

First Mexican Woman Doctor.
Miss Columbia Rivera, the first woman in Mexico to be licensed as a practicing physician, has been appointed to the women's ward of San Andres Hospital. Miss Rivera has studied medicine for four years, passing her examinations with great credit.

RATTLED.
To make a mad dog order, tie a tin pan to his tail. A man made mad is one who, after suffering 10, 15 or 20 years with rheumatism, finds that by the use of a bottle of St. Jacobs Oil he is cured. He feels the waste of his life in pain, with the loss of time, place and money, and then reflects that for the expense of 50c he could have saved all this and lived free of pain: it is enough to make him mad. Most of our sufferings are intensified by delay in seeking relief, and there is much worth knowing as regards the cure of pain that we find out at last only by the use of the best cure. It is worth knowing that for the cure of rheumatism there is a special virtue in The Great Remedy for Pain, St. Jacobs Oil, and as so much can be saved by its use, the cost is really nothing.

A fire was fought in New Jersey recently, by pumping from wine vats. The loss by fire was \$2,000, and it took \$5,000 worth of wine to quench it.

FORTUNE SEEKING EMIGRANTS.
Many a poor family that seeks the western wilds in the hope of winning a fortune, is preserved from that insidious foe of the emigrant and frontiersman—chills and fever—by Hostetter's Stomach Bitters. So effectively does that incomparable medicinal defense fortify the system against the combined influence of a malarious atmosphere and miasmata-tainted water, that protected by it the pioneer, the miner or the tourist provided with it, may safely encounter the danger.

Distinction.
The society girl and the actress? Oh, they differ in dress, you know; One rises above that sort of thing. And the other comes out below. —Truth.

Massachusetts annually imports from beyond her borders eggs to the value of \$5,000,000.

HOME PRODUCTS AND PURE FOOD.
All Eastern Syrup, so-called, usually very light colored and of heavy body, is made from glucose. "Ten Garden Berries" is made from Sugar Cane and is strictly pure. It is for sale by first-class grocers, in cans only. Manufactured by the Pacific Coast Syrup Co. All genuine "Ten Garden Berries" have the manufacturer's name lithographed on every can.

The National debt of Spain is nearly \$2,000,000,000 and the annual interest \$80,000,000.

\$100 REWARD \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Hall's Family Pills are the best.

The rhinoceros is the most formidable and pugnacious of all wild beasts.

I know that my life was saved by Piso's Cure for Consumption.—John A. Miller, Au Sable, Michigan, April 21, 1895.

Blooming Health

secured to every woman by the use of **Warner's Safe Cure**

Thousands of afflicted women have been cured by its use.

Why not You?

A Purely Vegetable Preparation.
A Remedy with a Remarkable Record.

Large bottle or new style smaller one at your druggist. Write for Medical Blank free. Warner's Safe Cure Co., Rochester, N. Y.

ARE YOU A STRONG MAN?

That is a perfect man, the fellow who feels himself above other men in those vital elements that you must have to make manhood complete. Did you ever see him? It is one of man's faults to be indiscreet, and a man must be made different from the rest of us who has not been. As indiscretion is common, so is its sequel—weakness, waste of vital force, lost manhood. This is the train of evils following early mistakes, and few men are free from them in a more or less degree. Hence the need of a natural stimulant is widespread. The only true remedy for this want of vital force is Electricity, as given to the weakened parts by

Dr. Sanden's Electric Belt

"I am much improved in every respect, and have more confidence in myself than I ever expected to have again. There are some men who are stronger than me yet, but I feel that I have now regained the full vigor of manhood from your Belt. I can feel the electricity warming up my vital nerve. I am very grateful to you, Dr. Sanden," writes E. M. Snodgrass, Albion, Idaho, February 22, 1897.

Dr. Sanden has devoted twenty years to perfecting his Electric Belt, and especially to the application of its curative powers in weakness of men. He has been repaid by the receipt of thousands of letters like the above. Much valuable information is given in the little book "THREE CLASSES OF MEN," which is sent free, sealed, on application.

