The weather is cool and pleasant again since the rain showers of Monday.

Hon. T. G. Woodland of Rock creek was in town Saturday on business.

Rev. Drake will preach at Condon next Sunday, morning and evening.

The total solar eclipse to occur August 8th will be an event of great interest to astronomers.

J. W. Blake and wife visited Lone Rock and Paper Sack friends several days this week.

It does not follow that a man approves of a cyclone even if he is completely carried away with it.

J. C. Cooney is on the sick list this week with acute appendicitis, we are sorry to learn. Dr. Hogan is attending him.

Mrs. J. G. Stephens and children of Rock creek visited relatives in town this week. Mrs. Stephens is a sister of the Portwood boys.

A citizen of Wallowa county was arrested last week, charged with stealing a saw mill. A red-hot stove is not in it with a saw mill.

The Eugene Guard says that Ross Mathews captured a gigantic rattlesnake on Mt. Pisgah the other day and brought it to town alive.

Henry Hawley of Moscow, formerly of this county, has sold his 160-acre ranch three miles north of Mayville to Wm. B. Pentecost.

Anyone desiring to purchase a first-class new organ at less than the price charged by agents, can learn of the snap by applying at this office.

A whole cow at The Dalles must be worth a good deal of money. The tail of one chewed off by a dog the other day cost the owner of the dog \$27.50.

A large crowd is expected out to the public installation and entertainment this Thursday evening. The doors will be open to the public at 8 o'clock.

L. H. Thompson of Blalock was in town Friday with a load of fine peaches, which he sold readily at from 65c to 75c a box. See what he says in his ad.

Mrs. J. H. Putman and children came over from today Fossil and will remain a couple of days visiting her mother, Mrs. Meek and other relatives here.

The first watermelons of the season were brought to town Tuesday by J. O. McKinney of Olex. It is needless to add that they went a good deal like melons.

Gene Smith and family have rented the old Miller store building south of Maddock's hotel and will conduct a restaurant there, beginning about Sept. 1.

Two young men, E. Dixon of Forest Grove and C. Haagen of Portland arrived here Tuesday, on the hunt for work. They rode out from Arlington on their bicycles.

Snokers and chewers pay into Uncle Sam's coffers annually \$30,000,000 in the form of a tax on tobacco, cigars and cigarettes. That sum would buy quite a number of 2-bit melons.

A philosopher has made the important discovery that to prevent flies from alighting on white paint or gilt frames, catch each fly and place it carefully on a piece of sticky fly paper.

Mr. and Mrs. Andrew Palmer of Ajax and their son Sylvan, Clifton Maley and Gene Smith all left Wednesday for a couple of weeks outing at Thompson springs, near Prairie City.

When crops are short prices usually rule higher. It is to be devoutly hoped, for the prosperity of Gilliam county that the prices of grain will take a jump upwards and keep on jumping.

Large audiences were out last Sunday to hear Rev. Baruhart's farewell sermons here. He expects to attend college for the next two years, after which he will again take up ministerial work.

At the St. Louis convention the negro delegates were told that 16 to 1 meant \$16 for the white man and \$1 for the nigger, with no watermelons in July and August. The argument was crushing in its weight.

The Eugene Guard says that Miss Annie Oglesby, who had been acting as operator in the Postal Telegraph office during the absence of Miss Knox, has gone to Albany to take charge of that office for a month.

Since cattle are dying by the thousands on the Arizona ranges for want of water, it would look reasonable that cattle in other localities would soon advance in price. A great many cattle are dying in Texas also from the same cause.

Heppner Gazette: The directors of the National Bank have decided to surrender their charter and go out of business Aug. 1st. The Gazette is informed that the First National of this place will accept the deposits and guarantee same.

Last Friday while the Boyer header was at work on Abe Moyer's place on Matney Flat, it "ran off" down a steep hill. In the fracas three horses ran over Del Rice, bruising him up considerably and broke the machine in several places.

There are several vacant houses here yet, but they will doubtless soon all be occupied by outside families who always move to town in the fall to send their children to our excellent school, which this year will be better than ever before.

The Iowa legislature has passed a bill which explicitly states that "a chicken is an animal." Our farmers who have laid awake nights thinking that the chicken is a vegetable, mineral or berry will be very grateful for this information.

Some fabulously rich gold discoveries have been made recently near Stevenson, Wash., opposite Cascade Locks, the ore from which assays \$4,000 to the ton, so the newspapers state. The Globe would take a few tons of such ore on subscription accounts.

Detroit Free Press: "Do you mean to tell me, sir, that I have no proper regard for the truth?" "I haven't said so; but I will say that if you went into politics the other side would have a busy time guessing between what you said and what you meant."

