

GOING FOR WARNER'S SAFE CURE

is much better than going for the doctor, and is quite as effective and costs less money. You need always at hand a safe, sure remedy like

SAFELY

which will bring instant relief from acidosis, biliousness and work out a permanent cure.

A POSITIVE CURE FOR BRIGHT'S DISEASE, URINARY TROUBLES, FEMALE COMPLAINTS, GENERAL DEBILITY AND MALARIA.

Cures also, all those diseases arising from disordered kidneys or liver. Large sized bottles or new style smaller bottle at your nearest store. Try it and know the satisfaction of such a remedy.

Color Photography.

Amateur photographers are now experimenting extensively with the new process of color photography. The nature of the chemicals used is a secret, although the method is very simple. Over forty shades may be produced from the three primary colors used. The photographic plate is developed in the usual manner, after the color liquids are applied. Most of the colored photographs seen heretofore have been painted by hand. The new automatic process gives much finer results. Pictures of landscapes and marine views are very satisfactory. But the most striking are those taken of soldiers of the French army. Gorgeous reds, blues, both light and dark, gold buttons, and laces show with great brilliancy. Even precious stones have been pictured clearly by the new process. It is so delicate that not only flesh tints but actual differences in complexion show.

Your picture may be taken in all the colors of nature, giving color of hair, eyes and skin. Spring bonnets and new gowns may be shown to best advantage. It is thought that at last satisfactory photographing of oil paintings may be accomplished.

London's Public Parks.

Some loyal Britisher has decided that the city of London needs a defender and come to the front with the following claims: Since the year 1839 the city has paid toward the improvement of the whole municipality about \$56,116,400, or a daily expenditure of over \$3,000. As for the claim that the city is stuffy and sadly in need of breathing space, he insists that, exclusive of private gardens, close upon 25 per cent of the whole area of the city is given up to the public for recreation grounds; thus, within the five-mile radius of Charing Cross there are no less than 53 ground areas, apart from the cemeteries, the private grounds and square gardens, nearly all of them exceeding 20 acres in extent.

A New Anesthetic.

A Polish chemist is said to have invented an anesthetic which volatilizes rapidly upon exposure to the air, rendering the persons near unconscious for a long time. It is calculated that in warfare a bomb exploded in the midst of the enemy would have the effect of putting the entire body to sleep. A pellet of the substance broken under a man's nose put him to sleep for four hours.

Italy's Marriage Premium.

Italy is a country where marriage will always be popular, for the government has a special fund for providing marriage portions for poor young girls. Without a dower it would be almost impossible for a girl to be married, and this form of charity is said to be highly appreciated. The annual sum available for this purpose and distributed every year among the marriageable young girls is £500,000. To be a recipient it is necessary for the applicant to prove her good reputation and character by several witnesses, to show that she has no means available, and that the young man who wishes to marry her has a trade.

A SURE DELIVERANCE.

Not instantaneously, it is true, but in a short space of time, persons of a bilious habit are saved from the tortures which a disordered liver is capable of inflicting by Hostetter's Stomach Bitters, an anti-bilious medicine and aperient of the first rank. The pains in the right side and through the right shoulder blade, the sick headache, nausea, constipation and sallow hue of the skin, are entirely removed by this estimable restorative of tone to the organs of secretion and digestion.

An Engineering Feat.

Working plans for a tunnel to connect Sicily with the mainland of Italy, under the Strait of Messina, are on exhibition at the University of Pavia. A tunnel is thought more feasible than a suspension bridge, as the narrowest part of the strait is two miles wide, and the least span possible, 10,500 feet, is considered dangerous on account of the prevalent high winds.

Rivalry of English Cities.

The English cities, Manchester and Liverpool, which are one hour apart by rail, continue to fight for commercial supremacy, and while Manchester has spent an enormous sum to construct a ship canal to divert the trade of Liverpool, the latter city has put \$45,000,000 into a new system of docks.

WEEKLY MARKET LETTER.

Downing, Hopkins & Company's Review of Trade.

