

# THE CONDON GLOBE.

FRIDAY, JULY 13, 1894.

## NOTICE.

The yearly subscription to the GLOBE is \$1.50, if paid in advance. If not paid in advance, \$2 will be charged. A blue pencil mark around this notice indicates that your subscription expires with this issue. Please renew promptly.

## GLOBOSITIES.

Mr. and Mrs. D. Hamilton of Fossil were in the city today.

Mrs. Henshaw and daughter returned home Thursday from Lone Rock.

Dr. Hudson is having the Willey Miller residence painted by W. A. Goodwin and Shed Gridler.

Miss Mabel Halstead has been engaged to teach the Lost Valley school, commencing July 21.

The GLOBE comes out a day late this week owing to our regular supply of paper failing to get here on time.

Mrs. C. A. Dannehan and daughter Mary are visiting this week at the home of Mr. and Mrs. Silas Keeney, near Mayville.

E. E. Smith and J. H. Downing went to Portland this week on business, starting Monday morning and going via The Dalles.

Who wants to trade the GLOBE 5 or 6 cords of wood, at \$5 a cord, for any kind of lumber he may want? Don't all speak at once.

Travelers across the Cascades say there is six feet of snow on the summit, and here's hoping it will all stay there undisturbed and unmelted.

Charley Perrin left the first of this week to open up his new harness shop at Antelope. He was in Portland last week getting supplies for the shop.

Forty cents has already been offered for this year's wheat crop in Umatilla. Some predict as high a price as fifty cents per bushel.—East Oregonian.

Frank Ralston of Lone Rock visited friends at the county seat a couple of days this week, leaving for home Tuesday, in company with his father, Hon. J. R. Ralston.

We regret that we have not the room this week to publish an interesting program, which was excellently rendered by the Matney Flat school, on the closing day, Friday last.

Miss Bessie Fitzwater finished her school in Idea precinct and returned home Monday. She evidently is pretty popular over there, as she has been engaged to teach the fall term.

L. W. Darling made a flying business trip to Lost Valley Tuesday to look after the interests of the T. F. Barton ranch, which has just been deserted by the Gemmill Bros. His wife accompanied him.

The following appears in the county court proceedings of Wasco county, taken from The Dalles Chronicle: "One deputy allowed county clerk at \$75 per month. One deputy allowed sheriff at \$75 per month."

Why doesn't somebody bring some beef to town? The town has been "out" of meat for two weeks. This is the greatest cattle country in the world, and yet it seems to be the hardest place to get beef. It should not be thus.

The Arlington-Fossil stage management has changed hands again, Lee Phares selling the complete outfit to Lucian Parker, after running the route just one week. Mr. Parker will take charge of the business next Monday.

The great railroad strike is still on, but the prospects are that it will be off in a few days, since the U. S. troops are after the anarchistic strikers. About 30 rioters were shot and killed at and near Chicago Sunday last by the soldiers.

Married, on July 4th, on Trail Fork, Mr. Chas. W. White and Mrs. Nellie Hutchinson, Squire Wilkinson White, the groom's father, performing the ceremony. The contracting parties have a host of friends who join the GLOBE in good wishes.

While leading one of the stage horses Monday near the Keizar place north of town, Lee Phares got his fore finger of the right hand caught in a twist in the rope and about an inch of the finger was torn off. The doctor dressed the wound, which is a painful one.

There is not the slightest cause for alarm in the reported ravages of the grain aphids. These little green bugs, while numerous, are doing no damage whatever. The story that the kernels of the grain have all been eaten half in two by the bugs is a bogaboo.

John Brown of Hoover creek was in town Wednesday with wood. He compliments our road supervisor, D. B. Trimble, by saying that Thirtymile hill is fixed in better shape than it has ever been before, and says all the teamsters feel the same way about it. Bully for Trimble!

Miss Cordie Keizar met with what might have been a serious accident Wednesday evening. She had just started from town for her home on horseback, when the saddle turned and she fell violently to the ground, receiving some severe bruises, but fortunately no bones were broken.

Heppner Gazette: Our county court has refused to allow deputies for either the sheriff or clerk. The question will again be considered at the next term of court. The public will understand that both officers are now salaried, receiving according to law \$2,400 each. The earnings of both offices go to the county.

Our people are again blessed with daily mail from the east and west. The railroad is completed almost to The Dalles from the east and it will be only a few days yet until it will be completed from the west, and the public will have regular train service again—a change that will be welcome to all of us.

Constable Dan Rinehart made an official trip to the Lost Valley country Wednesday and to Ferry Canyon next day, serving papers in civil suits to recover money. A good way to avoid being sued is to pay debts promptly when they become due. A better way still is to not run in debt. Pay as you go.

Our type last week made it say that Harve Higgins won the 80-yd foot race at Fossil on the 1/4, which is a mistake. It should have read Wm. Higgins, instead. Mr. Higgins adopted the good old way, and we believe the surest way of winning a race—he took the lead from the first and kept it the whole way through.

H. B. Hendricks took in Fossil, Lost Valley and Lone Rock the fore part of the week on business. He says both sawmills are running full blast and have doodles of good lumber on their grounds. Mr. H. reports crops and gardens as looking better than ever before in the history of the country, and thinks the fall grain will fill better than the spring grain.

The Condon country catches the wandering immigrants as they travel through between California and Washington, either way. Within the last month no less than a dozen have settled in this vicinity, and say that of all the country they have seen in the West, this section pleases them the best. Come right along; there is room for thousands more.

