EDUCATIONAL NOTES.

Last Year's Total School Enrollment for the United States - Enuffment Gifts of Mrs. Hotchkiss.

Canada has 13,420 Indian children of school age, of whom 7,574 are in attendance.

The income of the English University of Oxford for 1891 was \$334,000, and the expenses \$324,000.

Some possibly prejudiced person says that they do not teach German in any of the young ladies' boarding schools in France.

The biggest university in the world is at Cairo, Egypt - a country which is not mentioned at all in the statistics - and has 11,000 students.

The total school enrollment for the United States last year was 14,200,000. This included universities. Private and parochial schools have 1,500,000.

The teachers and School Superintendents of the United States receive \$30,000,000 annually. This amount increases \$2,500,000 each year, or 3 1/2 per cent.

Senator Stanford has divided the \$125,000 received for Arion into 125 equal portions, to be given to that number of destitute boys to educate them at his new university.

The munificent gifts of Mrs. Hotchkiss, the widow of the inventor of the machine gun, to Yale College include a building fund of \$150,000 and an endowment of \$600,000 for the establishment of a preparatory school.

Hulda Freidrichs, a young German woman, has been engaged by the Pall Mall Gazette to make a tour of the United States for the purpose of writing up the educational institutions of the country, especially in their effect on woman's conditions.

DR. J. J. HOGAN, PHYSICIAN AND SURGEON, Condon, Or.

BENNETT'S DEPOT HOTEL, ARLINGTON, OR.

OCCIDENTAL MELANGE

Torrents of Rain Fall Upon the Nevada Ranges.

THE SUNSET IRRIGATION COMPANY. Work Begun on the Big Mining Tunnel Near Wardner - A Faith-Cure Doctor - Other News.

The Yuma militia is to build an armory. The turquoise beds in Arizona are attracting much attention.

A sealing expedition has gone from San Diego to the Cedros Islands. Torrents of rain have fallen on the Nevada ranges, and ranchers and cattlemen are greatly benefited.

The owners of sealing vessels are alarmed, and have sent a courier vessel to warn the fleet not to enter Behring Sea.

The new mineral discovery sixty miles north of Kingman, A. T., is attracting great attention. The ore veins appear to be permanent.

The Arizona Sheep Company has established a big wool and meat headquarters at Flagstaff, A. T. The capital comes from Boston.

A yellow fish called Alaskan Mackeral, and fully equal to the mackerel of the Atlantic coast, is found at the west end of the Alaskan Islands. They move in large schools and are finely flavored.

Through the peculiar attentions of a faith-cure doctor named Elliott at Santa Barbara, a young man named Fred Hein died and the people are very indignant. They propose to prosecute Elliott.

O. P. Miller is charged with forgery at San Diego. He deposited a false check for \$875 on the California National Bank and proceeded to draw money on it. He victimized several merchants before he was arrested.

The uprising of the Mayo Indians in Sonora, Mexico is attributed to the imprisonment and banishment of the Saint of Cocheres, Teresa Urrea, now in exile at Nogales, A. T.

The "Tuscarora Society" of Utah sends 100 members to Chicago to accompany the Gentile delegation from that Territory. A drum corps of twenty pieces was taken along with them.

County business at San Diego is represented to be at a standstill, owing to the absence of services of deputies needed in the various departments. This is the result of the recent decision of the Supreme Court.

The litigation over the Sunset Irrigation Company at Fresno has ended and the interest of the company has been surrendered to parties who have secured a right-of-way through the Laguna de Tache, and will organize the largest single irrigation district in the world.

At a meeting of the creditors of Alfred Greenbaum, the insolvent liquor merchant of San Francisco, it was ascertained that his liabilities were \$300,000 and his assets only \$37,000. The creditors claim that Greenbaum bought large quantities of goods out of his line of business and hypothecated them.

Governor Toole has issued a proclamation forbidding the bringing of sheep into Montana from Oregon, Nevada, California, Washington, Idaho or Utah. The proclamation was made on a showing made by Veterinary Surgeon Holloway that sheep from the States named were infected with scab. From 4,000 to 5,000 sheep from outside points are held by Holloway at Butte. Montana sheep have not been affected with scab or other disease, and it is the intention of the authorities to keep up a good record.

