

FOR A REVENUE PRODUCER

Finance Committee Proposes Bank-Check Stamp Tax.

THE SUGAR DEBATE OPENED

Jones, Vest and Caffery Are for the Opposition—Original Senate Committee Amendments Were Withdrawn.

Washington, June 12.—The long-deferred debate on the sugar schedule of the tariff bill came on abruptly at 1 o'clock today, after the senate had disposed of the cereals in the agricultural schedule. Jones of Arkansas opened the debate to some extent, answering Aldrich's statement on the sugar schedule. Vest severely criticized the sugar trust, and argued that the rates were a further tribute to its vast resources. Caffery of Louisiana also opposed the schedule as a whole.

No final action was taken on any feature of the schedule, further than the withdrawal of the original senate committee amendments. This leaves the house provisions of the bill, with an amendment increasing the house differential from 875-1000 to 93-100 cent per pound.

The provisions relating to the Hawaiian islands went over by mutual consent.

Early in the day Tillman made a lively speech in favor of the amendment giving an export duty on agricultural products. The bounty amendment was defeated, 10 to 59.

Committee Amendments.

Washington, June 12.—The Republican members of the finance committee will withdraw the amendments for an additional tax on beer and for a duty of 10 cents per pound on tea. The question of revenue is giving the committee considerable concern. If there should be a withdrawal of the increase on tobacco, the bill would not meet the needs as a revenue producer. For this reason, it has been practically determined to make a bank check stamp tax. The committee has agreed upon a number of additional amendments to the agricultural schedule, the most important of them relating to fish.

The rate on chicory root was fixed at 2 1/2 cents per pound, the present rate being 3 cents and the original finance committee rate of 2 cents.

Concerning the Hawaiian treaty, there are several propositions under consideration by the committee. They include the indorsement of the Davis amendment and continuing the present treaty in force without reservation, a suggestion to the president that a new treaty should be negotiated, modifying the terms of the existing agreement so as to render them less partial to Hawaii, and a proposition looking to the giving of a year's notice to the Hawaiian government of the abrogation of the present treaty. This latter proposition is understood to originate with Senator Aldrich, and is antagonized by the special champions of Hawaii. The opinion is freely expressed by senators that the question of annexation will be taken up by the administration as soon as the tariff bill is passed.

PFANNER IS MISSING.

Disappearance of the President of the Forest Grove Bank.

Forest Grove, Or., June 14.—The Forest Grove bank closed its doors at noon today, because of an order to that effect received by Cashier F. T. Kane from Anton Pfanner, the president of the bank.

The order came in a registered letter to Mr. Kane, from Portland, in which letter was also an assignment to S. Hughes and A. Hinman, made by Mr. Pfanner for the benefit of all his creditors.

In the letter, Mr. Pfanner said that he felt that he had reached the point where he feared to go on with his business affairs, as he did not feel that he would be able to stand the mental strain; that he intended to go off among strangers for quiet, and if he got well, he would return; if not, he would die among strangers.

It is feared here by many that he has committed suicide.

About three months ago Mr. Pfanner had a serious illness, and had not fully recovered. He had for the last few days a premonition that he would have a recurrence of the trouble, and feared that it would result fatally.

Mr. Pfanner was considered one of the wealthiest men in the county, and it is thought he had plenty to pay all claims against him. There does not seem to be any reason why any one should worry who have claims against him. An inventory of his real estate was being made today, and his personal effects will be inventoried tomorrow. Until this is complete, it will not be known what his liabilities and assets are.

Mr. Pfanner did a large real estate and loan business, and enjoyed the public confidence. He was at the front in many ventures of a public nature, and it was he who built recently a private telephone line from here to Hillsboro.

Furber Rogers Drowned.

San Francisco, June 14.—Captain Alexander, of the steamship Santa Rosa, reports that while off the entrance to Port Harford yesterday, A. K. Rogers, one of his passengers, jumped overboard and was drowned. Rogers was for many years purser of the steamship Queen. He had been ill for some time, and is supposed to have been temporarily insane at the time of his tragic death. He leaves a widow and one child in this city.

