FRIDAY, JULY 10, 1896.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

## MEANING OF FREE COINAGE.

Frequently we are asked what "free coinage at 16 to 1" means. It seems incredible that there should be anybody not informed on this point, but apparently there are a great many, and we answer the question as plainly as we know how:

A silver dollar weighs about sixteen times as much as a gold dollar. When the ratio was established for the coinage of gold and silver dollars it approximately presented the market value of the two metals. An ounce of gold was worth about sixteen times as much as an ounce of silver. Now an ounce of gold is worth more than thirty times as much as an ounce of silver.

Under our law whoever owns gold bullion can take it to the mint and have it made into coins without any cost to him. That is free coinage of gold. The gold thus coined is worth a dollar, irrespective of the stamp, all over the world. The silver men demand that we shall do the same thing for silver without any change of ratio—that is to say, that every owner of silver shall be permitted to take it to the mint and have every 50 cents' worth of it stamped as a dollar, though it would be worth only its bullion value outside the United States.

That is what free coinage at 16 to 1 means.

The editor of the Chicago Times-Herald says: Men are sometimes timid and half-frightened in the face of great luck. In the dining room of the Planter's hotel I met Mr. Hobart, and extended to him congratulations on his nomination for vice-presidency, which was sure to occur within an hour or two, as the convention was at that moment listening to the nominating speeches. "I feel that I am going to be chosen," said Mr. Hobart, modestly, "but I am willing to confess to you that I half wish I may be defeated. There have been times when I coveted this honor, but now that it is apparently within my grasp I shrink from it and wish I had never permitted my name to be used. I hesitate to change my quiet life for the responsibilities of a high position. My wife and I are now as happy as mortals can be, and I am reluctant to take this plunge into the sea of politics and trust to luck for happiness in the future." Mr. Hobart spoke with feeling and earnestness, showing that he had a deep and manly appreciation of the responsibility which would be thrust upon him should the people ratify the choice of the convention. Somehow I liked Mr. Hobart better after he had thus spoken.

The St. Louis Globe-Democrat suggests this for a McKinley cabinet, and says, though it may seem strange to suggest an Illinois man for secretary of the navy, the gentleman named was for several years chairman of the naval committee of the house, and is today one of the best-informed men in the country on naval affairs:

- Secretary of state—Thomas B. Reed of Maine.
- Secretary of the treasury—Mark A. Hanna of Ohio.
- Secretary of War—M. S. Quay of Pennsylvania.
- Secretary of the navy—John R. Thomas of Illinois.
- Secretary of the interior—Julius C. Burrows of Michigan.
- Postmaster-general—H. Clay Evans of Tennessee.
- Attorney-general—Jos. H. Choate of New York.
- Secretary of agriculture—John M. Thurston of Nebraska.

London's new census shows a population of 4,411,271, for inner London, and of 1,756,421 for outer London, a total of 6,167,692. This idea of having an inner and an outer enumeration will be a great boon to Chicago, which will now proceed to snuff out the British metropolis—Oregonian.

An eminent physician says: Never lean with the back against anything that is cold. Never begin a journey until the breakfast has been eaten. Keep the back, especially between the shoulder blades, well covered; also the chest well protected. In sleeping in a cold room, establish a habit of breathing through the nose and never with the open mouth. After exercise of any kind never ride in an open carriage or near the window of a car for a moment. It is dangerous to health or even life. When hoarse, speak as little as possible until the hoarseness is recovered from, else the voice may be permanently lost, or difficulties of the throat be produced. Merely warm the back by the fire and never continue keeping the back exposed to the heat after it has been comfortably warm; to do otherwise is debilitating.

According to the returns audited by the authorities at the state house in Salem, the number of votes cast at the late election for state officers was as follows: T. H. Tongue 19,355; W. S. Vanderburg 19,292; Jefferson Myers 7,914; N. C. Christensen 1,356; A. S. Bennett 7,099; W. R. Ellis 12,617; Martin Quinn 12,239; H. H. Northup 8,807; F. McKereher 775. Total, 89,454. The estimate of five in population to one vote will give 447,270 as the population of the state at the present time.

**PHOTOGRAPHS.**  
For first-class photographic work come to my gallery at Condon. I respectfully invite the public to call and examine my work before going elsewhere. My prices are very reasonable and I guarantee satisfaction. W. L. RICHARDS.

Last summer one of our grand-children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints—Mrs. E. G. Gregory, Fredricktown, Mo. This certainly is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cure it has effected. For sale by all druggists.
