Al Henshaw has bought 20 feet of the south side of Blake's lot adjoining his own on the north, and has had a wire fence built around it, thus greatly improving the appearance of his place.

Miss Grace Fitzwater is teaching school on upper Thirtymile—the same she taught a year or so ago. Miss Susan Dunn is teaching another term of school in the Greiner district near Mayville.

Fifty more young lawyers have been recently turned out by the supreme court at Salem. Poor things! How will they live? And if they do live and thrive, how the people will suffer!—E. O.

President Cleveland has appointed Attorney-General Olney Secretary of State and Judge Harmon of Cincinnati Attorney-General. Both have qualified and taken charge of their respective high offices.

Mr. J. C. Leasuro of Portland was here Saturday. Mr. Leasuro was appointed by the county court to assist prosecuting Attorney Jayne in prosecuting the side of the state against E. Martin.—Dalles Chronicle.

The entire class of fifty law students examined by the supreme court Saturday and Tuesday. On June 31 J. A. Richmond of Ferry Canyon had a warrant sworn out for Andrew Armstrong, charging him with larceny of a horse, alleged to have been stolen about April 26th. The arrest was made June 6th and the preliminary examination set for the 10th, in order to have time to get witnesses. The state was represented by L. W. Darling and the defendant by H. H. and H. B. Hendricks. The evidence showed that it was more of a question of ownership of the horse than a case of larceny. The facts elicited did not warrant the defendant being held to the grand jury and he was discharged and the case dismissed.

In view of the number of cases of appendicitis, causing the removal of the vermiform appendix, the following on the subject is full of interest: The vermiform appendix, or cul de sac, the deathtrap attached to the large intestines in the human and allied species, and which of late has received much attention, it is believed by some to be an organ just developing. It has been argued that the babies of three or four centuries hence will have to be operated on for the purpose of removing that useless appendage. Recent developments, however, (in dissecting a gorilla), proved that the animal's appendix vermiform was 10 inches in length, whereas in the human being it seldom exceeds three inches. From this it is argued that the appendix is really breeding out, and that the future man, instead of having that organ developed to the size of a 10-pound sugar sack, will really have none at all. —N. Y. Post.

Rev. W. H. Zellers of Fossil arrived home Tuesday from Hood River, where he attended the Dalles District Conference, which was held there last week. He stopped in Condon Monday night, and informed us that it was a very successful and interesting meeting.

Robt. Seekamp left the first of this week for a visit to his old home and family at Newark, Wisconsin, whom he has not seen since he left there ten years ago. He has been very successful in the sheep business in Gilliam county and has been "well fixed" in his time. He will probably return to this section this fall and may bring his family with him.

The time for opening the Siletz reservation to settlement has been fixed for July 25th at noon. Most of the vacant land will be subject to homestead filings. The cost of filing a homestead claim on 160 acres is \$90 and upon proving up \$1 additional per acre must be paid.

At a meeting of the K. of P. lodge Tuesday evening the following officers were elected for the ensuing six months: W. L. Wilcox, C. C.; John Blake, V. G.; S. B. Barker, prelate; Al Henshaw, M. of W.; E. E. Smith, M. at A.; Sylvan Palmer, O. G.; S. B. Couture, I. G.; C. O. Portwood, K. of R. and S.

A number of our young people spent Sunday on Thirtymile, fishing and enjoying themselves generally. Of course they didn't catch any fish—but they bagged several rattlesnakes, which they brought home in a sack and tried to "work off" onto the editor as fish; but it wouldn't work worth a cent. Thanks, just the same.

An election of officers for the W. of W. lodge took place Thursday evening resulting as follows: L. W. Darling, C. C.; Ed Dunn, A. L.; Ed Nelson, Escort; F. B. Stevens, Watchman; Steve Couture, Sentry; H. N. Frazer elected to serve 18 months on board of managers. W. L. Wilcox, Banker, and C. O. Portwood, Clerk, hold over for six months longer.

Arrangements are now all complete for the grand celebration at Condon on July 4th. Already \$125 has been subscribed, which will be used mostly for prizes in the horse races, etc. Committees have all been appointed and no pains will be spared to make the celebration a grand success and worth coming many miles to see. The program of exercises will be published next week.

Frank Robinson came over from Lone Rock Wednesday morning and in the afternoon proceeded on to Arlington on his bicycle. He informs us that the Record erred in saying that he and his wheel were obliged to ride from Olex to Condon on a freight wagon, when he came out two weeks ago. He rode the entire distance on the wheel, going the first day as far as his brother's place on Rock creek, eight miles from Lone Rock.