Martin Quinn, the defeated populist candidate for congress, is now an office-holder. He has been appointed superintendent of the street-cleaning and sprinkling department, Mr. Reilly having declined the position. Mr. Quinn's salary will be \$100 per month.

One of our exchanges justly makes this kick: "Land is held entirely too high in this section. Some of those who have large holdings should sell off a part at reasonable figures, use the money in improvements and enjoy life, besides giving some one else a chance to live here and improve the country."

A newspaper in The Dalles recently said: "The prettiest girl in this city does not carry herself straight enough when promenading." For a week afterward all the young ladies of the town walked about like so many bean poles, and every girl said: "That horrid old paper! Ma, don't I walk straight?"

Deputy County Clerk C. O. Portwood left Saturday for Marion and Polk counties, where he will visit his relatives until the 1st of September. His many friends here hope he will enjoy his vacation. Mrs. Frazer will assist her husband in the clerk's office during Oscar's absence.

School Supt. Daggett informs us that he will hold a teachers' institute at Condon, commencing on August 17th and lasting until the 21st. Official notice and program of same will be published next week. As the law makes it compulsory upon all teachers to attend these county institutes, a great many people will doubtless be present.

A new game called "editor's delight" is played thusly: Take a sheet of ordinary writing paper, fold it carefully and enclose a bank note sufficiently large to pay all arrearages and one year in advance. Keep your eye on the editor, and if a smile adorns his face the trick works like a charm. Try the trick on the Globe man and see how it works.

The Lone Rock K. of P. kindly donated \$20 towards helping Jack Andrews in his misfortune, while Heppner people followed with about \$35 more. Our K. of P. could help Jack a few dollars more and never miss it. He will no doubt appreciate assistance in getting his family once more in a position to enjoy the comforts of home.—Heppner Gazette.

J. A. McMorris, who was elected justice of the peace for Matney precinct, has qualified and given bonds. He is in town several days ago fortifying himself with the statute, blanks, marriage certificates, etc., preparatory to entering upon his duties as J. P. John is a brilliant scholar and well qualified for the position. Tying marriage knots will likely be one of his strong holds.

Nearly all of the newspapers are having their say as to who the presidential candidates resemble. We think, and so do a number of others here, that Bryan's face, according to his pictures in the papers, very much resembles that of H. H. Hendricks, the Fossil attorney. W. S. Thompson of Butte creek gets the credit for looking like McKinley. But doubtless neither of these gentlemen are to blame for that.

J. H. Miller returned Monday from Caldwell, Idaho, where he had been for a week disposing of the balance of his stock of furniture—about \$600 worth. He sold all but about \$200 worth, which he left to be sold on commission. He says Caldwell and the other Idaho towns on the U. P. railroad are the dullest places on earth, and that the merchants there are selling out below cost, for anything they can get. Mr. Miller and family expect to leave next Tuesday for their new home at Medford, Jackson county.

The following officers will be installed this Thursday evening in the Woodmen hall here: Woodmen Circle—Worthy Guardian, Mrs. Lillian R. Stevens; Advisor, Mrs. C. A. Dannebaum; Banker, Mrs. Florence Hudson; Clerk, Goldie V. Darling; Attendant, Mrs. Lucy L. Darling; Great Magician, Mary Maddock; Camp Physician, J. H. Hudson; Inner Sentinel, Carrie Dannebaum; Outer Sentinel, Mrs. N. J. Hendricks; Managers, Mrs. Parman, Mrs. Fitzwater and Mrs. Taylor; Delegate, Mrs. Stella Frazer. Woodmen—Consul Commander, Ed Nelson; Advisor-Lieutenant, F. B. Stevens; Escort, E. W. Moore; Watchman, P. H. Stephenson; Sentry, Wm. Dunlap; Clerk, L. W. Darling; Physiclan, J. H. Hudson; Manager, W. L. Barker.

Nearly all of the populists in the United States now regret that the convention nominated Watson for vice-president, as they now see that by doing so it almost insures the election of Hobart, the republican nominee, even should Bryan be elected. An Indiana populist opines that if Bryan and Hobart should be elected the "money kings" would have Bryan assassinated so that Hobart would become president.

Frank Shurte of Arlington was in town Friday on business. He was accompanied by Geo. Biggs, step-son of Attorney J. M. Johns. On Friday morning Frank made a business trip to Ferry Canyon on Ed Moore's bicycle. Coming down the steep, smooth hill three miles west of town, Frank concluded to coast. He coasted. While going at the rate of 80 miles an hour the seat post broke, turning him a few somersaults and sending him a hundred yards or so on the portion of his anatomy that goes through a gate last. He has been taking his meals standing since that time.

