Secretary Foster of the State Department said the other day that the action of the Canadian Council in allowing rebates on tolls on grain shipped from American ports on Lake Ontario passing through the St. Lawrence canals and exported from Montreal has no particular bearing on the controversy between the United States and Canada on the subject of discriminating canal tolls. He added that it could hardly be regarded very much of a concession.

Senator Mitchell's bill granting right of way across the Umatilla Indian reservation for the Dumont Irrigation and Improvement Company was reported to the Senate, and at his request was taken up and passed immediately.
