselves.

Others hold that Yankee is a corruption of Jankin, or John, a nickname given to the English colonists of Connecticut by the Dutch settlers of New York. The song "Yankee Doodle," was originally "Nankee Doodle," and was applied to Oliver Cromwell.

Liquid blue is a weak solution. Avoid it. Buy Red Cross Ball Blue, the blue that's all blue. Ask your grocer.

A Bed of Roses. You hear people quote an old saying sometimes about such and such a place being no bed of roses. That does not mean garden beds, but real beds in which people slept. There used to be mattresses, cushions and couches stuffed with dried rose leaves both in Greece and Rome, and Antiochus, when he meant to enjoy himself very much, slept in a tent of gold and silver in a bed stuffed with roses. Those times are past and gone, but you still see in many houses baskets and bowls of dried rose leaves standing about.

Wolf Dogs in Ireland. Wild wolf-dogs are still found in the remote parts of Ireland. They have soft, round ears, rather pleasant, broad faces, and can easily be tamed if they are caught young. They do not hunt in packs, like wolves, but usually live and hunt apart, with their mates. In bodily confirmation they are much like the Eskimo dog, but of slighter build.

"Fashion" or "Cookery?" "Daring color schemes are likely to dazzle visitors to Paris. . . Cream skirts are to be worn with mustard coats," says a morning paper. We hardly know whether this comes under the heading of "Fashion" or "Cookery."—London Globe.

For Burnt Matches. Burnt matches are dirty and dangerous to throw about, the charred wood leaving dirt and the glowing end sometimes burning a fine bureau scarf or polished wood. Have a little glass of sand and thrust the burnt end of the matches in this, thus preventing dirt and danger.

## WILL EXHIBIT ART TREASURES

### \$40,000,000 Insurance Placed on Morgan's Collection.

### Real Value Unknown—4100 Objects to Be Shown to Public—Many Others Are in London.

New York—Although the precise value of the Morgan art collection at the Metropolitan Museum was not obtainable, it was learned that it had been insured by J. P. Morgan as executor of his father's will for \$20,000,000.

This figure, however, does not represent the full value of the collection, but only the maximum of insurance procurable throughout the world on that particular risk in that particular building.

Agents of the Morgan estate have been trying throughout the world for additional insurance without success, and have now come to the conclusion that they have obtained about all the insurance possible on the collection.

It develops that the late J. P. Morgan never insured his art objects or seemed to see any necessity for doing so.

The \$20,000,000 thus obtained in insurance, however, does not cover the total insurance on the art collections left by Mr. Morgan. An additional \$10,000,000 of insurance has been obtained on the art collection in Mr. Morgan's private gallery on Thirty-sixth street.

Another \$10,000,000 of insurance has been obtained by Mr. Morgan as trustee on the art collection in his father's London house at Princess Gate. This would bring the total of insurance so far obtained on the chief Morgan art collections up to \$40,000,000.

The art treasures are to be placed on view for the American public as soon as arrangements can be completed, it was announced at the Metropolitan Museum of Art. The art objects, numbering about 4,100, will be exhibited temporarily in one of the museum's new wings, early in 1914, according to present plans.

### TOOK DYNAMITE FOR PAINT

### Witnesses Show Danger of Alleged Plot Against Strikers.

Boston—Another big crowd listened Thursday to the evidence adduced by District Attorney Pelletier in support of the charge that William Wood, president of the American Woolen company, and Frederick F. Atteaux, a dye manufacturer, conspired with others to "plant" dynamite at Lawrence to cast suspicion upon the striking textile operatives.

The danger of the "plant" was illustrated in the testimony of Josef Assaf, a Syrian painter of Lawrence, in whose home some of the explosive was placed. Assaf said that when he opened the package he thought the sticks might be some new form of paint. He tried to burn a stick and then smelled of the scorched portion. Later on, he showed the sticks to a physician, who told him it was dynamite.

He intended taking it to the police station, and hid it for safe keeping in his bedroom, where it was found later by the police who arrested him.

### Allies Must Sign Treaty.

London—The growing displeasure in diplomatic circles of the great powers at the attitude of Greece and Serbia found expression here in what practically amounts to an ultimatum which Sir Edward Grey, the British secretary of foreign affairs delivered to the delegates of the belligerents. The communication, which was couched in strong phrases, without ambiguity, made it clear that enough time had been spent in futile discussions of the peace settlement and that the moment had arrived for signing the treaty.

### T. R. "Extremely Temperate."

Marquette, Mich.—Men who have been associated with Colonel Roosevelt in public and private life, who met him on the Nile when he returned from his African hunting trip, and newspaper men who accompanied him on his various political campaigns, testified Thursday in Colonel Theodore Roosevelt's libel suit against George Newitt, a newspaper owner of Ishpeming, Mich., that the ex-president not only was not a drunkard, but that he was notably and extremely temperate in the use of intoxicants.

