

Laugh and the world laughs with you; weep and you weep alone. In prosperity friends flock thickly around, but when adversity overshadows you they desert you like rats from a sinking ship. It is only true, sincere and loving friends who are pleased to observe your prosperity, who sympathize with you in your sorrows, who rejoice in your happiness and who manfully step in and stem the tide of adversity for you in the hour of need. In this hard, grasping, avaricious age of deception and envy, the true, sincere and honorable friend is hard to find, but when found bend every honorable means to retain that friend by convincing proof of appreciation for the favors rendered and reciprocating their kindness by every honorable means in your power.—Exchange.

Great Britain's aggregate wealth is estimated at 47 billions; France, 42 billions; Germany 31 billions; Russia, 25 billions; Austria, 19 billions; Italy, 14 billions; and the seven smaller European governments at 30 billions aggregate, while the same statistician gives the United States credit for 64 billions. Our census of 1890 makes it 68 billions, and the increase since is estimated to bring it up to 83 billions.

A great many people fall into the error of considering that all or nearly all of the different species of snakes are poisonous. The very latest estimate made by the naturalists is that there are 637 varieties of snakes on the globe. Of that number 490, or over two-thirds of the whole lot, are as harmless as rabbits.

My little boy, when two years of age, was taken very ill with bloody flux. I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy, and luckily read the directions and gave it accordingly. He was very low, but slowly and surely he began to improve, gradually recovered, and is now as stout and strong as ever. I never can praise the remedy half its worth. I am sorry every one in the world does not know how good it is, as I do.—Mrs. Lina S. Hinton, Grahamsville, Marion county, Florida. For sale by druggists.

Since 1878 there have been nine epidemics of dysentery in different parts of the country in which Chamberlain's Colic, Cholera and Diarrhoea Remedy was used with perfect success. Dysentery, when epidemic, is almost as severe and dangerous as Asiatic cholera. Heretofore the best efforts of the most skilled physicians have failed to check its ravages. This remedy, however, has cured the most malignant cases, both of children and adults, and under the most trying conditions, which proves it to be the best medicine in the world for bowel complaints.
