

THE CONDON GLOBE.

FRIDAY, MAY 17, 1896.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

August Dippel, in a letter to the Oregonian, pays Oregon the following well-deserved compliment: "In my capacity as general Western agent for a large manufacturing establishment, I have traveled all over the country west of the Rockies, and as far East as the home office of our factory. I am sure no one could feel the pulse of the country better than I have the past three months since I left Portland. No one of our citizens having the same opportunity could help saying, "I am indeed glad I live in Oregon." We are certainly more fortunate than any section I have visited in every respect, and with half the advertising done for California we should draw a vast immigration. My observation is that people seeking a place for steady abode will find Oregon better on the year's average than any state west of the Alleghenies. You cannot imagine how little is known about Oregon; her soil, and climate. I was kept busy talking about the many blessings a kind Providence has placed in Oregon. Many considered her to be near the north pole to raise anything in but icebergs, and when told the grass was ever green in Oregon, crops never failed and every lawn a rose garden, they asked me if I had land to sell, and I had to declare I only had my home there and was inspired with praise for Oregon without pay. Some good people think it always rains in Oregon, and men and women wear diving suits. I would suggest publishing the merits of Oregon plentifully, and that some steps be taken to show up the state; best of all as the home for small farmers."

The insurance war, with a devil-may-care slashing of rates by nearly all companies, reached Corvallis Friday afternoon. The signal for it to begin was the arrival of something like twenty telegrams to the Corvallis agents of various companies, authorizing them to reduce the premiums on policies twenty per cent, and so soon as the news became public a revision of policies began. All day Saturday prominent agents were kept busy changing policies and refunding 20 per cent of the unearned premium, by people holding policies, and anxious to get their insurance as low as possible. The only requirement exacted by agents of policy holders is that if they meet the cut the policy holders must insert a clause in the policy agreeing not to cancel the policy before the limit for which the insurance was taken out expires. It was learned from one agent that he was instructed to meet any cut, even so low as a reduction of fifty or seventy per cent. Policy holders who have not taken advantage of the rate slashing, will find it to their interest to call on agents. It is also a good time to insure.—Corvallis Times.

Few people know that the estimated cost of the Nicaragua canal is \$100,000,000, and that it will take six years to build it, and that the estimated traffic through it at the opening will be 5,000,000 tons, but such is the case. The canal in excavation is 2.68 miles in length; the length of basins is 21.6 miles; the length of the San Juan river, 64.5 miles; Lake Nicaragua, 56.5 miles. Few also, perhaps, know that the distance from Liverpool to San Francisco, via the Nicaragua canal, is only 7694 miles, or a saving of 6996 miles, or that the distance from New York to San Francisco, via the Horn, is 14,840 miles, and the distance between the same points by the canal route is only 4,946 miles, or a saving of 9894 miles. The completion of this canal means, to Oregon a 30 day service by steamer between Portland and New York and New England; it means that the products of the forests of the west will be laid down in the markets of the east at living prices, and that staple commodities will be brought to this coast at the minimum cost.

Don't pass yourself off as being worth more than you really are. Everybody recognizes and detests a counterfeit.—Exchange.

The price of wheat is coming up in jumps, from some cause, and it is earnestly desired that wool will follow. Producers have become tired plowing and sowing with small returns for their labor. When the products of the soil find ready sale in the market labor is well paid, and everybody is happy.

The poor man who makes enough to pay his debts and pays them instead of throwing his money away is appreciated today as much as the millionaire. The newspaper particularly has a peculiar friendliness towards the man who keeps up his subscription, even though small.—Exchange.

The president has pardoned John Hopkins, sentenced in Utah to three months in jail and \$500 fine for unlawful cohabitation. The sentence has expired, and the pardon is granted to restore citizenship.

The indemnity to be paid by China to Japan goes mostly to Englishmen who have furnished Japan with munitions of war. Wars are usually gotten up for the benefit of those who do the least fighting.

Bill Cook, the famous bandit, who has met death any number of times according to report, but who was recently sent to the penitentiary for a term of 45 years, is only 21 years old.

South Dakota is to abolish its militia. The people in these times find more use for pruning hooks and plows, than for swords, spears and pretty dudes in uniforms.

Doing business among a reading public without advertising is said to be a good deal like climbing the stairs of a 20-story building when the elevator is running.

It is said that the reason a dude smokes a cigarette is because of its light weight. The weight of a good cigar in the jaws of an average dude would break his legs.

There is but one way of obtaining business—publicly; but one way of obtaining publicity—advertising.—Blackwood

Eugene Ward: Home merchants are the best to deal with, and home industries should be encouraged and patronized in preference to all others.

The successful country publisher keeps the size of his paper down and the price of advertising up.—Nebraska Editor.

The following from the Budget indicates that Astoria is the mossback city of the state; "It would serve some of the mossbacks right if Astoria never got a railroad. They make more fuss about giving up a strip of useless land for right of way and subsidy than if it were worth a thousand dollars a square foot, while it is not worth a thousand cents a square mile without a railroad. Every deed should have been in twenty-four hours after Mr. Hammond made his last proposition. That gentleman could not be blamed if he would throw up the job, as few live men want to waste their time trying to do business with sleepy and dead mossbacks."

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stamm, 230 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stamm is foreman of Merriman's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire, and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pain. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by L. W. Darling, Druggist.
