Wheat at St. Louis is lower than ever known. The market is weighed down, and the flow of wheat from farmers' hands is like a deluge. This is the result of the "hold-your-wheat" circular of last year. Another leper has been discovered in Philadelphia, and the victim is a woman. The woman will have for her companions a Chinaman and a Japanese, who have been at the hospital for some time awaiting death from the dreadful disease. Chinamen are now being smuggled into the United States from Windsor, Ont., via a new route. Formerly they were landed in Detroit, but now they are put aboard a steamer and taken down the river and across the lake to Toledo and vicinity.

Condon Blacksmith Shop

G. S. CLARK, Proprietor. General Blacksmithing and Wood Work. The only first class horseshoer in the county. Come to my shop if you want first-class work at low rates. Main Street, Condon, Or.

THE CHICAGO EXPOSITION.

Three Boise Banks Agree to Advance Money That Idaho May Make a Creditable Exhibit.

A large model of Columbus' ship Santa Maria, made by a deaf mute in Madrid, is to be sent to the World's Fair in Chicago.

A big row between the national and local officers of the fair regarding the rules for governing the exposition next year is now on.

The Prince of Wales is not likely to visit Chicago next year. If the fair is kept open a second season, he may come over and look at it.

Fifty-seven Esquimaux have arrived in Chicago to exhibit at the World's Fair. They have with them a number of dogs and a variety of native curiosities.

The naval authorities at Halifax, N. S., have received word from the Admiralty office in London that her Majesty's ship Blake, the largest war ship in the world except one twin ship, will visit New York in April, representing England in the World's Fair naval review there. The Blake is the flag ship of the North American station.

The three local banks of Boise City—the Boise National, the First National and the Capital State—have agreed to advance \$5,000 for the purpose of aiding Idaho in making a creditable exhibit at the World's Fair. Commissioner Wells has discovered that many people are willing to guarantee the repayment of the money advanced to the Commissioner if the next Legislature fails to grant him a sufficient appropriation to carry on the work.

In case the Legislature makes the necessary appropriation, the \$5,000 will be returned from the amount set aside for World's Fair purposes to the banks making the advances. Otherwise the parties who have pledged themselves as sureties will have to see that the banks are repaid. The \$5,000 will greatly aid the Commissioner in his work.

Among the thousand and one attractions at the Columbian Fair not the least will be the dairy school, as it will be in effect. It is the intention of Chief Buchanan of the agricultural department of the fair to make the dairy branch an object lesson of the highest value to every farmer who attends the exposition. His plans, which have been long under consideration, have already begun to crystallize, and unless the unforeseen prevents, the dairy school will be a supreme example of what such an exhibit should be. In the first place he has secured from the owners of valuable stock the promise to furnish him selected cows representing all the leading breeds, while the general government has agreed to put experts in charge of the tests and analyses, and the directors of the fair will equip the necessary buildings with all needed appliances.

FROM WASHINGTON CITY. Chili's Indemnity Draft for the Baltimore's Sailors Sent to Paris for Collection—Etc.

The new postal card with a paid reply has been placed on sale in all first-class offices.

Secretary Ruek says in regard to the alleged discovery of pleuro-pneumonia by the British inspectors among American cattle that the American inspectors assert it was catarrhal pneumonia.

General Flieger, chief of ordnance, in his annual report calls attention to the inadequacy of the general appropriation for arming and equipping the militia, which at the last session of Congress was still further reduced.

The annual report of Adjutant-General Williams of the army recommends that the annual appropriations for the National Guard be increased from \$400,000 to \$1,000,000. Referring to the question of the advisability of enlisting Indians, the report states that it has been confirmed by the experience of the past year.

Chili's \$75,000 indemnity draft for the Baltimore's sailors has been sent to Paris for collection. Since it was turned over to the State Department it has passed through the hands of the Secretary of the Navy and Secretary of the Treasury, the latter having it forwarded through the regular channel for collection, for, when honored by the Paris bank upon which it is drawn, the amount will be deposited with the United States Treasurer, from whom it will be drawn by the disbursing officer of the Navy Department. The plan of making the allotment is still unsettled, but Secretary Tracy thinks favorably of a proposition for a department board to make the distribution after examination into the medical records of the men injured and other reports made by the officers of the Baltimore.

