

THE CONDON GLOBE.

FRIDAY, SEPTEMBER 20, 1905.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

A prominent and long-established business firm has as its motto: "Keep everlastingly at a thing brings success." They began in a small way, and by twenty-five years constant, earnest work now stands almost at the head of their line of business in the whole land. Others who began with more capital and as much brains worked well enough for a time, then lagged in their efforts, dwindled along and dropped out of the contest. We need not go beyond the limits of this state, this county or this town to find examples of what may be done by persistent effort, and to prove the assertion that those without industry, energy and economy have failed, do fail and will fail to become either prominent or prosperous. Workers always come out ahead.

Texas has a constitutional provision that a citizen of that state cannot mortgage his homestead of 200 acres or less, or pledge it for debt in any way. If he mortgages it the mortgage is not valid under the laws of Texas. If men were not allowed to mortgage in any part of the country there would be greater prosperity among the people at all times. The custom of mortgaging and bonding the land, the source of all wealth, is the great abuse of social condition. It is the author of the idle rich and worthless tramp.—E. O.

In France, a man with an income of \$4,000 a year pays \$1,000 in direct or indirect taxes. Such taxation in this country would raise a storm of protests and it would be proclaimed from a thousand stumps and through ten thousand journals that the people were taxed to death and that the country would soon be involved in ruin. However that may be, it is nevertheless a fact that the French, with all their taxes, are about the most prosperous people in the world.

It is stated by the press that Cuba is willing to pay \$300,000,000 to Spain for her freedom. Think of a people as intelligent as the Cubans are having to buy their freedom in this nineteenth century.

Texas is first in cattle, with 6,201,552; Iowa is second, with 4,895,550; Kansas is third, with 3,188,088.

An exchange says the composing room is an excellent school for boys and those parents who cannot afford to keep their children in school after reaching the age of fourteen or fifteen years could not do better than to put them in a printing office to learn to set type. Not only do they have the opportunities for learning to read and spell, but they have chances for acquiring a fund of general information. The best editors of today are those who learned to set type, and from the composing room have gone some of the brightest men that the world has ever seen. They may be found in all the higher walks of life, in the judiciary, in the legislative halls, in the pulpit and on the platform.

Mrs. E. E. Davis, of San Miguel, Cal., says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me. For years I was a constant sufferer from weak lungs and bronchial asthma. My rest at night was disturbed by a hacking cough, so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case. I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the large size have been used I am pleased to state, my health is better than it has been for years. The soreness has left my lungs and chest and I can breathe easily. It has done me so much good that I want all who are suffering from lung troubles, as I was, to give it a trial." For sale by L. W. Darling, druggist.
