The cost of the Cour d'Alene strike will be more than \$1,000,000, to say nothing of the lives lost and permanent injuries sustained.

Mr. Smith, joint senator of Sherman and Wasco counties, is in the city, looking up the abstracts of some land in the vicinity of Blalock.

Several of our young people attended the dance at the residence of Mrs. E. Tullis on Matney Flat Wednesday night and report a way-up time.

Barry—Why did Rawley marry her? Strang—He was attracted by her conversational powers. Barry—And why is he applying for a divorce? Strang—same reason.—N. Y. Herald.

Scientific men say that the earth's age is about half a million years for the nebular and stellar period, and about 55,000,000—of which 15,000,000 are past—for the period of organic beings.

"Uncle" Jerome Parsons, the famous talker, was in the city Thursday. He informs us that he never had better crops, and that he has over 800 tons of hay, part of which he wants to sell. See his ad.

Stock Inspector A. L. Duthe is not only an efficient officer, but also a good mechanic. He has just completed a sheep shed 40x100 feet, for himself and is now at work on a new house for Dave Hardie.

Died, at Shelby, this county, August 22d, Mrs. J. A. Ward, aged 25. She was the daughter of Mr. and Mrs. A. J. Cochran, and leaves a loving husband and one little daughter to mourn her untimely demise.

We had a pleasant visit Friday from Dr. E. H. Griffin, the Arlington dentist. He expects to return to Condon in a short time and work at his profession a couple of weeks. He is an old hand at the business.

L. C. Trask of Mayville was over to Gilliam's capital Monday on business. He is getting the business of the store in shape preparatory to retiring therefrom soon. Mr. Rippey will then be sole proprietor.

A Jno. Chinaman has rented the old Fix building back of the stable, and expects to open a laundry in a few days. Verily our town is booming right along, and new enterprises are being started here almost daily.

Harry Clay was in the city the first of the week. He informed us that he just sold his wool, 58,000 lbs at The Dalles at 14c per lb. This is the highest price paid for wool in this section that we have heard of this season.

John C. Meek and sister, Miss Emma Meek went over to Heppner Thursday to visit their sister, Mrs. Wm. Scribner. Miss Meek will leave next week for Quincy, Ill., where she expects to take a course in the Gem City Business College.

Chas. A. Pillsbury, the great miller of Minneapolis, thinks the wheat crop of the United States will not exceed 500,000,000 bushels as against 612,000,000 bushels last year.

The Chicago Herald frantically shrieks: "What shall we do with the people next year?" referring to the world's fair crowd. To this the St. Paul Globe, evidently aware of the Chicagoan nature, replies: "Why, skin 'em, of course!"

Al Sayre of Olex was in town Sunday. He just returned from a pleasant visit to the home of his childhood in Ralls county, Mo. Al is very much attached to this country, also to some of our young ladies, and says he would not live any other place.

Heppner Gazette; Tim Connelly of Condon, a prominent sheepman over there, was in town Wednesday for supplies. He is ranging his sheep this summer in the vicinity of Peter's Butte, and says they are finding good range in that neighborhood.

"Why, Nixon! what's the matter? You're as thin as a rail." Nixon, the editor—"Well, I'll tell you. The Screedham Pill Company advertised with us and we took it out in trade. I couldn't sell the pills, so have been trying to use them up myself."

All the Chinese of San Diego oppose having their photographs taken and say they won't pay any attention to the new registration law, as their "head man" has received a letter telling them to evade it and return to China. By all means, let them go.

Rev. Mulligan will deliver his farewell sermon here next Sunday. During Mr. and Mrs. Mulligan's brief stay in our midst they have made many warm friends who will very much regret their departure. They will leave for the valley in a few days.

Messrs. J. H. Downing and son Manley and Steve and Jim Couture are out in the mountains east of here for a short hunt and prospecting tour. They suspect that there is some gold in the hills that has never been found yet, and no doubt they are right.

The next session of the Wasco Independent Academy at The Dalles will commence Monday, Sept. 5th. A full faculty of instructors has been secured, with Prof. Brown of Chicago as principal. For catalogue or particulars, address S. L. Brooks, Secretary.