OCCIDENTAL MELANGE

Ground Broken for an Immense Irrigation Ditch.

SNOW PLOWS USEFUL IN IDAHO.

Reduction in the Price of Raisins Does Not Increase the Sales—The Condition of Market.

The Phoenix (A. T.) W. C. T. U. will erect a \$10,000 building. Work has commenced at Salt Lake to lay the mains through which natural gas will be supplied to the city. Snow plows have already been found necessary to keep the railroad from Missoula into the Cour d'Alenes open. A decision in the Oregon Supreme Court, just rendered upholds the anti-quackery act, and physicians must obtain a license before they can practice. The belief is general in Fresno that that city has an organized band of murderers in its midst. An effort is being made to ferret them out. C. E. Thurmond, County Superintendent of Schools at Santa Barbara, has been held for trial on a charge of altering the records of the County Board of Education. Excellent fruit has been produced in Murray, Idaho, this season. The success which has attended this initial venture has encouraged many, who will plant orchards in those high altitudes this fall. According to recent estimates the deciduous fruit crop of Southern California for this year will reach 10,000 carloads, valued at \$3,000,000, and that the citrus fruit will reach 6,000 carloads, valued at \$3,500,000. The Secretary of the Sealers' Association of British Columbia estimates that the total seal catch of the British Columbia sealers will be about 45,000 skins, which, compared with the catch of last year, shows a falling off of 15 per cent. Referring to the finds of remains of extinct animals, none is more curious than that of finding the antlers and bones of an elk 108 feet below the surface in a shaft that was being sunk on a ledge near Newbridge, Or., this season. They were found imbedded in a stratum of gravel. The census bureau has made public the statistics of the manufacturing and mechanical industries of Los Angeles, which for 1890 are as follows: Number of industries, 83; number of establishments, 747; capital invested, \$6,807,088; hands employed, 4,950; wages paid, \$3,474,618; cost of materials used, \$5,008,162; value of product, \$9,877,905. Work has commenced on another big irrigating ditch in Ada county. The ditch starts ten miles above Boise, and will irrigate land on Willow creek, Dry creek and near Middleton, on the north side of Boise river. The ditch will have a capacity of 50,000 miners' inches, will irrigate the 100,000 acres of land and will be 63 miles long. It will cost about \$400,000, and will be built mostly by Eastern capital. James Campbell, the projector of the Los Angeles and Salt Lake railroad, has returned to Los Angeles from San Francisco, where he had a conference with President S. H. H. Clark of the Union Pacific, and an agreement was arrived at regarding traffic arrangements. Mr. Campbell states that he has almost completed his arrangements, and that in a year's time Union Pacific trains will be running into Los Angeles. At a meeting of the California Raisin Growers' Association at Fresno recently it was stated that the opinion both in California and throughout the Eastern markets is that reduction in the price of raisins will not increase sales. The condition of the market is good. All efforts to break the market have been headed off for the present and perhaps for this year. The price of raisins will be held up to the schedule price indefinitely. Some interesting Indian mummies are in the possession of Dr. Morrow of Pendleton, Or. They were discovered one year ago on Long Island in the Columbia river, buried in a mound of sand. One of them is a figure of a full-grown adult, evidently of great age. The other is of a young child. Both are perfectly preserved, having hair and teeth intact. The skull of the younger one has been removed, showing the covering of the brain. The moccasins are yet on them, and are hardly changed. The Delamar Mining Company is threatened with an apex suit that may become historical in the history of mining litigation in Idaho. Tim Regan, owner of two-fifths of the Stoddard property, claims that it holds the apex of the Delamar Company's ore bodies. He has recently been doing some work to prove his theory, and expects soon to commence suit for an accounting. A very large amount of money will be involved. The Delamar Company recently purchased the other three-fifths. Ground has been broken for the immense ditch to be constructed through the Columbia delta by the Walla Walla and Columbia Irrigation Company, and by March 1, 1893, the proposed reclaiming of 10,000 acres of as fine land as can be found in the Pacific Northwest will have been made possible by securing for that land a supply of water more than sufficient for all purposes of agriculture. The water will be taken from the Walla Walla river at a point about nine miles above Wallula, and at this point the work was begun.

EDUCATIONAL NOTES.

