The Portland Shipments of Wheat.

IDAHO'S WARDEN REMOVED.

A Disease Similar to the Grip Prevails Among the Horses About Boise City.

Astoria is to have a can factory. The British Columbia canneries propose to cut the salmon pack down one-half.

Millions of crickets have made their appearance on the Warm Springs reservation in Oregon.

An English syndicate is trying to buy the plant of the Electric Light Company of Salt Lake for \$500,000.

The horses about Boise City, Idaho, have a disease similar to the grip, though it is fatal in nearly every case.

At the present term of the District Court in Ada county, Idaho, some fifteen divorce cases are to be tried.

The Santa Fe is preparing to compete with the Southern Pacific in its passenger business at Santa Monica.

A New York syndicate has paid \$7,500,000 for Hubbard & Bowers' Harqua Hala gold mines in Arizona.

The troubles of the San Diego Sun are tidied over. Warren Wilson has obtained full possession of the property.

Portland's shipments of wheat from August 1 to February 29 to foreign ports were 3,028,985 cents, valued at \$4,892,000; to domestic ports, \$30,021 cents, valued at \$1,305,285. The exports of flour to foreign ports were 245,492 barrels, valued at \$1,062,960; to domestic ports, 81,036 barrels, valued at \$396,760. The receipts of wheat from the inland empire aggregated 4,618,948 cents; flour, 100,747 barrels; valley wheat, 705,491 cents; flour, 227,053 barrels.

W. S. Mack, for the past year Warden of the Idaho penitentiary, has been removed and Frank S. Janne of Weiser, Washington county, installed as his successor. The new Warden will assume his duties at once. Mack's term of wardenship has been fraught with a thousand scandals. Among other things the practice of allowing glove contests in the prison yard created a big rumput last fall. Mack was appointed from Hailey, having for backers Senator Dubois and other prominent persons. Soon after he became Warden it was alleged by John Mitchell, who filed affidavits to that effect, that he had swindled creditors in Spokane and Seattle. Other allegations of crookedness were made. Those of the Prison Commission who asked for his removal were Governor Willey and Attorney-General Roberts.

The Columbia river centennial celebration is to take place at Astoria May 10, 11 and 12 next. The present plans are to have the 10th occupied with an address of welcome by the Mayor of the city and responses by visitors, an excursion to Fort Stevens and the government jetty, a parade of civic societies and an exhibition drill by the Astoria fire department and in the evening a musical concert and literary exercises. The 11th is to be centennial day. There will be a national salute at sunrise; an imitation ship Columbia will proceed to the entrance of the Columbia with specially invited guests, while a convoy consisting of steamers, sailing vessels and other water craft will leave in time to escort the ship back again. Captain Simpson of San Francisco and Gray's Harbor has promised to make all possible efforts to provide a vessel which will be as nearly as possible like the Columbia, which discovered the river 100 years ago. At noon there will be a grand salute, anthem by bands and chorus of cheers, whistles and bells, to be answered by 100 guns from Fort Stevens and Canby. An oration by Prof. John Fiske of Massachusetts and other literary exercises will follow; a national salute at sunset and a marine torchlight procession of steamers, tugs and fishing boats in the evening. The 12th will be occupied with excursions to different places, as visitors may choose, and probably some addresses by a representative speaker from each of the States drained by the Columbia—Oregon, Washington and Idaho. The Secretary of War and the Secretary of the Navy have promised that their departments will co-operate in the celebration, and the Pioneer Associations and Indian War Veterans are invited to be present in their respective bodies.

WORLD'S FAIR NOTES.

The Emperor Desires to Have a Fine Display of German Silks and Velvets at Chicago.

Austria will make a fine exhibit of glass, porcelain, bronze, leather, artistic iron and cabinet work.

In the Illinois State building a room 32x64 feet has been assigned to a kindergarten exhibit, which will be made chiefly under the direction of the women.