Work has been begun on a mining tunnel near Wardner, Idaho, which will be over two miles long, and will tap several of the principal mines in the Couer d'Alene district. The tunnel will take the place of tramways and railroads in transporting ore to concentrating plant. It will cut the Sullivan, Bunker Hill, Stenwinder, Last Chance, Tyler and Sierra Nevada mines over 2,000 feet below their present workings.

Complete returns have been received from all but four counties in Oregon, which give the following pluralities of Congressmen: First district, Herman (Rep.), 5,242; Second district, Ellis (Rep.), 3,048; Chamberlain (Dem.) has 337 majority for Attorney-General, and the Legislature now stands: Senate - Republicans, 15; Democrats, 14; People's party, 1. House - Republicans, 32; Democrats, 26; People's party, 2.

PURELY PERSONAL

The Last Male Heir of Pulaski, the Distinguished Pole of Revolutionary Fame - King Malietoa.

Princess Louise will bring a party of prominent English ladies to visit the World's Fair next year.

Prof. Henry Shaler Williams, now of Cornell University, has been appointed to fill the chair of geology at Yale.

Lord Tenyson is said to have made more money from the sale of his verses than any other poet who has ever lived.

Mrs. F. T. Barnum, widow of the showman, is annoyed by a Bridgeport crank, who thinks that she wants to marry him.

Prof. McMaster is at work on the fourth volume of his "History of the American People," which will probably be published in 1894.

George Fred Williams, the distinguished Massachusetts Congressman, is the son of a German. Most people think he is a full-blooded Yankee.

Mrs. Huggins, wife of the English astronomer, is a most able assistant to her husband in his astronomical labors, and keeps a record of his observations.

William Lloyd Garrison preached the other day in one of the largest churches in Boston, and denounced the Chinese exclusion act in no uncertain terms.

Mr. Gladstone is strengthening himself for a prospective return to the Prime Ministry by trying to prove in the Nineteenth Century that Dante studied at Oxford.

James Richard Cocks, graduated from the Boston University school of medicine recently, is the first person totally blind from infancy to receive a degree as a physician.

The last male heir of Pulaski, the distinguished Pole who aided the patriots of the Revolution, lives in Savannah, Ga., where he earns a scanty living peddling small wares.

Mme. Marchesi, who has long been famous as a teacher of vocal music, never takes pupils of the sterner sex. She says: "Teach men? Why, all the tenors would be marrying off my sopranos, and I should not have a contralto left after admitting baritones!"

CONGRESSIONAL MATTERS.

The President to Transmit to Congress a Message on the International Monetary Conference.

It is said the President has filed notice that he will veto the river and harbor bill should it exceed the sum appropriated by the House.

The President will soon transmit to Congress a message on the forthcoming international monetary conference, together with the correspondence. With but one or two exceptions, all the European countries invited to the conference have sent in favorable responses.

Postmaster-General Wanamaker, Attorney-General Miller and Secretary Foster, acting as a commission, have agreed upon the selection of the property at Seventh and Mission streets as the site for the new public building at San Francisco.

The President has approved the act making an appropriation to supply the deficiencies in the appropriations for the payment of pensions for the fiscal year 1892. Commissioner Baum has made a requisition for \$7,250,000 for the payment of pensions.

Mr. Fowler of New York has prepared a report recommending the passage of the bill introduced by Mr. Geary of California to encourage American shipbuilding. The bill grants the same privilege to the British-built ship China, owned by the Pacific Mail Steamship Company, as was recently granted to the Inman steamships City of Paris and City of New York.

It is likely that a court of inquiry will be ordered to meet at Mare Island to ascertain why the Ranger was permitted to start for Behring Sea with her machinery in such bad shape as to necessitate her putting into Port Townsend in violation of her orders to proceed direct. The Secretary of the Navy has received a report of the court of inquiry appointed to examine her machinery at Port Townsend, and the report says her Captain was justified under the circumstances in putting into Port Townsend.

A crumb of comfort to the Mare Island folks is the fact that the blame for the Ranger's condition may be fixed on the Navy Department, as preemptory orders were received to sail on a certain day, and it was impossible to get her ready in that short time.