SANDEN ELECTRIC BELT CO., 253 West Washington St., Portland, Or.

When writing to Advertiser please mention this paper.

Electric Return Currents.
The theory of the earth as a conductor is discussed in a recent issue of the American Electrician by Dr. Bell, and the conclusion arrived at that the conductivity of the earth is so meager that, except in the case of very high voltages or very minute currents, it is quite insignificant in practical affairs; in railway return circuits the earth return does much more harm than good; for power service the earth is useless as a return, and in telegraphy alone does it appear likely to serve a permanently useful purpose. This is in marked comparison with the idea formerly prevalent and used in the calculation of ground return circuits that the conductivity of the earth is infinite.

Brest's Cure for Big Hats.
The men theatergoers at Brest think they have solved the high-hat question. They carry with them big cushions by which they elevate themselves above the millinery obstructions in front, which is all right, provided there are women with big hats behind them.

One Way of Doing.—Friend—Now, tell me the truth, Edith. Don't you find it rather hard to love, honor and obey? Mrs. Giddily—Well, no, I love my husband's money, honor his family plate and obey my own wishes.—Life.

Paralyzed for Years.
A CARPENTER SPENDS MANY MONTHS IN BED—PHYSICIANS DO HIM LITTLE GOOD.

PARALYSIS CAME FROM A FALL.
From the Express, Los Angeles, California.
Just think of a busy, hardworking man paralyzed in the midst of his career, and rendered useless.
That was the misfortune that befell James A. Jones, of 1002 Alpine street, Los Angeles, Cal., in September, 1891. Mr. Jones was born in the state where many of the presidents come from—Ohio, but spent the greater part of his life during his younger years in Iowa, from which place he went to Colorado, and in 1882 came to Los Angeles. It was a small place then, before the boom came along and pushed us forward a century in the road of progress, and Mr. Jones followed his occupation of carpenter and builder. While at work in September, 1891, he received a fall which jarred him considerably and he became confined to his bed. Shortly after he lost the use of the lower part of his body entirely, and his legs became a dead weight. A plaster cast was put upon him by the doctors and they worked over him and did all things possible to assist his recovery. But he remained in the same condition.

In April, 1893, he began to take Dr. Williams' Pink Pills for Pale People. The following June he noticed that he could move his toes, and July 4, 1893, he got up out of bed and later in the month was able to walk without crutches. Shortly after, still continuing the pills he went to work at his trade at Whittier's, where he sustained a fall and again injured himself and had to go to bed and the dread paralysis came on again. Again the doctors worked with him but without relief, and he once more began to take Dr. Williams' Pink Pills. The doctors had given him bromides and iodides, but without effect. Again the pills drove the paralysis into the background. He said "I took them in accordance with directions, and in connection with the use of cold sponge baths, found they were exceedingly beneficial."

Mr. Jones is now able to walk again, and he feels that the pills are the only thing that has done him any good. In this connection he said: "The doctors who have treated me have done everything in their power, but without effect, and it does seem marvelous that paralysis should be overcome by these little pills. But that has been my experience. If anyone doubts it let him write to me or come and see me and I will tell them the story."
Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of la grippe, palpitation of the heart, pale and sallow complexion, all forms of weakness either in male or female. Pink Pills are sold by all dealers, or will be sent postpaid on receipt of price, 50 cents a box or six boxes for \$2.50 (they are never sold in bulk or by the 100), by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

ACTION ON BANKRUPTCY BILL

Nelson's Substitute Is Passed by the Senate.

ENCOURAGEMENT FOR GREECE

House Considers Senate Amendments to the Indian Appropriation Bill Without Reference to Committee.

Washington, April 24.—The session of the senate today was one of the most eventful since congress assembled. Allen offered a resolution providing that the chief executive express the sympathy of the American people to the government of Greece. The senator declared the contest was one between Christianity and Paganism. During the debate, Davis, chairman of the committee on foreign relations, to whom the resolution was referred, promised speedy action.

