ers all the expenses of a year's training, save those the student makes for herself. Wellesley and Smith differ but little from the Vassar scale. At Cornell, Bryn from the vassar scale. At Cornell, Bryn Mawr and the Harvard Annex the charges are slightly higher, \$400 to \$500 being a fair estimate. It is a fact worthy of attention that in the coeducational college the price of a year's living is higher than it is in any of the colleges

copies of "La Debacle" has been sold

Ben Butler is said to be badly bent with age. His face has the look of health, but his massive frame has be-come an unmistakable burden. His hands

move unsteadily, while his eyes appear swollen and almost hidden by the thick folds of flesh on his cheeks. But his head is clear as a bell, and at 74 there is no shrewder lawyer or politician in New England.

Diego county, a wild cat sprang upon her, biting and tearing her flesh. A dog more than three miles from shore is not

M. Zola is one of those who flourish on abuse. A fierce battle is raging in France just now against the man who wrote "La Debacle" and therein re-vealed, it is alleged, a lack of patriotism. Every newspaper in Paris echoes in va-rious modulations the shout of "traitor," and meanwhile an edition of 100,000

tracts of land in Taos county, N. M., known as Las Ranchor del Rio Grande. The grant was confirmed for 109,000 acres. The other was the Cubero grant in Valencia county, calling for some 16,-

000 acres.

State Printer Baker is busy issuing the 50,000 edition of the "Resources of Oregon," a neat little pamphlet of 200 pages, full of general information about this State. About half of the edition has been struck off, and it is calculated that it will take six weeks to complet. the work. After that he will start on the "Resources of Eastern Oregon."

The Monumental mining and milling property at Granite, the property of C. 5, Miller, has been consolidated with the Morris mines at Greenhorn, and a stock company formed with a capitalization of \$1,250,000, divided into 250,000 shares. The company is incorporated under the name of the Granite and Greenhorn Consolidated Mining and Milling Company.

The government contract Indian school at Old Mission, near San Diego, has been reopened with nearly 100 children from ranches all over the country. The Sisters of St. Joseph have been teaching them five years with marked results, and Indian girls are in demand for domestic service when through there. Papils are now completing a Mexican trawn-work display for the World's Fair.

The committee in charge of the pre-liminary arrangements for the celebration of 350th anniversary of the discov-ery of San Diego Bay on September 28 has received a dispatch from Governor Torres of Lower California, stating that President Diaz of Mexico will send his finest military band to take part in the celebration. Governor Torres and staff, together with a company of Mexican troops, will be present on that occasion.

A dog more than three miles from shore is not her, biting and tearing her flesh. A dog came to her rescue, and diverted the at-tention of the cat, which chased the dog to the stable, and the noise there aroused the husband, who shot the animal. The woman died from her wounds. There are about 175 Indian boys and girls at the Chemewa Indian school now, but it is expected the number will reach 300 before long. Uncle Sam has not sent the quarterly installment of between diction as to the seal fisheries recognized

and conceded by Great Britain?

THE CHICAGO EXPOSITION.

The Programme of the Dedicatory Ceremonies of the Columbian Fair Completed-Etc.

A factory at Lynn has asked for space at the World's Fair to show pneumatic dynamite guns and projectiles.

Colonel Eliott F. Shepherd of New York has purchased 10,000 of the World's Fair souvenir coins, paying \$10,000 for them

New York will exhibit at the World's Fair sections of all the trees which are indigenous to the State. Of these there are lorty three species and eighty-five varieties, a number which is not ex-celled, it is claimed, by any State in the Union.

t has been decided to make a Tacoma thas been decided to make a Tacoma exhibition at the World's Fair to con-sist principally of drawing and the con-ventionalizing of forms and clay model-ing. The High school will contribute most of the drawings and lower grades models in clay. Complete plans for the exhibition will be arranged.

The programme of the dedicatory cer-emonies of the World's Fair has been completed as follows: October 19, re-ception to the President of the United States, Cabinet and other guests at the Auditorium; 20th, grand "Procession of Centuries" at the grounds. Following this will be speeches, military manen-wers etc. vers, etc.

A Madrid dispatch says: The caravels Nina and Pinta, which have been build-ing some time at Barcelona for the Co-lumbus celebration, have been launched, and will be completed shortly, as only the masts and a few of the fittings are now lacking. The Nina is 57 feet long over deck; the Pinta is 72 feet long over deck and 25 feet wide.

One of the best suggestions yet made for designs for the World's Fair souvenir coins is that of Ferd Peck of Milwaukee, coins is that of Ferd Peck of Milwaukee, Wis., that one side of the coin should represent North and South America, with a ship between them heading to-ward the shore. This would mean some-thing, and it is of very little matter whether it is beautiful or not, although certain designers seem to consider the latter oneilfeation a size one are