WEEKLY MARKET LETTER.

Downing, Hopkins & Company's Review of Trade.

We have witnessed almost an entire week of heavy dragging markets with an undertone of weakness that has been an entire reversal of the feeling exhibited heretofore, and prices have daily declined fractionally with no rally whatever. The news has also undergone an entire change, and bear news is now plentiful in almost every direction. The statistical situation however is as strong as ever, but has lost its force as an argument because foreigners will not pay any attention to it, and seem to be utterly indifferent to the fact that our visible is now down to 24,450,000 bushels, and their purchases are very moderate, even at the decline. Last week's exports amounted to 2,620,000 bushels, while receipts in the Northwest have shown surprisingly large and have been one of the causes of the decline. Reports from the winter wheat states are very bright, and harvesting has commenced in Texas, Oklahoma and Kansas. As yet there is little to judge by, but reports say the yield will be very heavy. Thoman's report last week estimated the winter and spring wheat crops would show a total yield of 530,000,000 bushels. Cables are coming weak and lower daily, and it begins to look as if the bulls were beaten again, and just at the time when they believed themselves on the threshold of seeing their hopes of better prices realized. Their position was never stronger than it is now, and the situation is such, that should the demand for cash wheat and flour again show signs of reviving, we would see a sharp return, but until this demand does materialize, there does not seem to be much hope for better prices. Our visible supply decreased 2,447,000 bushels and the world's shipments were 6,700,000 bushels, showing that importing countries are as yet drawing the greater portion of needs from other sources.

Market Quotations.

Portland, Or., June 11, 1897.
Flour—Portland, Salem, Cascadia and Dayton, \$3.75; Benton county and White Lily, \$3.75; graham, \$3.40; superfine, \$2.60 per barrel.
Wheat—Walla Walla, 74@75c; Valley, 76c per bushel.
Oats—Choice white, 35@40c per bushel; choice gray, 37@39c.
Hay—Timothy, \$13.00@14.00 per ton; clover, \$11.50@12.50; wheat and oat, \$10.00@12.00 per ton.
Barley—Feed barley, \$16.50 per ton; brewing, \$18@19.
Millstuffs—Bran, \$14.50, shorts, \$16.50; middlings, \$23.50.
Butter—Creamery, 30c; dairy, 20@22 1/2c; store, 17 1/2@30c per roll.
Potatoes—Oregon Burbanks, 40@50c; Garnet Chilies, 55@65c; Early Rose, 35@40c per sack; sweets, \$2.75 per cental for Merced; new potatoes, 1 1/2@1 3/4c per pound.
Poultry—Chickens, mixed, \$2.50@3.00; geese, \$4.00@5.00; turkeys, live, 12 1/2c; ducks, \$3.00@5.00 per dozen.
Eggs—Oregon, 11@12c per dozen.
Cheese—Oregon, 11 1/2c; Young America, 12 1/2c per pound.
Wool—Valley, 13c per pound; Eastern Oregon, 6@8c.
Hops—7c per pound.
Beef—Gross, top steers, \$3.50; cows, \$2.50@3.00; dressed beef, 5@6 1/2c per pound.
Mutton—Gross, best sheep, wethers and ewes, 2 1/2c; dressed mutton, 4 1/2@5c per pound.
Hogs—Gross, choice, heavy, \$4.00@4.50; light and feeders, \$2.50@3.00; dressed \$5.00@5.50 per cwt.
Veal—Large, 3 1/2@4c; small, 4 1/2@5c per pound.
Seattle, Wash., June 11, 1897.
Wheat—Chicken feed, \$26 per ton.
Oats—Choice, \$21@22 per ton.
Flour—(Jobbing)—Patent excellent, \$4.60; Novelty A, \$4.30; California brands, \$4.85; Dakota, \$5.65; patent, \$6.40.
Barley—Rolled or ground, \$20 per ton; whole, \$19.
Corn—Whole, \$20 per ton; cracked, \$20; feed meal, \$20.
Millstuffs—Bran, \$15.00 per ton; shorts, \$17.
Hay—Puget sound, per ton, \$13.00; Eastern Washington, \$17; California, \$12@14.
Feed—Chopped feed, \$18.00 per ton; middlings, \$22; oatmeal, \$30.
Poultry—Chickens, live, per pound, hens, 11c; spring chickens, \$3.50@3.50; ducks, \$5@6.
Butter—Fancy native creamery, brick, 16c; ranch, 10@12.
Cheese—Native Washington, 11@11 1/2c; Eastern, 11c; California, 9 1/2c.
Vegetables—Potatoes, per ton, \$12.00@14; parsnips, per sack, \$1; beets, per sack, \$1.00; turnips, per sack, \$1.00; rutabagas, per sack, 50c; carrots, per sack, 75c; cabbage, per 100 lbs, \$1.75; onions, per 100 lbs, \$1.50.
Sweet potatoes—Per 100 lbs, \$3.50; new potatoes, 1 1/2c per lb.
Eggs—Fresh ranch, 14@15c.
Fresh Meats—Choice dressed beef, steers, 7c; cows, 6 1/2c; mutton, sheep, 6 1/2c per pound; lamb, 6c; pork, 6 1/2c per pound; veal, small, 6@7c.
Fresh Fish—Halibut, 4@5c; salmon, 6@8c; salmon trout, 7@10c; flounders and soles, 3@4c.
Provisions—Hams, large, 11c; hams, small, 11 1/2c; breakfast bacon, 10c; dry salt sides, 6 1/2c per pound.
Fruits—Lemons, California, fancy, \$3.00@3.50; choice, \$2.50; California fancy navals, \$3@3.50.

