The Englishman—Now, I say, why do they call America "the land of the free," you know? The New York Girl—well, I've heard papa say, because there are so many New York officials out of jail who ought to be in it.—Truth.

A great many cattle and sheep have already been sold in this county this summer and thousands more will be sold this fall. Feed has become scarce and the prospect is for shortage of hay for the winter. Consequently the effort will be to get rid of as much as possible. There is now too much stock for the amount of range which is available, and by diminishing the amount of stock the grass will improve and not so great an effort will be made to find feed for what are kept.

The Vale Gazette has the following to say concerning Rev. Atkinson, who formerly preached in this county: "This is a day of rustlers in every trade, profession and calling, and this community is one of the rustling sort. Last Sunday afternoon Rev. Atkinson held divine services in Vale and before church he went to all the saloons and invited all present to come to church and hear his sermon. He did it in a quiet, gentlemanly and unostentatious manner, and many went."

Judge Bradshaw has rendered decisions in the writ of review cases of D. B. Trimble vs. Gilliam county, for damage in running the new Thirtymile road through his ranch; and in the case of Alex Hardie vs. George Hardie, civil action to recover money. In both cases the writ of review was dismissed, thus making a victory for the defendant in the former case and the plaintiff in the latter case. The writ of review in the Hardie case was based on what was supposed to be errors in the lower court, and the Judge in dismissing the review decided that there were no errors in the lower court in this case.

"Little Phil," one of our rustling grain dealers, went out to Rock creek last Saturday. As he is rather popular with the fair sex we presume that he is basking in the smiles of some fair lady of that locality.

To Remove Stains.

Here are recipes for removing various kinds of stains, which are well worth perusal. Cut out these receipts and keep them.

Coffee, Tea and Wines—If these stains on the table linen are of long standing, and have been washed with soap, it is rather hard to get rid of them. But javelle water—which can be made at home or bought of a druggist—is generally most successful. Put about a half a pint of javelle water and a quart of clean water into an earthen bowl; let the stained article soak in this for several hours. Then rinse thoroughly in three waters. It is only white goods that can be treated in this manner, as the javelle water bleaches out the color.

Sewing Machine Oil Stains—To remove these stains rub the stain with sweet oil or lard and let it stand for several hours. Then wash it in soap and cold water.

Pitch and Tar Stains—Rub lard on the stain and let it stand for a few hours. Sponge with spirits of turpentine until the stain is removed. If the color of the fabric be changed sponge it with chloroform and the color will be restored.

Ink Stains—Tear blotting paper in pieces and hold the rough edge on the ink when it is freshly spilled, or cover the spot with Indian meal, or the liquid ink may be absorbed by cotton batting.

If the ink be spilled on a carpet, cut a lemon into, remove a part of the rind and rub the lemon on the stain. If the ink-stained article be washed immediately in several waters and then in milk, letting it soak in the milk for several hours, the stain will disappear. Washing the article immediately in vinegar and water and then in soap and water is another remedy which will remove all ordinary ink stains. No matter what substance be used to remove ink the stain must be rubbed well. If the article stained be a carpet on the floor use a brush.

Grass Stains—Rub the article stained with alcohol, then wash in clean water.

Pure cider vinegar at Barker's store.
