

# THE CONDON GLOBE.

FRIDAY, FEBRUARY 5, 1897.

## NOTICE.

The yearly subscription to the GLOBE is \$1.50, if paid in advance. If not paid in advance \$2 will be charged. A pencil mark around this notice indicates that your subscription has expired. Please renew promptly.

## GLOBOSITIES.

Our city election will be held on Tuesday, March 2d.

Don't forget the meeting of the sheepmen's Union at Condon on Saturday of this week.

A 11-lb daughter was born to Mr. and Mrs. Geo. Knox of Lost Valley on Thursday of last week.

A Baker City girl with two sisters, named Mann and Mousa, very properly decided to be a Mann.

There has been considerable sickness in this section since the late cold snap, from colds, la grippe, etc.

The total tax levy in Lane county this year is 15 mills, which is the lowest of any county in the state.

A beautiful 1200-pound 3-year-old horse for sale cheap, or will trade him for wood. Inquire at this office.

James W. Smith of Arlington has done \$25,000 worth of business with the firm of Allen & Lewis of Portland in the past 12 months.

F. M. McBride, assistant postmaster at Salt Lake City, and a nephew of Senator McBride of Oregon, is short in his accounts \$4000.

Miss Frankie Parsons, one of the most accomplished young ladies in the state, returned home to Twickenham this week from an extended visit with relatives at Eugene.

Wm. Dunlap this week moved his Smith shop from the old location to Main street, opposite Johnson's livery stable, which is an excellent location for a shop.

At a dance in Lane county the other night, gentlemen secured partners by taking hold of a yarn passed under a curtain with a lady attached to the other end.

Mr. H. B. Millard and Miss Rose Hansen were married in Lane county this week. The groom was recently divorced from Miss Annie Oglesby, formerly of Fossil.

February is the shortest month, but it has Washington's birthday, St. Valentine's day, ground-hog day, China New Year, and is sometimes responsible for leap year.

Read J. W. Smith's large new ad. This is the best evidence in the world that he wants your trade. The best way to build up any kind of business is to advertise in the GLOBE.

An interesting letter from A. N. S. Cottin of Ferry Canyon, an old supervisor, on the change of road districts, reached us too late for this issue, but will appear next week.

Rev. John of Fossil will preach at Condon next Sunday, morning and evening. Mr. Johns, assisted by Rev. Hornbrook of Goldendale, is conducting an enthusiastic revival at Fossil.

We learn that Frank Bellard, who moved to New York last summer with his wife, intends to return to his Ferry Canyon ranch again this spring. City life does not seem to agree with him.

Any business man who struggles along without advertising says plainly to the public that he does not want their custom—and he seldom ever gets it, either. No danger of getting bilked by dealing with the business men who advertise in the GLOBE.

Charley Pinkham and family of Pine creek visited their relatives at Condon the last week, Sheriff Wilcox and family. One of the Pinkham children, 8 months old, is dangerously sick with bronchial pneumonia. Mr. and Mrs. G. J. Caven came over today from Pine creek to help wait on the child.

At a school meeting last Friday it was decided by a vote of 74 against 68 to not levy a tax. It is a deplorable fact, especially at this season of the year, that we cannot have a school. Then, again, taxes have become so onerous in Marshfield that property holders have to unite for economy or give their property away and leave town.—Marshfield Sun.

In our rush to get to press last week a mistake was made in giving the names of the new officers of the I. O. O. F. lodge of this place. H. B. Hendricks' name should have appeared as secretary, instead of that of P. H. Stephenson. Some people might think that printers are proof against making mistakes, but right here is a good place to add that they are not.

The following appears in The Dalles Times-Mountaineer of Saturday, under the heading of "Land Transfers." "Nelle E. Barnard and husband to F. McBeth, parcel of land in Antelope, \$1,150." "W. H. Silvertooth, guardian, to W. E. Barnard, parcel of land in town of Antelope, \$605." "Hattie and Arthur Coffin to Emma Thompson, lot 5, block 25, Bigelow addition to Dalles city, \$1."

A dispatch from Washington says: Senator McBride has reported favorably from the committee on public lands, Senator Mitchell's bill, extending the time for payment by settlers on forfeited lands. It is expected that the bill can pass both houses at this session. It will be signed because the interior department has recommended it, and has suspended entries on the lands pending the passage.

