

# THE GONDON GLOBE.

FRIDAY, JULY 3, 1896.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

## NOT ENCOURAGING.

Senator J. A. Smith of Gilliam county returned Friday from Portland. While in that city he conferred with Capt. Fisk, chief of the engineer's corps in charge of the works at Cascade Locks, with reference as to when work is likely to be resumed and when the canal would probably be opened. He learned from Capt. Fisk that negotiations were being made with Day Bros. for performing the work, but no agreement had been reached; also that the engineer's department had not as yet determined whether the locks would be opened when the walls between the lock and lower guard gate were concreted, or whether they would be kept closed until solid masonry walls were built. In case the former is determined upon, the canal can be operated this fall, but if masonry walls are to be built first, the date of opening is indefinite.

This is rather discouraging to Mr. Smith, who is one of the prime movers in the organization of the Columbia Portage & Navigation Company, which was incorporated for the purpose of building a portage road around the Ceillo and dalle falls. Without the locks in operation the portage road would be of little value, hence when work will be commenced on the road depends upon what is done at the Cascades. However, the incorporators will continue selling stock, and will hold a stockholders' meeting on July 31st for the purpose of perfecting organization, so that they will be in readiness to begin construction as soon as it is definitely known when the locks will be ready to operate.

The longest distance that a shot has been fired is a few yards over 15 miles, which was the range of Krupp's well-known "monster" 130-ton steel gun, firing a shot weighing 2600 pounds. The 100-ton Armstrong gun has an extreme range of 14 miles firing a shot weighing 1890 pounds and requiring 960 pounds of powder. These guns, however, proved too expensive, being unable to stand firing a hundred times, and their manufacture has practically been abandoned. The 90-ton Armstrong gun hurls a solid shot for a distance of 12 miles, and the discharge of the gun cannot be heard at the place where the ball strikes. From 12 to 13 miles is the computed range of the most powerful guns now made, and to obtain that range an elevation of nearly 45 degrees is found to be necessary.

A balloon has been built in Paris which is said to be the most wonderful balloon ever constructed and it has been constructed for a most wonderful purpose—a journey to the North Pole. The balloon route to the pole is the only one left; all others have proved a failure. If the venture succeeds France will, of course, claim the glory for which English speaking nations have striven for more than a century. If it fails it will be one more added to the wrecks that strew the path science has made toward what has proved the impassable barrier which bars men from no one knows what.

In San Francisco they are making an effort to punish assessors for making undervaluations. One has been indicted for perjury, the specific charge being his sworn report of property worth \$17,500,000 at a valuation of \$4,000,000. If this kind of prosecution gets popular and is successful in the courts the penitentiaries will have to be enlarged.

England has just submitted a powerful argument in favor of international arbitration. It takes the form of a budget appropriating \$70,000,000 for new men-of-war.

The liberty-loving public can get a No. 1 Header, Drapers, Belting of all kinds and machine oil at Shurte Bros. Prices O. K.

Mrs. Rhodie Noah, of this place was taken in the night with cramping pains and the next day diarrhoea set in. She took half a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got no relief. She then sent to me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Remedy and the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only 4 doses were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sibley, Sidney, Mich. For sale by all druggists.

Last Summer one of our grand-children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Fredrickstown, Mo. This certainly is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. For sale by all druggists.
