## GLOBOSITIES.

Charley Ferrin made a business trip to Fossil yesterday, returning today.

At the city election in Cottage Grove Monday Dr. Oglesby was elected mayor.

Rev. Curran left Thursday for Lexington, where he has an appointment to preach Sunday.

Mrs. S. P. Shutt and two little boys visited her mother, Mrs. Meek, 7 miles west of town this week.

Remember that hereafter all those not paying in advance for the GLOBE will be charged \$2 a year. In advance, \$1.50.

Mr. John Madden of Lone Rock is in the city. He reports stock in fine condition in his section.—Dalles Chronicle.

Mr. and Mrs. D. Hamilton of Fossil were in town Tuesday, Mr. H. having come over to attend to some business matters.

The democratic county convention will be held at Condon tomorrow, 7th. The populists are "billed" to meet on the same day.

Supt. L. Parker requests us to state that all those wishing to write to him should address their envelopes to Mayville, instead of Fossil.

J. H. Miller and wife have been in Portland all week. Mr. Miller is selecting a large and choice stock of new goods for the store of Miller & Dunn.

The arbitrators handed in their decision Saturday in the Barker-Stevenson case. The matter is now amicably settled to the satisfaction of all parties concerned.

S. B. Barker has been sick all week with a bad cold. The GLOBE man has also been under the weather all week with similar complaints, which accounts for being late with this issue.

Mrs. O. C. Stevens arrived here Saturday from The Dalles, and will visit at the home of her sons near town a couple of months. Horace Gould, an uncle of the boys, is also visiting them.

See the new harness shops of E. E. Smith and Charley Ferrin. They both are now running on their "own hooks," having dissolved partnership. Charley has bought out his mother's interest in the business.

Mr. Geo. Harsh, a capitalist of Santa Barbara, Cal., arrived here a few days ago on a visit to his friends, Mrs. Mollie Ferrin and family. Mr. Harsh and his family visited a short time in this county two years ago.

Born, at Condon on Friday evening, March 27, 1894, to the wife of J. S. McKinley, a 12-lb boy. Mother and son doing nicely, and J. S. steps higher than a blind horse. By very careful nursing J. S. will "pull through."

The sheepshearers of Umatilla county will meet on April 7th in Pilot Rock to organize a union. The object is to fix a scale of prices for the spring shearing. In Morrow county there is now in existence a sheepshearers' union.

Ignatius Donnelly says that the man who steals a sack of flour to save his wife and children from starvation is a thief and is sent to prison; but the cuss who robs his victims by the thousands is a financier and is sent to congress.

The kickers against Oregon weather should read the account of the eastern blizzard. Two feet of snow in Minnesota and half an inch of ice at Kansas City are reported. This is in sharp comparison with the beautiful spring days we are now experiencing.

Remember the entertainment and social by the Sunday school next Monday night. The selling of the baskets, each containing elegant delicacies for two, to be eaten by the owner and buyer, will be a very amusing feature of the occasion. The proceeds will be for the benefit of the church.

Miss Estella Forrest, an accomplished young school ma'am, who holds a state certificate, came up this week from her home at Sauvie's Island, and will teach the Butte creek school, above Fossil. Her uncle, P. E. McQuinn, met her at Arlington, and they stopped in Condon Wednesday night.

Among the 46 delegates to the republican convention there were about a half-dozen who were not regular subscribers to the GLOBE. They all are now, besides a number of other new names were added to our list this week. Thanks, gentlemen; we will try to give you the worth of your money.

J. P. Lucas received a dispatch Monday evening from the attending physician at Portland saying that his brother Fred's bladder had given way, and that he could not live but a short time longer. Jay left at once for the city, and at the time of going to press we have not learned any more about his condition.

Our public school began Monday, with Miss Susan Dunn as teacher. There is already an attendance of 43 pupils, and more to come. Miss Mabel Halstead began teaching in the new district just north of town Monday. Miss Anna Clarke of Lone Rock has secured the Liberty school in Morrow county, beginning Monday last. Miss Maggie Keys has been engaged to teach the Mayville school, commencing Monday.

On Wednesday evening Mr. and Mrs. Frank Palmer of Ferry canyon brought their 14-month-old child to town for medical treatment, it having accidentally swallowed some concentrated lye. At latest reports the little sufferer was resting easy, with a fair chance of recovery.

Dr. Hudson was hastily summoned to the home of R. E. Lindsay Tuesday afternoon to assist Dr. Howard in an operation on Mrs. Lindsay, the result of her sickness from appendicitis. After being under the anaesthetic for two hours she gradually recovered. In a letter Thursday Dr. Howard says she is recovering as rapidly as could be expected.

Sheriff Wilcox sold a good horse and wagon Saturday, belonging to Wm. Smith, which Pat Skelly had attached and sold to satisfy a note of about \$20 due him from Smith. E. J. McMorris bought the horse and Skelly the wagon. Both together brought something over \$50, and as the costs and all amounted to about \$40, Pat still has a judgment against Smith for a small amount. Pat says this is the first time he ever sued a man.

"Uncle Jerome" Parsons was over to town on business Thursday. He says the John Day has got to be almost an ocean, being three feet higher than it was a month ago, and at that time it was higher than it had been for 12 years. Much damage has been done all along the river, washing away fences, hay, etc. Pease & McAllister, sheepmen over there, being heavy losers, having lost about 100 tons of hay. Mr. Parsons lost a great deal of fencing.

All streams in the country have been higher the past week than they have been for many years, caused by melting snow in the mountains. While crossing a stream in Lost Valley, Alex Hardie's horse fell with him in deep water, and Alex narrowly escaped drowning, his horse getting on top and holding him under for more than a minute. Alex says it was the only time in his life that he felt that it was of the utmost importance to keep his mouth shut, which he thinks it all that saved him. While returning from Heppner, Wm. Meek also had a narrow escape from drowning his team in Rock creek at Frank Downer's place, and one of W. G. Flett's boys had almost a miraculous escape from drowning in the creek near his home at Shelby. Besides these there were a number of narrow escapes from drowning in the John Day.

A petition is being circulated for signers asking the county court to change the route of the road from the crossing at 30-mile so as to avoid the "devil's backbone," which has been such a curse to everybody in the county since its first settlement. Yesterday Judge Mariner, J. W. Gilman, J. H. Downing and W. W. Kennedy drove out from town to take a look at the lay of the ground. They think that if the road is changed so that it will come up the ravine east of the backbone, running on a straight line for Condon, through the Looney ranch 2 1/2 miles, it would shorten the distance two miles, and make it such a gradual and easy grade that two horses could easily pull loads that it now requires 4 and 6 horses to pull up the backbone. The county court will take action on this matter next month, and the change ought to be made by all means, as it is the most-needed improvement the county could possibly make. This should have been done years ago; but better late than never. It has been the general supposition that an improvement of this kind might cost several thousand dollars; but Judge Mariner informs us that for even \$300 a much better road can be made than the present one, and for about \$500 he thinks a first-class road can be made. He says \$1000 would make almost a macadamized road out of it. It will be cheering news to all the teamsters and farmers in the county, as well as everybody else, to learn that at last this road is to receive the attention it so much deserves.
