

# THE GCONDON GLOBE.

FRIDAY, JUNE 26, 1896.

## NOTICE.

The yearly subscription to the GLOBE is \$1.50, if paid in advance. If not paid in advance, \$2 will be charged. A blue pencil mark around this notice indicates that your subscription expires with this issue. Please renew promptly.

## GLOBOSITIES.

See the change of dates in the county treasurer's notice.

Read the result of the republican convention and the platform adopted, on last page.

Miss Stella Johnson closed her term of school in upper Ferry Canyon Monday.

W. T. Solvester of Olex has been supplying our people with fine vegetables and garden "sane" the last couple of weeks.

It is said that Mayor Pennoyer will give Martin Quinn, the late populist candidate for congress, some fat office under him.

The liberty-loving public can get a No. 1 Header, Drapers, Belting of all kinds and machine oil at Shurte Bros. Prices O. K.

A 634-karat diamond, the finest ever found in Africa, was recently found by a tramp. When cut it is expected it will be worth \$1,500,000.

L. W. Darling and daughter Goldie and Gene Smith went to Fossil Wednesday to hear the lecture on Woodcraft by Atty. A. D. Stillman.

There is said to be a "hell's half acre" in southern California, 40 miles square in which every rod has a boiling spring or a spouting geyser.

Our bicycle riders have had a nice smooth 1 1/4 mile track made, encircling the town, and we may expect to see some fine racing soon.

J. M. Cameron left Tuesday with his sheep for Caleb, where he will pasture them until fall. Wayne Grider will be his herder this summer.

Mrs. J. H. Downing returned home Friday from Palouse City, where she had been visiting her father, who was sick but is now recovering.

He is here, the most abominable nuisance of the season. Get out your guns. We allude to the man who says, "Is this hot enough for you?"

Hanging will be played out in Ohio, on and after July 1st. From this time forward criminals sentenced to death will be killed by electricity.

Ebel Claruo's residence on the John Day was burned to the ground last Sunday night, a defective fuse being the cause. Nothing was saved.

John Lyons returned home Tuesday from a pleasant visit to his old home at Walls Walls. His brother Tom returned home to Heppner at the same time.

County Clerk Fraser left Monday for Pendleton for a brief visit, and to be present at the wedding of his brother-in-law, Clarence Houston, on Wednesday.

Bill Thurnagle has sold his blacksmith shop on Main street to W. L. Richards, who will use it as a photograph gallery. Bill expects to try his luck in Idaho this fall.

Grover Cleveland, Thomas B. Reed and Secretary Carlisle will, after the 4th of March, 1897, re-establish the law firm in New York city, to be known as Cleveland, Reed & Carlisle.

The latest scheme is to take the tariff out of politics. No place has been designated as to where they intended to dump it. It may be they expect to trade it off for a silver mine.

The race for sheriff in Malheur county was so close between the three nominees that only one vote was necessary to elect either of them. The democrat got that vote—and no doubt is glad of it.

The Mitchell Monitor says that it is a false report about Max Puts intending to move his mill to Mayville, and adds that Mr. Puts says he has no intention of moving his mill this season.

Mr. Healy, the Arlington tinner, has just finished putting water leads on Maddock's hotel and Mrs. E. L. Taylor's residence, which will be very convenient in catching rain water.

Trustworthy reports estimate that Spain has lost fully 25,000 men in Cuba in the last fourteen months, although Spanish newspapers try to leave the impression that only about 500 have been killed.

The governor of Arkansas and a member of the legislature fought a duel the other day by spitting tobacco in each other's faces. Friends interfered and disarmed them or the result might have been fatal.

School Supt. Kennedy was in the city Tuesday, making his final round visiting schools. Mr. Kennedy has been a faithful and energetic officer and retires from public service with a clean record and the good will of the people.

A deacon will pass around the plate and get more buttons than dimes, but a highwayman can hold out a gun and collect everything a man has. This goes to show that a man will give more to save his body than to save his soul.

