THE UNRULY BANNOCKS

The Department Intends to Suppress the Trouble.

SETTLERS' LIVES THREATENED

The Agents at Fort Hall and Pocatello Have Been Ordered to the Scene of Trouble at Once.

Washington, July 20.—The commissioner of Indian affairs has sent the following dispatches to agents in the Shoshone and Bannock reservations in Idaho and Wyoming:

"Tetor, Indian agent, Pocatello, Idaho—Governor Richards, of Wyoming, telegraphs that nine Bannock Indians belonging to the Fort Hall agency have been arrested, and one killed on or about the 15th instant at Maryvale, Uintah county, Wyo., for wantonly killing game, and that many other Indians are threatening the lives and property of settlers, who are moving away. Proceed at once to scene of trouble. Do all in your power to prevent open conflict. Advise me immediately. If you have any information now, telegraph the same to me before starting. (Signed) D. M. Browning, Commissioner."

"Wilson, Acting Agent, Shoshone Agency, Fort Wahakie, Wyo.—Serious trouble is reported in the neighborhood of Maryvale, Uintah county, Wyo. Nine Bannock Indians from the Fort Hall agency have been arrested and one killed for violation of the game laws. The settlers are said to be fleeing for their lives. If any of your Indians are absent in that region, have them returned to the agency at once. I have ordered the Fort Hall agent to the scene of the trouble. Co-operate with him to the full extent of your ability in every possible way. (Signed) D. M. Browning, Commissioner."

The following reply was received from Agent Tetor, of Fort Hall reservation: "In answer to your telegram of the 18th instant, I will state that on the 13th instant I received information that the Indians were killing game unlawfully in Wyoming. I immediately sent my police force in Wyoming to bring back the Indians belonging to this reservation. The captain of the Indian police sent back the policemen, who arrived today, and stated that one Indian had been killed by the settlers, and from other sources I hear several Indians have been killed. I leave for the scene of trouble at once. (Signed) Tetor, Agent."

Indians Feared at Jackson's Hole, Lander, Wyo., July 20.—There is much uneasiness in this city over the condition of affairs at Jackson's Hole. The Indians, it is reported, have sent across the range to the head of Green river for reinforcements. A considerable number are holding a sun dance at that point. Judge Jay L. Torrey, speaker of the house of representatives, sent the governor a message as follows: "Please authorize me to organize a force to go immediately to the relief of our fellow citizens at Jackson's Hole. Can be there with a force in forty-eight hours."

The France-Brazil Boundary Dispute. New York, July 17.—A special to the Herald from Buenos Ayres says: A correspondent in Rio de Janeiro telegraphs that the president of the Swiss republic will act as arbitrator between France and Brazil in the disputed question of the boundary limits of the territory of Amapa. Dr. Blanco will go to Geneva, Switzerland, on the part of Brazil.

THE SHIPPING LAWS.

About to Be Assailed in a United States Circuit Court.

San Francisco, July 20.—One of the most far-reaching legal battles ever instituted in the United States circuit court was begun by Attorney W. H. Huston today. He took preliminary steps to contest the federal shipping laws, which have for generations been held as absolute over seamen. The contest will be speedily carried to the supreme court of the United States, because it involves the rights of many millions invested in shipping industries on the one hand, and the liberties, obligations and social standing of the entire sea-faring people and sailors touching at American ports on the other.

The suit in question is that by which the four alleged mutineers of the Arago, who are in the Alameda jail, seek their liberty on the ground that they are imprisoned under an old English law, copied almost bodily in the federal statutes in 1790, a law which it is alleged is contrary to the spirit of American institutions and to the whole spirit of modern civilization. It involves the rights of masters over servants, and back of it is a contest between employers and employees, a contest the result of which will settle the status of nearly 100,000 sailors in America. The mutineers allege there is neither validity nor justice in the statute which confers on United States marshals and other officers the right to arrest them for refusing to do duty as sailors. They allege that such a statute is tyrannical and unjust and that it is unlawful discrimination against one class—since men in other gainful occupations cannot be imprisoned, fined, impressed and coerced into service for failure to comply with their contracts.

