

One Grocer has been found who says he will not handle Royal Baking Powder!

And the reason he gives is of interest to every housekeeper. It is that he can make more money selling the other baking powders! He says he can buy all other powders at from 20 to 50 per cent. lower price than Royal, while he sells them at the same price. That means when the housekeeper buys some powder other than the Royal she pays the same price, but gets a powder costing to make and worth only half as much.

It is a fact that the Royal Baking Powder is made from more highly refined, purer, and more wholesome ingredients than any other baking powder. Most of the others are made from alum. All of them contain adulterants or impurities. Absolutely pure cream of tartar and soda, as used in the Royal, cost more than impure cream of tartar and alum; hence the greater cost, as well as greater value, of the Royal.

The grocer who says he will not handle Royal Baking Powder because he can make more profit upon other powders proves to the consumer, most conclusively, the superior value of the Royal over all other brands.

A TERRIBLE VISITANT.

Pain is always a terrible visitant, and often domiciles itself with one for life. This affliction is preventable, in cases of rheumatism by a timely resort to Hostetter's stomach Bitters, which checks the encroachments of this obnoxious and dangerous malady at the outset. The term "dangerous" is used advisedly, for rheumatism is always liable to attack the vital organs and terminate in death. No testimony is more conclusive and concurrent than that of physicians who testify to the excellent effect of the Bitters in this disease. Persons incur a wetting of their feet, or snowy weather, and who are exposed to draughts and colds use the Bitters as a preventive of all disease. Malaria, dyspepsia, liver and kidney trouble, nervousness and debility are also among the ailments to which this popular medicine is adapted. For the infirmities, a refreshing and stiffness of the aged is highly beneficial.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold more than you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonial free.

TO MEET AT THE HUB

THIS YEAR'S CONVENTION OF THE SOCIETY OF CHRISTIAN ENDEAVOR.

The Historic Old City Is Preparing to Receive Its Guests in Great Style—Some of the Innovations That Will Characterize the Gathering.

The Society of Christian Endeavor will this year meet in Boston, Mechanics' hall and two immense tents being used for the gatherings. The convention proper will be held in Mechanics' hall, which has all the regular features of a convention auditorium and possesses the further advantage of connecting directly with Machinery hall, in which there will be established during the convention an immense restaurant capable of seating nearly 5,000 persons at one time.

The convention will begin on Wednesday, July 10, and will conclude on Monday, July 15, and it is believed, both by the local authorities in Boston and the general officers of the organization, that the gathering will be one of the largest and generally most successful in the history of the society. Not all the arrangements have yet been completed, but enough has been done to fully warrant this statement. Some of the features to be first introduced at this convention are here enumerated.

There will be disposed throughout the central portion of Machinery hall a large number of tables for the sale and distribution of missionary literature and religious

papers, and all the denominational boards will be asked to furnish their missionary publications for that purpose. The space in Machinery hall to be devoted to the special state headquarters will be partitioned off among the various state unions, and each will be asked to decorate and fit up its own space in some characteristic and individual fashion. Undoubtedly this innovation will add greatly to the attractiveness of the state headquarters, since if the plan is well realized it will be possible for any delegate to spend an entire day in Machinery hall with profit and pleasure.

In addition to these state headquarters in the hall, each state will have some one of the Boston churches for a rendezvous, and as soon as the delegates arrive in Boston they will register at these churches and be billeted without delay. As far as possible, the delegates from each state will be located in the immediate vicinity of their church headquarters, and no assignments of individuals will be made in advance of their reaching Boston. Some of the state delegations will be sent into the beautiful suburbs of the city. This has been decided upon, because it will be impossible to comfortably locate all in attendance within the city limits, but no doubt those located outside will consider themselves very fortunate, since the suburbs of Boston are among the most desirable surroundings of any city in America.

