Under the new postal appropriation bill the secret inspection of letter carriers by special agents will be stopped. The bill provides instead, that there shall be thirty additional postoffice inspectors, who shall be assigned to the free delivery service exclusively.

While these men will be nominally under the authority of the fourth assistant postmaster-general, they will be subject to the orders of the first assistant and the superintendent of the free-delivery service. They will devote their time exclusively to the inspection of the free-delivery service, and will pursue the same methods pursued by the special agents.

At Ellis island, in New York harbor, the immigration committee of the house will take evidence bearing on the administration of existing immigration laws. The committee will witness the landing of two shiploads of immigrants. A general consultation on the subject of immigration and the class of immigrants will be held with the government inspectors at Ellis island with a view to learning more about the workings of the existing laws. It is generally conceded that if any immigration law is passed by the present congress it will be the Lodge bill now pending before the senate, which provides for a strict educational test, in addition to the restriction of present laws.

A man and a boy 20 years old, were lynched by a mob in Wichita, Kan., for bank robbery and murder recently committed in that town.

Rolla O. Heikes, of Dayton, O., champion target shot of the world, has made another sensational record. In an exhibition at Indianapolis he broke 100 targets, continuous shooting, in 4 minutes and 20 seconds, which makes a new world's record.

A movement of ice in the Mississippi carried away 180 feet of the draw span of the government bridge in Davenport, Ia., which was supported by trestle work, while undergoing repairs. The bridge was a heavy double-decker used by the Rock Island railway.

The withdrawal of Commander and Mrs. Booth from the Salvation Army has created a commotion in the Philadelphia branch of the army. The soldiers are aroused and talk of enlisting in a big secession from European headquarters is heard in every Salvation hall in that city.

In a fit of rage Jacob Dietzel, of Chicago, aged 68, shot his daughter, Mrs. Henry Obner, and then himself, inflicting fatal wounds. He was once in prosperous circumstances, but of late has been dependent upon his children for support, and their frequent complaints, it is said, were the cause of the crime.

It is reported in Constantinople that,

February 14, the first day of the Ramadan festival, the Turks surrounded the Armenian quarters in Marsovan and ordered the Armenians to accept Islam. Five hundred of them agreed to do so, but 150 recalcitrants were killed. A fresh series of massacres is reported in the Sivas and Kharpoot districts.

The Paris Politique Coloniale publishes an alleged telegram from the French consular agent in Brazil, reporting that conflicts have taken place in the disputed territory of Amapa, between French Guiana and Brazil. It is added that the French troops half destroyed Amapa after losing 100 killed and wounded, including four officers.

George Grant, a pioneer resident of Grass Valley, Cal., 70 years of age, was blown up by giant powder. He was using the powder to blow up some willows and leaned over to see why it did not go off, when he got the full charge in the face. One eye was blown out and the other badly injured, his lip terribly lacerated and his left arm badly injured. He will probably survive.

A fatty growth had also formed, and both the lungs and spleen were enlarged and weakened by the disease.

Havana advices aver that the Cubans will retaliate on the Spaniards for their slaughter of suspects by using dynamite. A manifesto signed by the Cuban revolutionary party has been found scattered through Havana setting forth that from five to ten of the suspects confined in the Caballas were being shot nightly, and that the Cubans would retaliate by destroying Spanish residences and places of business by dynamite.

The passenger steamer Queen collided with the British ship Strathdon in San Francisco while steaming up the harbor on her arrival from Portland. The vessels were not together more than two minutes, but in that time between \$20,000 and \$30,000 were sacrificed in damages. The Strathdon was lying at anchor in the stream, and her heavy steel bowsprit swept the upper decks of the steamer before the Queen could be backed away. The Queen had on board 140 passengers. Only two persons were hurt, and their injuries amounted to mere scratches.

United States District Attorney H. V. Johnson has filed a suit in the United States court against the Union Pacific Railroad Company and about 2,000 holding lands under titles obtained from that company, asking for the cancellation of patents to about 10,000 acres, or the payment to the United States of \$2,000,000. The land comprises portions of the business section of Denver, Greeley, Fort Collins and Loveland, Colorado. It is alleged that the lands in question have been exempted from the original patents as they were already subject to claims under the homestead and pre-emption laws.