The shippers, on the contrary, allege that without some such restraint as the law imposes, Byron's "Dream of Darkness," wherein sailors lay rotting in the sea, would soon be realized, and that the American flag would be driven from the ocean and an area of chaos and pandemonium would reign.

It is the first time in American history that a court has been called upon to overthrow the admiralty and shipping laws that, copied from ancient English times, have held undisputed sway over the men who follow the sea for unbroken generations.

San Francisco, July 20.—Interest has been aroused in Oakland as to the fate of Carlos White, formerly a prosperous printer in San Francisco, who several years ago mysteriously disappeared. He left a wife, who was so sure that he was dead that she has married again. Now there are rumors that White is alive in Europe. Seven years ago White failed in business. He joined the Salvation Army and went insane. He was sent to the Stockton asylum, from which place he escaped. He was next heard of in Vermont, and later went to England. He wrote to his wife from London, but since then she has never heard from him. Mrs. White was left destitute, and recently married Walter Logan, an Englishman. She was the first child born in Columbia Hill, Cal.

The Irish Federation. New York, July 17.—The New York council of the Irish National Federation of America, met last night in Cooper Union J. B. Murphy presiding. Resolutions were adopted denouncing as idiotic folly and as covert treason any suggestion of deserting the men who were facing Ireland's foes. The meeting repudiated any yielding to faction whereby it will work in the future the same evils of division that it has in the past. All those citizens of New York whether of Irish birth or not who love justice, liberty and humanity were urged to contribute to the Irish party moral and financial support.

British Claims Against Nicaragua. Colon, July 17.—British subjects expelled from the country have made a claim for over \$1,000,000 damages from the government of Nicaragua.

REFUNDING THE TAX

Money Collected on Incomes Soon to Be Returned.

APPLICATIONS COME IN SLOWLY

The Returns Indicate the West and South Would Have Paid But One-Third of the Tax.

Washington, July 19.—The internal revenue bureau has practically completed the work of organizing and scheduling the returns received on the income tax, and will soon begin refunding the amounts paid before the law was declared unconstitutional. The applications for refund, however, are coming in very slowly. The aggregate of the returns made represent about \$15,000,000 of tax, and hence about \$30,000,000, it is calculated, would have been collected if all who were subject to the tax had sent in returns. The first decision of the supreme court, exempting debts and receipts from bonds from the operation of the tax, resulted in a loss of \$15,000,000. Had the law remained as it originally stood, the total receipts would have approximated \$45,000,000 or \$50,000,000. These returns seem to indicate that the New England and Middle states would have paid about two-thirds of the whole tax, and the Western and Southern states about one-third.

WANTED FOUR LIVES.

A Desperate Man Shoots His Wife and Himself and Wounds Another.

Los Angeles, Cal., July 19.—The little town of Long Beach was the scene of a most cold-blooded and deplorable murder at 5 o'clock this evening. Alonzo C. Meyers shot and killed his young wife and himself. He also shot Irvin Linston, the husband of his wife's sister, inflicting a wound through the arm, which is serious. He also fired a shot at Linston's wife, but she escaped uninjured. Meyers, who owned a ranch near Englewood, was said to be a drinking man, and abused his wife, who is but 20 years of age, and to whom he had been married only six months. A short time ago while drunk he beat her unmercifully and she was compelled to leave, taking up her home in Los Angeles. A week ago Linston and his wife, accompanied by Mrs. Meyers, went to Long Beach and took up a residence there. Meyers followed them there Monday, and endeavored to make it disagreeable. Today he walked with them to their home, and upon arriving drew a revolver and shot his wife dead, and then fired another bullet into her body. His next victim was Linston. Meyers then fired a shot at Mrs. Linston, but missed her, and she escaped into the house. Turning the weapon to his own head, he fired a ball through his neck, which shattered the spine, and caused complete paralysis of the limb. He died later.