The observance of the occasion will begin on Wednesday evening with meetings at a score or more of the city churches. The next morning, and every morning during the sessions of the convention, there will be sunrise prayer meetings, at the same churches at half past 6 o'clock. The list of speakers who will take part in the morning and evening meetings will include the names of many of the most widely known clergymen in the country, among them being Dwight L. Moody, Dr. Harper, Dr. Talmage and others. Among the speakers who will be heard in Mechanics' hall are Dr. P. S. Henson of Chicago, who will also preside at the Saturday meeting, beginning at 9:30 a. m., for the purpose of inculcating patriotic sentiments. This meeting and two others for the same purpose, to be held at the same time in the two tents, will together form one of the most important features of the entire gathering. Hon. Elijah Morse, one of the representatives in congress from Massachusetts, will be among the prominent speakers at the Mechanics' hall meeting, and he will be followed by Bishop Walters of the A. M. E. Zion church, whose topic will be "The Responsibility of the African Church in America." At this meeting also will be presented to the societies and local unions that have done most work for good citizenship. Rev. William Patterson of Toronto will make the presentation address. An open parliament on the subject, "What Are You Doing For America?" will be led by Rev. William C. Clarke of Chicago, who was at the forefront of the crusade against the gambling dens of that city.

President Clark of the society will preside at the patriotic meeting in tent No. 1, where a feature will be the hearing of "voices" from different sections of America. Thus a prominent representative of the west will give a "voice from the west," one from the east will give a "voice from the east," one from the south a "voice from the south," one from the Dominion a "voice from Canada," and so on. The principal address will be delivered by Bishop Arnett of Mississippi. In tent No. 2 Dr. Burrell of the city of New York will preside, and there, too, will be heard five "voices" from different parts of the continent. Hon. Neal Dow, the veteran temperance man, will also speak.

At the close of the session in the main auditorium, the delegates will gather on Huntington avenue and march with flying banners and straining flags through the streets to historic Boston Common, where a monster open air demonstration will be made. The mayor of the city, the governor of the state, Dr. Donald McLaren of Detroit and other leading men will deliver addresses of a patriotic nature, and Dr. S. F. Smith, the venerable author of "America," will read the words of his noted ode, which will be sung by the multitude, led by a chorus of 5,000 voices and an immense orchestra. As a souvenir, each delegate will be presented with a handsomely illuminated copy of "America" from Miss Helen Gould, who has made the committee of 1895 a gift of 50,000 copies for this purpose. Nothing so important as this demonstration has occurred on Boston Common since the days of the Revolution. On Saturday evening there will be receptions and rallies by the state unions, in which the patriotic idea will have a prominent place.

On Monday there will be pilgrimages, a number of places made famous in the early history of Boston.

SUMMER ACTIVITIES.

If one were to attempt to enumerate and classify the sports of summer, he would have a large job on hand, but at a glance we know that thousands are engaged in these pastimes of land and water. The use of physical and muscular exertion is immense, and as a result the rough usage brings about sprains, bruises, strains, wounds and cuts, for which the greatest and surest cure is St. Jacob's Oil. All sportsmen know and acknowledge this, as also raisers and trainers of fine horses, and breeders of fine cattle. It is the sportsmen's best reliance and is kept on hand accordingly.

WOMEN ONLY KNOW

How much they suffer when nervous, weak and tired.

Nervous prostration is a lingering, rack, living death to those afflicted, though wholly incomprehensible to others. The cause of this condition is impure and insufficient blood.

Make the blood pure, give it vitality and it will properly feed the nerves and make them strong. Hood's Sarsaparilla cures nervousness because it acts directly upon the blood, making it rich and pure and endowing it with vitality and strength-giving power. No other medicine has such a record of cures.

Thousands write that they suffered intensely with nervousness and were cured by this great medicine. The building-up powers of Hood's Sarsaparilla are wonderful. Even a few doses are sufficient to create an appetite, and from that time on its healing, purifying, strengthening effects are plainly felt. The nerves become stronger, the sleep becomes natural and refreshing, the hands and limbs become steady, and soon "life seems to go on without effort," and perfect health is restored. Such is the work which Hood's Sarsaparilla is doing for hundreds of women today.