An exchange remarks: It was recorded that Noah was the first advertiser. He advertised the flood and it came through all right. The fellow who laughed at his advertisement drowned. Ever since Noah's time the advertiser has been prosperous while the other fellow had been struggling to keep his head above the flood of disaster.

The attorneys for B. Giede, defendant in the Strickland-Giede sheep trespass case, have succeeded in carrying the case to the state supreme court and the case will come to an end at Pendleton at the May session of court next spring. The witnesses and jurors no doubt think their fees are a long time coming, but in cases of this kind there appears to be no other alternative but to wait until the suit is ended.

As per advertisement, Ed Smith of The Dalles organized a dancing school at Condon last Saturday evening. Until further notice he will teach the ladies every Saturday afternoon in the hall from 4 to 6 o'clock and in the evening all who desire to attend the school—gentlemen and ladies—are invited to attend. This is an excellent chance to learn to dance—and goodness knows some of them need it.

A number of the citizens of this district met Saturday and voted a 6-mill tax and also 1½ mills to pay the interest due on bonds, making a total of 7½ mills. This tax will bring in about \$900, as the taxable property in the district amounts to about \$80,000. As there is considerable indebtedness incurred, we believe it would have been better to vote a 10-mill tax while they were at it, but it is too late now.

A private letter from Hon. J. E. David at Salem concludes thus: "The hold-up still continues, with no prospect of any change. I am sorry for the taxpayers, for I thought I would be able to go on record as voting for reduction of expenses, which means to our citizens equally as much as to elect a senator. While it is one of the highest duties of the legislature to elect a senator, it is equally as much importance to have an economical administration of state affairs, and neither can be done if members-elect refuse to qualify and proceed to business."

Believing that it would not be to the best interests of this county to annex any portion of Grant county to Gilliam, several parties last week circulated a remonstrance against annexation and in a couple of days received the signatures of a majority of the taxpayers and legal voters of this county, and this without going over much more than one-half of the county. It is firmly believed that fully nine-tenths, if not more, of the taxpayers of this county are opposed to annexing any more territory. The county is just the right size the way it is. Sheriff Wilcox took the remonstrance to Salem the first of the week.

Reform in the school laws is urgently needed and is being demanded by everyone connected with the public schools. Most strongly urged is a change in connection with teachers' certificates and of this there is greatest need. As the law is, an inexperienced candidate need only reach the ridiculously low average of 60 per cent, and many fall to 40 in some branches, and still be licensed to teach. Even the dullest pupil, coming fresh from his books cannot "help passing. Having nothing to recommend him he offers to work at any price in order to get a start and some small district which desires to have as much school as possible employs him in the belief that his certificate is evidence of his ability to teach. This county now has teachers receiving \$12 and \$15 a month—hardly enough to pay board. The experiment may be a success, but it rarely is, and in three months a poor teacher does more harm than a good teacher can correct in a year. In fact, wrong teaching can never be entirely corrected and will continue to hamper the pupil throughout his lifetime. Better no teacher than a poor one.—Forest Grove Hatchet.

**Lone Rock Rumbblings.**  
Our town can now boast of one gentleman of leisure, in the person of Pete Nicolson.

The weather is the most changeable ever experienced in this locality. It will rain awhile, then a dense frost fog, then a little snow; but principally fine warm weather like spring time.

Dud Flynn came over from Heppner Monday, where he had been receiving medical treatment, on account of being pawed by a horse on the side of his head a few days since. Dud's head is badly swollen vet and had a big hole in his jaw.

A gentleman by the name of Nuckola with his wife and little girl arrived in our burg last week. John Bowen gave them employment for the remainder of the winter in his restaurant. We are pleased to note that there is quite a change in the code of morals about this establishment since their coming.

Dr. Howard was over to attend the youngest child of J. R. Bennett the first of the week, and pronounced it a case of scarlet fever. Everybody felt pretty scary for a few days, but every precaution possible is being taken to keep the disease from spreading. Quite a number of persons are ailing with sore throat, which is quite severe.

A petition is being generally signed here asking the county court to change the road districts back the way they were and allow a supervisor for each district, so as to have the work done on the roads when most needed. There is no great objection to paying their money, but they want some one in their own district to expend it at the proper time and in the proper places.

## Arlington Items.

S. G. Hawson is able to be about again. Mrs. R. H. Robinson is improving slowly from her attack of typhoid fever.

The snow fell to the depth of 4½ inches here last week but has all gone again.

Miss Riels is recovering from her late sickness, but is not able to take her place in the office yet.

