

THE CONDON GLOBE.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

FRIDAY, JANUARY 24, 1896.

A special from Washington says: A new machine gun has been adopted for use on naval ships which the small arms board reports to be the most destructive weapon firing a bullet of its caliber yet found. The gun has a record of 420 shots a minute, and requires no work except the pressure of an electric button to maintain the terrific fire, the automatic system having been applied to it. The gun is a self-feeder, and grinds out shots with a rapidity that will make it a most dangerous piece for landing parties. As compared to the Gatling, which has been the naval machine gun for years, it is just about as superior as the modern rifle gun is to the old smooth bore. The Gatling has a weight of 350 lbs, while the new gun weighs only 35 pounds, and can be taken by a man on his shoulder and easily carried from point to point.

Utah starts out with a constitution differing in several important points from those of other states. For instance, it provides that juries shall consist of eight men instead of twelve, and that in civil cases three-fourths of the number may render a verdict. Another provision is to the effect that the state shall never go into debt exceeding \$206,000, except in case of insurrection, and guarantees to every citizen the right to obtain employment whenever possible, and makes any interference with this law a crime. Women are granted equal suffrage in the new state.

Monday's Telegram says: J. R. Cox, of Pendleton, was arraigned before Judge Belling, yesterday, on a charge of cutting timber on government land. He was defended by Mr. M. A. Butler, of Pendleton, and it being shown that he had tried to enter the land as a homestead, and the cutting of timber was done in good faith in the line of improving the claim, he was discharged.

When England's aggression took violent form on the Venezuela question, France and Germany thought we were making much ado about nothing. But when it broke out in Africa, both got as mad as a wet hen. It makes a difference when one's own ox is gored.

A Montana cattle raiser says business was never so good in his line as it was in 1895. He sold all the beef cattle in good condition he could get hold of at an average price of \$37 a head. These cattle were shipped to Eastern markets.

Europe has her war paint on. It would take but little to plunge her great powers into war. The jealousies and animosities of centuries are such that they are ready to fly at each other's throats on short warning.

A citizen of the United States who is not first of all an American, should be encouraged at all times to quit the country, since his absence therefrom is clearly for the country's good.—Oregonian.

A dispatch from Senator Mitchell informs us that his bill protecting the rights of settlers on railroad lands who have fenced or made other improvements upon the same, passed the senate.

The Doctor Out of town When Most Needed.

Mr. J. Y. Schenck, editor of the Cad-do, Ind. Ter., Banner, when his little girl two years of age was threatened with a severe attack of the croup. He says: "My wife insisted that I go for the doctor, but as our family physician was out of town I purchased a bottle of Chamberlain's Cough Remedy, which relieved her immediately. I will not be without it in the future." 25 and 50c bottles for sale by all druggists.

The secretary of the Elkhart Carriage and Harness Mfg. Co., of Elkhart, Ind., informs us that their prices will be lower for 1894 than ever. He wishes us to ask our readers not to purchase anything in the line of carriages, wagons, bicycles or harness until they have sent 4 cents in stamps to pay postage on the 12 page catalogue. We advise the readers of this paper to remember his suggestion.