It was a quiet week in the wheat market last week. The bulls continue to have the benefit of the statistics; the bears of the speculative dullness and of the relative cheapness of all the other grains. The crop news was about equally divided. Complaints came from abroad, particularly from France. On the other hand, the advices from the Northwest were exceedingly bearish. The extreme South west had also a great deal to say of an early harvest. At the opening of the week there was a considerable shipping business, and the seaboard did a fair export trade from Monday up to the Saturday close. Here there was a lessened demand during the latter half of the week. The out movement, however, as the result of sales made the week before, was very large; sufficient to lead to the expectation of a reduction in the Chicago stock Monday of 1,000,000 bushels. Prices continued to show "premiums" instead of "carrying charges," the fact unquestionably which troubled the bears more than any other. May was let over July at the close and July 5c over September. That sort of relationship left no room for any of the usual philosphizing about "burdens." It was apparent from the quickness with which shorts took alarm on any news unfavorable to them that they recognized that they were granting all the advantages at the start.

There will this week probably be flaring announcements of harvesting in Indian Territory and Texas. It will not be many days before the crowd begins to anticipate the June 10th government report, which will give the first announcement as to spring wheat area and condition. The former will show a large increase and the latter will be high.

THE SUGAR INVESTIGATION

Tillman Again Endeavored to Have It Proceed.

BUT HE MET WITH OPPOSITION

Ten Pages More of the Metal Schedule of the Tariff Bill Disposed Of—The House Not Doing Much Business.

Washington, June 5.—The senate again made good progress on the tariff bill today, covering 10 pages of the metal schedule and almost completing it. The formal contest against the measure was maintained, but all amendments tending to change the bill as represented were voted down and the finance committee sustained. The debate was mainly of a technical character, the Republican senators continuing the policy of refraining from making speeches.

Before the tariff bill was taken up, Tillman gave the senate another hour of exciting controversy over the proposed sugar investigation. He defended himself from published charges relative to his administration of the governorship of South Carolina, and then moved that the committee having charge of the sugar resolution be discharged from further consideration of it, thus bringing the matter directly before the senate.

Gallinger, in behalf of the committee, made a spirited protest against this course and also urged that the senate should not turn aside from its public work to investigate charges affecting the private character of senators. There were frequent lively exchanges between Tillman, Gallinger and Jones of Nevada, but in the end Tillman withdrew his motion.

A bill was passed for a public building at San Angelo, Texas, to cost \$100,000.

Vest offered a resolution, which was adopted, reciting that the skeletons of the American soldiers killed at Buena Vista in 1871, were now exhumed, and asking the state department to investigate the subjects and report the facts to congress. A letter was read in this connection from Consul-General Crittenden, saying the matter should receive the attention of the authorities at Washington. A clipping was enclosed stating that the bones of American soldiers were bleaching in the sun.

The house proceedings today were enlivened by a single incident, the attempt of Terry to secure consideration, as a privileged matter, of a resolution for the immediate appointment of the committee on foreign affairs. It was ruled out of order and an appeal taken from the decision of the chair was laid on the table by a strict party vote. Simpson was absent and several bills were passed by unanimous consent.

The Frye bill to prevent collisions in certain harbors, rivers and inland waters of the United States and the senate resolution for the relief of El Paso flood sufferers as amended to make the appropriation available out of the unexpended balance of the appropriation for the Mississippi flood sufferers were passed and the conference report on the Indian appropriation bill was adopted.

EXTENSION OF TRADE.

Some Addresses Made at the Commercial Congress.

Philadelphia, June 7.—At the commercial conference today, Mr. Robertson of Mexico, said, in the course of an address, that the reason her majesty's United Kingdom controls so much of the trade of the various countries is because she subsidizes steamship lines and sends her emissaries of trade to the remotest parts of the earth and says: "I want to buy what you have to sell and want to sell you something." Continuing, Mr. Robertson said:

"The products of the Central and South American states will never be brought here until you provide some way to transport that which you wish to sell, and provide some way to bring back that which your neighbors through the South have to sell. They want to buy from you and they want to interchange their products."