This plaintive wail is found in a Kansas exchange: "From the 1st of May until the first of August Kansas is kept continually on the anxious seat. A drought, a cyclone or something else is continually staring the people in the face." Why in thunder don't more of them come to Oregon, where such calamities are never heard of?

The Eugene Register pays Portland's mayor the following compliment: "Pennoyer is as clever an old rascal as was ever left outside the Oregon penitentiary. He may again cut quite a figure in Oregon politics before many moons."

It is said that 99 guilty men had better go unpunished than to execute an innocent man. In the United States we let 999 guilty ones go, then disagree on the punishment of the guilty fellow and sometimes set him free also.—Exchange.

Twenty-five years ago the production of white paper, such as newspapers are printed on in this country, was under 180 tons daily. Two daily newspapers at present—one in New York and one in Chicago—are using more than 150 tons daily.

The anti-toxin treatment for diphtheria seems to be almost successful. The reduction of the death rate from 60 to 4.6 per cent, indicates a complete triumph over this dread disease in the near future when treatment becomes more fully understood.

The late do-nothing congress did nothing with the bill for the election of senators by direct vote but to smother it, and the gentlemen who did the smothering act will soon come up for re-election. Then it will be the people's turn to do a little smothering.

"To learn to swim," says the state board of health of Pennsylvania, is of as much value to a boy or girl, as thirteen weeks in French or higher Algebra, or even a term in a modern business college. It is one of the things which ought not to be neglected.

Thirty girls in a neighboring town recently entered a contest to see which one could make the best biscuit. A local paper was mean enough to say that the judges will all probably recover, but none of them will be regarded hereafter as men of sound health.

The editor and wife visited Portland the latter part of last week, returning home Monday. Miss Bertha Hiatt, a bright little girl from the Orphans' Home, or Boys and Girls Aid Society, returned home with them and expects to make her home with the GLOBE family.

From the tone of many people, many a band of outside sheep will return to home ranges this fall considerably lessened in number, and many an innocent lamb will go to its maker. From what they say, these encroachments on Grant county's range will soon be forever stopped.—Eagle.

Frank A. Palmer of Ajax is the happy father of a bouncing girl baby, which came to their home on the 15th inst. Mother and child doing well, with good prospects for Frank to pull through also. They say he is so tickled over it that he scarcely knows which end he's walking on.

A gentleman recently returned from Europe says that a man in Germany bought 1000 cigars a short time ago, and had them insured against fire. Then he smoked them and demanded the amount of his policy from the insurance company. The company refusing to pay it, he brought suit and got a verdict.

An enterprising Western firm of cattlemen, recognizing the demand for wild animals for circuses and zoological gardens, is going to start a farm for the raising of the various types of beasts. It is proposed to secure four or five square miles of the most thickly wooded land in the Cascade mountains in Oregon for the purpose.

The full capacity of the mints of this country is \$40,000,000 of silver coin a year. If metal was never coined into money but stored away as bullion and certificates or notes were issued instead, with the metal behind them as security, the people would receive benefits that are not possible under free coinage.—Times-Mountaineer.

The timber wealth of the United States gives a yearly product of over a billion dollars, or more than twice the value of the entire output of all the mines. Yet nowhere on earth is the wealth of the forests wasted more wantonly than in this country. Trees and forests are slashed down not only without consideration, but with something akin to contempt.

Hon. A. D. Stillman of Pendleton delivered a beautiful and impressive lecture on Woodcraft to a large audience at Condon Tuesday evening. He pictured in very beautiful language the importance of being a Woodman and the duty every man owes to his family to make such provision for them. Mr. Stillman delivered a similar lecture at Fossil on Wednesday evening.

As predicted by everybody, McKinley was nominated for president by the republican national convention at St. Louis last week, receiving 661 out of the 922 votes on the first ballot. Garrett A. Hobart of New Jersey, a ten-times millionaire politician, was nominated for vice-president. The convention almost unanimously declared for the gold standard in their platform.

The vote to be cast for president this year will be the greatest ever polled in the country's history. Four years ago the total, including all scattering votes, was 12,110,636. This year it will be fully a million more. An idea of the great number of citizens who do not use the franchise can be obtained from the fact that there are more than 18,000,000 men of voting age in this country at the present day. This means that only about three men out of four vote.

