

THE GONDON GLOBE.

FRIDAY, JULY 1, 1902.

NOTICE.

The yearly subscription to the GLOBE is \$1.50, in advance. No deviation from this rule. The paper will be stopped at the end of the time for which it is paid unless further ordered and paid for. A blue pencil mark around this notice indicates that your subscription has expired, and if you wish the paper continued you should remit the amount as soon as possible.

GLOBOSITIES.

Next Monday, the 4th, will be a great day for Condon. Rev. Wise will preach at Fossil next Sunday, 3d.

Snippon Bill Brown made a business trip to Portland this week.

A. Greiner and wife returned home today from their visit to the valley.

Mrs. H. N. Fraser and little boy returned home Thursday from Pendleton.

A. Henshaw's large furniture store is now finished, and is a very creditable structure.

Frank Stevens started this week with several carloads of equines for Baltimore, Maryland.

The population of the United States, including Alaska, is, by latest census bulletin, 62,979,766.

Sheriff Wilcox and family returned home Friday from a pleasant visit to relatives in the valley.

We are glad to state that Mr. John Phillips, father of Mrs. W. S. Myers, is recovering his health.

It is a noticeable fact that the man who has a scheme to get rich is always anxious to sell it to some one.

A. P. Lacey of Tacoma is visiting his old friend, A. Hartman. Mr. Lacey will probably locate in this section.

Capt. Wilcox desires a full turnout of H Co. the coming Saturday evening at 7 o'clock, sharp, for inspection.

The 1/2 of July committees are hard at work. All who come here to spend the Fourth will have a glorious time.

Oregon is rated as the healthiest state in the Union, particularly Gilliam county. Idaho ranks in second place.

The public will be glad to learn that from now on, the GLOBE will take cattle, horses, sheep, goats, etc., on subscription.

The committee have re-considered the matter, and will charge the usual price for dance tickets on the evening of the Fourth—one dollar.

As we go to press, the blessed rain is coming down in torrents, with good prospects for lots more of it. A bountiful harvest is now assured.

We regret that our limited space forbids us publishing a very long letter from Matney, relating to the White vs. Whyte defunct cow case.

Assessor Mason has so far recovered from his injuries as to be able to resume his work of assessing, having begun Tuesday in the north end of the county.

All this week the weather has been extremely warm, with the thermometer buzzing around the 100-deg. mark, like bioflies around the bung-hole of a molasses barrel.

Supt. L. Parker stopped in town Saturday night while on his way to attend the State Teachers Association at Portland. He expects to return home tomorrow—Friday.

John Brandenburg left the first of the week for Southern Oregon, where he expects to sojourn a few months. He will return this fall and go into some kind of business at Condon.

Hugh Gourlay published his valedictory in The Dalles Chronicle Saturday. He will be succeeded by D. C. Ireland, a newspaper man of long experience, and a thorough gentleman.

The two lady delegates to the Minneapolis convention from Wyoming have returned, and a look indicative of "that tired feeling" has resumed its place on the countenances of their "dear husbands."

This is pretty fair evidence that it is only a waste of time and energy to raise scabby horses: A. M. Kelsey of Antelope a few days ago was offered 36 head, mostly mares, all for \$140. He did not buy them.

Mrs. Nora Beardley and little son and her sister Lettie, of Moscow, Idaho, are visiting their relatives and friends near Fossil. Their brother-in-law, Ed Smith, brought them out the first of the week from Arlington.

The eastern editors who came to California to be surprised at the country and to get into spasms over its wonders, don't seem to have enthused to the degree that California folks think they should have, under the circumstances.

D. H. Smith, Esq., of the Trailfork country, was over to our city Saturday. He informs us that grain and grass in his section looks fairly well yet; that the grain is suffering more from squirrels than from any other cause.

Tom Johnson, painter, put the finishing touch on Knox & Ward's large new barn this week. It is now completed, and is by far the largest and handsomest livery stable in Gilliam county. J. R. Clark did the carpenter work.

There is a law which, if enforced, compels the delivery of all letters to girls under 18 and boys under 21 years of age to their parents or guardians. As we have just passed that age, the law cannot be enforced too quick to suit us.

