The democratic and republican state conventions will be held in Portland on the same day—April 9th.

F. A. Palmer and family, who spent the winter here, moved the first of this week to their ranch at Ajax.

Ed Compton of Lone Rock was in town Monday on business. Read his notice to sheepmen in this issue.

The bicycle will never take the place of the old fashioned top buggy for courting purposes. It takes both arms to guide the bicycle.—Exchange.

All timber cultures that were filed on after Sept. 15, 1887, must be advertised the same as a homestead notice before final proof can be made on them.

Wm. Galloway, the democratic nominee two years ago for Governor, has been appointed receiver of public moneys at the Oregon City land office.

"A Florida man has a farm of alligators," says a Southern paper. By and by this announcement will be made: A farm of alligators has a Florida man.

One of our exchanges says if you think the law don't make money, just go to making it yourself, and see how quick the law will put a stop to your operations.

Miss Daisy Downing did not return home last week with her parents, having stopped off to visit her sister Dora at Forest Grove a few days. She is expected home today.

The A. P. A's of Butte, Montana, have decided that at this age of the world there is no further need of religious strife, and as a consequence have given up their charter.

The A. P. A. profess to be a non-political organization, yet they seem to be taking a very active part in municipal elections throughout the country.—Mitchell Monitor.

Prof. Saunders, the piano and organ tuner, is in this section again. We'll bet a last summer's bat that he can "knock the sox off" of anything in this county playing checkers.

A number of our young folks attended the drama "Ten Nights in a Bar Room" at Mayville Friday night and all say the play was most excellent and well worth the small admission price.

The democratic party is by no means short of presidential timber. It has Olney, Morrison, Pattison and Whitney, any one of whom would be acceptable to the masses of the people.

Somebody has figured out that the egg crop of the United States is worth more in dollars and cents than the output of precious metals. Statistics of this sort are likely to make the hens cackle.

If the farmers of Gilliam county do not harvest an immense crop of wheat this season, there is nothing in appearances. Fall grain never looked so well at this season of the year as it does now.

Colonel Day informed an Oregonian reporter yesterday that he expects to have the first steamer pass through the locks on schedule time—that is March 1—unless some unforeseen delay occurs.

Mrs. Putnam, who spent the winter at the home of her son J. H. Putnam at Fossil, left today for her home in Polk county. Her son "Wink," who came recently on a visit, accompanied her as far as Arlington.

A Missouri farmer figured it out one rainy day that he had walked 300 miles in cultivating one acre of corn. He thereupon sold his farm and moved to a town, where he walked 600 miles to find a job.

The Heppner city council has passed a strong vagrancy law. After this, any one without visible means of support will be fined from \$10 to \$50 and costs, all of which must be paid in cash or worked out.

A frightful shooting scrape took place between two farmers on Beaver creek, Crook county, Thursday, in which J. R. Wagner, aged 60 years, was killed and Ike Mills, a young man, had both hands shot off with a shotgun.

A lively game of foot ball will be played at Condon on Friday afternoon, Feb. 28th, between the Mayville and Condon teams. A large crowd is expected out to see the fun, and of course they will all remain for the drama in the evening.

Dr. Hogan was hastily summoned Monday night to the bedside of Frank Palmer of Ferry Canyon, who was dangerously sick with heart trouble, from which he has been troubled for a long time. He is much improved now, however.

Wilson B. Smith of Ferry Canyon lost a good work horse last week, while on the range. "Wils" thinks the horse got hold of some kind of poison that had been put out for coyotes. L. W. Darling lost a cow recently in a similar manner.

A one-horse magic lantern show "performed" at Condon Monday night to a very small crowd. It was the "widest" affair of the kind that we ever saw, and the wonder is that such a fake concern is able to eke out an existence from public patronage.

Sam Jones says: "If all the wealth of the United States were divided out today each man would get \$1,000, and in less than six months some fellows would be riding in palace cars and others would be walking cross-ties, howling for another divy."

Although our band boys have had only a few weeks' practice with their horns, they have been coaxed into making their first appearance in public at our entertainment Saturday evening. So, the boys ask the public to be moderate in its criticisms.

Ex-Gov. R. E. Pattison, of Pennsylvania, is being urged for the democratic nomination for president. His record while governor of the Keystone state showed him to be well fitted for an executive officer, and a man of the people, one in whose hands their interests are safe.

H. B. Hendricks made a professional visit to Fossil the latter part of last week. His mother, Mrs. M. J. Emerson came home with him for a short stay. At present she is visiting Mr. and Mrs. Wm. Cornett on Matney Flat, whom she knew in Polk county before she was married.

Ralph C. Bennett and Fred Krasaw were down from Grass Valley last week, consulting Attorney J. B. Hosford upon road matters. The question is whether one man, even Joe Shearer, has bigger claims to certain realty than the man who holds the patents on Uncle Sam.—Observer.

