The Secretary of the Navy has appointed a board to consider and report a plan for the equitable distribution of the Census Bulletin of the Pacific Coast Chilian indemnity fund of \$75,000.

Senator Chandler has introduced a bill making it unlawful for any body of men numbering ten or more to assemble, drill or bear arms as a military body unless called for by the properly authorized civil or military officers. It makes it the duty of the President to disband and disperse any such organization. This bill is aimed at the Pinkertons and semimilitary Anarchist organizations.

One of the most valuable publications ever issued by the government is a report on the sheep industry of the United States, prepared under the direction of the Secretary of Agriculture. It treats of the history and conditions of the industry from the early settlement of the country down to the present day, and is handsomely illustrated. It is for distribution by the Secretary and through members of Congress.

The President has decided upon the scope of the proposed extension of the civil-service law. He has signed an or-der putting all free-delivery postoffices under the operations of the laws. Only the largest postoffices are now under civil-service regulations. The extension will protect clerks and carriers in all the small offices which have free delivery.
The effec will be to put fifteen or twenty

All sorts of silver propositions are be ing talked over by members of the House. Bland has been approached by a dozen members with suggestions of a compromise. A return to the Bland act is the chief compromise proposition suggested to him, but Mr. Bland at present refuses to listen to anything less than the coinage of \$4,000,000 worth of silver per month, and to this the other side, of course, will not agree. Culbertson, a Democrat from Texas and Chairman of the Judiciary Committee, has prepared a bill in the nature of a compromise, which he will introduce in the House. It requires the coinage and use as assets of the accumulated silver bullion now in the Treasury. The present law is re-pealed and the Bland law re-enacted.

Representative Owen Scott of Illinois has introduced a resolution calling upon the Secretary of the Treasury for inforthe Secretary of the Treasury for information regarding the progress of the public buildings in various parts of the country, for which appropriations were made in 1890. Upon investigation and inquiry of the Supervising Architect of the Treasury Mr. Scott finds that of seventy-five buildings, improvements and extensions, for which appropriations were made in 1890, contracts for the erection of fifteen were let, and for ten others partial contracts only were let. On fifty others nothing was done. let. On fifty others nothing was done Mr. Scott insists that contracts for pub-lic buildings are systematically held up because of the depleted condition of the Treasury, and he would have it appear that it has been the policy of the administration to avoid every step that would require cash from the government.

Another large bitumen deposit has been found about twenty miles from Santa Barbara, down the coast. Fig trees on a ranch in Washington county, Idaho, are said to be prolific bearers. This is at an altitude of 2,500

Oregon's assessment roll is badly mixed, there apparently being no regu-lar method adopted by the Assessors in

the various counties. There have been grave charges made of bad treatment of patients in the hos-pital at San Diego by H. Phillips and

wife, who were nurses. J. A. Musick has sold his one-fourth interest in the Los Angeles and Defiance mines in Bohemia to his partners, Cook, Brady & Co., for \$50,000.

General R. M. Clarke in the Reno Gazette declares that the incoming Legisla-ture of Nevada will be an illegal body, the reapportionment at the last session not having been made in accordance with the requirements of the State. The Ga-

sette agrees with Mr. Clarke. The Lalande prize of the Paris Academy of Sciences was awarded to Prof-Barnard of the Lick Observatory on De. cember 19, 1892, for his work in astron-omy, and especially for his discovery of the fifth satellite of Jupiter.

A petrified man is reported to have been dug up in the western part of Salt Lake City by Blaine Sills. The figure is perfect, and was found four feet below the surface. The weight is about 700 pounds. A showman offered \$5,000 for the find, which was refused.

E. Gilliam, stock inspector of Umatills county, Or., reports in that county 206,000 sheep, which are in good condition, being free from scab. The number is fast increasing over previous years. Wool and sheep are worth more than for years. The quality is being fast improved by the introduction of higher breeds, principally Merinos. The average weight of fleeces is from eight and a half to nine pounds, making between 1,700,000 and 1,900,000 pound of wool for the season just closed.

An unsuccessful attempt has been made in Paris to employ women in the telegraph office in the Avenue de l'Opera, but the work was found much too heavy for them.

The new brewery tax is causing general depression in the beer business in Germany. The Altona Brewery Union has already raised its price three pfennigs the half liter.

In England clerks of a large provincial bank jointly own a cottage by the sea, fifty miles away, where all pass their holidays, occupying it in detachments during the summer.

Bishop Hurst says that ninety-two acres, bought in Washington for a site for the proposed Methodist University, have increased in value until they are worth half a million.

The fact was developed at the hearing of a case at the Tombs, New York, that hodearriers can be found in that city willing to work for 25 cents a day and work on Sunday at that.

Waco, Tex., is reported to have the largest artesian well in the United States. It is 1,850 feet deep, with a diameter of ten inches, and throws 1,500,000 gallons a day of perfectly pure but hot water.

It is estimated that England's wheat crop for this year is about 55,000,000 bushels, or less than two bushels for each inhabitant. She must buy at least 150,-000,000 bushels more from some outside This season's traffic through the Sault

It is reported that the government has discharged Dr. Eastman, the Sioux, and his wife, Elaine Goodale Eastman, the poetees, for sending sensational reports from Pine Ridge that the Indians were preparing for an outbreak.

The people of this country used during the last fiscal year more than 12,000, 000,000 postage stamps, and paid nearly \$30,000,000 for them. They are all manufactured by the American Bank Note Company in New York.

The cotton mills of the South, as well as those in New England, have closed one of the most prosperous years in their history. Within three years there has been a development in the industry amounting to fully 25 per cent.

The Vanderbilts are making strenuous efforts to extend the Wagner sleeping-car service beyond the Missouri river. Heretofore the Pullman Company has virtually had a monopoly of the sleeping-car business west of Kansas City.

The State of Oregon has thirty-six nurseries, covering 1,576 acres and con-taining about 9,000,000 young trees, and orchardists have upward of 100,000 acres of growing trees. One-half of this acreage is in prunes, one-fourth in applee and the remainder in various kinds of

When the final permits for exhibit space in machinery hall at the World's Fair are issued a storm of protests will be heard from every section of the country. Less than half the number of firms that made demands of Chief Robinson for room will secure it. More than 1,200 applications were received, and only 500 can be granted. The 700 disappointed applicants, some of them the most extensive manufacturers of machinery in the country, will naturally object to Chief Robinson's distribution of floor area, but they will not be able to change his plans.
