Lord Leighton.
Although an Englishman, Leighton was brought up abroad, and this is no doubt a sufficient reason why his works seem to stand apart from those of his contemporaries of the English school. Born at Scarborough on the 3d of December, 1830, the son of a doctor, he was taken abroad at a very early age on account of his mother's delicate health. In 1840 the Leightons went to Rome, where he learned drawing regularly under Signor Meli. They then moved to Dresden and Berlin, where he attended classes at the academy. In 1843 he was sent to school at Frankfurt, and in the winter of the following year accompanied his family to Florence. It was here that his future career was finally settled. His father consulted Hiram Powers, the celebrated American sculptor, who, in answer to the question, "Shall I make him an artist?" replied, "Sir, you have no choice in the matter; nature has done it for you."—Cosmo Monkhouse in Scribner's.

Ben Franklin has been appointed Governor of Arizona. We always have felt confident that sooner or later that man Franklin would be heard from, notwithstanding the penchant for flying kites, after the paper went to press.

Comprehensive Review of the Important Happenings of the Past Week Called From the Press Dispatches.

Braslian commercial circles are not favorable to a treaty of commerce with Argentina, not regarding the advantages to be obtained as of sufficient importance. Purely Braslian firms are favorable to renewal of the treaty of reciprocity with the United States.

The village of Farmland, Indiana, is greatly excited over a riot that occurred at the North White river church after services last Sunday, in which one man was fatally stabbed and several others seriously hurt. Just how the trouble originated nobody knows.

Within a few weeks will be commenced one of the most gigantic operations in the history of the war department. Fortifications more powerful than those existing anywhere in the world will be built in New York harbor, the cost of the work being about \$10,000,000.

A special from Helena, Mont., says the Cheyenne Indians have donned their war paint and are holding powwows preparatory to a general uprising. Several troops of the Tenth cavalry have been ordered from Fort Custer to the Cheyenne agency at Lame Deer, Custer county, Mont.

A letter received in Havana gives the details of an important engagement in Pinar del Rio, near C. y. Redondo. The rebel leader, Brigadier Frani and his thirteen followers were killed and many wounded. They were carried from the field. The insurgents were put to flight. The feeling in Pinar del Rio is now one of alarm.

The New York World publishes the details of the Postal Cable Company has arranged for an extension of its lines into Southern territory, where it has not had a single wire. The Postal Telegraph-Cable Company, of Texas, has been formed, and an agreement entered into with the New York company for the transaction of business. Wires will be strung to reach the leading points, and ultimately will extend into Mexico.

A report from Walla Walla says that the wheat crop in that section, which it was feared had been injured by the hot weather of last week, has not been damaged to any considerable extent, and a full yield is confidently expected.

The run of salmon in the Columbia river continues light, no large catches having been made of late by any of the boats. It is thought that small catches will be the rule now until the regular July run begins, which will be in about a week or ten days.

Nathan Phillips, a pawnbroker of Monte Cristo, Wash., was fatally shot by David Leroy, who attempted to rob Phillips of a satchel full of jewelry which he was carrying, and upon being resisted, opened fire upon the pawnbroker with the above result. Leroy escaped.

As a result of the conference between the president and Secretary Lamont orders have been issued by the war department for the immediate execution of the provisions of the river and harbor appropriation bill, with the exception of those sections providing for the making of contracts for the continuation and completion of the work.

Attempt on Baldwin's Life.

During the process of Lillian Ashley's suit against E. J. Baldwin for \$75,000 for seduction, in San Francisco, Emma Ashley, a sister of Lillian, tried to shoot the millionaire defendant. She fired at Baldwin, but the bullet missed. Emma Ashley is believed to be insane. During the trial she has spent her time in court reading the Bible. When taken to jail she sang "Nearer My God, to Thee" in a loud voice. Baldwin was crazy with rage and wanted a chance to fight some one. His hair was singed by the powder and the bullet passed within an inch of his head. His escape is ascribed to the woman's inexperience with firearms. The pistol was thrown upward by recoil after the trigger was pulled.

Wheeling Injures Women.

A remarkable circular has been issued by the Women's Rescue League of Washington, D. C. It is signed by Charlotte Smith, president, and Virginia N. Lount, secretary of the legislation committee, and it calls attention in a most sensational manner to what these ladies consider the manifold, moral and physical ill effect of the riding of bicycles by women. The occasion of the issuance of the circular at this time is that next week there will be a bicycle parade in Washington in which it is thought that fully 40,000 wheels will participate. Of the 45,000 bicyclists in the city at least 15,000 are women.

Counterfeiters Caught.

A St. Louis detective has succeeded in capturing a gang of counterfeiters. A complete set of tools was found in their possession. Those arrested have hitherto borne good characters, one of whom is a regular practicing female physician. There was also found by the detective a photographic engraving of a \$20 bill, some of the bills, the copper plates and all necessary paraphernalia for etching the plates.

Cholera in Egypt.

Squadron Drills.