The members of the Grange had an enthusiastic meeting at Condon Saturday. Their next meeting here will be held July 23d, at which time they desire a full attendance, as council proceedings will be transacted that day.

Tuesday Jas. Shields sold his ranch of 360 acres on Matney Flat, to John Harrison for \$1000. Mr. Shields and family left this week for Southern Oregon where they will try their luck awhile. They will go overland, 'the mountains across.'

We have had conversations with a number of farmers, and they are not completely discouraged. In many instances the outcome will be better than expected, and a large quantity of wheat will be exported.—Times-Mountaineer.

An enormous crowd of people will celebrate at Condon next Monday. Several other places in the county we understand will celebrate also, but they will be very tame in comparison with ours. The principal crowd will be at Condon.

An exchange says that the latest fad in spring bonnets is to crimp a two-cent postage stamp, stick a canary bird feather in it and attach ribbons. This is to be worn well back on the head, so as to show the bangs and pretty face to advantage.

Every arrangement is being perfected for the large body of Gilliam county's citizens that will congregate here next Monday. Oratory, music, dancing, racing, athletic sports, etc., and an assembly of the beauty and wit of the great Inland Empire.

Probably 1000 people will celebrate at Condon next Monday. Let us have our town looking its best on this important occasion. A good starter is to clean out all the lumber, rubbish, etc., from the streets, so that strangers will not think the town is uninhabited.

Father Lemay's failure to preach at Condon Sunday last, as per appointment, disappointed a great many people who congregated here to attend services. Several from a distance were present, among them being Mr. and Mrs. Dan Cameron of Schuttler Flat.

Nearly \$150 has already been subscribed with which to defray the expenses of our celebration. Messdames Smith and Goodwin have the thanks of all our people for their trouble in soliciting such a respectable amount. This sum insures a good time for everybody.

An exchange hits the scandalmonger a pretty hard jolt, in the following language: "The gossips and scaddalmongers, if they belonged to the animal world, would be treated as poisonous serpents. They are the vampires and rattlesnakes of society."

It affords us pleasure too to see our business men taking so much pride in having their buildings neatly painted and improved generally. It shows good taste, and the public appreciates it. Tom Johnson and Mr. Mayhew are kept busy constantly with their brushes.

Miss Birdie Downing returned home Friday from Salem, where she graduated in the Sacred Heart Academy, June 17th, with high honors. She received a diploma and some very beautiful medals. She can now walk without the aid of a cane or crutch, and expects soon to be able to walk as well as ever.

Mrs. Eliza Winzenreid and little daughter Lela, who have been visiting Mrs. W's parents, Mr. and Mrs. J. W. Ebbert, near Condon, left today for their home at Creswell, Lane county. Mrs. Ebbert will accompany her daughter as far as Portland, where she expects to remain a short time for medical treatment.

Mr. Josephus Martin of Rock creek has our sincere thanks for a box of those very large, delicious "Oxheart" cherries—all fine as ever went down our editorial throat. If there's any time a fellow appreciates having a neck as long as a rake-handle, it's while engaged eating cherries and berries—one can taste 'em so long.

F. H. Snow, one of Oregon's brightest journalists, has resigned his appointment as U. S. Commissioner at Lexington, Morrow county, and has secured a responsible position on the Pendleton East Oregonian. Frank is one of the "whitest" boys on the coast, and his many friends wish him unbounded success.

It would appear that A. B. Lackey, of "bad check" fame, got into a pretty bad row of stumps lately. He was arrested at his home at Sand Hollow, Morrow county, last week on a charge of stealing a horse from J. T. McCreedy of Kilkistat, Wash., to which place he was taken for his examination. We have not learned the result.

Still the stories of storm and flood, tempest and terror, continue to come over the wires from the effete eastern states and from countries across the frog pond, while here in Oregon all is calm, serene and safe. No one who has lived here could easily be tempted to change places. Now is the time to subscribe for the GLOBE—\$1 1/2, in advance.

County court meets Tuesday next. We would suggest to the court that the best, easiest and cheapest way to have the county well finished is to engage the services of the Mayville parties who have just received the new boring machine. They could bore down 50 or 75 feet at less cost than to have it dug ten feet. The court has learned by this time that it is useless to depend upon unreliable parties to dig the well.

