The articles of incorporation under which the company at present exists were filed in Stockton. The papers only set forth the object of the company as being the construction of a railway between thi-city and Stockton, though, of course, no secret was made of the fact that this was but to be the beginning of a transconti-uental line, or, at all events, one extend-ing from San Francisco to Salt Lake. In the articles of incorpora ion which are to be filed, however, the complete bject of the company will be est forth that is, the construction, as stated, or cross continent road.

The company has now made another change, and gives a 40 cent rate on timber which can be carried on a flat car, but the old rate will remain in force on all timbers long enough to require two cars to load them on. The first change did not benefit lumbermen here to any extent, as the roads carrying Southern lumber made a corresponding cut in their rate, but the last change may enable the lumbermen to build up a trade in timber with Utah and Colorado. The commission insists that polygamy still exists, and that there are many cases constantly coming to public knowledge of the association between polygamists and the plural wives they had professed to have put away is a fact that can hardly be controverted.