There seems to be a general belief among Willamette valley papers that work on the Oregon Pacific road will commence next month, and that the road will be completed across the mountains this fall. What foundation there is for the belief we are unable to say.

J. B. Moore of Mayville received the sad news a few days ago of the death of his oldest son who was killed by lightning in Montana. Mr. Moore at once started on his sorrowful journey to visit his son's grave and to look after his effects. He was an honest and industrious young man.

Mr. and Mrs. E. A. Reed of Fossil stopped at Condon Tuesday night, the guests of Mr. and Mrs. S. P. Shutt. They were on their return home from a two-months visit to relatives near Elensburg. They are very honorable old people and are much respected by all who know them.

Judge Mariner was in town Monday and Tuesday, his mission here being to attend the meeting of the board of equalization which met Monday. We understand Mr. Mason's assessment work was found to be in excellent condition, there being only one or two slight changes that needed adjusting.

The law suit of the state of Oregon vs. Ernest Seekamp for obstructing a public highway, finally terminated last week by Squire Clark imposing a fine of \$50 upon Mr. Seekamp. This, with the costs, will make it pretty dear work for him. His attorney, Mr. Goode, informs us that the case will be appealed. L. W. Darling represented the state.

Archbishop Gross, one of the most noted and brilliant pulpit orators in the U. S., will be at Condon next Tuesday, Sept. 6th, and will preach in the Catholic church in the evening. The reverend gentleman has travelled all over the world, having visited Palestine and most of the other cities throughout the holy land. He will proceed to Mayville next day and will preach there also.

The largest prize fight in the history of the world will be fought next Wednesday at New Orleans by John L. Sullivan and Jim Corbett. The fight will be for a purse of \$35,000 and the championship of the world. Corbett says he will retire from the prize ring after his controversy with Sullivan. He will receive some valuable assistance in that direction along about the 8th round. Like Kilrain, he will think he had been "drugged."

John Day Sentinel: Grant county is not usually behind when it comes to sensations. This time it was an elopement, in which the principals are Sam Yerber and an adopted girl by the name of May Rainer, both of Prairie City. A warrant was at once sworn out for their arrest and they were duly captured by Sheriff Combs. As a result of the preliminary examination held before Judge Robinson, the prisoner was held under bonds in the sum of \$150 for the crime of abduction. What is to be gained by following couples of this kind is not apparent to us. If the man is satisfied and the girl is satisfied, we believe in letting them go, Gallagher.

Recently a terrible wind and rain storm swept over parts of Minnesota causing the destruction of \$1,000,000 worth of property. Hot winds are destroying the crops in a number of the Eastern states. The Pacific coast does not suffer from such climatic freaks, although we have an occasional partial failure of crops.

Condon cannot very much longer be overlooked by capitalists who are seeking first-class locations for mills and factories. Nearly every mail brings us letters of inquiry from capitalists in the East who desire to invest their money in property that is on the increase in value. We know of no more suitable place in the West in that direction than Condon.

One of our exchanges, under the head of "Dumping them into America," last week says: "A morning paper announces that McDonnell and Hill, who were accomplices of Bidwell in the bank forgeries of 1873, were released on condition that they leave the country never to return. Both started for America on being released." [These gentlemen are not the only ones who have been "dumped into America" on those conditions].

Dr. Thos. Stewart and son Lee started this week with a band of extra good horses for Decatur, Wise county, Texas, where the doctor and his family resided for many years, and where several of his daughters yet reside. Lee expects to return at once, but his father will remain several weeks with his relatives. He informs us that he expects to dispose of all his stock and try to live free from care the balance of his days, which rest he has well earned and deserves.

Ed McBroom of Rock creek was in town Friday with a load of A. A. Carothers' fruit and vegetables, which, for size and excellence, can not be beaten anywhere. Mr. Carothers sent his regards to the GLOBE in the shape of a box of as fine peaches and plums as we ever saw, the peaches each being nine inches in circumference. He has 1200 acres of choice creek land, of which about 300 are under cultivation. His orchard comprises only ten acres, but the yield of fruit therefrom is enormous.

