VOL. 5. CONDON, GILLIAM CO., OREGON. FRIDAY, JANUARY 17, 1896. NO. 44.

A MARVELOUS DISCOVERY.

A Light Which Will Penetrate Organic
Substances.

New York, Jan. 9.—A dispatch to a
local paper from London says: The
noise of war's alarms should not distract
attention from the marvelous triumph
of science which is reported from
Vienna. It is announced that Professor
Rontgen, of the Wurzburg university,
has discovered a light which, for the
purpose of photography, will pene-
trate flesh and most organic substances.

The professor has succeeded in photo-
graphing metal weights which were in
a closed wooden case; also a man's
hand which show only the bones, the
flesh being invisible. The Chronicle
correspondent says the discovery is
simple. The professor takes a vacuum
glass pipe with an induction current
going through it, and by means of rays
which the pipe emits, photographs on
ordinary photographic plates. In con-
trast with the ordinary rays of light
these rays penetrate organic matter and
other opaque substances just as ordi-
nary rays penetrate glass.

He has succeeded in photographing
hidden metals with a cloth thrown over
the camera. The rays penetrated not
only the wooden case containing the
metals but the fabric in front of the
negative. The professor is already
using the discovery to photograph
broken limbs and bullets in human
bodies.

counts about 2,000 Christians were

A large meeting of the Allegheny
County Bar Association was recently

A special from Washington says: A
more important issue than that over the
Venezuela boundary may be raised be-
tween the United States and Great
Britain if recent reports from Nicara-
gua shall be confirmed by later develop-
ments. The substance of these re-
ports, sustained by important evidence,
is that British interests are reaching
out for the control of the Nicaragua
canal, and that the government is be-
ing urged to annul the charter to the
existing corporation.

The whole Cuban island outside of
the city of Havana is now in the hands
of the insurgents. They have not an-
nihilated the Spanish forces, nor have
they routed the whole army in any
single pitched battle; yet the situation
is practically in their hands, and so
completely have they outgeneraled the
Spanish that, to all appearances, Mar-
tinez Campos army might as well be
in Spain for any check it has upon the
movements of Gomez's army.
