

THE CONDON GLOBE.

FRIDAY, MAY 26, 1894.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

Governor Penney is discounting Roswell Horr as a campaign story teller. In his speech at Albina the other night he took a whack at the democratic party by relating the following anecdote: "There was a man who boasted that he owned a barrel 200 years old. When he took a friend into his cellar to show him the venerable relic the friend suggested that the hoops looked to be new. 'Yes, they are new. I only put them on last year,' said the man. After further inspection the friend suggested that the staves didn't have a very antique appearance. 'That's true,' responded the man, 'I put them in about four years ago.' The friend then wanted to know what was left of the 200-year-old barrel. 'H—l, don't you see the bung-hole?' shouted the relic-owner. The governor's application was that the bung-hole was all that Cleveland had left of the party or the old-time Jeffersonian principles.

An outfit of California emigrants passed through town this afternoon and are camped a short distance below. They came from San Luis Obispo county, about 200 miles south of San Francisco, on the coast, and report that California is suffering from the worst drought since 1877. This gentleman was running a dairy on a nine-hundred-acre ranch, with forty milch cows and other cattle and horses. He left all behind to die except the teams to bring him away. He reports that stock of all kinds is dying by thousands, and that many of the people are on the road coming this way in search of a place to sustain life, having absolutely been forced to leave on account of the unprecedented drought.—Eugene Guard.

The following from the Sheridan Sun is also applicable to this portion of Oregon: "Wheat farming will grow gradually less from this time on. Our lands can be more profitably utilized than by raising 35-cent wheat. What we want in the Willamette is the subdivision of the large tracts into 5, 10 and 20 acre farms by men who understand or are willing to learn small farming. The secret of success in farming is to have something to sell for which there is a demand in its season. The thing that will bring these changes the quickest is the simple division of the big farms into small tracts, placing them into industrious, prudent hands. Go on dividing the country into small tracts."

Henry Watterson, the great Kentucky journalist, was recently in Oregon, and when asked about our state said: "I was surprised to find so marked a difference between California and Oregon, and which is decidedly in Oregon's favor. Particularly is this true of its climate conditions. I am a lover of perpetual verdure, and from the time I approached the Oregon line until I arrived here I found a continuous vision of landscape beauty, and I was impressed with the fact that the fertility of the soil of Oregon surpasses even the picturesqueness of the scenery."

Chas. Cunningham has 18,000 head of sheep on the range in Umatilla county, and the wool clip this year averages about 18 lbs. per head. He expects at least a quarter of a million pounds, and will possibly market over \$300,000. None has yet been baled. The whole lot is of the first quality. Never has Umatilla county sheared such an abundant and high quality crop as this year, and the lamb increase is more than ever before.—East Oregonian.

Judge Mills on Monday last sentenced Coxe, Browne and Jones to 20 days' imprisonment in jail at Washington, D. C., for displaying a banner in the capitol grounds on the occasion of the May-day demonstration. Coxe and Browne were also sentenced to a \$500 fine or 10 days' imprisonment for trespassing on the capitol grounds.

It is the fittest man this year who deserves election and who will best serve the people. Fit men in office are cheaper to the taxpayers and render better service to the public than partisans and snaphunters.

Prendergast, the murderer of Mayor Harrison, will not be hanged, after all, but has been sent to the insane asylum, where he will probably be kept a year or so and then liberated. Such is justice.

To make the hair grow a natural color, prevent baldness, and keep the scalp healthy, Hall's Hair Renewer was invented, and has proved itself successful.

A country postmaster in Umatilla county the other morning took a blank sheet of paper and wrote upon it the words, "For United States Senator." Then making two columns, at the head of one he wrote, "Sylvester Penney," and at the head of the other, "Jos. N. Dolph." During the day, as the men came in for their mail, he referred them to the paper and asked them to sign their names under the one desired for the position. 36 came before night fell, and the vote stood thus: Penney, 34; Dolph, 2. One of the two who voted for Mr. Dolph said he would vote for Penney could he vote directly for him.—East Oregonian.

Be Honest About It.

CONDON, May 21.
"Voter" writing from Mayville (?) last week to the Arlington paper makes the weakest argument I ever saw in his fighty effort to prejudice the public against Wilcox. He makes himself ridiculous in his attempt to rob Mr. Wilcox of the credit he so justly deserves for not crowding the taxpayers at a time like this when he could have ruined them almost by forcing collection, which he could have done, notwithstanding "Voter's" malicious misrepresentation of the facts in this matter. The voters of this county will not be bulldozed by any such bosh as that, and ought to, and no doubt will, cause many honest republicans to vote for Mr. Wilcox.

Now in regard to Sheriff Wilcox not forcing the collection of delinquent taxes I am also reliably informed that it is not necessary for the sheriff to file a list of delinquents before he can proceed to force collection. He could have levied on the personal property of every delinquent taxpayer and added costs ever since they became delinquent on April 2d. The warrants issued to the sheriff after the delinquent list is turned over authorizes him to levy on real estate as well as personal property. The county court deserves credit for not forcing the sheriff to collect this; but the court has not the power to change the laws of Oregon; and if Wilcox had been so disposed he could have put every delinquent taxpayer to expense since April 2d, by levying on personal property, and the county court could not have prevented him. These are the facts in the matter.
