the New and the Old World In a
Condensed and Comprehensive Form.**

Two boys were drowned in a slough
near Marietta, Wash.

The 3-year-old child of Frank Floyd,
who lives in Aroyo valley, California,
was killed by the bite of a rattlesnake.

Edward Neill was mangled to death
at Wallace, Idaho, by a line shaft in
which his clothing became entangled.

Two elderly women were knocked
down and robbed in their home in Cin-
cinnati, O., by three men, who escaped
with jewelry valued at \$5,000.

Governor Adams, of Colorado, has
vetoed the bill regulating the manufac-
ture and sale of oleomargarine passed
at the recent session of the legislature.
The veto message is sensational, as the
governor shows in his message that the
most barefaced bribery ever attempted
was employed to secure the passage of
the bill.

At a meeting of prominent Parnelli-
tes in Dublin, Ireland, a resolution
was adopted providing for the forma-
tion of an independent Irish league, in
which agrarian interests are not to be
dominant, and which will be founded
on the "broader and sounder basis of
independent political action for the
benefit of the whole Irish nation." The
object of the league will be "civil and
religious liberty, and absolute indepen-
dence of all alliances with any Eng-
lish party."

The famous "hat-trimmings case,"
which indirectly involved between \$20-
000,000 and \$25,000,000, and which
has been postponed from time to time
for the past three years, has been
finally decided in favor of the govern-
ment by a jury in the United States
circuit court in Philadelphia. The suit
was brought as a test case by an im-
porting firm, who sought to recover
from the government a difference of 30
per cent in customs duties. The firm's
contention was that the importations
in question consisted solely of hat trim-
mings, on which the duty, under the
McKinley tariff act, was only 20 per
cent, but the federal officials proved
that the merchandise was used chiefly
for dresses, and dress trimmings, on
which there was a duty of 50 per cent.

A number of Japanese have left San
Francisco for Mexico, where a colony
will be formed on land granted them by
the Mexican government.

The body of Captain Evan Davies, of
the British four-masted ship Delcarnie,
who drowned over four months ago in
the harbor at Astoria, has been picked
up by a fisherman. The remains were
positively identified by papers found in
the pocket.

The great coon and varmint hunt on
Fox island, Washington, in which sev-
eral hundred hunters participated, was
anything but a success as a varmint-
killing bee, though all who attended
were well satisfied, as the courtesies of
the islanders made the outing a most
enjoyable one.

Seth L. Milliken, representing in the
house of representatives the third dis-
trict of Maine, died at Washington.
For some time he had suffered from a
serious affection of the bronchial
tubes, which last week developed
alarmingly, and was accompanied by
kidney and liver complications.

Bernardino Asseuro, a Mexican settler
on the tract of land near Hollister,
Cal., claimed by a Portuguese, was
found murdered in the charred re-
mains of his hut. Investigation shows
that Asseuro was murdered with an ax,
after which the body was laid on the
bed, and the hut fired, to conceal the
crime.

The first wool of the season has been
delivered to a warehouse in Heppner,
Or. It is said the wool is lighter and
of better staple and brighter than the
clip from the same sheep last season.
The rain has greatly delayed the shear-
ing in that section. Few sheep are be-
ing sold, owners holding firmly for a
small advance, about 10 cents a head,
more than buyers are willing to pay.

A dispatch from Baker City, Or.,
says that Powder river is higher than
it has ever been known to be, and is
doing great damage. Only one bridge
remains in the city, and if the warm
weather continues, it will go out. The
Sumpter Valley railroad is flooded for
miles, and trains will not be running
for weeks. The northern residence por-
tion of the city is inundated.

Chief Justice Fuller, of the United
States supreme court, has refused a
writ of habeas corpus in the case of El-
verton R. Chapman, a broker, who re-
fused to testify in the sugar speculation
investigation as to whether senators
had speculated in sugar stocks while the
Wilson tariff bill was before that body.
The sentence of the supreme court of
the District of Columbia to 30 days in
jail and \$100 fine was affirmed, and
Chapman's application for writs of cer-
torari and habeas corpus were denied.

ANOTHER BAD BREAK.