Still another of the Couture boys arrived this week; fresh from Michigan. A few may be tempted to exclaim: "Well! how many Couture boys are there, anyway?" Their curiosity in this direction may rest easy; this recent arrival is the last and youngest of the family. We are very glad, indeed, to welcome to our midst such industrious and respectable young men as all the Couture boys are, however.

Judging from the large flag-pole nearly 100 feet in height, in front of this intelligence factory, one would presume the GLOBE had a severe case of patriotism. And it has, too. But the pole was not erected by the GLOBE alone; all of our citizens "had a hand in it." From the top of this pole, on the glorious 4th, an enormous flag containing 44 stars, will trish the zephyrs of heaven, reminding one of the grand old revolutionary days—or words to that effect.

Times-Mountaineer: We received a call Saturday from Mr. Ben Ironmonger, one of the sheep kings of Grant county. He sold his wool at Moody's warehouse, about 10,000 pounds, at from 15 1/2 to 15 3/4 cents. Mr. Ironmonger informs us that some of the wool in the vicinity of Caleb, has sold for 16 cents at Moody's this season. Crops around Caleb are in excellent condition, and rains have been quite frequent. Mr. Ironmonger noticed the difference in grain after crossing the Dechutes river.

Senator Mitchell of Oregon had a good deal of fun at Washington last week by having his notorious long beard cut off as smooth as a Dutch baby's ears. During his 19 years' residence at the national capitol, his face was never touched by a razor. He had considerable fun out of it by being introduced to all his old acquaintances, who did not recognize him. The gentle zephyrs off the placid waters of the Chesapeake will not have the satisfaction of whistling thro' his whiskers again for some time.

Mr. A. Hartman is circulating a petition this week, and already has secured a large number of names, praying our county court to offer a bounty of two cents for squirrel scalps. This is a commendable move, and it is of the utmost importance that it receive favorable consideration by the court. The little pests have damaged the crops in this county probably to the amount of \$25,000 this season, and this is the best method by which to exterminate them. It has resulted successfully in other counties.

The following from the East Oregonian is an excellent pointer for the people of this section: "Lawrence Hutchinson, residing in Dry Hollow, Umatilla county, is a happy man. For the past fifteen years he has been unable to secure water on his farm and has had to haul water a distance of six miles, for drinking and domestic purposes. Last year Mr. Hutchinson dug a well 62 feet deep, but did not strike any water. Last week, however, he had a well dug by a steam boring machine, and at the depth of 22 feet an unlimited amount of water was found. This caused the balance of the farmers to follow his example, and it will not be long until the water supply in that section will be adequate for all demands."

During the last week the monotony was severely ruffled by about 1/2 dozen different runaways in this vicinity. Outside of a few thoroughly dilapidated wagons and skinned horse-legs (or limbs, rather) no damage was done, however. Saturday while J. W. Miller and daughter, of Matney Flat were coming to town their team ran off and chucked into Mr. Schilling's wagon, who was also on the way to town with his family. They struck Mr. Schilling's wagon with terrific force, one horse jumping up into the wagon-bed, smashing things up generally—particularly a lot of eggs, making a delightful solution of egg nog.

Dr. Nicklin and L. W. Darling were also hurled a few rods up into our exhilarating atmosphere, during a vigorous run-away. T. H. McMorris, Bert Ramsay and several others were favored in a similar manner. Dr. Hogan, of the fruit department, attributes the above chaotic condition of our people to the McKinley bill, or perhaps the atmospheric pressure of the Gulf Stream, causing the present thermal condition of our sweltering inhabitants.

Rock Creek Cullings. We understand Olex will celebrate.

H. C. Myers of Blalock is in this vicinity buying beef cattle.

Several parties from Arlington were out to the creek Sunday fishing.

102 in the shade at Olex Sunday made the citizens wish for some of the ice they didn't put up here last winter.

Wm. A. Cahoon and Earl Weatherford returned last week from Monmouth where they have been attending school the last year.

About the only enjoyment us Rock-crickers can get out of ice cream this season is to read about it, there being no ice in this section.

