The Globe is a couple of hours late this week, owing to the editor being out of town a couple of days last week.

Doc Brown has figured it more closely and finds that he saved only 60 per cent of his lambs, instead of 65 per cent.

We are now in a position to take about 15 cords of nice dry wood on subscription. If you haven't the wood, cash will do.

A little son was born at Goldendale on May 7th to Mrs. Sophia McKinney, whose husband died near Lone Rock last winter.

John Lyons received his postoffice commission from Washington last week and is now a full-fledged P. M., with a big P and M.

Mrs. Smith and her niece, Nellie Smith left Tuesday for her home in Greeley, Col. Nellie expects to remain one year with her grandma.

See the new ad of Lord & Co. This is one of the largest, neatest and best-stocked stores in the state. Give them a call and see for yourselves.

By a recent law Colorado women are eligible to become members of the state militia. It will not be much trouble to get the boys to join the militia there.

We have arrived at the conclusion that about the only thing some people will not take is a bath, since some low-down haboon stole our office ax from the woodpile.—Grant Co. News.

Lawyer J. N. Brown of Heppner has moved to Hillsboro to practice law. After trying his luck in every other town in the state, Lawyer L. A. Esteb has finally located in Baker City.

Sheriff Wilcox and Clerk Frazer are in Portland this week, as delegates to the I O O F grand lodge. Mr. Frazer and little son Rollo went to the city last week on a visit to relatives.

Taking testimony in the White divorce case was resumed last Monday before referee L. W. Darling, and Atty. G. J. Hendricks and Hendricks Bros., and is still in "session" as we go to press.

Mrs. O. D. Sturgess and children left this week for Arlington, their future home. Mr. Sturgess is the able and courteous manager of Lord & Co's large new store.—Goldendale Agri.

A heavy rain fell here Sunday, soaking the ground thoroughly, thus insuring good crops. There was a waterspout across 20 miles, filling the road with rocks and tearing great holes in it.

The Prineville News says that the grand jury turned Eston Buffington loose, and that he will soon leave with Mr. Shearer with a sheep train for Chicago, where he expects to remain.

The Strickland-Giede sheep trespass case was argued in the supreme court at Pendleton last Saturday. The judge has the case under advisement and says he will render his decision in August.

Mr. and Mrs. Wm. Livingston desire in this manner to thank the many kind friends who rendered them such valuable and needed assistance during the sickness and death of their little child.

There will be an Indian War dance in the Armory hall here this Friday evening, by a band of redskins that are in town. This will be quite a treat to our people and all are invited out to see it.

A Pendleton mother has hit upon a successful plan to get her daughters home at satisfactory hours from their various social diversions. She requires the last one in to rise first and prepare breakfast.

Two ladies were recently fined at The Dalles for lifting their skirts too high, while crossing a muddy street. The Dalles magistrate ought to see some of our Baker City lady bicyclists, says the Democrat.

The public lands still vacant in the S. S. amount to over 700,000,000 acres, without including Alaska, with its 359,000,000. The best of this vacant land lies around Condon. File on it before it is all gobbled up.

The little 8-months-old child of Mr. and Mrs. Wm. Livingston, which had been sick for several weeks, died Monday, of water on the brain, and was buried next day. Rev. Bade preached the funeral sermon.

The theory has been advanced by scientific men that the atmosphere surrounding our planet is gradually thinning out, and will totally vanish in time. And still people will waste it by pumping it into bicycle tires.

G. G. Parman had a smoochup several days ago at the Duthie shearing corral. He was just starting out with a big load of wool when a wheel broke, causing the wagon to upset down the hill, injuring several of his horses pretty badly.

A man named Gassonowitz, who lives in Chicago, is the happy father of 35 children. Thirty of the children are boys. A woman at Dopot, Germany, gave birth to seven children last week. Nevada is sadly in need of a few such people.

The Eugene State Journal says that it is reported that the empanelling of a jury in Dakota, consisting of six men and six women, to try a prolonged case, resulted in one marriage, two elopements, three divorces and half a dozen scandals.

Cattle-buyers are now working Klamath county. For good 2 and 3-year-old beef steers they are offering \$25, but are making few if any purchases, says the Klamath Republican. Some of the cattle-owners are reported to be holding out for \$30 per head.

A serious cutting scrape occurred recently between here and The Dalles. It was a cut in rates, and passengers are now able to go to The Dalles (65 miles) and return for the fare of \$5. May the good work go on, is what the public hollers.—Antelope Herald.

Speaking of a surgical operation, an exchange says: "It was successful in every particular, and its results would have been all that could possibly have been hoped for, except for the unfortunate fact that the patient failed to rally and died in a few minutes."

