They Call Her the Storm Spirit.

"There is a storm spirit in Kentucky," said R. C. Babbington of that state. "It is not a spirit in reality, but a woman who is known throughout that section by the name of the storm spirit." She stands when a storm is portended upon a prominence overlooking the Kentucky river in Morgan county, and her appearance is regarded as an infallible sign that rough weather may be expected. I saw her once and will never forget how she looked as she stood upon a rocky ledge, her face turned toward the sky as if beseeching some unseen power, her long hair floating in the breeze, her face pale and emaciated, but her expression firm and resolute.

"My guide, who was conducting me through the mountains, said sententiously: 'I reckon we'll have a storm. That air the speret.' From several sources I learned her history. Once the belle of the mountain side, she had plighted her troth to the young man of her choice. He left for Frankfort on a raft and was never heard from afterward. For many weary months she awaited his return, and then they told her the truth—that he had been drowned in the treacherous river. Then reason deserted her, and ever since, when a storm is portended, she goes upon the rocks and appears to plead with the elements to stay their fury that her lover may return."—St. Louis Globe Democrat.

Small Opportunities.

Opportunity was well pictured as a man running, his hair as well as his garment streaming in the wind. Whoever would seize him must clutch his hair and hold fast, lest opportunity should slip out of his grasp. Our opportunities for little pleasures, the small delights of life, come constantly to every one. Yet so fleeting are they that they disappear as swiftly as we perceive them. Therefore we cannot wait a day or an hour to grasp whatever pleasure life offers us. Stop and enjoy quickly the sunshine, the sweetness of falling rain on the thirsty earth, the colors of the sunset, the solemn light of the stars, the heartiness of the evening gathering, the brightness of the warm, well ordered home, the cordial greeting of friends, the exchange of sympathy from heart to heart, the unconscious grace of little children—the happiness that comes from perceiving these things and possessing the ability to make the most of them.

Do not wait to enjoy these until tomorrow or next week, or even until your present employment is finished. The auspicious time is now. The leisure of the busy man or woman is as great today as tomorrow.—New York Advertiser.

Suspiciously Bostonese.

"I desire to insert this small advertisement in your paper tomorrow morning," she said.
"This," said the advertising clerk, looking it over, "will go among the 'wants.'"
"Have you no 'wish' column?"
"No, mum."
"Then, sir," said the young lady haughtily, "you need not insert it. I simply wish a situation as governess—that is all. It is not a case of want. Is there any newspaper printed in English in this place?"

GREAT BOOK FREE.

When Dr. R. V. Pierce, of Buffalo, N. Y., published the first edition of his work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, \$1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now distributing, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published. The recipient only requires to mail to him, at the above address, this little coupon with twenty-one (21) cents in one-cent stamps to pay for postage and packing only, and the book will be sent by mail. It is a veritable medical library, complete in one volume. It contains over 1,000 pages and more than 300 illustrations. The Free Edition is precisely the same as those sold at \$1.50 except only that the books are bound in strong manilla paper covers instead of cloth. Send now before all are given away. They are going off rapidly.

DR. ZAHM ON EVOLUTION.

His Liberal Views Have Created a Sensation in the Roman Catholic Church.

Rev. Dr. J. A. Zahm, professor of physical science at Notre Dame university, Indiana, has long been noted for his extreme liberalism on the relations of science to the teachings of the Roman Catholic church, but his recent lectures on evolution at the Catholic summer school in Plattsburg created a decided sensation by reason of the novel and unorthodox opinions advanced. Conservatives are breathing hints of heresy, and rumors of a possible church trial are freely circulated. The doctor and his friends, however, profess to fear no such result. The following portion of the doctor's lecture is one to which exception has been taken:

"The evolution of the body of man from some inferior animal and the subsequent endowment in this body by God of a rational soul is antagonistic to no dogma of faith and may be shown to be in harmony with the teachings of St. Thomas. The theory may encounter certain grave difficulties in the domains of metaphysics and Biblical exegesis, but I do not think that such difficulties are insuperable. At all events, whatever 'one' may be disposed to think of the theory, it is well always to bear in mind that it has never been condemned by the church, although it has been publicly discussed and defended for full five and twenty years."

Father Zahm's degree of doctor was lately conferred upon him by the pope, proprio motu, and it is an interesting fact that the only other scientist upon whom this honor has been conferred from the Vatican is St. George Mivart, whose excursion into forbidden fields of belief and its sequel of reprimand and recantation are well remembered. It is asked by not a few whether such a fate is not in store for Dr. Zahm.

