GLOBOSITIES.

H. B. Hendricks made a trip to Olex Wednesday on legal business.

Circuit court for Gilliam county convenes at Condon on Sept. 16th.

Deputy Sheriff Tom Johnson made a business trip to Arlington today.

Charley Snipes of The Dalles was in this section last week on business.

Rev. Curran will preach at Condon next Sunday, morning and evening.

The Ladies Aid Society will meet at the home of Mrs. Frazer next Wednesday.

E. I. French of Beecher Flat is painting our new church a beautiful white this week.

City Marshal Livingston is under the weather this week, perhaps the result of an overdose of melon.

Steve Couture left last week for Adams, Umatilla county, where he will sojourn about two or three weeks.

"Uncle Tommy" Watson of Fossil was a passenger on today's stage, enroute to Cosmopolis, Wash., to visit his sister.

Mrs. L. Parker visited her relatives at Fossil several days last week. Her mother returned home with her for a short visit here.

Mr. and Mrs. C. B. Durbin left today (Friday) for a few days' visit with relatives and friends in Fox Valley, Gilliam county.—Antelope Herald.

W. A. Goodwin desires to thank, through the GLOBE, those kind friends who assisted in so many ways during the sickness and death of his wife.

What is supposed to be incendiary fire destroyed 30 tons of hay belonging to Charley McAllister, on his John Day ranch, near Croy, Friday night.

Miss Hattie Hoover left here Saturday for Portland, where she will visit her sister, Mrs. Mamie Relsacher and other relatives a couple of weeks.

Mrs. Geo. L. Taylor of Rock creek visited her parents here several days this week while her husband was at work on his homestead near Mayville.

The poor are always with us, ditto the man who cannot help remarking every time he meets you that it is hot, when we are painfully aware of the fact.—Ex.

J. D. Tanny, who purchased the harness shop and tools at Antelope formerly belonging to Chas. F. Perrin, is now prepared to do all kind of work in his line.—Herald.

Mrs. Frazer and children visited at the home of Mr. and Mrs. Chas. B. Sears in Buckhorn this week. H. N. went over Wednesday and brought them home next day.

Miss Cora Myers received as a present from her parents Thursday, 15th, her 15th birthday, a magnificent 6-octave Earhuff organ, for which Mrs. E. L. Taylor is agent.

Henry R. Ramsay and wife of Beecher Flat left Tuesday for a six-weeks' visit in Linn county, going "the mountains across." Henry may conclude to kill a few bear and deer on the way.

L. L. Shelley of Mayville made final proof on his homestead and a timber culture Monday before the county clerk, with Arthur D. Haley and Henry Beck as witnesses.

According to the weather summary the hottest place in the state during May was Arlington, Gilliam county, where the thermometer averaged 58 degrees.—Dalles Chronicle.

L. Parker, our stage man, visited The Dalles and Goldendale this week for the purpose of seeing about having two new stages built for the Arlington-Fossil mail route. He may visit Portland also before his return.

L. W. Darling Monday presented the GLOBE force with a box of six finely-flavored apples as we have ever eaten. They were raised on his fine Hay creek ranch, on which is a 5-acre orchard of choice fruit of all kinds.

W. L. Richards, our new photographer, is a good artist and is turning out some excellent work. His prices are very moderate, and as he is a deserving gentleman he ought to receive liberal patronage from the public.

An exchange thinks "the name of the state of Washington should be changed to avoid the constant confusion of the mails." It would be doing a simple act of justice to call the great state Whitman, in honor of the man who saved it to the Union.

We learn that a number of farmers on Beecher Flat will have from one-half to two-thirds of a crop of wheat this harvest, and that several headers are humming over there now. There will be more grain threshed in this county this fall than some people imagine.

Pendleton and Baker City each suffered heavy losses by fire within the last week. We desire to caution our citizens to use the utmost care to prevent fire, as everything is as dry as powder and should a fire get started now, our town would be wiped off the face of the earth.

We learn that L. Parker's dog has "gone mad" and several persons and children have narrowly escaped being bitten by him. No time should be lost in giving him a dose of cold lead, if such is the case. Later, Mrs. Parker just now informs us that it is a mistake, that there's nothing wrong with her dog.

Supt. Kennedy informs us that the August apportionment of school funds for this county, including state and county funds amounts to about \$3 per scholar. There are between 1300 and 1400 children of school age in this county this year, which is an increase of about 15 per cent over the number last year—1194.

The ice cream sociable and entertainment Thursday night was a very successful affair, socially and financially. A delightful and interesting program was rendered which was greatly enjoyed by the large audience. Exactly \$37 was netted from the sale of ice cream, which will be used in furnishing our new church, which will soon be completed.

Bill Brown and Bill Barr this week will deliver at Arlington 100 head of large hogs, which they sold to the Portland Meat Co. at 3½ cents a pound. They have over 100 head left yet at their Ferry Canyon "hogery." There is more money in raising hogs now than horses, if not cattle and sheep. Why don't more people try the change or experiment?

Died, at Condon on Saturday evening, August 10, 1895, Mrs. W. A. Goodwin. The burial took place in the cemetery Sunday evening at 5 o'clock. Our minister being absent at Lexington, the funeral rites were postponed for several days. The deceased leaves a husband and two little sons and a number of relatives in this section to mourn her untimely death.

