A young woman signing herself Miss Edna Brown of Kaneville, Ill., has sent out from there to thousands of people a request for cancelled stamps, claiming that she was collecting them in order to secure the treatment of a crippled girl at the medical institute. The postmaster of that city says that her letter is false; that there is no medical institute or crippled girl there, and that Miss Brown is receiving thousands of letters and collecting millions of stamps under such representations. She is making large sums of money from the sale of these stamps, and is one of the cleverest swindlers in the country.

On Tuesday of last week the Oregon legislature—the Senate and the House—voted separately for a U. S. senator, resulting in Senator Dolph receiving 48 out of the 90 votes. Dispatches appeared in nearly every paper in the state that Dolph was elected—the Globe along with the rest. It turned out to be a mistake, however, as it is not a valid election until both bodies vote jointly. When the joint vote was cast, Dolph lacked a vote or two of a sufficient number to elect, and although a ballot has been taken every day since, except Sunday, the matter stands that way yet, and is termed a "deadlock." The votes of the anti-Dolph faction are badly scattered, none of their candidates receiving over 10 votes. Under the circumstances, other "gives in" sessions, Oregon one senator...

Lone Rock Riplets. S. B. Barker made another business trip to Lone Rock the first of the week.

R. M. Johnson and A. W. Moore went to Fossil the first of the week. Mr. Moore will probably stay a week or so for medical treatment, as he thought he was not getting along as well as he might.

Lone Rock school district, No. 13, after some very lively debate, voted a 5-mill tax for school purposes last Saturday. Times are hard, but our boys and girls must have "larnin'" in these back woods.

A great many green goods letters are received here of late. Whoever sends such letters must either be a fool or thinks the people of Eastern Oregon are. They might swindle us out of wheat, but they will never get any cash.

We believe the school law now in force, in regard to special district taxes, is unjust for this reason: In all districts there are a great many families who own some land and quite a lot of personal effects and do not pay any tax on account of small things not being assessed and then there is an exemption of \$300 allowed on their assessment. If the law was so that it assessed the district and exemption every one something toward it, it would be a fair thing and thus help the man who has a few thousands to pay on. If only a burden...