A new-comer, a boy weighing 10 lbs, recently came to the home of Mr. and Mrs. Edgar Schott, also to the home of Mr. and Mrs. Henry Wilkins, a son, a 7-pounder. Cor.

The Best Wagons. The best wagon in the world is the new Peter Schuttler tabular axle wagon. The Steel Skein Schuttler wagon has been in the lead for the past 50 years; the new tabular axle Schuttler will be in the lead for the next 50 years. For sale by L. W. Darling & Co., Condon, Or.

1776.

A Good, Old-Fashioned, Family Celebration.

The people of Condon and vicinity have decided to have a basket picnic on July 4th, and will utilize the large new livery stable for shelter, which will answer the purpose just as well as a grove. There will be barbecued beef and mutton, and everything else that goes to make up a first-class celebration. The exercises during the day will consist of racing, dancing, singing, plug-uglies, and grand fireworks in the evening. At night there will be a grand ball, the proceeds of which will go to the school. Everybody cordially invited.

ORDER OF EXERCISES:

At 10 o'clock, grand martial parade at the new building.

Music by the choir.
Reading of the Declaration of Independence.
Oration.

BASKET DINNER.

Music.
Foot race, free for all, 100 yards.
Three-legged race, free for all, 50 yds.
Foot race for girls under 16, 50 yds.
Sack race.

Hurdle race.
Potato race.
Royal plugs.
Horse race, 400 yards.

Suitable prizes will be given for the above races.

A magnificent display of fire works at dusk.

All the committees have not reported, but there will be many other amusements besides those named.

BY ORDER OF THE COMMITTEES.

Lone Rock Rumbllings.

Mrs. Goff has been very sick the past few days, and at present she is not able to be about.

The weather the last week has been very warm, the thermometer reaching 98 in the shade.

Grandma Vickers was in town Sunday, the first since receiving a fall from a horse some weeks since.

Two beef-buyers were in town this week, and paid a good round sum for all the beef cattle they could get.

Sheepmen have been quite prevalent in our town lately, for the purpose of procuring "mucumac" for their camps.

The stage from Condon arrived at 1/2 past 9 last Monday, which is tolerably fair evidence that the driver must have him 'em a few times on the back.

It is fairly presumable that the celebration here on the 4th will be a success, judging from the IXL biters on tap. Of course the hellish stuff is bound to bring harmony and enjoyment.

The tin cans the boys have collected for the benefit of a certain unmarried young couple, are beginning to get pretty rusty (the cans) and the boys blame Charley for this agonizing suspense.

Carl Wagner, a prominent young stockman of Wagner, came over Monday to let us know that he knocked out his opponent in the race for assessor of Grant county, by a majority of 150, and Carl appears to be glad of it.

The ground puppies are fat and gay, but the grain is beginning to show the effects of their vigorous appetite. Rain is badly needed, but if we don't get it, the less fuss we make about it, the less annoyance it will be to the neighbors.

Rev. Wise came over from the metropolis Saturday and on Sunday he preached to large and appreciative congregations. He left an appointment to preach here again in four weeks. Rev. R. H. Sherrill, "from everywhere but here," also preached five sermons here during the week, and left an appointment for next winter.

COWBOY.

Patriotism.

In order to show our appreciation of the nation's birthday, next Monday, July 4th, we will sell anything in our store at cost for cash. This is no humbug. Try us and see for yourselves.

L. W. DARLING & Co.

Gratitude.

As a pleasant-faced woman passed the corner, Jones touched his hat to her and remarked feelingly to his companion:

"Ah, my boy, I owe a great deal to that woman."

"Your mother, I presume."

"No, my landlady."

A GREAT RACKET.

There was a great racket on Madison street, in Chicago the other night, at the Wholesale Cigar House of Banghart Bros. The firm had placed in their window a mechanical advertising device, that so attracted the passers that the entire sidewalk was obstructed with people. A subordinate officer attempted to compel the firm to remove the machine and the matter was referred to his superior officer, who at once exonerated Messrs. Banghart Bros., and was so amused with the workings of the machine that he purchased a quaters worth of the "Great Racket" 5c. Cigars, and pronounced them so fine that he will never smoke any other.—Chicago Herald.

For Sale.

A good horse, cart and harness, cheap for cash. Apply to W. C. Wise, Condon.