It is understood that Secretary Tracy has finally decided, after a review of all the testimony, to sustain the action of the Naval Examining Board in finding Commander Frederick R. Smith morally unfit for promotion. The action of the President is still necessary to finally complete this long-pending case, but with the approval of the board's finding, there can be hardly any doubt as to the result. The President has no alternative but to drop Commander Smith from the rolls of the navy if he approves the proceedings of the board. If he disapproves, another board would have to reverse the findings of the first board before Commander Smith could be promoted, and inasmuch as all of his seniors, with but few exceptions, have already officially stated that they do not consider him fit for promotion, it would be a rather difficult matter to get a board that would make a report favorable to the candidate. The Judge Advocate-General who first reviewed the report approved it, and both Secretary Tracy and Assistant Secretary Seelye have done likewise, after a most exhaustive review of all the testimony and of the papers filed in behalf of the candidate since the board made its report.

BEYOND THE ROCKIES

The Exports of Silver This Year Larger Than Ever Before.

EMIGRATION TO AMERICA THIS YEAR

Carnegie Steel Company Issues a Circular Calling for a Reduction in All the Department's.

Springfield has the largest United States arsenal. A congress of beer brewers will be held next year.

There are 11,008 more women than men in Maryland. The Chicago postoffice makes a profit of \$2,000,000 yearly.

There are 1,925 patients in the insane asylum at Norristown. Army worms are doing great damage to hay fields in Bartholomew county, Ind.

The immigration to America this year gives promise of beating all former records. The American dress reformers are preparing to renew their crusade at Chattanooga this season.

The method of making tin plate will soon be taught the colored students of Hampton Institute, Va. The Federal grand jury at Springfield has been dismissed for lack of funds with which to pay them.

The wife of Secretary Elkins has founded and endowed a home for poor children at Deer Park, Md. The railroads are fighting the Erie canal by hauling grain as low as the footmen cannot afford to handle it.

The earliest times ever known in the Little Rock (Ark.) country exist now, and the direct cause is the floods. Bucks county (Penn.) farmers employ over 200 of the Indian boys and girls graduated from the Carlisle school.

Wisconsin Odd Fellows spent \$33,236 in relief last year. There are 16,000 members of the order in the State. Despite a rainy May, Lake Ontario is said to be several feet lower now than ordinarily is at this season of the year.

The New York grand jury has indicted a wealthy real-estate owner for renting a house for illegal and immoral purposes. Dr. Cyrus Edison has reported to the Board of Health that five of the public schools in New York are badly ventilated.

The Kansas Republicans assert that the mortgage indebtedness of their State has been reduced \$5,000,000 in twelve months. All but one of the forty-two cities of the United States with populations of from 50,000 to 200,000 have electric railways in use.

There is a bitter fight in the Kansas Alliance ranks over the Governorship. Jerry Simpson is mentioned as a possible dark horse.

Professor John B. McMaster of the University of Pennsylvania has declined the offer of the Presidency of the University of Illinois.

The Carnegie Steel Company (limited) has issued a circular calling for a reduction of from 15 to 50 per cent in nearly all the departments.

When the new United States ironclad Texas is afloat and ready for business, it will represent the biggest State in the Union and about \$3,000,000.

An insurance association is being formed at Memphis, Tenn., by cotton merchants to protect themselves from unjust cotton insurance rates.

Professor Burnham, who has left the Lick Observatory, is to assume the office of Clerk of the Federal Court of the Chicago circuit, a position he filled before.

The Grand Trunk will hereafter be permitted to bond all baggage going from Toronto to the United States, thus enabling it to check direct to American points.

The list of dead so far by fire and flood at Titusville and Oil City, Penn., is sixty-five at the former and fifty-four at the latter. Several persons are still missing.

The grand jury of Chattanooga, Tenn., has brought true bills against all who attempted to lynch Frank Weems, the negro rapist. Some prominent men were with the mob.

The pound nets are ruining the shad fishing in the Connecticut river. The decrease last year was fully 70 per cent., as estimated by the catch during 1889, and this year it is no better.

The rustlers from Wyoming held a mass meeting at Casper and denounced the interference of the Federal government with their affairs. They claim the State is amply able to meet all trouble.

Financiers in New York are calling the attention of the promoters of railway-building to the probability of increasing absorption by Europeans of American railway securities in the next year or two.

The latest New York bank statement shows the surplus reserve is \$23,600,000 - an amount nearly four times as great as at this time last year. The ease of money seems to be assured for several months at least.

Economical Men, TRY ONE OF
