EDUCATIONAL NOTES.

The Large Permanent State School Fund of Kansas—Political Complexion of Harvard Graduates.

The first kindergarten in America was established in St. Louis in 1873.

It is stated that 204 of the 365 colleges in the United States are coeducational.

Colored students of both sexes are to be admitted into the Chicago University.

In the University of Michigan there are five Chinese students—two girls and three young men.

The Ohio school teachers have petitioned the Board of Education for the prompt payment of their salaries.

The slow progress of the thirty female students at Yale is very discouraging. They have not learned the yell yet.

The applications for admission to the Baltimore Woman's College are unequalled in the history of that institution.

Lincoln University, the colored college at Lincoln, Chester county, Pa., has reopened with 250 students enrolled.

The number of schoolhouses in the United States is 216,330. The estimated value of all public-school property is \$323,565,532.

Electricity, theoretical and applied, is being taught in the evening classes at several scholastic and similar institutions in Boston.

Returns show that about 40 per cent. of the alumni of Vassar College, New York, marry, most of the remainder becoming teachers.

There are now seventy schools for the deaf and dumb in the United States, and there is also a college for them located at Washington, D. C.

Of the 1,171 graduates of Harvard in the classes from 1885 to 1891 inclusive who expressed their political preferences 712 were Republicans and 365 Democrats.

The University of Pennsylvania has this year 1,764 students, which makes it fourth in the list of great educational institutions. The three greater are Yale, Harvard and Michigan Universities.

Queen Margaret's College is the only college for women in Scotland that fits them for university degrees. It was founded about fifteen years ago, and has 200 students in art, science and medicine.

Kansas has a permanent State school fund of \$6,900,000, which draws interest at an average rate of 6 per cent. The semi-annual dividend from this school fund for the past two years is \$1,000,514.04.

PURELY PERSONAL.

The List of Musical Prodigies Includes a Young Cherokee Indian Girl—Emanuel Lasker.

Rodney Kipling has reconsidered, and will not settle down in this country.

Emanuel Lasker, the chess expert, the other day played five simultaneous games of chess, blindfolded, and won them in an hour and a half.

John L. Davenport was appointed superintendent of elections in New York twenty years ago, Horace Greeley having recommended his appointment.

The Scotch Earl of Crawford and Balcarres is visiting New York incognito. He is a tall, stout, fine-looking man, with a brogue nearly as broad as himself. He is coming West to hunt.

Most men whose name is McLeod pronounce it "Mac-leod," but the energetic President of the Reading road, according to the Boston Advertiser, prefers "Mac-leed" for himself.

Drs. Rubners and Vernicke of Hamburg, who have been experimenting to see if cholera germs can be transmitted to tobacco, claim to have demonstrated that tobacco smoke is sure death to the bacilli.

Prof. A. D. Hopkins of the West Virginia experiment station has arrived from Europe with a bug, which, he thinks, will destroy the pine-tree beetle that has so greatly damaged the West Virginia forests.

Adjutant-General Douglas of Maryland has received from Dr. H. Seaman of Philadelphia the map used by General Stonewall Jackson in the civil war from the time of the battles with Pope to the battle of Fredericksburg.

Senator Gorman, who has usually entertained a good deal at his home on Rhode Island avenue in Washington in the winter time, will not reopen the house this coming season, but occupy apartments in a hotel—the Portland.

The list of musical prodigies in Boston at present includes a young Cherokee Indian girl, who is said to be remarkably accomplished. She expects to return to the Indian Territory when her education is completed as a teacher of her tribe.

## OCCIDENTAL MELANGE

Cree Indians Exterminate Game in Montana.

ROBBED BY A MAN HE BEFRIENDED.

Beautiful Black Fire Opals Discovered in Eastern Oregon—San Pedro as a Harbor—Etc.

Chinese have been arrested in Tucson for selling cigarette to boys under age. Los Angeles voted to issue \$526,000 bonds for water works in the hill districts.

The assessed valuation of Portland for 1892 is \$45,465,732, more than \$50,000 less than for 1891.

