They Enter Into a Conspiracy to Over throw President Gonzalez. BUENOS AYRES .- The recent coup d'etat in Paraguay ended peacefully.

AMBITIOUS GENERALS.

Not a shot was fired. Generals Egusguida, Caballero and Escobar, each of whom is a candidate for the Presidency, entered into a conspiracy with the Minister of War to overthrow President Gonzalez. When the President, accompanied by the Minister of the Interior and the Chief of Police, was entering Congress in Assumption he was suddenly sur-rounded and arrested by armed men, who compelled him to resign his office. The Vice-President, who is a nephew of General Caballero, at once assumed the power of President. The object of the coup d'etat was to destroy the official candidacy of Dr. Decond, Paraguay's Minister to Uruguay. A fight for spoils between the three gentlemen who want zalez. When the President, accompanied

between the three gentlemen who want to be President will probably commence in July during the election of electors. The Vice-President favors his uncle, General Caballero, while the Minister of War mark General Paramite to successful to the second War wants General Egusguida to succeed and the Chief of Police supports General Escobar. Dire t telegraph wires from Paraguay have been cut, and com-munication is interrupted. Telegrams from the border districts say the people are indifferent to the outcome of the political movement. Whatever the issue of any such affair, the people's wishes are never consulted.

Murder of a Monarch.

TANGIER .- The Sultan of Morocco died suddenly on June 7 at Tadia, between Morocco and Casa Blanca. Measures have been taken here to prevent anticipated disorder. Sensational ru-mors are in circulation as to the cause of the Sultan's death, and the populace is becoming excited. It is added that the symptoms of his disease point to poisoning.

Syndicate Formed to Help California's Wine Growers Over Their Crisis-Pacific Const News.

SAN FRANCISCO, CAL.-There is good news for the wine growers of California A syndicate is organizing which will be willing to pay living prices to vineyardists. Capitalists who have money invested in viticulture, banks which hold mortgages on vine lands and dealers who do not believe in killing the goose that isys the golden egg, and who represent an aggregate of \$10,000,000, are about to combine to place one of California's principal industries once more on a payng basis. They have an interest in protecting the \$60,000,000 invested in winemaking, and they stand ready to pursue a liberal policy toward the producer. They propose to put \$1,000,000 in the scheme and to incorporate for five years. They ask that from 30 to 90 per cent of the growers shall bind themselves to give options on their crops. The propo-sition to organize the syndicate does not come from its members, but from the committee of wine growers recently appointed to devise some means by which the crisis in the industry might be overcome. These committeemen visited bankers, capitalists and dealers, laid before them a plan of action and obtained a provisional consent. Now they are at work on the producers, and hope within ten days or a fortnight to obtain sufficient options to launch the project to

TO MARK THEIR GRAVES.

Monument Spoken of for the Vandalia

and Nipsic Sailors. SAN FRANCISCO, CAL.-There is a move ment on foot at Vallejo to raise by subscription a fund sufficient to erect a splendid monument over the graves of the sailors of the wrecked United States war vessels Vandalia and Nipsic, who lost their lives in the terrible hurricane

which swept the Bay of Apia in 1889. It will be remembered that shortly after that awful disaster in Samoa, which resulted in the loss of so many brave sailors, nineteen of the Vandaiia and Nipsic's dead were brought to this port and interred in the cemetery at Vallejo. Un-

McKINLEY'S MITE IS SPURNED.

William Astor Chanler Returns From the Heart of the Bark Continent Geographical Data.

NEW YORK .- Unheralded and unknown to those on the pier, an unassuming young gentleman with a smooth, sun-dried face marched down the gangway of the steamer Aller the other morning. He was William Astor Chanler, just returned home after a three years' Just returned nome after a three years absence abroad, twenty-two months of which have been passed in the heart of Africa, in regions never before pene-trated by white men. After a warm greeting from two or three friends Mr. Chanler was driven to the Knickerbocker Chanler was driven to the Knickerbocker Club. "I am in excellent health," said he, "with the exception of a sluggish liver as the result of two years in Africa, which I propose to wash out at Carlsbad immediately. I have come home hur-riedly for family reasons. While my ex-pedition has not been entirely success-ful, owing to the descriptions of my men and a plague resembling lockjaw, which broke out among my camels and mules, I have gathered a large amount of scien-tific and geological data, which will com-pose the report I propose to make to the New York Geographical Society."

HARRISON'S SLAYER.

Additional Complications May Arise in the Prendergast Case.

CHICAGO, ILL .- Additional complica tions may arise in the case of assassin Prendergast. Judge Chetlain is not sitting in the Criminal Court. Judge Payne, when a continuance as agreed upon was submitted to him, refused to enter the order, saying he knew no reason why a continuance should be granted. The matter went over temporarily. Pren-

dergast insisted on making a speech. "I am 'lefendant here," he said. "I want no continuance. The question to be determined is my guilt or innocence, not insanity. Murder is a malicious taking of human life; that erime I have not committed." The prisoner was thrust into his chair by bailiffs, Judge Payne said that he would not consider the mo-

NATIONAL CAPITAL NEWS.

The bill to disapprove the treaty heretofore made with the Southern Ute In-dians for their removal to Utah and providing for settling them on lands nn-der the severalty act has been passed by the Honse.