**Mississippi Levee Gives Way, With Very
Disastrous Results.**

Greenville, Miss., April 26.—There
was another break in the levee on the
Mississippi side at Shipland, or "The
Promised Land" levee, at 10 o'clock
this morning, forty miles by rail south
of Greenville. The break will cover
19,000 acres of land near the flood, and
will add to the volume of water already
covering most of the lands in its vicin-
ity. The levee is ten feet high, and
the break is fully 300 feet wide. There
was a foot on the levee when it gave
way. The break will submerge Mayors-
ville, the county seat of the county, a
town of 400 people. The town is situ-
ated twelve miles north of the break.
From Mayorsville south to the Yazoo
river every plantation in Issaquena and
two-thirds of those in Sharkey, besides
a number of others in Yazoo and War-
ren counties will be put under water
from ten to twenty feet deep.

While this section was in a large
measure already overflowed, there were
hundreds of farmhouses and cabins and
numerous ridges, mounds and hastily
erected scaffolds, which still afforded
protection to man and beast. These
are now being rapidly abandoned, and
terror reigns.

A MILITARY ATTACHE.

**General Miles Wants to Go to Greece to
Observe the War.**

Washington, April 26.—General
Miles has applied for permission to go
to Greece to observe the war between
that country and Turkey from a mili-
tary point of view. Secretary Alger
has brought the matter to the attention
of the president. Should the order be
made by the president, it will be the
first time in history that the general
commanding the army has gone abroad
during actual war as a military at-
tache. It is true that General Sheridan
accompanied the German army as an
attache in the war with France, but he
was not at the time of as high rank as
General Miles.

Shot Two Brothers.

Baker City, Or., April 26.—The
stage-driver from Sumpter brought
news this afternoon from Granite that
at 2 o'clock yesterday afternoon G. H.
McMahon, who left Baker City Monday
last for Granite, shot Lewis M. Gutridge
and brother, Samuel W., in front of
the Gutridge store in Granite, Grant
county. Lewis was shot twice through
the body, and was dying when the mes-
senger left for Sumpter. Sam was shot
in the face, but grappled with his
assailant, knocking him down and
holding him until the arrival of Deputy
Sheriff Nivens, who arrested McMahon.
Local gossip about McMahon's sister
is said to have caused the assault. It
is believed that if both brothers die,
McMahon will be lynched. Samuel
W. Gutridge is postmaster at Granite.

Death of William S. Holman.

Washington, April 26.—Representa-
tive Holman, of Indiana, died at 2
o'clock this afternoon.

Judge Holman's death was due pri-
marily to a fall he sustained early this
spring, as the result of an attack of
vertigo. He soon complained of feel-
ing badly, and his condition grew
steadily worse until last Tuesday.
Then he rallied somewhat, and the im-
provement gave the family some en-
couragement in hoping for his recovery.
This rally was brief, however, menin-
gitis developed, and since that time he
sank rapidly. Since last night he had
been under opiates, and this morning
the family gave up hope, and realized
that the end was near. He passed
away without regaining consciousness.

Hailstorm Demolished Houses.

Newton, Kan., April 26.—A terrific
wind storm, accompanied by heavy
hail and rain, swept over Harvey
county at 10 o'clock tonight, coming
from the southwest. Two farmhouses
were demolished a few miles west of
Newton. Mr. and Mrs. Weins, the
occupants of one of the houses, were
seriously hurt, and have been brought
to Newton. The surgeons states that
Mrs. Weins will die. Practically
every pane of glass in the south side of
buildings at Newton was shattered by
hail, and a railway train just arrived
here was without a pane of glass in the
windows on the south side of the cars.
The duration of the storm was less
than fifteen minutes.

Will Try to Lease Convicts.

Salem, Or., April 26.—E. T. Johnson,
who is hunting laborers for contractors
on the Astoria railroad, has submitted
to Superintendent Gilbert, of the peni-
tentiary, a proposition to hire the idle
convicts. There is some question as to
whether or not the authorities have
the right to hire out convicts. The
matter is being investigated. The
working of convicts, Mr. Johnson says,
would in no way interfere with free
labor. He gives positive assurance
that all who will work can get employ-
ment, and says that the only reason for
wanting convicts is his inability to get
sufficient free labor.