Wm. Snell and wife were visitors in the city most of the week. Miss Lillian Snell accompanied them.

R. H. Robinson was laid up several days this week with a light touch of appendicitis, but got it broke up without much trouble.

Several boys of the Gun club went up to Castle Rock last Saturday on a rabbit hunt and bagged about 150 and had great sport. A J Sanford of The Dalles accompanied them.

Mr. Morrison, who brought down a raft of logs from up the river last week, reports it rather cold work standing on a raft all day with the thermometer buzzing around the zero mark.

The ferry boat was taken into winter quarters last week on account of the cold spell, but has been put into service again. There was a great deal of ice running for several days.

The school entertainment, advertised to come off this week, has been postponed until Feb. 13th on account of unavoidable circumstances. The proceeds are to be used toward buying a library for the school.

Mrs. Jayne and friends gave Mr. Jayne a surprise party last Friday evening in honor of his birthday. There were about 40 present, who enjoyed the evening in a game of drive whist, after which a fine lunch was served.

Ed Smith and wife returned last week from a two months' visit with his parents in Southern California. Ed says there is quite a contrast between there and here, especially at this time of year. They have all kinds of ripe fruit and berries down there now.

Friday night the Woodmen of the World will give an entertainment at the A O U W hall. A good speaker will be present and a fine program will be rendered. Music by the Arion club. No admittance will be charged.

During the cold spell, by some hook or crook, water got into one of the cylinders. It caused the company to buy a new pump, which was put in the first of the week. It looked like old times to see men hauling water about town in barrels to supply the city. They are very heavy pumps, as they have to raise the water over 200 feet to the reservoir.

Last Monday evening the K of P lodge of this place gave a fine supper, to which their wives and friends were invited to attend. After the routine work of the order was gone through with, the evening was spent in playing whist and other pastime games until time for lunch, when all quit, to partake of the many good things that they (the wives) had prepared for the occasion. By unanimous vote the evening entertainment was declared a grand success.

**Twickenham Twitchets.**  
Feb. 1st.

Stock of all kinds are doing nicely and are as fat as butter. Grain and fruit prospects are also most flattering.

The climate on the river is the finest in the world—just like summer all the year round. This is truly a paradise when it comes to climate.

We do not know of a taxpayer in Southern Gilliam who favors the change our county court has just made in the road districts. What in thunder has got over our county court? It is next to impossible for the taxpayers to pay their county, school and state taxes, without saddling such unnecessary burdens onto them as this road tax and coyote bounty tax. For goodness' sake, let us work out all the taxes we can; we are all stout and don't care how hard the work is. There is general dissatisfaction about this matter all over the county. If the taxes must be increased and cash paid, the people over here prefer letting it go towards building a court house at Condon.

We regret that the remonstrance against the annexation of a portion of Grant county to Gilliam was not circulated in the south end of Gilliam county, as every voter and taxpayer, with few exceptions, south of Fossil, would gladly have signed it. The people over here are unanimous against the annexation of any more territory to this county. Grant county is almost bankrupt by the criminal element in the very section of country that wants to be annexed to this, and the same fate awaits Gilliam if it is taken in. The few people in this county who favor annexation can not conceal the real object; it is so transparent that any child can see through it. The same "sneak" was attempted two years ago but failed, and we hope it will meet the same fate this time. J. H. P.

An exchange gives this sure remedy how to kill your town: "Always patronize everybody and everything else in preference to your home people; send your money out of the country for everything you buy, where it never finds its way back again; tell everybody you talk to that your home business men are all robbers and encourage them to send away also for what they want. This policy never was known to fail in killing a town as dead as a door-nail."

## Alder Grove Officers.

Owing to the absence of the installing officer, Mrs. F. B. Stevens, the semi-annual installation of officers of Alder Grove No. 24, was deferred and a special meeting was called for Jan. 28th, when the following officers were duly installed: Worthy Guardian, Mrs. J. H. Hindson; Adviser, Mrs. H. N. Frazer; Great Magician, L. W. Darling; Attendant, Mrs. H. C. Strickland; Inner Sentinel, Miss Pearl Fitzwater; Outer Sentinel, Miss Carrie Danneman; Banker, Mrs. H. B. Hendricks.

All has passed smoothly and pleasantly during the past six months since the organization of our order, and we hope the same pleasant relations may continue with an increasing interest.

## A NEIGHBOR.