Albert Smith a young man of 18, and a resident of Caleb, was brought to town Monday by Thos. Mote and lodged in the county jail. He had his preliminary examination before Justice Snow of Dayville last week, upon the charge of larceny of a horse and disfiguring of brand. The horse was the property of Ralph Fiek and was stolen sometime in the summer. After disfiguring the brand young Smith traded the horse to Thos. Mote. At the preliminary hearing Smith pleaded guilty to the charge and was placed under \$300 bond to appear before the grand jury, in default of which he now languishes.—Grant County News.

Sheriff Wilcox arrived home Saturday with the elopers—Scott Alderson and May Newman. Monday he took Mr. Alderson over to Fossil, where his preliminary examination has been in progress since Tuesday. The prosecution is conducted by H. H. Hendricks and the defense by Geo. W. Goode. From our brief acquaintance with Mr. Alderson we judge him to be a gentleman of education and refinement, who doubtless would provide a good home and make a comfortable living for the lady. If they want to marry, and there seems to be no doubt of this, by all means let them marry. We fail to see the benefit or advantage to be gained from prohibiting their marriage. The case is a needless expense to the county. Thousands of us good women as can be found in the country have married at Miss Newman's age. Let them marry and go.

Disastrous Fire.

BEECHER FLAT, Aug. 29.
Saturday morning about 3:30 o'clock B. K. Searcy's large barn burned, together with a large quantity of feed. It seems to be mystery how the fire originated. Mr. Searcy and son were returning from where they had been building fence and discovered the fire bursting from the windows in the barn. Mrs. Searcy was visiting a sick neighbor, and it was only by the most determined efforts that the flames were kept from spreading to the house. A large stack of straw also burned, and had assistance not arrived just when it did a number of cows would have perished. Several hogs were burned to death, also a lot of chickens. J. M. Curl was pretty badly singed while saving the gang plow. Part of several sets of harness was saved but considerable grain was destroyed. The loss will fall heavily upon Mr. Searcy, as his crop was light anyway, and he was just preparing for the threshers. GRASGER.

Card of Thanks.

We wish to thank, through the columns of the GLOBE, our neighbors who so kindly assisted in saving our house during the unfortunate fire Saturday. Had it not been for their help we would now be entirely homeless. May it never be their misfortune to need such assistance. MR. AND MRS. B. K. SEARCY.

The Famous Ross Bucks.

We will have for sale here at Arlington 300 head of these noted bucks, both Grades and Thoroughbreds. Sheep owners will find these bucks to be the very best, and were the choice of 2000 head. They are noted for the dense wool, length of staple and whiteness of wool, and will increase the weight of your fleeces two pounds to the sheep. COFFEY & McFARLAND.

Lone Rock Rumbblings.

Louis Miller of the Colwell farm began threshing Wednesday.

Notices are posted for the new tri-weekly mail route from Fossil to Lone Rock, to begin Nov. 1.

Copper & Halverson appear to be well stocked with garden peas, melons and such, and spuds to throw at the ducks.

Julius Wick and Frank Robinson returned this week from their sojourn at the Teel springs. Julius seems to have gotten the worst of it, however, as is looking for an M. D.

Lots of hustlin' now for houses to rent here by parties who want to come here for the benefit of our excellent school. Every vacant room in town has already been engaged. Our school will begin about the middle of September.

Mat Halverson and John Madden returned Tuesday from the Eightmile section. They bought a lot of wheat over there at 50c per bushel and say there are doodles of it left, at the same price. This does not look much like a crop failure in Eastern Oregon. Rye is selling at 75c per bushel and first-class grain hay at \$8 and \$10 per ton.

John M. Brown sold about 500 head of the culls of his ewe band of sheep this week to R. G. Robinson, at \$2.25 per head. Several other sheep deals have been made about here within the last week, which shows that our stockmen are not alarmed at the sheep outlook. Perhaps they expect a change of administration and a new deal on tariff reform. COWBOY.

I wish to announce to the public that I am now prepared to enlarge photographs in crayon. I invite you to call at the drug store and inspect my sample work. Satisfaction guaranteed or no pay. My charges are very reasonable. MARY L. WARD, Condon.

A Soft Snap.

I have two splendid, well-improved ranches 3½ miles east of Olex, on Rock creek, which I wish to sell or trade for good horses.
