

# MORGAN RESOLUTION PASSED

## Belligerency of Cubans Recognized by Senate.

### HOUSE PASSED RELIEF BILL

The Vote on Morgan Resolution Stood Forty-One to Fourteen—Opposition Made Strong Effort to Table It.

Washington, May 22.—The long and exciting debate on the joint resolution recognizing a state of war in Cuba and declaring that strict neutrality shall be maintained by the United States, was ended when the resolution passed the senate by the decisive vote of 41 to 14 at a late hour this afternoon. The announcement of the vote was received with tumultuous applause, which drew from Hawley an emphatic protest against "mob demonstration."

The resolution as passed is as follows: "Resolved, etc., That a condition of public war exists between the government of Spain and the government proclaimed and for some time maintained by force of arms by the people of Cuba, and that the United States of America shall maintain a strict neutrality between the contending parties, according to each and all the rights of belligerency in the ports and the territory of the United States."

An analysis of the vote shows that the affirmative vote was cast by 18 Republicans, 19 Democrats and four Populists, and the negative vote by 12 Republicans and two Democrats. Prior to the final vote, the motion of Hale to refer the resolution to the committee on foreign relations was tabled. Fairbanks proposed a substitute providing that the president extend the good offices of the United States to Spain toward securing an end of the conflict, and the ultimate independence of the island. This, too, was tabled, ayes 35, noes 15. Then followed the adoption of the original resolution. The voting occurred after an exciting debate, participated in by Thurston, Elkins, White, Fairbanks, Hale, Spooner and Gorman. Thurston, who presided over the Republican convention at St. Louis, recalled the stirring scene when the convention inserted a Cuban plank in the platform, and declared that this resolution was a partial fulfillment of that pledge. Elkins and White urged a conservative course and an inquiry by a committee.

Then came the first vote, that on the motion of Hale to refer. It was a test, and a defeat of the motion assured the passage of the resolution. Fairbanks tried to stem the tide by offering the compromise proposition, somewhat on the lines of the Cuban plank adopted at St. Louis, but it met the same fate as the Hale motion.

This brought Hale forward for a final protest. He spoke with intense earnestness and feeling, and with a trace of bitterness in his words. He declared that the elements opposed to the opposition—Democrats and Populists—had furnished the bulk in favor of the resolution, and that the foreign policy of the administration was thus to be dictated by its opponents. He expressed the fear also that the resolution would lead to war with Spain.

Spooner added his protest against tying the hands of the administration.

Gorman closed the debate, resenting the suggestion that party lines were drawn on the resolution, and asserting that the administration should have dispatched a war vessel to Cuba to protect our officials on the island. The final vote was then taken and the senate adjourned to Monday.

### Relief Bill Passed.

Washington, May 22.—The house unanimously passed the Cuban relief resolution, appropriating \$50,000 for food and supplies.

### The "Baroness" Is Pointed for Home.

London, May 24.—Baroness von Turkheim, formerly Jeannie Young, who believes that she was decoyed from home to prevent her appearing as a witness in the Fair will case, has departed for Liverpool, whence she sails for America. She was accompanied by her 4-year-old son. Her companion, who came with her from San Francisco, will meet her at Liverpool and sail with her.

The baroness says that Von Turkheim was very much disappointed on reaching London two weeks ago, to find that the remittance he had expected was \$2,000 short of the amount promised him. He did not know whether Mr. Delmas, Mrs. Craven's lawyer, had failed to send the amount or whether Detective Stillwell secured it. It was while Von Turkheim was smarting under this disappointment that he revealed to the baroness, she says, that he married her in pursuance of a plot to get her out of the way. He suggested to her then, she says, that they "stand in" together to make Delmas pay a large sum of money. The baroness declared that if Von Turkheim ventures to return to San Francisco, she will prosecute him.

Montevideo, May 24.—The Uruguayan troops have defeated the insurgents under Lamas and Saravia. It is officially announced the insurgents have been completely routed, and the revolution is considered as ended.

### A Woman in the Case.

St. Louis, May 24.—George A. Taylor, teller of the Third National bank, was found dead at the Normandie hotel this afternoon. He committed suicide by shooting himself with a revolver. When found, Taylor had in his hand a letter from a woman, not his wife, and her photograph.