Capatin Garcia, of Rio Janeiro, stated that at the banquet last night he had presented a somewhat lengthy letter to President McKinley, and that distinguished gentleman had informed him he would forward a reply as early as possible. The letter asks the American government to develop, by means of congressional action, a system of navigation between Brazil and the United States. Captain Garcia said it was also his intention to propose a plan for the establishment of an international banking system between the countries, "which will enable us to do business with each other without being compelled to pay a commission to England, as is the case at present."

Tried to Jump a Claim.

Beema, Idaho, June 7.—Two men tried claim-jumping near here yesterday. Fifty settlers organized and it looked for a while as if lynching would result. The young men were finally driven out of Nez Perces county. The people of this vicinity are determined not to permit any claim-jumping.

Outrages in Budapest.

London, June 7.—The Vienna correspondent of the Telegraph says great excitement has been caused there by the act of a number of Hungarian Chauvinist agitators at Budapest, who by scandalous scenes and outrages succeeded in driving from the new Comedy theater a company from the Burg theater at Vienna. The agitators laid dynamite cartridges around the theater and exploded them. One person was killed and one seriously injured.

PHYSICIANS BAFFLED.

Professor R. S. Bowman, Instructor of Natural Science in Hartsville College, Cured of a Severe Illness by Dr. Williams' Pink Pills for Pale People After Physicians Failed.

From the Republican, Columbus, Ind.

Professor R. S. Bowman, the able instructor of natural science in the famous Hartsville (Ind.) College, is well and favorably known, not only as an educator, but also as a minister of the gospel, as for a number of years he was pastor of the United Brethren church at Charlotte, Mich., before coming to Hartsville.

PROF. R. S. BOWMAN.

Some time ago he had a severe illness which was cured almost miraculously. A reporter hearing of this, interviewed him regarding his experience. Professor Bowman was in the midst of his work when the reporter called, but he cheerfully gave him a hearing.

"A year ago last fall," said the professor, "I broke down with nervous exhaustion, and was unable to properly attend to my duties. I tried different physicians, but with no relief, and also used many different proprietary medicines, spending almost \$50 for these medicines alone. I then succumbed to

"A minister in conference learning of my condition advised me to try Dr. Williams' Pink Pills for Pale People. I had heard much about the wonderful curative powers of this medicine, but it was with reluctance that I was finally persuaded to try it, as it seemed that nothing could do me any good. However, I procured three boxes of pills and took them strictly according to directions. By the time the last dose was taken I was almost cured, and in better health than I had been for years. I continued using the pills awhile longer and was entirely cured. I can cheerfully recommend Dr. Williams' Pink Pills for Pale People."

Such was Professor Bowman's wonderful story which was further endorsed by the following affidavit:

Hartsville, Ind., March 16, 1897.

I affirm that the above accords with the facts in my case.

R. S. BOWMAN, Subscribed and sworn to before me this 16th day of March, 1897.

State of Indiana, ss.

Dr. Williams' Pink Pills for Pale People contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are sold in boxes (never in loose form, by the dozen or hundred) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or directly by mail from Dr. Williams' Medicine Co., Schenectady, N. Y.

REASONS FOR USING

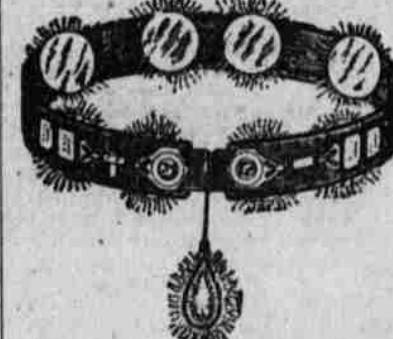

Walter Baker & Co.'s Breakfast Cocoa.

1. Because it is absolutely pure.
2. Because it is not made by the so-called Dutch Process in which chemicals are used.
3. Because beans of the finest quality are used.
4. Because it is made by a method which preserves unimpaired the exquisite natural flavor and color of the beans.
5. Because it is the most economical, costing less than one cent a cup.