The debate on the senate committee aroused Morgan to a speech of unusual severity. He spoke of "dictatorships" and of the subordination of public business to politics. He characterized the condition of inaction in the house of representatives as the most gigantic and unheard of filibustering ever attempted. In conclusion, Morgan said that the speaker of the house, who had been known as the "great white czar," would be hereafter known as the "great white filibuster."

Another stirring chapter on the same subject was added by Allen, who proposed a complete cessation of senate business, except to consider appropriation bills, until committees were filled. The resolution led to another heated debate, in which Chandler and Allen participated. The resolution finally went over.

The bankruptcy bill was passed by a decisive vote of 49 to 8. The bankruptcy bill as passed is the substitute offered by Nelson of Minnesota. The success of this substitute in displacing the committee bill was a great surprise and disappointment to the judiciary committee, which had reported a comprehensive measure, known as the Torrey bill. It was regarded as a personal triumph of Nelson. The Nelson bill as passed provides for voluntary or involuntary bankruptcy.

The "free homestead" bill was made the unfinished business of the senate. A committee of fifteen senators was named to participate in the Grant ceremonies.

The announcement of the death of Representative Holman was made, and the senate adjourned as a mark of respect.

The house today adopted a special order for the consideration of the senate amendments to the Indian appropriation bill without reference to a committee.

The Democratic dissensions again came to the surface. Bailey and his followers joined with the Republicans on this proposition, after the special order had been modified so as to cover the other appropriation bills. Bland protested vigorously against the course, but only had a following of twenty-four, not enough to get a second vote. Simpson is out of the city, and therefore was not in evidence.

The senate amendments of minor importance were concurred in, excepting that providing for the removing of the Indian supply depot from Chicago to Omaha. The amendment relative to the opening of the Uncompaggre reservation was not acted on today.

While it was being debated, the death of Judge Holman was announced, and as a mark of respect, the house adjourned.

TELEGRAPHY REVOLUTIONIZED.

Synchrograph Is Expected to Accomplish the Transition.
New York, April 26.—At a meeting of the American Institute of Electrical Engineers last night Albert Cushing Crehore, professor of physical science, of Dartmouth college, exhibited an instrument designed to revolutionize telegraphy.

"By the use," he said, "of the synchrograph, 3,000 words a minute can easily be telegraphed, and what is, of course, equally important, can easily be received and recorded. A duplex line will carry 6,000 words a minute."

In Chicago last night Professor Crehore's collaborator in the invention of the synchrograph, Lieutenant George Owen Squier, United States navy, was describing the remarkable machine to another branch of the same institute.

It may be here stated that these two gentlemen, Crehore and Squier, invented the polarizing photo-chronograph with which the most successful experiments were made at the electrical laboratory of the United States artillery school at Fortress Monroe. The photo-chronograph is a machine to measure the velocity of projectiles.

The receiver of the synchrograph that will receive 3,000 words a minute is a development of the principles of the photo-chronograph.

Shearing in Morrow County.
Heppner, April 26.—The weather, while cool, is not interfering with shearing, which is now in full blast. Wool is coming in slowly, and is in much better condition than last season.

The Arch of States.
Omaha, Neb., April 26.—Amid imposing ceremonies, the corner-stone of the trans-Mississippi exposition arch of states was laid this afternoon. There was a long parade of military and civic societies. Grand Master Phelps, of the Nebraska Masons, officiated, assisted by officers of the grand lodge. Addresses were made by Mayor Broatch, Lieutenant-Governor Harris and ex-Secretary of Agriculture Morton.

MODJESKA THE GRAND.

Found Paine's Celery Compound the Best of Remedies

For the Nervous Exhaustion Consequent Upon Her Arduous Work—The Remarkable Artist Who Stands Pre-Eminently at the Head of Her Profession.

The news of Modjeska's recovery from the recent severe sickness that compelled her to leave the stage will be a source of congratulation to the whole world.