William Moore, of Snow Hill, Md., on a wager of five cents, attended to kiss a possum, and is now mourning the loss of a part of his nose.

## WEEKLY MARKET LETTER.

Downing, Hopkins & Company's Review of Trade.

The week's contribution of statistics was on the whole more bullish than the average of late. Bradstreet's report showed a decrease of 5,000,000 bushels in the world's visible supply. Our own visible supply decreased 2,550,000 bushels, and the world's shipments were 5,000,000 bushels. These facts, however, are no longer regarded. The trade generally has settled down to an acceptance of the fact that there is plenty of wheat to run well into the next crop year, and that at the present rate of demand the important consideration is not as to the stocks on hand, but as to the prospects for the yield this fall. The consideration relied upon in this respect of the statistics was that short crops abroad would cause an unusual drain upon American supplies. Yet in the last seventeen weeks the American official visible has decreased but 21,000,000 bushels in round numbers, while in the same period last year it decreased 14,000,000 bushels, and in the same period in 1895 it decreased 23,000,000 bushels. During the same period the world shipments this year were 72,264,000 bushels, of which America furnished 39,462,000 bushels. It appears, therefore, that the theoretical requirements of 7,000,000 bushels a week is very strictly a theory as distinguished from a condition. Considerations of this kind make the average trader apt to pay little attention to the statistical position. The war factor has now quite disappeared from the market, and it seems that domestic conditions as to weather, etc., are likely to have most influence in making prices for the immediate future.

The crop reports that have come in from abroad of late are indicative of short harvests in some of the most important wheat-producing countries; but, of course, it is too early for any trustworthy showing in that regard. There are still many reports of poor prospects. The drought continues to a degree in California, although some rain has fallen there.

## KEEP IN SHAPE.

From the largest cities down to the smallest towns this is the month for the beginning of out-door sports of all kinds, and also the beginning of the season when sprains, bruises, hurts and mishaps are as plentiful as huckleberries. Every Spring this is a common experience, and the common experience has settled down to this, that the best thing to do is to be provided with a supply of St. Jacobs Oil for emergencies of the kind as an especially sure cure for the worst sprain or the blackest bruise. Sportsmen, athletes, ball players and oarsmen have known this for many, many seasons, and reference to it is now only a reminder to get your supplies. Hard strains and overwork of the muscles will bring pains and aches and sportsmen know what's best and are never without the sure cure in the use of the great remedy.

**Road Rights in Germany.**  
Foreigners who visit Berlin will do well to observe that rule of etiquette which precludes a person when out driving or riding from passing people of high rank.

Thus, a stranger, an American, it is said, was arrested the other day in the Thiergarten, for having ventured to drive past the carriage conveying the young Crown Prince and his brother on their daily drive.

The royal vehicle was proceeding at a relatively slow pace, and, as the stranger was driving a pair of spirited horses, he saw no harm in driving past and ahead of the Princes.

This rule has always prevailed with regard to military officers, a young lieutenant or captain never venturing to give his dust to his major or his colonel, while the latter, in his turn, is content to follow in the wake of his general.

### ROCKED ON THE CREST OF THE WAVES.

The landsman, tourist or commercial traveler, speedily begins, and not only begins, but continues, to feel the extreme of human misery during the transit across the tempestuous Atlantic. But if, with wise prescience, he has provided himself with a supply of Hostetter's Stomach Bitters, his pains are promptly mitigated, and then cease ere the good ship again drops her anchor. This is worth knowing, and thousands of our yachtsmen, summer voyagers, tourists and business men do know it.

Electricity has been adopted as the motive power of the machinery in connection with the drainage system in New Orleans.

### HOME PRODUCTS AND PURE FOOD.

All Eastern Syrup, so-called, usually very light colored and of heavy body, is made from glucose. "Fog Garden Drops" is made from Sugar cane and is strictly pure. It is for sale by first-class grocers, in cans only. Manufactured by THE PACIFIC COAST SYRUP CO. All genuine "Fog Garden Drops" have the manufacturer's name lithographed on every can.