Few Salmon Running.

Astoria, Or., April 26.—The run of
salmon shows no indications of improv-
ing. The average catch per boat is less
than two fish. A number of men have
returned from the drifting grounds dur-
ing the past two days without having
secured a single salmon, and no im-
provement is expected until warm
weather sets in.

SMALLPOX HAS BROKEN OUT

**Four Americans in Cabanas Have
Contracted the Dreaded Disease—
One Already Dead—Lee Intervenes.**

New York, April 26.—A dispatch to
the Herald from Havana says:

Smallpox has made its appearance in
Cabanas prison. Owen Melton, an
American correspondent and a member of
the Competitor crew, contrived to
send a note to friends here under date
of April 18, in which he says:

"Smallpox has appeared in cell No.
4, in which there are four Americans.
One prisoner has died and three others
have got the disease. I nursed a friend
named Gonzales, not knowing he had
smallpox, and so I suppose I will have
it. I can only hope for the best."

This information was carried to Gen-
eral Lee and he promptly informed the
United States government of the state
of affairs, also wrote Acting Captain-
General Ahumada inquiring if there
had been smallpox in Cabanas, and
what steps had been taken to guard the
health of the Americans imprisoned
there. A reply was received making
no statement of the prevalence of the
disease, but stating that the Americans
would be vaccinated at once.

It is thought here that the appear-
ance of smallpox will make the Amer-
ican government press for the release of
Melton and others, as it is understood
Spain has practically decided to liberate
them. General Weyler is an obstacle
to the release of any Americans. He
said last week in Santa Clara that
Americans were set at liberty without
good cause.

General Weyler's recent declaration
that Santa Clara is pacified means that
newspaper fighting there will be meager.
Nevertheless he admits that within
three days of his declaration of tran-
quillity more than ninety rebels were
killed in the province. He says he will
no longer require any troops to fill the
places of his killed and wounded, which
means simply that he has been told to
expect no more soldiers from Spain.

The situation in Banes, a seaport
town in Santiago de Cuba, now com-
mands much attention here. The gun-
boat Galicia and the cruisers Nueva
España and Reina Mercedes are waiting
outside the narrow until three columns
sent by General Weyler have had time
to move on the rebels by land.

The insurgents have held the town since
March 25. The harbor is one naturally
capable of easy defense, and it is said
the insurgents have placed torpedoes in
the channel. It is most difficult to
learn any definite news of the recent
operations there, but it is plain that
the Spanish recognize the necessity of
moving in force against the town and
attempting to attack it simultaneously
by land and sea, for the purpose of pre-
venting the rebels from continuing to
hold the port.

General Gomez, according to the last
reports, has left Arroyo Blanco district
and moved nearer Trinidad. There is
a rumor that he may be elected presi-
dent of the republic to succeed Cis-
neros. Another idea is that he has
decided to contest the possession of
Banes, and many who thought his siege
of Arroyo Blanco was a ruse to entice
Weyler into the country where moder-
ate force might be attacked to advan-
tage, now believe that Weyler's move-
ment toward Banes will meet a steady
resistance which will add to the evi-
dence already piled up to disprove Gen-
eral Weyler's declaration of pacifica-
tion.

Expectorated on the Floor of a Car.
San Francisco, April 26.—W. B.
Bradbury, the millionaire, was before
Police Judge Low yesterday on a charge
of expectorating on the floor of a street-
car. He was arrested about two weeks
ago, but in deference to the request of
his attorney the hearing was postponed
until yesterday.

The conductor of the car testified
that he had requested Bradbury to re-
frain from spitting on the floor of the
car, and called his attention to a placard
on which was printed a copy of the
ordinance prohibiting public expectora-
tion. He said that the millionaire re-
plied by requesting him to tell Mr.
Vining that he (Bradbury) had paid
his fare and would do as he liked. The
conductor's testimony was corroborated
by Mrs. P. C. Jenkins, who was a pas-
senger on the car.