Supt. Kennedy is conducting the regular quarterly examination this week, assisted by Miss Bird Downing and Silas Keeney. Six applicants are being examined—Miss Belle and Nora Coleman of Idea, Ethel Parman, Daisy Downing of Condon, Eddie C. Ward and his sister, Miss Minnie V. Ward of Bickleton, Wash. If successful, Miss Ward will apply for the school in the Fin Thomas district, near Olex.

J. H. Miller of Caldwell stopped in Condon the first of the week, on his return home from Portland, where he had been to purchase a stock of goods for his new furniture store at Caldwell. Ed Trimble, his clerk, accompanied him, both leaving on Tuesday morning's train. Mr. Miller informed us that he and his family were just 12 days on the road in driving from here to Caldwell, and that all of them are well pleased with their new home.

Buy at home is a good motto for any community, and one that will insure growth and development. Without this doctrine is put into actual practice no city can expect to prosper, or reap the full benefit of its natural resources. Every dollar that is sent out of the county for an article that can be purchased of local dealers is that much lost to the circulating medium, and the result will be that foreign towns will grow rich at the expense of home communities.

The fiery fiend got in its work at Harney city last Saturday night, and before the flames could be subdued the entire town was destroyed. Harney, like many other exterior towns, had no fire protection, so when the flames got beyond control, the people had to stand aside and watch their property go up in smoke. Harney City was at one time the county seat of Harney county, and was an excellent town, but as it is completely wiped out of existence, it is thought no effort will be made to rebuild it.

Wednesday night of last week the Transfer Hotel at Pendleton was burned and with it four guests perished—G. H. Clacking of Cascade Locks, Ben Breeding of Walla Walla, "Old Wolf," an Indian policeman; and Wm. Stevenson, an unknown. Since that time there is a suspicion that Clacking was murdered and robbed and to hide the crime the building was set on fire. Two young men—"Kid" Moore of Pendleton and Frank Whetstone of Heppner, are in jail at Pendleton, charged with the crime of murder.

Some men are worth a good deal more dead than when alive. It has been ascertained lately by scientific investigation that about twelve to fourteen ounces of calcium is dispersed throughout the human body, and as calcium is worth \$150 per ounce, or from \$1800 to \$2000 per individual, why not take all the loafers, vags, drunks and "no goods" in general and extract the precious metal from their carcasses? Talk about intrinsic value! Here it is and only needs to be pressed out and coined. We are appalled when we ponder over the amount of wealth that could be extracted from certain classes in this section who would be worth more to the community dead than alive.

The following from the Lincoln county paper will interest the people of this county who know Ben Hayden, the well-known Salem attorney: "An interesting little anecdote not down on the dock: et occurred in the court room at this place Saturday. Hon. Benjamin Hayden—who if not a ladies' man is nothing—in bidding adieu to one of our most estimable ladies, let his gallantry and admiration for the fair sex get the better of his discretion, and planted a kiss on the lady's cheek. The lady sprang back and planted her parrot on the spot on Mr. Hayden's head where hair is supposed to have grown years ago. The court frowned, the lady retreated, the spectators gave a big laugh, and the amorous and aged attorney actually blushed—a thing he had not done before for at least twenty years."

Messrs. Cox and Edwards went up the river hunting and succeeded in bagging about twenty sagehens, which they distributed on their return among their friends.

Institute Resolutions.

(Continued.)

The County Normal Institute at Condon closed Friday, Aug. 9, 1895, by adopting the following resolutions:

Resolved—That the thanks of each and every member of this institute are extended to Pres. M. G. Royal, of the Eastern Oregon Normal School, for the able, courteous and successful manner in which he has conducted the Gilliam county Normal Institute of 1895.

Also our thanks are extended to our worthy County Superintendent, W. W. Kennedy, for the able manner in which he has initiated and brought to successful termination this our first Normal Institute. Thanks are also given to the music committee and those members of the institute that have come forward and acted as instructors.

"The Fellow Who Has Killed Himself."

We have had a little experience along the line of making more newspapers grow where there was only room for less and it doesn't pan out. Of course it's nice to have some fellow pat you on the back and say, "start in old boy we'll stand by you. It won't take long to run that other fellow out, he's killed himself." And when the new paper is started these same friends come around and pat you on the back again and say, "that's the stuff, you've got the best paper ever published in this town. Put my name down and send another to my brother back east, Rufus Neverpay, Deadhead, Illinois. Now I'm going over and stop that other paper." Out he rushes, forgetting of course to pay either his subscription or the one to his brother in "Illinoi," and after a while you begin to wonder how long it will be before the "other fellow who has just killed himself" will begin to "run out." Just then the express man brings in your "prints" with "C. O. D. \$24.50" marked on the package and the next morning your paper comes out with a double headed article on top of the editorial column "Owing to lack of patronage, etc., etc." Next day you pass by the office of the "fellow who has killed himself," and note that there are several fonts of new type being unloaded at the door and the "fellow who has killed himself" stands just inside the door with a subscription book in his hand on which you can read the name of your "friend" Neverpay with six years' subscription behind it. Try it once and see what a lively corpse "the fellow who has killed himself" will turn out to be.—Linkville Express.