Newspapers are publishing the horrid story that a "sweet girl graduate" in a neighboring town recently took the teacher's examination. Here is a portion of what she wrote in answer to a question in physiology: "The body is devyded into 3 parts—the hed, the chest and the stummick. The hed contains the eyes and branes, if enny. The chest contains the lungs and a pece of the liver. The stummick is devyded to the bowels; which there is five, a e l o u, and sometimes w and y. These also are devyded into a number of alimetary sounds." We hope those who attend the examination at Condon next week will make a better showing.

Arlington Items.

Weather cool and delightful again.

C. G. Morey, the Condon school teacher, was here Tuesday.

Geo. McCreedy and wife of Bickleton visited our town Monday.

Charley Shurte made a flying business trip into the country Monday.

Rev. Bryan is canvassing for an excellent book entitled "The Parliament of Religions."

Miss Ricks, telegrapher for the O. R. & N. Ry., left Saturday for a month's vacation.

Mr. and Mrs. A. C. Hawson and son left Saturday night to spend a month at the seaside.

Mr. E. B. Gorton of Douglas was in town Tuesday. He says the squirrels have destroyed the greater part of his grain this season.

Mrs. O. S. Ebi has gone to Hardman on a brief visit, having accompanied T. W. Compton, who went up there to bring his wife and Miss Daisy Ebi home.

The pump house was removed to low water mark again last week. Mrs. S. G. Hawson left Tuesday for an outing, and will be joined by her husband in a few days.

Deputy Supreme Commander J. L. Mitchell, of the K. O. T. M., left Saturday night for Hoppner. He secured 9 applications to enter the Maccabee lodge at this place.

Frank Shurte and Geo. Biggs have returned from their trip through the county. Frank was thrown from a bicycle near Condon and dislocated his shoulder, but is now in running order again.

Our popular banker, F. T. Hurlburt, met with a painful accident Saturday night. While riding his bicycle on Main street he was thrown violently against a hitching post, spraining his ankle and knocking himself out generally. As a result he now wears a crutch.

Mrs. N. H. Lamberson, State Commander of the ladies of the Maccabees, is here organizing a hive. She is principal of the Albany public school, and is a very pleasant lady to meet. She is the wife of Dr. J. A. Lamberson of Lebanon, Linn county, formerly of Condon.

Messrs. Smith & Royal, the courteous and wide-awake Fossil millers, are here looking over the field ascertaining the pulse of our people with a view to building a grist mill here, an enterprise very much needed at this place. They are both energetic and reliable business men who know how to conduct business in a businesslike manner, and we hope they will conclude to locate here.

Lone Rock Riplets.

R. G. Robinson sold all of his sheep last week to Nat Scott.

J. R. Bennett and family have gone to McDuffey springs to remain a month.

A large number of cattle have been sold in the Haystack country during the last week.

The rain that fell the first of the week was a fine thing for gardens. It delayed hay hauling a day or 2, but we can stand it.

We were a little "previous" last week in reporting a short huckleberry crop. The rustlers had not yet been out. Dr. Houllock, A. Sprowles and J. B. Goff and several others went up around Wine-Sendin's saw mill Saturday and gathered about 15 gallons of fine berries. W. H. Colwell and Bob Johnson went up to Canus Prairie and gathered 25 gallons in two days.

We would report a lot of interesting events that happened here this week, but there haven't been any, which is sufficient reason for not giving them.

Only Hope is to Stay by Bryan and Sewall.

Hon. T. M. Patterson, of Colorado, editor of the Rocky Mountain News, considers the nomination of Watson by the populists a piece of foolishness, and is afraid it may defeat Bryan. The vice-presidency is only an empty honor anyway and if the populists secured it they would gain nothing. He says:

"It is not at all impossible that with 200,000 Bryan votes in a state, 105,000 McKinley votes would lose the state to Bryan. To illustrate what I mean: Say that Bryan and Sewall electors received 100,000 votes; the Bryan and Watson electors would give him the state, with a good many to spare. This shows how disastrous two tickets for the same president and different vice-presidents may be. The populists know they want free coinage, and though they may admire Watson greatly, they will not waste their votes on a ticket that they may elect him to an office without responsibility, influence or patronage. I believe Bryan and Sewall will carry every state west of the Missouri and several of the Middle Western states. Southern silver men will see that they lose no votes in their section."

M. The county board of examiners will give examinations to all persons desiring state diplomas or state life diplomas, at the same time and place.