United States people, who are reported to fill all Europe this year, and spend \$100,000,000 in gold, would be wiser to have stayed at home or have visited some of the interesting places in their own country. There are thousands of Americans wandering over the Continent who know little of the country next to that in which they were born and nothing of the adjoining state.

Among those from this county who attended the Middle Oregon Baptist Association held at Mitchell from June 11th to the 14th are: Mrs. David Hamilton, Mrs. I. Meador and J. W. Brown of Fossil, Rev. Lawson and family and F. Simmons of Mayville, Mrs. Morgan Ward of Lone Rock. About 70 delegates and visitors were present. The next annual meeting will be held at Mayville.

Dr. Hogan expects to leave here about the first week in July to be absent one month at Fossil, to take charge of the extensive practice of Dr. Howard, who has concluded to take a month's much-needed rest and visit his relatives in Washington and elsewhere. Dr. Hogan will not realize much of a rest in this change, as Dr. Howard's practice is very large and requires much riding and hard work.

Billy Keys writes from Hamilton, Mont., that he will start home about July 1st, having finished his work with the company. He sprayed 400 head of cattle and lost only one, which shows that he understands his business. Jack Glasgow has a good position with same stock company and desires the GLOBE to say that he will return to Condon about Sept. 1st, prepared to look after his case in circuit court.

In America, a newspaper man through the columns of his journal, has the license to designate President Cleveland as a bald-headed fanatic, a pot-bellied gold bug, a bull-necked fisherman, etc., but when a German editor questions the sanity of his royal smartness, Emperor William, he is hustled off to the cooler. Over 60 editors are now serving terms in German prisons for criticizing their emperors.

The difference between lawyers and publishers is this: When a lawyer presents a good big fat bill to the county for fees rendered and the courts try to cut it down every lawyer in the county will rise up and swear the charges are reasonable. But let a poor, lean, lank, half-starved editor put in a bill at half rates and his fellow publishers will rise up and call him a "robber" with a big adjective in front of it.—Times.

Seventy-nine years ago was the year without a summer. Frost occurred every month in the year 1816. Ice formed a half inch thick in May. Snow fell to the depth of three inches in New York, and also in Massachusetts in June. Ice was formed of the thickness of a common window glass throughout New York on the 5th day of July. Indian corn was so frozen that the greater part was cut in August and dried for fodder, and the farmers supplied themselves from the corn produced in 1815 for the seed of the spring of 1817.

It is a true saying that "it is not always the best man who wins at an election." Charley Parrish of Grant county, one of the best prosecuting attorneys in Oregon, was defeated at the recent election by a populist, who scarcely knows any law. Some of those who opposed him used the argument that if Parrish remained in that position several years longer he would have half of the people of his district in the penitentiary. He was a terror to the law-breakers and they were "too many for him" at the polls.

They are having real old '49 times at Juneau in Alaska. Mr. McDuffie of Portland, who has just returned from there, says the town has 2000 inhabitants and 88 saloons. Men, women and children run all night and sleep in daytime. Gambling houses, dance-halls and worse are in full blast; all the hotels are crammed full, and steamers are loaded to the guards with other adventurers. To get to the mines from Juneau requires six weeks of travel on sledges drawn by hand or by dog teams. Each party carries six months provisions, a sheet iron stove and shipsaw. When they reach the upper Yukon they cut down trees, whipsaw lumber, build boats and float down to the mines. Laborers are getting \$10 a day with plenty of work.

War Against Sheep. Crook county sheepmen met with a very rocky reception over on the South Fork in the southern part of Grant county near Lees last week, and as a result several bands of sheep turned their course and will not range on Grant county's range this year. The sheepmen were adopting the same tactics, and were going straight through the county regardless of whose rights they infringed on. The wagons containing supplies to the amount of \$1500 were captured and all piled in a heap and burned. Such treatment not being conducive to the good health of the intruders, they retraced their tracks back into Crook county.