### Coaster Brake Trust Fined.

Rochester, N. Y.—Fines aggregating \$81,500 were imposed in the United States district court by Judge John R. Hazel, of Buffalo, in the cases of defendants in the government's action against the so-called "coaster brake trust," for violation of the Sherman law. Six corporations and eight individuals pleaded guilty to charges of conspiring to restrain trade and attempting to monopolize domestic and foreign trade.

### Army Aviator Killed.

Montrose, Scotland—Lieutenant Desmond Larthur, of the army flying corps, was killed near here while practicing aeroplane reconnaissances with other officers. He was flying at a height of 3000 feet when the wings of his machine collapsed.

### GERMANS MAY BOYCOTT FAIR

### Resent Proposal to Tax Goods Carried by Foreign Ships.

Berlin—Count von Bernstorff, German ambassador at Washington, is leaving Berlin to return to his post, after a hurried visit of six days to this city. It is asserted in authoritative quarters that he was summoned to discuss with the cabinet two clauses in the American tariff bill, which are regarded with disfavor by German manufacturers, and also to talk over Secretary Bryan's peace plan and the San Francisco exposition.

The feeling among German exporters is so strong against the proposal to tax imports carried over in foreign bottoms more than those carried by American vessels, and the provision compelling foreign manufacturers to open their books for investigation, that pressure is being brought on the government to protest more energetically on the subject to Washington.

The German government believes that German manufacturers are strongly inclined to boycott the fair, as they feel that if they have to show their trade secrets for the benefit of American competitors.

Count von Bernstorff is said to have used his influence to have the government officially announce without delay that Germany will participate in the exposition. It is generally understood that the Berlin government is not taking Mr. Bryan's peace plan seriously.

### MILITANTS NEARLY MOBBED

### Police Charge Crowds—Suffragette Bomb Fails to Explode.

London—Victoria Park, in the West End, was the scene of rioting Monday when trade-unionists and Socialists attempted to hold a demonstration in support of votes for women. The crowd stormed a truck on which were Sylvia Pankhurst and other militant suffragettes, and dragged it outside the park.

Mounted and foot police by repeated charges finally drove the crowd away. Men and women fainted in the crush and children were trampled on. There were innumerable free fights and ambulance corps were kept busy.

Suffragists paraded with their colors, the standard-bearers wearing red liberty caps. This caused more disorder.

On Saturday suffragettes attempted to blow up Wheatley Hall, at Doncaster, owned by Sir William Cooke. The place was unoccupied. An exploded bomb and suffrage literature were found under a staircase.

### Arabs Slaughter Italians.

Chiasso, Switzerland—The strict censorship which the Italian government has imposed on all news relating to the state of affairs in Tripoli and particularly with regard to the Italian defeat at Sidi Garba on May 16, has made it difficult to obtain exact information on the recent reverses in that territory. It has been learned, however, that the disaster at Sidi Garba was due to a well-laid plan of the Arabs. An Italian workman named Machiavelli, who had been taken prisoner by the Arabs, had been allowed to escape after being carefully primed with false information, which he carried to General Garibaldi. Instead of waiting to carry out a scheme of co-operation with General Tassoni, who was on his way from Benghazi with a strong force, General Garibaldi, on the strength of the workman's report that the number of the enemy was small, attacked them at once.

### Italy to Crush Arabs.

Rome—Twenty thousand troops have been ordered to proceed at the earliest possible moment to Sidi Garba, Tripoli, where the Italians recently suffered a severe reverse at the hands of the Arabs.

The government is determined to crush the rebel Arabs in that district, where on May 16 the forces under General Garibaldi came into action with 10,000 Arabs, well entrenched, with casualties of close to 1000 men. The Italian commander, on the arrival of the reinforcements, will begin an energetic campaign.

### Lane Announces Purpose.

Washington, D. C.—To make the acquisition of homesteads as easy as possible in strict conformity with the law for bona fide settlers and genuine homesteaders and as difficult as possible for dummy entrymen or speculators is the announced purpose of Secretary Lane in beginning an investigation of the rules and regulations of the land office. A month ago Secretary Lane sent a special representative to South Dakota to investigate the specific charges against county land agents, and the above is the result.

### Proposals Come Rapidly.

London—At a meeting of the Central emigration board at 13 Carlton House Terrace, S. W. recently Miss Teetgen, who had been out in Canada four years, said that she received seven proposals in seven weeks and she did not even know the names of some of the men. A party of girls started out from Vancouver to Montreal, 45 strong. Only five arrived at their destination—the other 40 got married on the way.