Dr. Zahm was born of German and Irish parentage at New Lexington, O., in 1841. In 1871 he was graduated at the Notre Dame university and soon afterward entered the Congregation of the Holy Cross, which was founded at Notre Dame 50 years ago by the celebrated Father Sorin. For a quarter of a century Dr. Zahm has been professor of physics in the faculty of his alma mater. During that time he has traveled widely and has contributed largely to scientific and religious periodicals. He was the first American to be elected a member of the Societe Francaise de Physique.

SOLDIER STATESMEN.

Democratic Candidates For Governor in Mississippi and Iowa.

Two lawyers and ex-soldiers are the Democratic standard bearers in Mississippi and Iowa this year. Mr. Anselm J. McLaurin, the candidate for governor in Mississippi, was born in Rankin county, that state, in the spring of 1848. He is of Scotch lineage. In 1864 he went to the Somerville institute, a private training school for boys, but remained there only a few months, when he enlisted in the Confederate army. At the close of the war he resumed his studies at the Somerville school, graduating in 1867 at the age of 19. He returned to his humble log cabin home, his father being a farmer then living in Smith county, and assisted in repairing the losses entailed by the war. For a year he worked by day on the farm and read law at night by a pine knot fire. In the following spring he went to the county seat at Raleigh, where court was in session, took the required examination and was admitted to the bar. In 1871 he was elected state attorney for the Fifth judicial district, serving the full term of four years. Seeking a broad-

er field, he moved to Brandon, where he formed a law partnership with General Robert Lowry. He has gained distinction as a criminal lawyer, having been engaged in nearly a hundred murder cases. He was elected to the state legislature in 1879, and in 1888 was chosen elector at large on the Democratic ticket. He was a prominent figure in the state constitutional convention in 1892. In 1894 he was elected United States senator to fill Senator Walthall's unexpired term.

Judge W. I. Babb, the Iowa gubernatorial candidate, was born in Des Moines county Oct. 2, 1844. In 1860 he went to Mount Pleasant, which has since been his home. He served two years in the Union army as a private in the Eighth Iowa cavalry during the war of the rebellion. He was educated at the Iowa Wesleyan university, receiving his degree in the classical course in 1866. He immediately began the study of law and was admitted to the bar in 1867, establishing himself in Mount Pleasant, where he has since practiced his profession. In 1888 he was elected to the legislature from Henry county and has since served two terms as circuit judge. Judge Babb is a member of the board of trustees of the Wesleyan university, his alma mater, and is well known in Iowa through his labors in behalf of that institution and in connection with the Methodist church. He was a Republican until 1868, since which time he has been a Democrat.

Japan's Multitude of Gods.

Shintoism is the old, vague, Japanese religion—a pretty, childish folklore, which was long overshadowed by Buddhism. At the time of the revolution of 1868 it came to its own again and is now widespread throughout the empire. "Shinto" means "the way of the gods," and those gods are innumerable. The worshiper chooses those who suit his purpose from among them and leaves the others, as far as he is concerned, almost neglected. Its sects do not worship an identical god in different ways, but rather adore different gods in an identical fashion. Some practice possession—that is, they call down the divinity by throwing one another into trances, in which the god is supposed to visit the body of the person possessed. Others have the custody of the great shrine, yearly visited by hundreds of thousands of pilgrims.—Perrival Lowell.

Every Mother Knows It.

Mr. Dinwiddie—I see that Mrs. Gladstone has written an article on children, in which she says they need change.

SWEPT BY A CYCLONE

Of approbation to the plaudits of popularity, how the Stomach Bitters has acquired a commanding position, which has occasionally made it a bright and shining mark for knaves, who seek to fast upon the community as upon a lamb, in the guise of the skin of the real article. To us are usually local blunders or errors of great import, and of our devoid of the divine left eye. Beware of tamers and get the genuine Bitters, a real remedy for malaria, a malarial, kidney trouble, dyspepsia, nervousness, constipation and biliousness. Physicians of a sincere every where commend the great merit, both for its remedial properties and its purity. A wineglass thrice a day will soon bring vigor and regularity to a disorder and embelished system.

Teacher—If your father was to hear of you had done it, it would make his hair turn gray. Boy—But your father, sir, my father hasn't any hair left.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.
