GLOBOSITIES.

See change of dates in county treasurer's notice.

Mrs. Martha Hogan and little son visited relatives and friends in Condon this week.

A little son of Mr. and Mrs. Wattenberger of Hoover creek broke his arm last Saturday evening.

Wm. Keys of Mayville and Jas. King of Butte creek were visible to the naked eye on our streets Saturday.

Jas. H. Hill, formerly of Condon, has been engaged to teach the ensuing term of the Centerville school in Washington.

Mrs. S. A. Maddock and Mrs. E. L. Taylor visited at the home of Mr. and Mrs. C. J. Quinn near Mayville Sunday.

Mrs. R. A. Balding and family have moved from the Taylor house to one of the Barker houses near the school house.

M. O. Clarke, our popular and efficient county assessor, has completed the assessment of the county and is now at work on the roll.

Rev. John Davis, a Latter Day Saint minister, held meetings every evening this week at Condon, in W. A. Goodwin's residence.

Misses Katie Kiely of Eightmile and Carrie Danneman of Clem came up on Tuesday's stage to attend the institute here this week.

The Globe is printed one day earlier this week than usual, owing to the editor making a trip to Arlington on the regular press day.

Mrs. G. W. Mayer, who had been visiting her father here, G. G. Farman and family, the last month, left Tuesday for her home in Walla Walla.

Anyone desiring to purchase a first-class new organ at less than the price charged by agents, can learn of the snap by applying at this office.

For information as to who makes the bicycle tracks between Condon and the home of Frank Golden near Mayville about every Sunday, ask Edgar Moore.

Roy Taylor accidentally chopped off the end of one of his fingers Monday evening while cutting wool. We have not learned whether the ax was injured any or not.

Born, on August 15th, to Mr. and Mrs. A. L. Duthie on Matney Flat, a son. Mother and child are doing well. Alex will pull through also if he does not suffer a relapse.

The only applicant at the teachers' examination here last week, Miss Kathleen Fitzmaurice, passed the examination successfully and secured a second-grade certificate.

The hot wave continues in the East. It is estimated that about three thousand people have died in the large eastern cities from the torrid weather during the last two weeks.

Jas. Snipes of The Dalles has been up here the last two weeks looking after his farm and cattle interests on Matney Flat. He and Frank Stevens sold a bunch of beef cattle last week.

H. B. Hendricks drove across the mountains to Salem last week with a back to meet his family who have been visiting relatives in the valley. They are expected home today.

The editor of this excellent paper found a good corduroy coat, lined with leather, in the road on the Cummings near Fossil last Sunday morning. The owner can have same by paying 50c for this notice.

W. L. Richards and Miles Shurtle have dissolved partnership in the photographing business, the former continuing the business at Condon. Miles will try his luck in the harvest field for a few weeks, for a change.

Byron Murch, who resides on the John Dny a few miles above Leonard's bridge, is in the city. Mr. Murch is looking for a business location, and may decide to settle in the vicinity of The Dalles.—Times-Mountaineer.

Corvallis Times: Geo. A. Waggoner of this city received a letter from Arlington, Or., a few days ago, saying that the wife of Dr. Lige Irvine of that town was lying at the point of death with hemorrhage of the bowels.

The father of a bridegroom stopped a wedding the other day at Antelope by rising when the clergyman asked if any one knew just cause why the marriage should not take place and announcing that his son was already married.

An indication of the general interest in the financial question is the daily average of about 1200 letters asking all sorts of financial information, which are relayed at the United States treasury department. The people are studying this question harder than they did before.

Mitchell Monitor: We are informed that Ervin M. Shurt, of the Antelope Herald, is the happy father of triplets, all bounding boys with lungs that can be heard a mile. In the exuberance of joy he has failed to chronicle the happy event in the Herald. (If this is true, the Globe hollers "bully for Ervin!")

The Mouthmouth Monitor, after a hungry existence of seven months, starved to death last week from lack of patronage. This we believe makes the 4th newspaper that has starved out in that town, which proves that there is considerable mossbackism in the place, and in that case it is not deserving of a paper.

We regret very much to learn that our old friend George Coffin of Thirty mile is lying at the point of death with heart disease and dropsy, with a very slim chance of recovery. This is the same complaint that caused the death of so many of our noble old citizens within the last year or so—T. B. Hoover, H. W. Pentecost, J. H. Morris and others.

Miss Jennie Cummings, who visited her relatives in this county since last spring—Frank Golden and family of Mayville, E. O. Tobey and family of Stutter Flat, Geo. Chamberlain and family and Mrs. Eliza Grubb of Olex—left last week for her home at Haley, Linn county. She made many friends during her visit in this county who regret her departure.

Just now Fossil is one of the prettiest and most cheerful-looking little towns in Eastern Oregon, owing to all of the buildings in town being surrounded by beautiful poplar trees, the tops of which tower above the nicely-painted buildings. Two creeks run through the town, from which nearly all of the yards are irrigated. To a traveler this time of the year it is like finding an oasis in a desert.

Mouthmouth Monitor: H. S. Portwood left Monday for the Sound country. He goes there to represent Rosenthal, Feder & Co., wholesale shoe men of San Francisco, with whom he has secured a position as traveling salesman, with Washington, Idaho and Montana as his territory. Mrs. Portwood will visit with relatives at Eckley for a month or so until he decides where to locate his family.

Our delinquent subscribers should not fall into the error of thinking that because we do not dun them every week through the paper we do not need the money due us. It takes lots of hard cash to run a first-class paper, and if you are owing the Globe the money is ours and we want it. We are not a millionaire and therefore we are not prepared to wait a life-time on these little bills that ought to be paid in advance.

