

THE GONDON GLOBE.

FRIDAY, SEPTEMBER 9, 1892.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

Notwithstanding the partial failure of crops in Gilliam this year, the sound of the hammer and saw is constantly heard in our city. Nearly a score of carpenters are kept busy constantly, from daylight till dark, erecting new dwelling and business houses all over the city. Condon is forging ahead at an amazing rate, and we are informed by reliable traveling men that, considering its size, it is growing more rapidly than any town in the state. This is indeed encouraging to our people—and is a particular compliment to the GLOBE, for the reason that it gets the credit by all the competent judges, for the present condition of the town's high state of prosperity. When the paper was established here eighteen months ago, the town at that time had the name of being the quietest and duller place in the country. Since that time it has doubled in size three or four times over, and at the rate it is now growing, in another year or two, it will not only be the leading town of Gilliam county, but of Eastern Oregon. Our citizens now realize the great importance and advantage of having a wide-awake, energetic newspaper to represent their town and interests. The paper, by encouraging people and capital here, has increased their trade and value of their property several times over. If they have not been benefited directly by the paper, they have indirectly. For every dollar they have spent in maintaining the GLOBE, they have been benefited \$20 or more. They fully appreciate the value of a live newspaper, and prove it by giving the GLOBE very respectable patronage. Several parties here who are being benefited right along by the paper, do not advertise in it, but the supposition is that their business has run down to such an extent that they really cannot afford to keep pace with the live business men.

The Oregonian very sensibly says: A great many young men, especially of the kind whose legs have outstripped their brains in growth, own revolvers, and while they do not always carry them in their pockets, they frequently do so. It is safe to assert that in any crowd of a dozen young men on the streets at night, about half of them will be found with revolvers in their pockets. It is also safe to assert that the history of Portland for the past ten years would show that of all the times a revolver was used by any person other than an officer of the law, not more than one time in a hundred was it properly used or necessary. The only mission of a revolver in a young man's possession is to get him into trouble. He has no need of it, and has no business to go where it would be needed. But little more may be said of the older, and presumably wiser, man who keeps a weapon at home for the alleged purpose of shooting burglars. Statistics would show that a dozen innocent persons are shot by accident for every burglar wounded or killed. If these alleged sensible persons would discard their weapons, there would be more hope of convincing reckless young men of the criminal carelessness of carrying revolvers. This habit, though legislated against, can never be cured until public sentiment treats with contempt and ridicule the man who is so weak, foolish, reckless and cowardly as to carry a weapon upon his person.

It is estimated that the country has 4047 millionaires. Many of these have not only one, but a number of millions, and it is a safe calculation to multiply the 4000 by 2 and to credit them with eight billion dollars, or one-eighth of our total aggregate wealth. To offset these 4047 millionaires, we have 40,000,000 men, women and children who are compelled to use every economy in order to obtain food and clothing.

Developments made by an investigation of the Multnomah county court records would indicate that marriage lacks, to an amazing extent, of being a complete success in Oregon. To offset the 916 marriage licenses granted last year, the records show that 229 divorces were granted. This is 19th century civilization in all her beauty, says the Newberg Graphic. It is high time some of the philosophers of this country turn their attention toward a solution of this vexing social problem, and find out what causes bring this condition about. From being the foundation for funny jokes, the matter has grown so serious that it is a subject of unfavorable comment in other countries. We who boast so much of our high degree of civilization will soon rank with France in our disregard for the sacredness of the marriage relation, if a halt is not called soon.

Attorney-General Chamberlain has prepared the complaints, and suits have been commenced against Linn and Multnomah counties to enforce the payment of the balance of state taxes due according to the levy of 1891, as equalized by the state board of equalization, and finally settled by the supreme court. In Multnomah county the balance is \$66,968.89, and in Linn county it is \$3,609.12. Of the 31 counties 22 still owe balances which aggregate \$152,419.19. Suits will be brought against some of these counties shortly. We are glad to note that Gilliam county is not on the delinquent list.

BUSINESS LOCALS.

1, 2, 3, 4, 5 and 6-gal. stone jars. L. W. D. & Co. Genuine elder vinegar at Halstead, Rinehart & Co.'s.

A line of fine, fashionable papererie, first-class. W. Darling & Co., Condon.

Dated at Condon, Or., August 11, 1892.

READ AND PONDER! HATTEE'S CONGO OIL.

Marvelous Cure Effected by its Use.

This wonderful medicine is the wonder of the nineteenth century, effecting a cure when all other remedies fail. It is distilled from plants growing upon the banks of the Congo River, in South Africa. The first knowledge of it was in some of the writings of Covilham, a Portuguese navigator and African explorer, who was sent out by the King of Abyssinia about 1488. He speaks of a wonderful penetrating oil that was in use by the Zimbos, a remnant of a once powerful African nation, and in some recent cyphers found upon some ruins in a very ancient city called Zimboe (meaning a royal house) more evidence has been produced of this wonderful oil, or rather of the plants from which it is distilled, thus proving conclusively that the secret was secretly guarded by these ancient inhabitants of the Dark Continent. As the world has progressed, more explorations have been made in Equatorial Africa, and suffering humanity has been greatly benefitted, as well as medical science being advanced by the rediscovery of this wonderful Congo Oil. It was first brought into civilized Europe by a member of the expedition sent out from London in 1869, under the command of Captain Speke, whose explorations reached far up the Congo River. The secret of its production was jealously guarded until upon the death of the party in whose possession it was, when it was given to a party named Hattie, who formed a company known as the Congo Oil Company, having its headquarters at Zanibar, South Africa, with a branch in New York City, and thus placing upon the market this most wonderful of all remedies. By its use all pain disappears, but it is particularly recommended in Sciatica, Rheumatism, Neuralgia, Etc. It is wonderfully penetrating, and to use it once is to become a friend to it always. By its use thousands who are suffering can be relieved. It is the cheapest because it is the best, and one bottle of it will go further than a dozen of the many so-called cures for these ills. It is purely for external use. Full and explicit directions are printed on each bottle. If you are afflicted, try a bottle; and before you have used half of it your aches and pains will disappear, and there will be no more use for crutches or canes. It is for sale by all druggists and dealers in patent medicines, or can be supplied by the undersigned, who are the sole Pacific Coast Agents for this wonderful oil. Prepared by the Congo Oil Co., Zanibar, South Africa and New York.

ROUGH, \$9 PER M; DRESSED, \$16 TO \$22.50.

Easy Access From All Points.

JUDGE NELSON'S DECISION.

Speaking of patent medicines, the Judge says: "I wish to deal fairly and honorably with all, and when I find an article that will do what it is recommended to do, I am not ashamed to say so. I am acquainted with Dr. Vanderpool, (having been treated by him for cancer) and have used his blood medicine, known as the S. B. Headache and Liver Cure, and while I am seventy-five years old, and have used many pills and other remedies for the blood, liver and kidneys, I must say that for a kidney tonic in Bright's disease, and as an alternative for the stomach and bowels it is a very superior remedy, and beats anything I ever tried."

J. B. NELSON, Yakima, Wash.

At 50c a bottle. It is the poor man's friend and family doctor.