R. Lienallen, of Lexington was bound over to the grand jury in the sum of \$500 Friday for attempted rape on the person of Mrs. Coon Boone, of that place. As all the parties in the case stand high in church circles, the case excites more than ordinary interest. The Rev. Gregory, of the Methodist Episcopal church, was tried by that church a short time ago and found guilty of too intimate relations with Mrs. Boone. A very sensational case is promised when court convenes.

One of the most delightful parties ever given in Condon was a "sheet and pillowcase" party given the family of J. H. Miller by a large number of young folks Tuesday evening, who surprised them by all marching in on the family at their home about 9 o'clock, disguised by masks. After the surprise, all hands settled down to amusing themselves by playing games, eating ice cream, cake, etc. Mr. Miller and family expect to leave Saturday for Caldwell. They leave a host of friends who regret to see them go, but all wish them well in their new home.

One of the funniest things we know of is the silly howl that always goes up from a certain element when any kind of criminal case is tried in any of the courts, the fees of which are paid out of the public funds. In 99 cases out of 100, the parties who howl the loudest belong to the class who do not pay any taxes and who, if they had their just deserts, would be in the penitentiary themselves. If the kick is made for no other reason it is made by the loafers who imagine they have a grievance against the officers or attorneys who do the work; and as all know, such prejudiced opinion is not worthy of consideration.

A lively criminal case was heard in justice's court at Condon Monday and Tuesday. On June 31 J. A. Richmond of Ferry Canyon had a warrant sworn out for Andrew Armstrong, charging him with larceny of a horse, alleged to have been stolen about April 26th. The arrest was made June 6th and the preliminary examination set for the 10th, in order to have time to get witnesses. The state was represented by L. W. Darling and the defendant by H. H. and H. B. Utah has taken an advanced step in the matter of trials by jury. The new constitution proposes a clause providing for eight instead of twelve jurors, three-fourths of whom can return a verdict in civil actions but must return a unanimous verdict in criminal cases.

When a man in England earns over \$500 a year an income tax is imposed upon him. This is done even if he be a clerk working for hire. It does not matter whether he has a family or not. His children may cry for bread, but the income tax must be paid. In this country it is unconstitutional.

Business never was in a condition to suit everybody. Legislation can't help the man who won't work or the man who prefers to growl at everyone else rather than to make an honest industrious effort himself. Legislation cannot prevent the daily demand for bread and butter, and the first duty of every man is to learn that. The times always improve when all hands go to work with a will, stop grumbling, hunting for the bright things of life rather than its unpleasant features.—Exchange.

A meeting of the Stockmen's Protective Union was held at Condon Monday; but owing to the short notice given, only a few stockmen were present, and the meeting was postponed until next Saturday, 15, at one o'clock. All stockmen are invited to be present, as it benefits small stock owners as well as the large ones. It not only protects your stock, but enables you to find lost stock. It costs only a small fee to join, and we believe all persons owning stock will be anxious to join after hearing the constitution and bylaws read. There are flourishing unions at Mayville, Fossil and Waldron, and an effort is made to organize one in every town and city in the state. It is hoped there will be a large turnout here Saturday.

Lone Rock Riplets.

Dr. Hogan of Condon is in town. Mrs. M. C. Johnson has been very sick for some time, and is under the care of two doctors.

Our people have declared war on the ground rats in this vicinity and are poisoning them by hundreds. Tom Quaid came over from Heppner last week and received about 2000 yearling wethers in this section.

Frank Robinson of Arlington came up last week on his "iron horse," making the trip in one day without exerting himself. Wheels are fast taking the place of horses, which doubtless has helped bring down the price of horses.

Our Normal Institute.

School Supt. Kennedy this week sent the following printed letter to all the school teachers in Gilliam county:

To all persons intending to teach in Gilliam county, Or., greeting: FELLOW TEACHERS:

At our last County Institute it was voted, when next we met, to hold a Normal Institute lasting two weeks.

Under competent instructors, and they can be obtained, such an Institute will rouse our energies and better qualify us for our noble calling, and add much to the prosperity and usefulness of our schools. Without your cheerful co-operation little can be accomplished.

Therefore, let each one of us make some exertion and perhaps a little self-sacrifice, that we may accomplish a general good.

The people of Condon will be moderate in their charges for board, lodging and horse feed, and will endeavor to make it pleasant for all who attend the Institute. The Arlington-Fossil stage line will give transportation to teachers at one-half the regular rates.

We desire to hold the Institute in the Condon school house, beginning at 2 o'clock on Tuesday, July 30th, and closing on Friday, August 9, 1895, or as soon thereafter as suitable help can be secured.

That we may know what to expect and be fully prepared for the best of work, I ask each of you to answer as soon as possible. Can you and will you attend promptly and regularly? Fossil, June 12, 1895.

W. W. KENNEDY, School Supt. of Gilliam County, Or.