When a Gilliam county man told his wife that he was glad there was no marrying in heaven, and she replied that of course there would not be, as there would be but few men there, a far-off look came into his eyes, and he dropped the subject with a dull thud.

A Condon girl recently received one of the new-fashioned belts, as a present from her fellow, which upon trying she found to be several inches too long for her. In her disappointment she exclaimed: "He should have known my waist measure better than that."

It has been discovered that an ordinary wire fence, without insulators, can be used for telephoning as well as if put up for the purpose. In one locality in Kansas a dozen farmers have their houses thus connected with each other and the depot and find it a great convenience at practically no cost.

Here is a straight tip to merchants: There's only one right way to advertise, and that is to hammer your name, your location and your business so constantly, so insistently and thoroughly into the people's heads that if they walk in their sleep they will instinctively turn their steps toward your store.—Ex.

Rev. Bade, our new minister, preached here last Sunday to large congregations. He will preach again next Sunday, in the morning at 10:30 and at 8 in the evening, and cordially invites you all to be present. The Y P S C E will be held just before services in the evening, with the following subject: "Peace; how and when to obtain it."

Wouldn't this kill you? The Idaho papers are telling what wonderful revival work Rev. Geo. Goode is doing over there. Can it be possible this is Lawyer Goode, who has "broke out" with religion? If so, we want to say that while here he wasn't loaded down with salvation to such an extent as to make him bow-legged packing it around.

The Heppner Gazette man tried to say something nice about a milliner in a recent issue. She had been getting in an immense amount of goods and he remarked boldly in his locals that he was "glad to see her stocking up." The milliner did not appear to appreciate the compliment and got as mad as a wet hen, and seriously thinks of stopping her paper.

Antelope is putting in a system of water works. Has Condon given up all idea of ever making such improvements? It certainly needs it. Why not use the \$700 or \$800 in the city treasury for putting up a large tank, for use in case of fire? It is a poor plan to wait until after the horse is stolen before putting a lock on the door. It is also a poor plan to not keep an eye out for the future welfare of the town, instead of neglecting everything else in the mad rush to hog every dollar in sight and never let a cent go for improving the town.

Charley Fix and Albert Miller had a rather heated discussion Sunday afternoon—the kind of argument that is backed up by the fists, billiard cues, iron weights and everything within reach. Miller evidently fared the worst, as he looks as though he had a few rounds with a buzz-saw, and it required some needle work to put him in running order again. Recorder Hendricks next morning settled their difficulty by fining both of them, the costs and all amounting to over \$13 each. It appears that a woman was at the bottom of the fracas.

While on his way home from Portland Saturday, George Gibbons lost a large black valise of Ed Morgan's wagon that he came out on from Arlington. It was either taken off or lost off somewhere between Olex or Clem, late in the evening. Mr. Gibbons will pay \$10 reward for the return of the valise and its contents, and no questions asked.

Prof. Morey, as agent, went over to Twickenham last week and sold some elegant new seats for the new school house there, that Uncle Jerome Parsons recently built at his own expense, and is also furnishing it at his own expense. Mr. Morey says it is one of the best little school houses he ever saw and looks like a little palace. Uncle Jerome has more snap and enterprise than a dozen average men. Wish we had a few like him over here.

Gilliam county, the last of Oregon's 32 counties, made its annual school report through Supt. Daggett last Tuesday. The report shows 1323 children—690 males and 633 females. The number of teachers employed was 20—males 6; females 20. The average monthly salary paid males was \$42; females \$25. The average tax levied for all purposes was 5 1/2 mills. The total receipts, \$977 44, and disbursements, \$844 29.

W. R. Boyer returned to his farm at Clem this week from his old home in Indiana, where he had been since last fall. He has so far recovered as to be able to walk without crutches, but is yet very lame and feeble. All of the doctors he saw in the Portland hospital and in the East told him that had he been treated properly just after the accident he would have been up and well within a month. Mr. Boyer informs us that he will soon begin a suit for damages for malpractice, his friends having offered to stand the expense of legal services.

Supt. Daggett not being able to attend the examination at Condon last week, he appointed Mrs. Lillian Stevens to conduct the examination, assisted by C. Royle. There were seven applicants, six of whom were successful, as follows: Retta Schomp, 1st grade, with 90 per cent; Miss Lora Taylor, 2d grade, 87.2; Miss Beatrice Burkhead, 3d grade, 81.9; W. S. Conner, 2d grade, 86.1; Harry Stricklin, 3d grade, 77.4; S. B. Jones, 3d grade, 70.4. Miss Birdie Henshaw took the examination also and we learn that she did remarkably well in a number of branches, but fell a little short on others to permit her to pass this time. Mrs. Lillian Stevens, one of the most successful teachers in the state, expects to be examined for a life diploma some time this year.