Rev. E. Curran will preach here next Sunday, morning and evening. Mr. Curran has done much good work here during the last year. When his first year expired our people very much objected to exchanging him for a new man, and he has been re-appointed to this circuit for another year. He has made himself very popular with all the best people in his circuit.

Wiley Miller has leased his excellent ranch just north of town for a term of two years to D. B. Trimble and Pat Skelly. Wiley and family left Thursday for Looking Glass, Douglas county, where they will reside for the next two years. They drove across the country, and expect to make the trip in 11 days. They are good citizens and their many friends here regret to lose them from our midst.

Our county court has allowed \$900 a year each to H. N. Frazer, deputy clerk, and T. G. Johnson, deputy sheriff. This with the clerk's salary of \$1500 amounts to \$2400 a year; and with the sheriff's salary of \$2000 will amount to \$2900 a year. Besides this the clerk gets all the income from land and notary business, and the sheriff the board of prisoners, also fees for taking prisoners and insane persons to penitentiary and asylum.

Bob and Frank Gemmill, who have had a lease of T. F. Barton's ranch in Lost Valley since Mr. Barton and family moved to Ellensburg 18 months ago, left last week, presumably for Texas, where they formerly lived. There is nothing singular about this, except that they leave behind them debts to the amount of about \$300, which is due Mr. Barton for rent, etc. What makes their sudden disappearance appear all the more suspicious is the fact that they neglected to keep the fences up, and what promised to be a fine crop of hay and grain has been almost ruined by cattle running upon it.

First reports of any accident, disaster or happening of any kind that interests the public are invariably exaggerated. The first reports of the damage done by the high waters of the Columbia to the railroad were to the effect that the track was damaged \$5,000,000 and that trains could not run over it before January, 1895. The following from the Oregonian is reliable: "The water has receded sufficiently to permit a close estimate of the damage to the O. R. & N. rail line along the Columbia river, and men are now at work at many points. It is known that \$85,000 will put the road in running order from Portland to The Dalles, and that no greater sum will be necessary for its restoration from The Dalles to Umatilla. The water has fallen so slowly, and still is so high, that not much could be done hitherto; but the work will proceed rapidly from this time, and by the end of July the road will be ready for business."

The most eagerly-looked-for freighter that ever came to town was G. G. Parman, who arrived here Wednesday evening from The Dalles, with a load of sugar, coffee, tobacco and such provisions that our people had been "out of" for several weeks, for Miller & Dunn Bros. Mr. Parman was five days on the way, and met with considerable difficulty on the route. While camped at the Deschutes Sunday night some parties living in that vicinity drove off Mr. Parman's horses with a view to robbing his wagon while he hunted for them. During the night also they watched for an opportunity and while Mr. Parman was asleep they stole about \$60 or \$75 worth of provisions and goods from his wagon and made good their escape. This loss will fall pretty heavy upon whoever has to stand good for it. Mr. Parman expects to start back again at once for more freight, and will get out a search warrant and have the houses of the suspected parties searched, and the chances are that a portion of the stolen goods will be recovered.

**Arlington Items.**

The stage is now drawn by four prancing steeds, instead of two, as formerly.

Frank Shurte, assistant postmaster, left on the boat Tuesday for a short visit to Portland.

The base ball boys, though defeated at Fossil on the 4th, report having had an excellent time.

We have a new butcher shop in town, now. The two will be able to supply all the wants of our people.

Clay Myers, of Blalock was in on business Monday. He reports crops excellent in that section of the county.

Some Indians from across the river were here last week peddling new potatoes, which speaks well for their industry.

Miss D. Sperry of Portland, who has been visiting relatives here for several weeks, left on the boat Tuesday for home.

The lightning of last week did some damage to the telephone here, having burned the bell so as to render it unfit for use.

Mr. and Mrs. Crowfoot had the misfortune to lose their youngest child last Thursday. The burial occurred next day at this place.

Jack Rodgers, our popular boot and shoe man, was in the metropolis last week laying in a new stock of goods. T. L. Bradbury was in the store during Jack's absence.

It seems that we are to have water about one day in each week. The wind mill runs a short time and then gives up the ghost. The boiler is indisposed, and as a result a great many carry water from neighboring wells, and some go to the river for it.

A train bringing Eastern mail came in Tuesday. We understand there will be a train from the East here every day, and that the steamer "Almota" will connect with it here, taking passengers to Celilo, from which place they will be conveyed by train to The Dalles. Everybody will be pleased to know we are again to have daily mail.

**Matney Flat Squibs.**

J. J. Portwood and R. K. Wilson have gone to Athena to bring their new threshing machine, which Mr. Wilson bought last week.

E. A. May has built a neat little residence on his Sixmile ranch, and moved in about two weeks ago. Extra says he is tired of living on a "dry ranch."

While riding after horses one day last week W. L. Barker's horse stepped into a badger hole, falling and catching W. L.'s foot under him, crushing it severely.

Miss Laura Schilling closed a 2 1/2-months' term of school here Friday. A very interesting program was rendered by the school, and a large number of friends and patrons were present. Miss Gertie Miller assisted by bringing her organ and entertaining the audience with both vocal and instrumental music. The manner in which the little folks rendered their pieces shows that Miss Schilling is a teacher of more than ordinary ability.

**Notice.**

L. W. Darling has made arrangements with capitalists to buy county scrip. Parties having scrip to their credit in clerk's office can write to Mr. Darling to draw the scrip, and he will remit the proceeds by mail.