Movement Against the Employment of Married Women as Teachers in the Public Schools.

Harvard gives away \$87,000 annually in aid of its students.

Yale freshmen and Cornell freshmen have given up their annual rush at their respective colleges.

Lincoln University, the colored college at Lincoln, Chester county, Pa., has reopened with 250 students enrolled.

The Detroit Board of Education has shut out all teachers from the public schools who are not graduates of the schools.

Coeducation has attained to such a remarkable degree of popularity in Maine that two married couples have entered Colby University.

Colorado College is overcrowded with students. Its present freshman class contains double the number of last year's freshman class.

The Chicago University has under consideration a plan whereby classes will be formed to systematically study World's Fair exhibits.

In the "board schools" of Dundee, Scotland, which are similar to our public schools, instruction in swimming is a part of the curriculum.

The University of Wisconsin has organized a university extension department under Lyman P. Powell, formerly of Johns Hopkins University.

Columbia College accounts for the decrease of numbers noticeable in the class of 1896 in the arts department by the fact that the standard of scholarship has raised.

In the early years of Yale College and until 1767 the names of the graduates were arranged not alphabetically, but in the order of the social rank of the families to which they belonged.

Throughout all Spanish America no young man is considered thoroughly educated until he can speak at least two languages besides his own. In Chili French and German are universally learned, and it is now becoming the fashion to study English.

Physical Director Stagg—that's what they call him—has decided that the students in the Chicago University shall kick football three times a week for exercise, at least the young men. The young ladies walk an hour, and take fifteen minutes' exercise in the gymnasium.

The New York Board of Education has taken a cautious step toward the introduction of the Froebel system by making an appropriation of \$26,000 for kindergarten classes in the primary schools of that city.

The movement against the employment of married women as teachers in the public schools has extended to Chicago. That city employs 3,000 teachers, 95 per cent. of whom are women, and 400 or 500 of these are married.

PURELY PERSONAL

The Clay Model of the Statue of General George B. McClellan Scrutinized by the Vice-President.

The Duke of Edinburgh is composing music to a libretto by Carmen Sylva.

Ex-Senator Platt once led the village choir, and was considered a fair singer by the church members.

Mr. Cleveland's Buzzard's Bay residence, Gray Gables, is for sale. It is stated that Mr. Cleveland will again make his summer home at Marion.

One of the best portrait painters of Boston is a woman, Mrs. Phoebe Pickering Jenks, who devotes herself exclusively to the portraits of women and children.

Mrs. Martha A. Hogan, Mrs. Mary A. Fassett and Mrs. Sarah A. Fassett, triplets, were present at a celebration at Waltham, Mass., the other day. They are 69 years old.

Mary A. Dickens, daughter of Charles Dickens, Jr., who was for a time on the stage, is now in literature, and contributes to the journal that her father edits and which her illustrious grandfather once carried on.

The clay model of the statue of General George B. McClellan, which is to be erected in Philadelphia, has been scrutinized by Vice-President Morton and Major McClellan, brother of "Little Mac," and they regard the likeness excellent.

Boatswain John C. Thompson, U. S. N., who has been attached to the Brooklyn navy yard for the last fifteen years, has been placed on the retired list. Boatswain Thompson is a veteran of the Mexican war, and has seen fifteen years of active service.

The Sultan of Turkey has conferred upon Mrs. Elliot, daughter of Sir Clare Ford, the British Ambassador at Constantinople, the Order of Shekakat, second class. This decoration has been created by Sultan Abdul Hamid, and is bestowed on ladies of distinction.

Some three or four months ago Baron Hirsch distributed all his earnings on the turf for the previous year, amounting to \$70,000, among deserving English charities. He has since accumulated fresh profits from the races won by his horses, and he intimates that a further sum of \$100,000 will be available for charitable purposes at the beginning of 1893.

The Pope is now in his 83d year, and in Paris Field Marshal Canrobert is 85, and Marshal McMahon, who is still straight as a dart and retaining a magnificent seat in his saddle, is 83. Kosuth, the Hungarian patriot, has just celebrated his 86th birthday. Prince Camille Rohan has recently died at the age of 92, and the same can be said of the late Earl of Essex.

Condon Livery and Feed Stable,

SOUTH MAIN STREET, CONDON, OR. CHARLES FIX, Proprietor.