It is reported the United States engineers favor San Pedro as a harbor against Santa Monica.

The Indian Commission has effected the purchase of 180,000 acres of land from the Siletz Indians in Oregon.

At Santa Barbara, Cal., burglars are doing a very good business. There have been many daring and successful robberies the past three months.

Attachments aggregating \$86,792 were filed at Helena, Mont., against Russell B. Harrison's newspaper, the Helena Journal, by three Montana banks.

Turnkey Howard French of the penitentiary at Boise, Idaho, was severely bitten by a madman, and there are some apprehensions as to the effect of the bite.

It is claimed that the Cree Indians have during the past summer completely exterminated the game in Big Hole River Valley in Montana, a region which formerly abounded with game of all kinds.

R. C. Brown and George W. Brown, newspaper men at Tucson, have been fined and imprisoned for making an attack on the court and jury, which had found indictments against them for criminal libel.

The Northern Pacific's steamer Zambezi will probably have to take back to China thirty Chinese who were refused passports at Port Townsend because their certificates did not have photographs attached as required by law. Most of them were bound for Portland.

One of the cases that will come up before the present session of the United States Supreme Court from Oregon will be that of the Eastern Oregon Gold Mining Company, plaintiff, represented by John Mullen and F. V. Drake, attorneys, vs. C. S. Miller. This suit involves some of the best mining property in Eastern Oregon, located in the famous Greenhorn Mountains. Mr. Miller has thus far been victorious.

Recently the Oregon Board of Railroad Commissioners heard the case of W. E. Loughmiller & Co. of Silverton vs. the Southern Pacific Company for overcharge and shortage, and found them entitled to a rebate of \$26.30. The railroad company was given notice of this, but has as yet failed to pay complainants the amount found to be due them. Loughmiller & Co. now ask the commission to bring suit against the railroad company to recover the over charge.

The State Board of Railroad Commissioners is now engaged in the compilation of tables showing the average assessed valuation of all railroads in Oregon and other States, which will include all personal and real property belonging to said roads. The average assessed valuation of all railroads in Oregon for 1891 is \$16,650.84 per mile, including swamp lands, city and town lots and all personal and real property belonging to the roads. There are 1,328.84 miles of railroads in Oregon, and the aggregate valuation is \$210,320,169.

C. R. Brinkley, a well-known capitalist of Los Angeles, who caused the arrest of his quondam bosom friend, Claude Hill, has filed a second complaint against Hill charging him with embezzlement of \$300 which Brinkley had sent him to pay for some furniture. Hill was picked up some months ago by Brinkley, who took pity on him, as he was poverty-stricken, and has since cared for him. The result was Hill spent all of Brinkley's money that he could get hold of, and is accused of being the means of breaking up his home.

J. C. Hill, a well-known mining man of Weiser, accompanied by a party of several gentlemen, Colorado capitalists, is now engaged in prospecting the bars on Snake river, below Huntington, for fine gold placers. Mr. Hill has already located his party on 320 acres of gold-bearing lands, and it is the intention of the company to employ in the working of their mines a new machine, particularly constructed for the saving of fine gold. Mr. Hill says the new device will handle and save the gold from ninety-eight cubic yards of dirt and gravel per hour.

In the case of the State of Oregon vs. Charles Mills, who was indicted by the grand jury of Lane county, Or., for assault with intent to kill, for piling railroad iron and ties on the track near Eugene a few weeks since, the jury returned a verdict of not guilty. The entire jury was satisfied that the man Mills placed the obstruction on the track, but Judge Fullerton instructed them that, as the man, after doing the crime, had repented and informed the railroad officials of his act, the law would not permit of his conviction. A special statute to cover attempts at train-wrecking seems to be needed in Oregon.

FROM WASHINGTON CITY.

A Number of Vacancies in the Higher Offices of the Executive Departments of Government.

The President has appointed Albert H. Nash postmaster at Salt Lake City, Utah, vice Irving A. Benton, who resigned to accept the appointment of United States Marshal.

