THE CONDON GLOBE.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

OF INTEREST TO SHEEPMEN.

The following letter, written by T. K. Hastings, manager of Hastings' Wool Scouring Mills, Aurora, Ill., to John Maddock, is well worthy of consideration by our sheepmen. However, as the new scouring mill at Pendleton will soon be in operation, it doubtless would be more to the interest of our sheepmen to patronize the home institution. He writes:

MR. JOHN MADDOCK, Condon, Or.

Dear Sir:—Your favor dated March 11th is at hand. There is not any question that growers have been deceived terribly about the disposal of their wool. Shrinkages have been put altogether too high. It was this and other such treatment that induced us to go direct to the grower for wool and without any unnecessary expense having been incurred. We have quite a fight on our hands with the commission houses who do not wish to see us succeed in our new departure. We will scour any quantity of wool sent here from one pound up. It would not be a bad idea for you or your neighbors to send samples of your wool here to be scoured. It would take a long time for one or two bags to get here by freight. Why not take a sample from the wool drawing it from different fleeces, say 5 to 10 lbs, and send it by express? We would scour and write you the shrinkage, grades, also what it would net you at home. In so doing you would be at less expense and would get you information as acurately and much quicker.

We enclose you our circular, which gives full particulars and what each grade sells at. One great saving is that the wool need not be tied up. It should be wrapped up and put right into the sack. Growers who scoured last year are going to again this.

This year we will inaugurate scoured wool sales in Chicago, similar to the great wool auction sales at London, Eng., Melbourne, Sidney and Adalaide, Australia. These sales will occur periodically (probably monthly), and we shall dispose of all our scoured wools, unless ordered to the contrary by shipper. Manufacturers from all parts of the country will thus be attracted, and with the consequent competition for scoured wools, the bidding must result in the highest market prices. The American Sheep Breeder has consented to witness all sales and will report fully on each lot of their columns. It is surprising that this manner of disposing of scoured wools has been so long delayed, it having been the method in all great foreign wool markets for years. Not only can returns be made quickly (cash sales only) but expense saved in interest, freight and commission.

Our charge for sorting, scouring and selling is 2 cents per grease pound, and covers all expense to shipper except freight to Aurora.

On burry, seedy, strawy or cotted wools an extra charge of one cent per pound will be made, as these defects have to be taken out by extra process after scouring, and by which the wool is made clear and merchantable at regular prices.

The initiative and referendum is not a "party measure." It is a people's measure, in the interest of the people, and the party that does not endorse it is plainly against the people for the benefit of office-holders and for the advancement of office-seekers.—E. O.

Mrs. Lease thinks the men should mind the babies and allow the women to attend to the business of the country. The practical result of such a system would be very few babies to mind.—Washington Post.

Judge Bellinger has refused the motion for a new trial in the case of Dunbar and Blum, the Portland smugglers. There seems to be a prospect, after all, of them getting their just deserts.

Breckinridge may be saved by some man on the jury who thinks the time has come when all such men ought to stand by each other.

President Cleveland has vetoed the Bland seignorage bill. As there are probably a number of our readers who do not clearly understand its meaning, we will give a brief difinition of the word seigniorage: The seigniorage is merely the difference between the coinage valne of the silver and its cost. Seigniorage consists of the difference between the cost of an amount of bullion and the face value of the coins minted from it. By the Sherman act the Government was compelled to purchase 4,500,000 ounces of silver per month, at the market price. As the price of silver fluctuated, so the amount of treasury notes issued in payment of this bullion sometimes increased, sometimes diminished. The downward tendency having been greater in the last few years, there were issued, from the time of the passage of the Sherman act to its repeal, $154,000,000 in treasury notes, to cover and amount of bullion which should actually have made 209,000,000 silver dollars. In other words, there is now an amount of bullion (in excess to the reserve necessary to cover the $154,000,000 treasury notes) in the treasury which, if coined, would make 55,000,000 silver dollars, against which the seigniorage bill was to issue paper currency, and so put $55,000,000 in the treasury and help the government out of its financial difficulties.

There is a very large amount of criminal business to come before the grand jury that does not appear on the docket—probably more than there has been at any session of circuit court for several years.

Anyone desiring a first-class, bran-new wagon, hack or buggy, at about one-third less than the price usually charged, will find it to their advantage to see the GLOBE man.

Legality Jottings.

The Legality Literary society has adjourned till next fall, on account of the busy season.

A revival meeting was held at Olex last week with a large attendance by Rev. Motor of Arlington, Rev. Figley assisting.

Mrs. M. Anderson returned from Arlington last week. She will probably stay with her daughter, Mrs. J. W. Phillips, for a few months.

The school house in dist. No. 4 (in place of 7 as stated in the last items) is completed and school opened April 2d with Miss Lena E. Snell as teacher.

The prospects for good crops are better now than they have been for several years. So it hardly pays to look blue and cry hard times. There might not be quite so much misery in this world if we would always look on the bright side of the picture, come what will.

If nothing else booms, Rock ceeek does. In fact it boomed a little too much this week. It overflowed the bridge at the Butler ford and left the ground on both sides impassible. The water came into several dwelling houses, making it very uncomfortable for the occupants.

The young men have organized a base ball club. They meet at the school house in dist. No. 4 at 2 o'clock Sunday afternoons with their boxing gloves, etc., and have a big time in general. We next expect to hear some of the members challenge Corbett or Mitchell, and the base ball nine challenge the Condon or Fossil teams. TOPAZ.

Register Lewis of The Dalles land office says: "The business of this office has fallen off greatly in the last few months, there being only 114 entries and filings made during the present quarter. There is yet a large quantity of land remaining unsettled, about half the area of the district, or about three and one-half million acres."

Dissolution Notice.

Notice is hereby given that the copartnership heretofore existing between E. E. Smith and M. E. Perrin, doing business at Condon, Oregon, under the firm name of Smith & Perrin, is this day dissolved by mutual consent. All accounts due the said firm are payable to E. E. Smith, who will settle all debts against the firm.

Those who never read the advertisements in their newspapers miss more than they presume. Jonathan Kenison, of Bolan, Worth Co., Iowa, who has been troubled with rheumatism in his back, arms and shoulders read an item in his paper about how a prominent German citizen of Ft. Madison had been cured. He procured the same medicine, and to use his own wards: "It cured me right up." He also sayd: "A neighbor and his wife were both sick in bed with rheumatism. Their boy was over to my house and said they were so bad he had to do the cooking. I told him of Chamberlain's Pain Balm and how it had cured me, he got a bottle and it cured them up in a week. 50c bottles for sale by all druggists.

Our better halves say they could not keep house without Chamberlain's Cough Remedy. It is used in more than half the houses in Leeds. SIMS BROS., Leeds, Iowa. This shows the esteem in which that remedy in held where it has been sold for years and is well known. Mothers have learned that there is nothing so good for colds, croup and whooping cough, that it cures these ailments quickly and permanently, and that it is pleasant and safe for children to take. 50c bottles for sale by all druggists.

Writes Postmaster J. C. WOODSON, Forest Hill, W. "I have been using **Ayer's** Cherry Pectoral in my family for 30 years, with the most satisfactory results, and can cheerfully recommend it as being especially adapted to all pulmonary complaints. I have, for many years, made pulmonary and other medicines a special study, and I have come to the conclusion that **Ayer's** Cherry Pectoral occupies a position pre-eminent over other medicines of the class."—Chas.