The Cambridge Team Will Come.

London, July 18.—The Cambridge University Athletic Club has cabled to Yale its acceptance of the terms proposed for a contest in track athletics in America. The Cambridge team will sail on August 31, and the contests will occur October 5. Cambridge insisted on a 300-yard dash, in preference to the 220-yard dash proposed by Yale, and the Americans finally consented to this.

A Long Term for Murder.

Detroit, July 18.—William Brasseur, the accomplice of Mrs. Nellie Pope in the murder of Dr. Horace N. Pope, February 2, was sentenced today to twenty-five years imprisonment. Brasseur pleaded guilty to murder in the second degree.

ESTATES OF THE DEAD.

Sharon Trust Will Soon Be Dissolved and the Property Distributed.

San Francisco, July 19.—After an existence of ten years, the Sharon estate trust will soon be dissolved and the property distributed, except so far as it is deemed advisable to hold some portions intact, the heirs sharing in the income from these portions.

Under the will of William Sharon, a trust was created, to last ten years, at the expiration of which time the heirs—Frederick Sharon, Lady Hesketh (nee Sharon), and the two children of Frank Newlands—were to divide the property. In less than four months the term of the trust will expire, and many preparations have been made. One of the most important deals has just been consummated, or rather the last transaction of a series involving the disposal of a valuable piece of property, has been made. At one time the estate owned one-quarter of the stock of the bank of California, amounting to 7,500 shares, out of a total of 30,000. For three years this stock has been sold in small lots, until rather less than 2,500 shares remain. Now the balance, all but thirteen shares, has been sold in a block to a local syndicate of capitalists, at the market rate of \$20 a share, involving a transaction of about \$500,000 in round numbers.

THE MORA CLAIM.

A Diplomatic Scandal Said to Exist in Connection With It.

New York, July 17.—A special to the World from Washington says: "Spain's payment of the Mora claim, as indicated by cable, will at least defeat the intrigues of American and foreign claim sharps. For years a coterie of diplomats at Washington and Madrid have sought to make the settlement of this historic award conditional on the acknowledgement of counter claims by the United States.

"The story of all this plotting to mulct the government brings to light a serious diplomatic scandal and shows how the Mora claim has secretly been made to figure as an important incident in a scheme for securing the transfer of Cuba to the United States. Nathaniel Page, the well-known international lawyer, who for years has represented the Mora family, furnishes documents and letters which seem to throw a flood of light on the obstructions interposed to prevent the payment of the Mora award. Mr. Page specifically charges ex-Secretary of State and Minister to Spain John W. Foster with this work. Mr. Foster has denied the charge and Mr. Page now comes forward with papers which he claims substantiate the charge. Mr. Page, however, charges that several Spanish ministers of this country, as well as attaches of the French legation, obstructed the Mora interests and did all they could to induce him to hold up the Mora claims.

"Mora is living in West Sixty-third street, New York, with his daughter."

New Line to Mexico.

City of Mexico, July 17.—The Mexican government has granted an important concession for a new steamship company, to be called "The Munson Steamship Line to Cuba and Mexico," which will ply between ports along the Atlantic coast of the United States and points along the Mexican coast.

New York and Philadelphia are named as the probable terminal points, but it is expressly stated that the company is permitted to select other stations. The contract names the Mexican ports of Tampico, Vera Cruz and Progreso, and may also touch coming and going at Tuxpan, Alvarado and Tlacotalpan. There must be in the Mexican capital an agent with full powers to decide questions that may arise between the Mexican government and the company, besides agents at the Mexican ports, at which the steamers will touch. The company is given power to increase the number of its steamers touching Mexican ports to ply between Progreso and Cuba whenever it shall be convenient.