The House Committee on Banking and Currency has decided to choose a subcommittee of five by the usual method of ballot to prepare another bill. The committee will report its measure to the House not later than June 27. It may prove that this will be a scheme for a national currency.

The incident growing out of the pull-ing down of the United States flag from the United States Consulate at Thomas on the Queen's birthday has been satisfactorily closed by an explanation to the Department of State that the perpetrators of the outrage were drunk and irresponsible and would be properly dealt with.

Willard W. Samperston of Bnffalo, N. Y., the attorney of W. W. Kisminski, the Pole who returned to Russia and

Morrison I. Swift of the Boston Industrial Army spoke to the Honse Commit-tee on Labor. Charity, he argued, weak-ened the fiber of workingmen and perhaps added to the tramp army. In Boston the policy had been adopted of giving alms to those out of work and in need. It would be better to furnish work, by which those in want could be producers instead of a dead weight on the community. He advocated public farms or factories or work on roads. Wages for government work should be lower than the prevailing wages, so men would resort to them only when private em-ployment could not be had.

Delegate Smith of Arizona will make an effort to have the appropriation for the Carlisle Indian School struck out of the Indian bill. Mr. Smith says the education of the Indians at Eastern institutions has done more harm than good. His observation in the Western country has shown him that the woman graduates of these schools consider themselves superior to their Indian associates and turn their attention to miners and dissolute white men of the Indian country to the destruction of the morals and decency of the Indian girls. The male graduates are also said to have their vicious traits sharpened, so that they are a more dangerous class than their unlettered brothers. Mr. Smith's criticisms are confined to the Eastern schools, where the pupils are removed from their families and friends.

Senator Squire of Washington has inroduced a bill for free coinage of silver. It provides that the owner of silver bullion may deposit at the mints, receiving in payment standard silver dollars equal to value of the bullion on the deposit, the difference to be retained by the government as seigniorage as a reserve fund and used by the Secretary of the Treasury in maintaining the parity of silver dollars. The coinage of silver dollars shall not exceed \$4,000,000 each month. When the aggregate amount of money in the country reaches \$40 per capita further silver coinage shall be dis-continued, and shall be resumed when it falls below that figure. Provision is made for coining silver half-dollars of the present size and maintaining their parity in the same manner as other silver. They also are made legal tender. The Western members of the House have held a caucus to map out a campaign on the irrigation question, and have resolved to spare no labor to secure action by this Congress. Representatives of thirteen Western States and Territories, including members of all parties, met here the other day. Mr. Sweet, who called the meeting, was elected Chairman, and the matter was thoroughly discussed. In accordance with instructions of the meeting a committee, consisting of Representatives Sweet, Coffeen of Wyoming and Baker of Kansas, called on Speaker Crisp to ask that the Committee on Rules set apart three days for the consideration of a bill, which is to be agreed upon by Western men. The Speaker suggested that a resolution be introduced in the regular order, and asked to have copies of the bill submitted, but made no promise. Walker of Massachusetts, a veteran member of the Committee on Banking and the senior Republican member of the committee, says the question of banking and currency will be treated in a comprehensive manner by a select committee of five members under a recent vote of the Banking Committee. He says this is the most important subject before Congress, not second to the tariff. Sealed ballots are now being filed for the purpose of selecting a committee of five. Each member of the Banking Committee has a vote, and names five of his associates on the com-mittee. Walker was asked what the new system of banks would have to do with the issuance of money, and replied that the bill undoubtedly will provide for doing away with the various forms of currency now issued and the substitution therefor of a uniform paper money issued by the government through banks. At present the government circulates the Treasury notes, greenbacks, silver certificates and various kinds of currency. on its way to this country. Compared with Oxford's records, Yale's showing is good this money, but the purpose will be to make the national bank the sole source of issuing currency under gov-ernment supervision and direction. The government thus will be relieved of the builden of issuing, circulating and currently redeeming these various forms of currency, and the entire responsibility will be placed on the banks. This national-bank currency would be surrounded by all the safeguards of the present RATVILLE, L. I.—James Hoey, the actor, who has a country residence here, the Federal government would be re-

Whatcom county has just finished four good bridges over the Nooksack at a cost of \$50,000. All rest on cylindrical piers of iron filled with concrete. The litigation in the war against bar-maids at Spokane has taken the form of a campaign before the Council on the refusal of a license to the Louvre. Albert John Rath, the boy who lost a leg last year in the Union Depot Com-pany's freight yards at Spokane, has se-cured a verdict for \$15,000 damages. A convention is talked of for the Commercial Associations of the Gray's Harbor towns to move on Congress for an

appropriation to resurvey the harbor. Brockmier, Hopkins, Flynn and Sutton of the defunct Washington Farmers' Insurance Company have been indicted by the Spokane grand jury for conspiracy. Lincoln county expects a bigger har-vest this year than in 1893. Only a few farmers are fallowing their farms, and the acreage is nearly as large as a year ago, while the crops are two or three weeks more advanced.

NORTHWEST BREVITIES.

The vote by which Spokane's City Council ordered a reduction in the sala-

ries of the city's employes was 11 to 4.