Modjeska, in a letter to Wells, Richardson & Company, says she has found (what thousands of people in every sta-

edge as can be picked up behind a counter. Paine's celery compound is prepared in exact accordance with the prescription of Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college. Its curative effects have been closely watched by the ablest physicians of

tion of life have so often heartily testified) that Paine's celery compound is the very best of all remedies for nervous exhaustion. Joseph Hawthorth rightly calls Modjeska "the peerless queen of artists." Modjeska's health is a matter of world-wide interest, and her testimony to the value of the great remedy which makes people well is of particular moment in the early spring, when from every quarter reports come of men, women and children who are taking Paine's celery compound, and are gaining in nervous vigor, weight and every other indication of better health. The thoughtful portion of the community knows the need of purifying the blood and regulating the nervous and alimentary systems as spring comes on. There is the danger that in their eagerness to take a spring remedy a thoughtless person may carry home some bogus concoction prepared with only such a smattering of medical knowl-

every school, and they are today agreed that it stands alone as the reliable remedy for building up a person's health in the spring. The most overwhelming testimony to the value of Paine's celery compound that has recently appeared from men and women of national reputation: Hon. George B. Swift, mayor of Chicago; Francis Murphy, the foremost apostle of temperance in the world; Mrs. Matthew S. Quay, wife of the great Republican senator from Pennsylvania; Ex-President Cook, of the National Teachers' Association; Rev. Charles L. Thompson, D. D., the brilliant Presbyterian leader of New York city; Elizabeth Cady Stanton; Secretary Carlisle's private secretary; State Treasurer Addison B. Colvin of New York; John Graham, the foremost man in American athletics; the wife of Rev. Charles H. Parkhurst, the famous preacher and reformer, Mayor McShane, of Montreal, Major General Birney, Judge Powers of Vermont, and

a host more of prominent men and women, including no less than five U. S. congressmen, are among the thousands of grateful people who have recently sent to the proprietors of this wonderful remedy their expression of its unequalled value—men and women who can well afford, and do command, the highest medical advice in the country.

And then also the people in the ordinary walks of life there come thousands of honest, straightforward, heart-felt letters, telling how Paine's celery compound has made them well.

Their testimony simply goes to show what New England's most vigorous editor so aptly said in a letter telling of the benefit Paine's celery compound had been to a member of his family:

"Paine's celery compound is not a patent medicine; it is not a saraparilla; it is not a mere tonic; it is not an ordinary nerve—itis as far beyond them all as the diamond is superior to cheap glass."

It makes people well. It is the one

true specific recognized and prescribed today by eminent practitioners for diseases arising from a debilitated nervous system. Prof. Phelps gave to his profession a positive cure for sleeplessness, wasting strength, dyspepsia, nervousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney troubles. For all such complaints Paine's celery compound has succeeded again and again, where everything else has failed. When Modjeska in a letter published in Boston said: "I have found Paine's celery compound the very best of all remedies for the nervous exhaustion consequent upon the arduous work of my profession," she voiced the experience of every tired-out, run-down, exhausted woman who ever went to this greatest of all spring remedies for relief. No one ever yet failed to find strength and health returning who faithfully used nature's true remedy—Paine's celery compound.

REASONS FOR USING

Walter Baker & Co.'s Breakfast Cocoa.

1. Because it is absolutely pure.
2. Because it is not made by the so-called Dutch Process in which chemicals are used.
3. Because beans of the finest quality are used.
4. Because it is made by a method which preserves unimpaired the exquisite natural flavor and odor of the beans.
5. Because it is the most economical, costing less than one cent a cup.

Be sure that you get the genuine article made by WALTER BAKER & CO. LTD., Dorchester, Mass. Established 1780.

WHEAT Make money by successful speculation in Chicago. We buy and sell wheat there on margin. Profits have been made on a small beginning by trading in futures. Write for full particulars. Best of reference given. Several years' experience on the Chicago Board of Trade, and a thorough knowledge of the business. Downing, Hopkins & Co., Chicago Board of Trade Brokers. Offices in Portland, Oregon, Spokane and Seattle, Wash.