Mr. Redmond expects to leave soon for California on the lookout for a new location, but his friends here all predict that he will come back again before long. We all hope so, at least.

The reader of a newspaper should make it a point to patronize its advertisers, for if it were not for their patronage the subscription price would have to be doubled in order to afford the publisher any profit. Moreover, those who are not afraid to advertise their wares will certainly have faith in their value, and the buyer can be reasonably certain of getting a good article.—More Observer.

See the new ad of the Massillon Engine & Thresher Co. on 1st page. This well known and popular firm enjoys the distinction of handling the best and cheapest engines, threshers and saw-mills on the Pacific coast. Their reputation for honesty and square dealing is excellent and we cheerfully commend them to our readers.

The Walla Walla Statesman expresses its aggravation by saying that "the third assistant postmaster general is responsible for the crime of ordering postmasters at Mountainhome and Rockybar to run the names into one word. Why don't he try it on New York, New Orleans, Silvercity, Wallawalla, Bonner's Ferry, Saint Louis, Lost Valley and Lonerock."

A father wrote to an editor for instructions how to stop his boy from smoking cigarettes and got the following reply: "We suggest bribery, persuasion, instruction or shutting off allowance. Then if he remains obstinate, use rawhide on rawhide. Welt him until he is ready to hold up his hands and promise never again to smoke another cigarette. If that does not work, drown him. A drowned boy is better than one that smokes cigarettes."—Yamhill Independent.

The people of Condon and vicinity will be delighted to learn that the Mayville Dramatic Club has concluded to play that popular drama "Ten Nights in a Bar Room" at Condon on Friday night, Feb. 28th. This will prove a grand treat to all who come out to see it, as the play is intensely interesting and first class in every respect. Admission 25c; children under 12 years, 10c. A grand ball will be given after the play, at 50c a number.

A very large crowd is expected out to the entertainment in the Armory hall Saturday evening. An elaborate program has been prepared for the occasion. The management has concluded to charge 10c admission and a nominal charge will also be made for supper, the proceeds of which will go towards procuring an organ for the school. The teachers, pupils and all the ladies in town are untiring in their effort to make the entertainment a success and no doubt will succeed. Admission for children under 10 years, 5c.

Of the number of applicants for teachers' certificates at the examination here last week the following were successful: Miss Grace Cooke, for state diploma, received a standing of 92 per cent; Mrs. E. L. Taylor, 1st grade, 90; Grace Fitzwater, 1st grade, 90; Pearl Fitzwater, 2d grade, 84; Lydia Thompson, 3d grade, 84; Claudia Cooper, 2d grade, 82; Laura Simmons, 3d grade, 76; T. L. Stewart, 2d grade, 92. The standing of several of these entitle them to a higher-grade certificate, but could not be granted, owing to their not having taught the length of time required by law. The pupils of our public school who attended the examination merely for the practice, made a very creditable showing and will, with a little more study, be able to make teachers of themselves.

Sid Hawson says the next time anybody ties a decoy duck out in the river and causes him to waste 50 cartridges trying to kill it he will see him for damages; especially if there is a man in the pump house pulling a string to cause the blasted thing to dive every time he shoots at it.

Forfeited Railroad Claims.

The bill to protect settlers on forfeited railroad lands is now a law. A telegram from Congressman Ellis Saturday, says the president signed the bill on Feb. 16th, which is as follows:

"That section three for an act entitled 'An Act to forfeit certain lands heretofore granted for the purpose of aiding in the construction of railroads, and for other purposes,' approved September 29, 1890, and the several acts amendatory thereof, be, and the same is amended so as to extend the time within which persons entitled to purchase lands forfeited by said act shall be permitted to purchase the same, in the terms provided in said section at any time prior to Jan. 1, 1897: Provided, That actual residence upon the lands by persons claiming the right to purchase the same shall not be required where such lands have been fenced, cultivated, or otherwise improved by such claimants, and such persons shall be permitted to purchase two or more tracts of such lands by legal subdivisions, whether contiguous or not but not exceeding three hundred and twenty acres in the aggregate. Born, in Lone Rock, Feb. 15th, to the wife of Ira Reed, a 3-lb boy. Mother and son are doing well but Ira seems to consider it as almost a "sell."

The farmers of this locality are rustling up their old plows and making preparations for spring work. The ground is in fine condition for breaking sod at present but rather wet for old ground.

Politics are getting pretty well stirred up over here. Every one is anxiously waiting to see the national platform of the different parties. The one that declares for free coinage of the American product of silver will carry the Lone Rock vote—and of course the election of our next president depends on the Lone Rock vote.

Mr. N. Hahn (a man of leisure) has found a new remedy for rheumatism. He stopped at Geo. Perry's ranch for a couple of months and could hardly navigate for the rheumatism so he came over to town Friday and he says the rheumatic pains left him that night, and he is going to stay with us awhile. The boys say Hahn talks about grass widows in his sleep. JOHN DOE.
