

THE CONDON GLOBE.

FRIDAY, OCTOBER 23, 1896.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

Weyler's inhuman butcheries still continue, and other civilized governments look on and say not a word. All the powers are looking at Turkey now, and forgetting how the Cuban patriots are struggling against fearful odds for their lives. Spain has long ago shown that she cannot suppress the rebellion, and there is no reason under Heaven why the brave men who are fighting for their wives, their children and homes should not be tendered a helping hand from Christian governments. Every day gives accounts of new tortures to prisoners by Weyler's cannibals, yet this government who should remember our struggle for independence, sits calmly by and allows it to go on. It is to be hoped that when the new president is elected he will show enough humanity in his soul to lend a helping hand to a needy and deserving people. Later news is to the effect that Spain, realizing that it is impossible for her to whip plucky little Cuba, has decided to cease hostilities after March 1st and allow the Cubans their well-deserved freedom. Yet Spain is the country that wanted to thrash the whey out of the United States last spring.

One of our exchanges becomes suspicious and says: The people will have to keep their eyes open if they do not desire to have a job put up on them in the November election. It will be remembered that a half-dozen precincts in Multnomah county were not heard from in the June elections until the returns were in from the "cow counties," with the result that Ellis was elected by a few votes. A similar favor was shown Tongue, who was also elected to congress in the first district.

There is one great thing that this campaign has done, no matter who is elected—it has made us a nation of great financiers. And now, if we fellows who say such wise things shall only be able to manage our own business after the election as well as we could, if we had a chance, manage that of the government, we shall doubtless soon all be millionaires.—Exchange.

Many people who go through the form of love-making should be arrested for counterfeiting. The trouble with most girls is that they seem to be brought up on the anticipation of marrying men at the very top, instead of marrying men at the very bottom and working up with them.—Exchange.

Tommy Turskey, a five-year-old boy, put a spike on a railway track in Illinois to have it flattened. It didn't flatten the spike but it did the train, also a number of people. The small boy will always bear watching, even after he has had enough to eat.

A recent poll of every precinct in Illinois made by the Chicago Tribune, through its correspondents, showed that Bryan would carry the state by 50,000. This report was quickly suppressed by the Tribune after it had been made at great expense.

Statistics show that London contains 244,000 young women who are learning, or trying to learn, to play on the piano. In view of this fact, the statement that London is full of Americans eager to get home needs no further explanation.

Sir Benjamin Richardson, the distinguished English physician and medical writer, says that seven out of every ten sound and reasonable people ought to live to be 110 years old, and would if they "took care of themselves."

The poor Armenians will catch it now. The Hon. Abdul Hamid, Sultan of Turkey, is learning to sing and play the piano. What have the Armenians done to deserve this additional punishment?

The Darlington, Wis. Journal says editorially of a popular patent medicine. "We know from experience that Chamberlain's Colic, Cholera and Diarrhoea Remedy is all that is claimed for it, as on two occasions it stopped excruciating pains and possibly saved us from an untimely grave. We would not rest easy over night without it in the house." This remedy undoubtedly saves more pain and suffering than any other medicine in the world. Every family should keep it in the house, for it is sure to be needed sooner or later. For sale by druggists.