Neither General Schofield, who is acting as Secretary of War, nor any other army officer at the department is aware of any contemplated exchange of commands between General Howard and General Miles, as reported from Chicago. Little credence is given to the story.

Fifth Auditor Timme in his annual report to the Secretary of the Treasury shows the adjustment during the year of accounts aggregating \$627,930,507 and representing expenses incurred in the diplomatic and consular service, internal revenue service, census office, Smithsonian Institution, etc.

There are a number of vacancies in the higher offices of the executive departments of the government, and the problem of filling them has been considerably complicated by the results of the recent election. In view of the fact that a general change will be made by the new administration in March, the vacancies are not altogether desirable prizes. Among them are the First Assistant Postmaster-Generalship, Commissioner of the General Land Office, and a number of diplomatic places, including the Russian, Portuguese, Italian and Swiss Missions. The resignation of Assistant Secretary of the Treasury Nettleton and Mr. Crounse, who was the Republican candidate for Governor of Nebraska, will take effect next month. The President will also have four vacancies on the bench to fill between now and March 4. These are life positions and the most alluring prizes remaining within the gift of the administration.

The probability of an extra session of Congress immediately following the inauguration of the President-elect is a subject of general conversation in Washington. A special session of the Senate is always called at the beginning of a new administration, to confirm members of the Cabinet and a diplomatic representatives of the United States abroad, but the present election, having turned on questions of a domestic policy, it is said to be obvious to experienced political leaders of all parties that an extra session of both Houses of Congress is an almost inevitable result. Secretary of the Treasury Foster among others admits this. The country, he says, challenged the judgment of the Republicans on the McKinley bill, and the result must be accepted as the will of the people that a different policy must be put into effect. Ex-Secretary Bayard writes to a friend here in like effect, adding the people will expect this to be done without unnecessary delay.

Advices from Samoa are to the effect that the differences between the factions on the islands, headed by Mataafa, the recognized King, and Malietoa, the claimant to the throne, have reached an acute phase. To fully protect the interests of the United States it has been decided that a vessel be sent there at the earliest practicable moment. Besides this reason, based on expediency, it appears that under the terms of the tripartite treaty the United States is under obligation to keep a naval vessel at Samoa. There has been no United States naval vessel there for many months, the Iroquois being the last to call. The Alliance is now at Honolulu, with the Boston, under orders to Samoa, but these orders were countermanded, probably because of a critical turn in Hawaiian politics. It is the present intention to send in her place the Ranger, recently of the Behring sea fleet and now at Mare Island, San Francisco. It will require about a month's time to prepare the vessel for the trip, and another month or six weeks for the passage, so she will not be able to reach Samoa before next year.

THE CHICAGO EXPOSITION.

The Board of Directors Decides to Close the Fair at 7 O'Clock Each Evening—Insurance.

The Scotch Home Industries Association proposes to reproduce the cottage of Robert Burns at the World's Fair.

Emilio Castelar, the renowned statesman, orator and author of Spain, is the choice of the entire World's Fair management for orator on the opening day of the World's Fair.

The insurance written upon the World's Fair buildings now aggregates \$4,500,000. When the fair opens next spring it is thought the contents of the buildings will reach the value of \$100,000,000 at least.

The electricians who propose to have exhibits at the Chicago World's Fair are indignant because of the decision of the Board of Directors to close the fair at 7 o'clock each evening, as it will not permit of a good display of their products. Chicago has more than fulfilled the promise it made to the country with regard to the Fair. That city has spent \$10,000,000 in providing a home for it, and it has spent them not only with characteristic liberality, but with such good taste, with such respect, reverence, even, for art, as to command universal admiration and commendation. The promise Chicago made was to erect the buildings by May 1, 1893. They are already erected, and they surpass in their grandeur and beauty all possible expectation. The city having done so much, the country should not do less proportionately. First of all, it should cordially and gratefully recognize the magnitude and the value of the great work Chicago has done, and it should then resolve, the preparation for the Fair being so adequate, the completion of it should be equally so; that it should be in deed and fact a complete exposition of all the products and productions of the world's arts and sciences, and especially of those of this hemisphere.