A choral hall, 160x120 feet, will be erected near the horticultural building. There Prof. Tomlins with 2,000 trained voices will furnish rare choral music during the exposition. The Welsh International Eisteddfod will occupy the building for a week.

Michigan's building will measure 100x140 feet and be three stories high. It will be constructed of Michigan material, which with the furnishings will be donated. Though but \$20,000 of the appropriation will be devoted to its erection, it will in reality be a \$80,000 building.

The governments of Norway and Sweden have respectively asked for World's Fair appropriations of \$61,288 and \$53,630. In Norway a number of private citizens are raising a fund of \$10,720, with which to build and send to Chicago a counterpart of the Viking ship, which was exhumed near Sandefjord a few years ago.

The Independent New York Schutzen, considered the elite corps of German-American sharpshooters, have decided to attend the exposition in a body. The organization has in its membership many prominent business men. It has made two or more shooting tours of Europe, on one of which it was entertained by Prince Bismarck.

Through misinformation a "World's Fair note" recently stated that the Rhode Island building would combine the architectural features of the present capitol building and of the one formerly used at Newport. Such is not the case. The structure will combine the features of the "old stone mill" at Newport, which is of unknown origin, and which is alluded to in Longfellow's "Skeleton in Armor," and those of the "Arcade," a business building in Providence erected about sixty-five years ago.

Baron de Berlepsch, German Minister of Commerce, has written to the Chamber of Commerce of Crefeld, the principal place in Prussia for the manufacture of silk goods, that the Emperor ardently desires that there should be as fine a display as possible of German silks and velvets at the Chicago World's Fair. A majority of the silk and velvet manufacturing firms in the Rhenish provinces will comply with the wishes of the Emperor, whose interest in Germany's share of the exhibition is having a stimulating effect in all directions.

PERSONAL MENTION. Mrs. Edison Prefers Candles to Electricity—English Baronets are Said to be Long-Lived. Turgeneff's brain is the largest one ever weighed by scientists. Carl Schurz is engaged in writing his "Reminiscences of Public Men and Events." George Alfred Townsend has gone to Spain to get material for a biography of Columbus. General Edward S. Bragg is small, vigorous, alert, able and bitter. He has a sharp tongue and an honest purpose. T. Jefferson Coolidge, a wealthy merchant of Boston, is prominently mentioned in connection with the mission to France. General Bullock, a representative in Congress from Florida, was a Captain of volunteers in the Indian war of 1858-9 in Southern Florida. Mrs. Edison, the wife of the man who has applied the electric light to domestic purposes, prefers candles to any other form of household illumination. Lucy Hooper says that Americans who go to Paris forget all about the Salon and the Institute and remember the Casino de Paris and the Moulin Rouge. Colonel Goodwin-Austen says the Chogo glacier in the Himalayas is one of the most beautiful in the world. It is an almost impassable sea of ice waves on edge. The Hapsburgs are by far the richest among the reigning families of Europe. The private fortune of the Emperor of Austria may be reckoned at about \$10,000,000. The houses occupied by three Connecticut Governors, Richard D. Hubbard, Phineas Lounsbury and Morgan G. Bulkeley, stand in a row on one street in Hartford. One of the largest salaries received by any man in this country is drawn by C. A. Griscom, the chief of the International Navigation Company, who receives \$60,000 a year. Ex-Attorney-General Garland, who has resided in Washington these three years since he ceased to be a part of Mr. Cleveland's administration, is going back now to Little Rock, Ark., to live. English Baronets are long-lived. Sir James Bacon is 94; Rev. John Warren Hayes is 92, and at a like age Admiral Sir Lewis Tobias Jones is the senior of the navy list and the oldest Knight of the Bath. The most remarkable railway robber of modern times, the gentleman bandit of romance, Athanasius, the Greek, who has been living and practicing his "profession" for years in the cold glare of the last decade of the nineteenth century, has reformed and become a gentleman farmer in the famous Vale of Larissa. He raises orchids when he can, and talks over his wife about the days when he raised purées.
