

THE GONDON GLOBE.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

FRIDAY, JANUARY 3, 1896.

BEWARE OF CHINESE SUGAR

One of Gilliam's most prominent merchants furnishes us the following, with a request to publish it, in order to put the public on its guard against using Chinese sugar, which is a notoriously unclean and unhealthy article and full of disease germs. Large quantities are shipped to this coast from China billed as "merchandise," in order to deceive the public, who buy it thinking they are getting first-class American sugar. This article is well worth perusal by everybody who uses sugar, and that means about everybody.

The curiosity of the unwary reader is not aroused when he sees among other items of cargo reported by the agents of the Asiatic steamers, "8600 pkgs merchandise." There is tea, silk, spices, and "8600 pkgs. merchandise"? Yes; and there is nothing to be concealed in their importation. But with sugar it is different. Secrecy is the watchword. The public must not know that Chinese sugar is being dumped upon them. Why? Because the public don't want it.

The steamer Strathnevis, which arrived at Tacoma on Oct. 8, brought in her cargo 8600 packages "merchandise," or "860,000 pounds of Chinese sugar, and importations of this same secret "merchandise," since July 1, into Oregon and Washington, have amounted to 48,340 bags, or nearly 5,000,000 lbs. valued at nearly a quarter of a million dollars.

Where has it all gone? How many people know they are buying sugar from the plague-ridden Orient with its poorly paid and poorly fed labor?

The same secrecy exercised by the importer is exercised by the grocer and by every one that handles it, and the public becomes a large consumer of an article that it knows nothing of, and would not buy if it knew what it was getting. And yet there has been imported in the last 3 months 6 lbs of this sugar for every man, woman and child in Washington and Oregon.

Why does the grocer handle it? Not a single wholesale grocer of any standing in the Northwest does, but retail grocers, in their anxiety to buy cheaper than their neighbors have allowed their avarice to get the best of their patriotism and good sense. They buy it because it is cheaper, and they can make 2 to 3 cts. on a dollar's worth. Do these grocers sell this sugar any cheaper? Did you ever see in your grocer's store 2 bags, one marked "American sugar," and the other "Chinese sugar"? No! They buy it at an insignificant difference in cost and sell this "merchandise" as sugar at the same price as American sugar. For a little extra profit they sell the public an article that they dare not call by name.

Secrecy is the watchword. The public will not have this "merchandise" if they know what it is. Therefore they must know what it is.

There are few people who will buy sugar from plague and vermin-ridden China when they get a better article at practically the same price made at home, and it is because the public don't want this product of coolie labor that it is handled in the dark, sold in the dark, concealed by the importer, concealed by tradesman. There is probably not one reader of this article who has not purchased Chinese sugar, thinking he was getting a clean American product made by clean American labor. Who reaps the benefit of the deception?

A few honest grocers here and there display cards: "We handle American sugar only." Many grocers sell Chinese sugar thinking they do nothing wrong. That is all right, so long as the customer does not ask what he is getting or specify American sugar. If the customer asks, they tell him it is Chinese sugar, with a very few exceptions.

Nevertheless, it remains a fact that this immense quantity of sugar is dumped in here, and sold, and no one even sees or hears of it.

The American people are protectionists in theory and in fact, and are not so inconsistent as to frame laws to shut out the products of pauper labor, and then turn round and buy, at practically no difference in price, an everyday staple food product from the most poorly paid, the most degraded, the most filthy labor on the face of the earth.

Hardly a freetrader would be so un-American as to patronize such products, although he does not believe in keeping them out by law, and he can well point his finger of scorn to any one professing to believe in protection to American industries who brings to his own house and family sugar from China. Suppose the grocer gave his cus-

tomers the benefit of the lower price, and gave them one more pound of Chinese sugar than of American sugar for \$1, few families would save over 30c a year. It is ridiculous, and no one will listen to it. Hence the secrecy. Hence the "merchandise." This is why no grocer asks you which you will have, American or Chinese sugar.

Let every American stand for American goods. Find out what you are getting. At least pay for what you get, and get what you pay for. That is the kind of protection that protects.

The government in order to protect its citizens against practices of this kind requires that all imported goods shall be plainly marked with the name of the country from which it came. But little sugar is sold in original packages, and the good effect is lost. If you buy a bag of Chinese sugar, you will find in the middle of the bag the words Hong Kong, provided your eyesight is good and provided it has not been marked over with a marking brush.

A change will come about when every customer asks what sugar he is getting, and insists on getting his money's worth and lets the light in on this secret "merchandise."

There is spent for labor alone on the Pacific coast \$500,000 annually by American refineries. They buy Washington coal, Oregon barrel stock, paper, etc., and in a great many ways the distribution of this vast sum of money is of benefit to our communities.

The first question to ask oneself is, what can I do to help my fellow man, my fellow workman and the country in which I live? First, by knowing what sugar you use yourself, and secondly by seeing you are supplied with no other than the American-made article, made by American workmen, in American cleanly factories, operated by American capital, paying American wages, in good American coin, and keeping that American money at home, not sending it abroad to support the corruption and corrupting influences of a nation stained with infamy, blackened by disease and odorized with the death of its inhabitants.

We have here in our glorious state of Oregon, as evidenced by the exposition of the Manufacturers' and Producers' Association just closed, one of the greatest fields for beets in this or any other country. In rejecting the coolie-made stuff called sugar, and buying only American made goods, you are encouraging and strengthening the hands of your neighbor farmer and building up an industry which you will yourself share and in time realize the greatness of the soil upon which we live and which God has blessed with a special providence as uncompassed on the face of the globe.

One cause for so many poor papers is the fact that when a man has proven a failure at everything, he tries the newspaper business as a last resort.—Exchange.