Like many other sections of Grant county, outside sheep will not bother there this year, but if so, it will be a serious experience for the owners of the bands.—Eagle.

Treasurer's Notice. All county warrants registered prior to June 1, 1896, will be paid on presentation at my office. Interest ceases on and after this date. S. B. BARKER, Treasurer of Gilliam County, Or. Dated at Condon, Or., June 20, 1896.

## Arlington Items.

Considerable wool is coming in. Dr. Irvine has a pair of Denny pheasants.

Strawberries and cherries are plentiful.

Lige Hendrix was in town with a load of wool Monday.

Mrs. Sayre returned last week from a visit to the valley.

Wm. Smith of Crox was in town this week on business.

Shurte Bros. have sold a number of mowers recently.

The nomination of Mr. McKinley is satisfactory to the republicans.

J. H. Wood returned Sunday morning from a trip to the metropolis.

The river is falling at present and the outlook is now favorable for traffic.

R. T. Cox was presented with a fine bird dog while at Pendleton last week.

Painters have been decorating some of our buildings with trade announcements, etc.

Mrs. Wenner left Tuesday night for Portland, to visit her relatives a few days.

B. A. W. Barfoot left Monday for the vicinity of Mt. Adams, to look after his sheep.

Bob Robinson has a pet coyote pup which seems to adopt itself to the ways of a civilized canine.

Wm. Weatherford of Shuttler Flat was in town a few days since and reports the prospects for a good yield of grain very good.

A great many swashes have been crossing the river here en route to Pendleton to take part in the Indian celebration at that place on the 1/2.

Atty. Stillman of Pendleton delivered a lecture on Woodcraft last Saturday night, which was well received. The band enlivened the occasion by playing several pieces.

The constant though gradual rise of the Columbia has seriously threatened railway traffic. A slight washout occurred Sunday morning, delaying the West-bound train for several hours.

At the district convention W. O. W. held in Pendleton last week F. C. Hindle was elected a delegate to the Head Camp, which meets in Helena on August 17th. There were a number of contestants for this position but Mr. Hindle came out on top.

Lone Rock Riplets. The boys will give a dance here the night of the 3d. Everybody come.

The K. of P's will have a public installation here on the evening of the 4th.

W. H. Colwell has had his house freshly painted, making it look like new. He says he painted it on expectation of better times soon.

Rev. Lawson of Mayville preached to a full house here Monday evening. He and Rev. Charles Cason have gone to the Haystack country to hold a series of meetings.

Mrs. Grutze and family of Portland are visiting at Lone Rock, and will spend the summer here and at Haystack. Her husband is chief city auditor of Portland.

Mr. S. I. Stratton and wife returned last week from Monmouth, where they had been attending school for nine months. He expects to go to Grant county in a short time to spend the summer.

Rev. Barnhart preached here to a full house last Sunday. He preached a very interesting sermon, in fact the first one that has been delivered here by any one giving the Condon church people a general blowing up for "right down meanness," as he says they "drink, dance, gamble, and the Lord only knows what they don't do." We have known the people of Condon longer than has Mr. Barnhart, and always found them to be a sober, honest, upright people, and they certainly are not entitled to such treatment in the pulpit—which is a place for something more refining and the teaching of morality, instead of slander and blackguardism.

Notice. BOYS MAY BE HAD (and sometimes girls) for—(1) ordinary service at wages; (2) upon indenture, [to work, attend school, and be brought up somewhat as your own]; and—(3) children may be had for legal adoption. Address, W. T. GARDNER, Supt. Oregon Boys' and Girls' Aid Society, Portland, Oregon.

FOURTH OF JULY. The O. R. & N. Co. will sell excursion tickets on July 2, 3 and 4th, good to return up to and including July 6th, to all points within 300 miles of starting points, at a rate of one fare for the round trip. F. C. HINDLE, Agent O. R. & N.

Awarded Highest Honors—World's Fair, Gold Medal, Midwinter Fair. DR. PRICES' CREAM BAKING POWDER. Most Perfect Made. 40 Years the Standard.