Washington, July 6.—In the execution of the broad plans for the instruction of our naval officers in squadron drills and combined maneuvers, formulated by Secretary Herbert, the summer drills of the North Atlantic squadron, which will begin on the 15th inst., will find their counterpart in a series of squadron movements, target practice and fleet drills, to be conducted by the Pacific station by Admiral Beardsley.

Because many of the ships naturally attached to his station, have been necessarily transferred to the Atlantic station, Admiral Beardsley will not have as many vessels available for his drills as will Admiral Bunce, on the Atlantic coast. Consequently, in order to be able to carry out a programme of any value, from an educational standpoint, he must make the most of such ships as he can command, and it will be impossible, therefore, this season to withdraw any of the ships, even temporarily, from the squadron to attend the local celebrations at various points on the Pacific coast, as has been customary in the past.

English Company Shut Out.

New York, July 6.—The Hearld's correspondent in Rio Janeiro, telegraphs that despite the presidents of the English Cable Company, the Brazilian government has granted to another company the privilege of establishing a land telephone service to connect Rio with all ports north of Para. AWFUL WAVE OF DEATH

Further Particulars of the Disaster in Japan.

WORSE THAN FIRST THOUGHT

Entire Cities Were Washed Away—Some of the Seaports That Were Affected—Thousands Were Killed.

Vancouver, B. C., July 6.—The Empress of China arrived last night with Yokohama news to June 18. Regarding the recent earthquake wave, the Yokohama Mail has the following:

It will be sometime doubtless, before the full particulars reach Tokio of the cruel disaster that has overtaken the people living on the coast of Pikuzen and Rikohu. Between 8 and 8:20 P. M. on the 18th a violent seismic disturbance occurred in the ocean that bathes the northeastern coast of the main island. Accounts thus far received place the center of the disturbance in the vicinity of the island Kinkwa-Zan. Following the coast line northward from Kinkwa-Zan, we find the reports from the various places on the beach:

Onogawa, Futhama—Many lives lost, animals destroyed and houses inundated, but no definite numbers stated.

Washigama—Forty persons killed, thirty houses washed away; prison doors thrown open and several prisoners supposed to be lost, as well as some of the wardens; quantities of mail matter swept away.

Motoyoshi (or Shizukawa)—Eighty houses swept away; seventy-two corpses recovered.

Kamaishi—Over one-half of the town swept away; many persons and animals killed; telegraph office washed away.

Miyako—Much injury to life and property.

Kuji—The same fate as above. Hachinohe, Minato—Eleven persons killed, two missing; school building destroyed; bridges swept away.

Some accounts speak vaguely of thousands of lives lost and 500 houses swept away on the coast of Ojika and Motoyoshi alone, but that seems to be exaggeration.

One statement is that thirteen shocks were felt in the neighborhood of Ishimaki, but they must have been comparatively slight. Undoubtedly there has been a lamentable loss of life and property, and large tracts of rice fields have been inundated and destroyed.

Following are further details regarding the damage done and lives lost through the tidal wave:

Onani, Motoyoshi—Buildings swept away, ninety; deaths, 400.

Hashikami, Mura—Buildings swept away, 300; deaths, 400; wounded, 100.

Koidsumi, Mura—Deaths, 1,450.

Utatsu, Mura, Motoyoshi district—Buildings swept away, 600, there being absolutely nothing left; deaths, 600; wounded, 250.

Okachihamo, Momo district—Buildings swept away, 40; deaths, 31; wounded, 5.

Sendai—In the districts of Motoyoshi, Ojika and Momo, in Miyagi prefecture, there was disastrous damage by the tidal wave during the night. Motoyoshi alone had 1,030 deaths, and 560 buildings washed away.

Protection of Pugilism

San Francisco, July 6.—There is a movement on foot among sporting men to form a society that will probably be known as a Sportsmen's Protective Association. The object will be the protection of sports in general, and the fostering of boxing bouts in particular. Business men interested in sporting matters are at the head of the movement. It is their intention to interest John D. Spreckels, Thomas H. Williams and others equally prominent in sporting circles in the matter, and in this way form an organization that will not only do a great deal toward the purification of sports, but become a prominent political factor as well. Just at present it looks as if the sole purpose of the organization is to perpetuate "scientific" boxing exhibitions, and that candidates for public office who are not opposed to such exhibitions will have the support and approval of the association.

A Quarantine Squabble.

San Francisco, July 6.—The board of health is prepared to defy the federal government. At a meeting of the board today a letter was dictated by Dr. Wallace Wyman, in charge of the Marine hospital at Washington, declaring that the United States statutes gives the federal government no authority to establish quarantine regulations over San Francisco bay, while the California statutes particularly establish the position of the quarantine officer. The board has announced its intention of standing by its authority.

Was It Andres' Balloon?

New York, July 6.—A special to the World from Winnipeg says: "A mysterious balloon passed over Winnipeg this evening. The appearance of the balloon caused people to wonder if it was Andres' balloon. Professor Andres sailed early in June from Norway for Spitzbergen, from whence he intended to go to the North pole in a balloon."