Watercolor drawings will, it is said, last four hundred years if they are protected from direct sunlight.

Pupil—It was given to man so that he might smell and thus guard against the inhalation of unhealthy odors. Teacher—Why are we favored with ears? Pupil—To hold our spectacles in place.—Cleveland Leader.

# A SCIENTIST SAVED.

President Barnaby, of Hartsville College, Survives a Serious Illness Through the Aid of Dr. Williams' Pink Pills for Pale People.

The Hartsville College, situated at Hartsville, Indiana, was founded years ago in the interest of the United Brethren Church, when the state was mostly a wilderness, and colleges were scarce. The college is well known throughout the country, former students having gone into all parts of the world.

PROF. ALVIN P. BARNABY.

A reporter recently called at this famous seat of learning and was shown into the room of the president, Prof. Alvin P. Barnaby. When last seen by the reporter Prof. Barnaby was in delicate health. Today he was apparently in the best of health. In response to an inquiry the professor said: "Oh, yes, I am much better than for some time. I am now in perfect health; but my recovery was brought about in rather a peculiar way."

"Tell me about it," said the reporter. "Well, to begin at the beginning," said the professor, "I studied too hard when at school, endeavoring to educate myself for the professions. After completing the common course I came here, and graduated from the theological course. I entered the ministry, and accepted the charge of a United Brethren Church at a small place in Kent county, Mich. Being of an ambitious nature, I applied myself diligently to

my work and studies. In time I noticed that my health was failing. My trouble was indigestion, and this, with other troubles brought on nervousness.

"My physician prescribed for me for some time, and advised me to take a change of climate. I did as he requested and was some improved. Soon after, I came here as professor in physics and chemistry, and later was financial agent of this college. The change agreed with me, and for awhile my health was better, but my duties were heavy, and again I found my trouble returning. This time it was more severe and in the winter I became completely prostrated. I tried various medicines and different physicians. Finally, I was able to return to my duties. Last spring I was elected president of the college. Again I had considerable work, and the trouble, which had not been entirely cured, began to affect me, and last fall I collapsed. I had different doctors, but none did me any good. Professor Bowman, who is professor of natural science, told me of his experience with Dr. Williams' Pink Pills for Pale People and urged me to give them a trial, because they had benefited him in a similar case, and I concluded to try them.

"The first box helped me, and the second gave great relief, such as I had never experienced from the treatment of any physician. After using six boxes of the medicine I was entirely cured. Today I am perfectly well. I feel better and stronger than for years. I certainly recommend this medicine."

To allay all doubt Prof. Barnaby cheerfully made an affidavit before LYMAN J. SCUDDER, Notary Public. Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent postpaid on receipt of price, 50 cents a box, or six boxes for \$2.50 (they are never sold in bulk, or by the 100), by addressing Dr. Williams' Medicine Co., Schenectady, N. Y.

## A Bit of Original Spelling.

The Boy, as has been said, was born without the sense of spell. The Rule of Three, it puzzled him, and fractions were as bad; and the proper placing of e and l, or i and e, the doubling of letters in the middle of words, and how to treat the addition of a suffix in "y" or "tion" "always drove him mad," from his childhood up. He hated to go to school, but he loved to play school; and when Johnny Robertson and he were not conducting a pompous public funeral—a certain oblong hat-brush, with a rosewood back, studded with brass tacks, serving as a coffin, in which lay the body of Henry Clay, Daniel Webster, or the Duke of Wellington, all of whom died when Johnny and The Boy were about 8 years old—they were teaching each other the three immortal and exceedingly trying "R's"—reading, 'riting, and 'rithmetic—in a play school. Their favorite spelling-book was a certain old cook book discarded by the head of the kitchen, and considered all that was necessary for their educational purpose. From this, one afternoon, Johnnie gave out "doughnut," with the following surprising result. Conscious of the puzzling presence of certain silent consonants and vowels, The Boy thus set it down: "D-O, dough, N-O-U-G-H-T, nut—doughnut" and he went up head in a class of one, neither teacher nor pupil perceiving the funny blunder The Boy had made.—St. Nicholas.
