SAN FRANCISCO, March 15.—The steamer City of Peking sailed yesterday for China and Japan, and all of her available space for freight was taken.

The reason given for this rush for freight space on the part of flouring men is the demand for room made by Portland millers.

WERE TAKEN BY SURPRISE

The Trouble Has Been Brewing For Some Time and Was Caused by the Blacks Taking the Cases of the White Screwmens.

NEW ORLEANS, March 14.—The thick fog early this morning was the veil behind which desperate white levee laborers gathered, and which they penetrated with Winchester rifles all aimed at the colored non-union workmen on the ships loading at the docks.

The causes which led to the trouble have been of long standing, and grew out of the attempt of ship agents and others interested to reduce rates.

The white association then severed ties with the blacks and refused to work with them, or for men who employed them.

The white union finally determined to retaliate upon the stevedores, by offering to reduce rates and deal with the ships direct.

The smoke and fog combined made the scene almost as dark as night. The negroes were on board the ship, and had just raised the tarpaulin of hatch number 2 when the attack was made.

After the bloody work the men hurried off as fast as they had come. The white men came in a body, moving along the levee up town unmolested.

Colorado Miners Avenge a Saloon Man's Death.

PUEBLO, Colo., March 14.—A special from Walsenburg, a small town fifty-six miles south of Pueblo, says: A mob in ambush at 7:30 this evening fired on a wagon containing nine Italians who are charged with fatally beating A. J. Hixon, a saloon-keeper at Rouse, a mining camp six miles from Walsenburg, Sunday last.

Walsenburg and Rouse are both off the main line of the railroad, and attempt to secure further details have failed, because the telegraph offices are not open at night.

Some days ago T. J. Brewer, pit boss of the Rouse mine, imported a trained bloodhound, which was promptly summoned.

The white association then severed ties with the blacks and refused to work with them, or for men who employed them.

Hixon was rather popular with the American miners, and general indignation prevails. He was an Arkansas, late of Texas, and was 36 or 38 years of age.