Rev. E. Curran, of Oakland, Cal., arrived here on Wednesday of this week on a brief visit to his relatives and friends in this section. His wife (nee Miss Emma Meek) has been visiting here the last three weeks, and both will return to Oakland about Sept. 1st. By request of a large number of his old church members here, Mr. Curran has consented to preach in the Congregational church here next Sunday at 11 o'clock.

At a festival held several nights ago in a neighboring town the editor of one of our exchanges, took his best girl up to the lemonade stand, and treating her, he began fishing in his pockets for a dime. His face expressed his embarrassment as he whispered hoarsely, "I guess I haven't a cent; I changed my pants," and the young lady who had been examining the unknown regions of woman's dress for her purse, turned a pink color and said, "I am in the same fix."

The little 4-year-old daughter of Mr. and Mrs. D. C. Henry, five miles south of town, met with a terrible accident last Sunday morning. She and an older brother were riding a very gentle horse and in some unaccountable manner both of them fell off, breaking the little girl's arm in two places, one at the elbow joint. Dr. Hogan was hastily summoned and he had the child brought to town in order to be able to treat it to better advantage. It being a compound fracture and at the elbow joint, there is very great danger of the arm remaining stiff, which would be doubly unfortunate.

The sliding mountain just below the Upper Cascades is one of the wonders of the Western world. It has the slides this year worse than usual, and its movement has rendered necessary the relocation of the O. R. & N. Co.'s railway for a distance of some 1200 feet. The new line will be moved some sixty feet back, and will be eighteen feet higher than the present line, which has gone away below grade, owing to the sinking and sliding of the land. The railroad engineers have become so accustomed to the antics of this sliding mountain that they just let it slide, and when it gets the track too far down, they move it up again.

Brown Bros., Bill and Jim, delivered at Arlington this week about 50 head of very fine beef cattle for the Portland market. John Walker sold seven head at the same time. Notwithstanding the fact that "Snipion Bill" has always been a staunch democrat, he informs us that he will "go republican" this fall and vote for McKinley and the gold standard. This is one of the advantages of living in a free country—a man can vote as he pleases. While thousands of democrats will flop to McKinley and gold, no doubt enough republicans will flop to Bryan and silver to make about a stand-off. It all depends upon their opinion on the money question.

Another of the noble pioneer men of Oregon passed away at his home near Creswell on August 11th, after an illness of six weeks, Mr. Wm. J. J. Scott. He was born in Morgan county, Illinois, October 15, 1824, and therefore he was 71 years, 9 months and 23 days of age. Mr. Scott came across the plains in 1843, and first settled in Scott's valley, Douglas county, and some time afterward removed to near Creswell, where he owned large bodies of land. On October 3, 1850, he married Miss Surrenea J. Robinson, who survives him. He also leaves ten grown children and one sister and a brother. Three daughters reside in this county—Mrs. D. B. Trimble and Mrs. D. S. Brown of Condon, and Mrs. W. C. Brown of Lone Rock. The latter two were present at the time of his death, and are expected home in a few days.

The Institute.

One of the most interesting and enthusiastic institutes ever held in the county is in progress this week at Condon by Prof. J. H. Ackerman of Portland, E. P. Green of Heppner and School Supt. Daggott. Mrs. Daggott is also present.

The following teachers are present and taking part in the work: Mrs. M. Edelman, Misses Neva Graham and Laura Simmons of Mayville, Misses May and Florence Davidson, Belle and Nora Coleman and Iva Blake of Davidson, Miss Grace Frizzell of Lost Valley, Miss Hattie Hoover and Lee Stewart of Fossil, Miss Anna Schott and Chas. Royce of Olex, Miss Kathleen Fitzmaurice of Rowe creek, Misses Nettie Schilling and Lydia Thompson of Matney Flat, Mrs. E. L. Taylor, Misses Mabel Halstead, Birdie and Daisy Downing, Grace, Bessie and Pearl Fitzwater and C. G. Morey of Condon, Miss Maggie Wilson and Miss McConnell of Mayville arrived after the above was in type.

Besides the teachers present, a great many other persons who are interested in school work and expect to become teachers are regular attendants.

On Tuesday evening E. P. Green delivered a lecture to a large audience on the subject, "Some Curious in English," or language study at random. The lecture was very humorous throughout, as well as instructive. As a humorist he is "no slouch himself," almost out rivaling the famous Bill Nye, now extinct.

J. H. Ackerman will deliver a lecture this (Wednesday) evening on "The New Patriotism," and on Thursday evening Mr. Green will lecture on "Life's Lessons in Rhyme and Rhythm."

The institute will adjourn Friday.

A little grand-daughter of Mrs. Williams was kicked by a horse last week, sustaining a fracture of the thigh. She was brought to town for treatment and is getting along nicely. Dr. Irvine reduced the fracture.

"The butcher offered me his hand this morning," said the hired girl. "Indeed!" "Yes'm; he tried to sell it to me with a steak, but I made him take it off the scales."

Lone Rock Riplets.

Most of our men of leisure are putting in their time killing grouse.

Mr. James Vickers is improving from his late sickness, we are glad to state.

Rev. Barnhart preached his farewell sermon here Sunday to an attentive audience.

Mrs. Hogan and child are visiting at Condon this week, leaving the postoffice in charge of an assistant.

Andy Sprowles, our blacksmith, is building a new shop. He has been working out of doors since the fire.

Assessor Clarke was in this section a few days ago, ascertaining how much we are worth, especially along about the 1st of March.

Mr. Fisher of Haystack made his first appearance with a load of watermelons Monday. He is wild for free silver, but unreservedly opposed to free melons.

There seems to be an epidemic in this section among the elderly people, which lays them up for a few days. It is similar to the complaint usually prevalent during the early peach and melon season.