Judge Low found the millionaire
guilty, and imposed a fine of \$5, with
an alternative of twenty-four hours' im-
prisonment. Bradbury's attorney
gave notice of appeal.

Presidential Nominations.

Washington, April 26.—The presi-
dent today sent to the senate the fol-
lowing nominations:

Harold M. Sewall, of Maine, to
minister to Hawaii.

Thomas H. Phair, of Maine, col-
lector of customs for the district of Ariz-
ona.

James S. Harrison, of M-
innesota, collector of customs for the
Belfast, Me.

WOOL GROWERS!

....Haul Your Wool to The Dalles....

**THE DALLES IS THE BEST MARKET FOR EASTERN OREGON AND
WASHINGTON WOOLS.**

With an open river to the sea, The Dalles now enjoys the distinc-
tion of having the Best Competitive Freight Rates both by
land and water to all the leading markets in the United
States.

THE BUYERS CONGREGATE IN THE DALLES, and during the wool season
all the best markets in the United States are represented.

We have the largest and best equipped brick warehouse in Eastern Oregon with
a storage capacity of 80,000 square feet; consequently we are fully prepared to
handle the entire clip of Eastern Oregon and Washington.

We make liberal cash advances on consignments of wool, enabling the owner to
hold for higher prices.

We pay freight to teamsters, and furnish teamsters' receipt books on application.
We have bought a large consignment of wool sacks and fleece twine for the coming
season's clip. We are prepared to furnish the same to our patrons at
actual cost.

Our brick warehouse located on the railroad track on the outskirts of the city is
not surrounded by wooden buildings and hence is not endangered in case of
fire. Nevertheless we keep all wools insured unless otherwise ordered by the
owner.

We respectfully solicit a continuance of the generous patronage we have hereto-
fore enjoyed, and we assure all those who wish to avail themselves of this
market that we give good clean service at as low a rate as any other ware-
house in this town offering the same facilities.

TELEGRAPHY REVOLUTIONIZED.

**Synchronograph Is Expected to Accom-
plish the Transition.**

New York, April 26.—At a meeting
of the American Institute of Electrical
Engineers last night Albert Cushing
Crehor, professor of physical science,
of Dartmouth college, exhibited an in-
strument designed to revolutionize tele-
graphy.

"By the use," he said, "of the syn-
chronograph, 3,000 words a minute can
easily be telegraphed, and what is, of
course, equally important, can easily
be received and recorded. A duplex
line will carry 6,000 words a minute."

In Chicago last night Professor Cre-
hor's collaborator in the invention of
the synchronograph, Lieutenant George
Owen Squier, United States navy, was
describing the remarkable machine to
another branch of the same institute.
It may be here stated that these two
gentlemen, Crehor and Squier, in-
vented the polarizing photo-chronog-
raph with which the most successful
experiments were made at the elec-
trical laboratory of the United States ar-
tillery school at Fortress Monroe. The
photo-chronograph is a machine to
measure the velocity of projectiles.

The receiver of the synchronograph
that will receive 3,000 words a minute
is a development of the principles of
the photo-chronograph.

Those opposed to a new courthouse
being built in Coos county, have
served an injunction upon the mem-
bers of the county board to restrain
the building.

Klamath county has warrants out-
standing to the amount of \$62,301, and
the interest thereon is \$15,575. The
county's resources are estimated to be
of the value of \$19,461.

Sheepraisers of Crook county have
had a very successful lambing season,
nearly all of the lambs being saved.
All sheep have wintered well and their
wool is in good condition.

The semiannual report of the county
officials of Lake county shows the total
outstanding and unpaid warrants to be,
with estimated interest, \$42,434.86,
while the total of unpaid taxes due and
owing the county is \$35,658.90.

An ordinance has been passed by the
city council of Ashland to prohibit card
playing or dice throwing for pleasure or
profit by minors, and is intended to
operate to prevent minors from playing
the nickel-in-the-slot machines as well
as other games. The ordinance fixes a
penalty for allowing minors to play at
such games, and is an addition to the
general ordinance against gambling.

D. B. Kidder, of Baker City, is in
the Long Creek valley, Grant county,
making up a band of 5,000 yearling
wethers, paying for them \$1.50 a head.