### Unknown Land Is Sought.

New York—Vilhelm Stefansson, commander of the Canadian Arctic expedition which will seek the "unknown continent" that scientists believe exists in the Arctic, left the city Monday for Ottawa, Ont., the first stage of his journey to Victoria, where he will join the expedition.

## WOMAN COULD NOT WALK

### She Was So Ill—Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Pontwater, Mich.—"A year ago I was very weak and the doctor said I had a serious displacement. I had backache and bearing down pains so bad that I could not sit in a chair or walk across the floor and I was in severe pain all the time. I felt discouraged as I had taken everything I could think of and was no better. I began taking Lydia E. Pinkham's Vegetable Compound and now I am strong and healthy."—Mrs. ALICE DARLING, R.F.D. No. 2, Box 77, Pontwater, Mich.

Read What Another Woman says: Peoria, Ill.—"I had such backaches that I could hardly stand on my feet. I would feel like crying out lots of times, and had such a heavy feeling in my right side. I had such terrible dull headaches every day and they would make me feel so drowsy and sleepy all the time, yet I could not sleep at night.

"After I had taken Lydia E. Pinkham's Vegetable Compound a week I began to improve. My backache was less and that heavy feeling in my side went away. I continued to take the Compound and am cured.

"You may publish this if you wish."—Miss CLARA L. GAUWITZ, R.R. No. 4, Box 62, Peoria, Ill.

Such letters prove the value of Lydia E. Pinkham's Vegetable Compound for women's ills. Why don't you try it?

### SOUR STOMACH, SLUGGISH LIVER AND ALL BILIOUS COMPLAINTS

KEEP THE NATURAL FUNCTIONS OF THE LIVER, STOMACH AND BOWELS HEALTHY AND REGULARLY EXERCISED

The Eternal Why. "Papa," said an inquisitive boy, "don't fishes have legs?" "They do not," answered papa. "Why don't they, papa?" "Because fishes swim and don't require legs." Then he asked, "Papa, ducks have legs, don't they?" "Why, yes, ducks have legs," "Well, ducks swim, don't they?" "Yes," "Then why don't fishes have legs, if ducks do? Or why don't ducks not have any legs if fishes don't?" Papa gave up.

Good Reason, Too. "Miss Mary," inquired the clergyman, "have you seriously considered the great question of life?" "Well, you see, sir," Mary replied, blushing, "none of the young men has asked me yet."

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Gave Him Away. Master (who is trying to make a good impression on his strait-faced aunt from whom he has expectations) —"Mary, have you seen a letter anywhere about marked 'Private'?" Mary —"You mean the one from the man what can't get his money out of you, sir? I put it behind the mirror, sir!"—Punch.

No thoughtful person uses liquid blue. It's a pinch of blue in a large bottle of water. Ask for Red Cross Ball Blue, the blue that's all blue.

Had to Have Round Figures. Where Catherine, age five, buys her candy, they will not sell less than a nickel's worth. Catherine asked for money to buy some, but her papa said: "You have pennies of your own." She answered, "Oh, but pennies ain't any kin to one another unless you've got five."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Laying Matting. When laying matting, it is not always necessary to cut it in order to fit corners and alcoves. It may be better to do so in very small spaces, but often mauling the matting is found to be better than cutting. Softened this, it can then be bent without breaking, and makes a neat, substantial edge.

### UNUSUAL RESOURCE OF BOY

### Lad With One Roller Skate Attached It to Box and Secures Bigger Load of Wood Than Others.

Small boys were collecting firewood, where it had been thrown out for them, at the side door of a large grocery establishment on upper Broadway. There was something of a rush to see who would get the most, and the proud possessor of one roller skate came out ahead in the scramble, says the New York Sun.

Securing an orange crate, he strapped his skate to one of the bottom slats and, filling the crate with wood, rolled it away on the four wheels of the skate, while others were left to drag or carry their smaller loads.

### Also Had Something to Praise.

The other morning my four-year-old cousin and her five-year-old friend were talking of all the hand-painted china their mothers had. The five-year-old one said: "My mother has a hand-painted sugar bowl and milk pitcher and some plates," and she mentioned several other things. Then my cousin spoke up and said: "Huhl! That ain't anything; we got a hand-painted fence back in our yard."—Exchange.

### No Chance for Him.

A certain minister having noticed a new attendant for several consecutive Sundays, engaged her in conversation after service. Cordially shaking the young blond by the hand, the reverend gentleman asked her name, address, etc., and concluded by asking if he might call upon her. In a rather broken English and very Swedish intonation came this response: "No, I tank you, I have a reglar felter."

### Willing to Become an Enemy.

"The quickest way to make an enemy of a man is to lend him five dollars," said a philosopher, sententious; and then, with a half-concealed show of eagerness, he inquired: "Isn't there somebody around here who would like to make an enemy of me?"