San Francisco, June 11, 1897.
Potatoes—Oregon Burbanks, 60@75c; Early Rose, 60@70c; River Burbanks, 50@65c; sweets, \$1.25 per cental.
Onions—New, 40@50c.
Eggs—Ranch, 12@14c per dozen.
Butter—Fancy creamery, 17 1/2c; do seconds, 15 1/2@16c; fancy dairy, 16@16 1/2c; seconds, 14@15c.
Cheese—Fancy mild, new, 7 1/2@8c; fair to good, 7@8 1/2c; Young America, 6@9 1/2c; Eastern, 14@16c.

Drop us a line if you can't get Schilling's Best of your grocer, or if you don't like it and can't get your money back.

A Schilling & Company, San Francisco.

A New Fuel.

Many attempts have been made to use turf or peat as fuel, but this material has never obtained great importance, because in comparison to its small heating value, its volume was too large, and consequently the transportation was found too expensive; moreover, the considerable amount of ashes it produced made it impracticable to use in any quantity. Suddenly it seems the time has arrived for peat to enter into competition with, and in some cases to substitute all other fuels. An invention, the economical importance of which is inestimable at the present moment, was recently patented by Mr. Rosenhahl, of Christianstad, Norway, which country probably possesses the largest deposits of peat in the world. His method of making a practical fuel of peat simply consists in heating the peat in iron ovens to 250 degrees centigrade, and when this temperature is reached to close all the valves of the oven, the temperature of 250 degrees being kept up for seven hours. This process changes the material considerably, and the dry and gaseous products of the coal-like remainder represent 80 per cent of the whole. A chemical analysis of the product, made at the Christiania University, showed the prepared peat to contain 65 per cent of pure carbon, 16 per cent of oxygen, 6 per cent of hydrogen, 4 per cent water and, what is most surprising, only 5 per cent of substances which will remain as residue in the shape of ashes. The new peat-coal has a theoretical heating value of 6,500 caloric units, which is equal to that of medium-grade anthracite coal. The cost of peat-coal, however, is so small that it can be sold at a profit for \$1.75 per ton, while an equal quantity of anthracite coal costs from \$4 to \$5. By the process of Rosenhahl, even in its present crude state, the production of peat-coal costs but 75 cents per ton, and it is very likely that even this cost will be considerably reduced before long. Tests have been made with the new material at the Krupp works at Essen, Germany, and it was found that the new fuel gave better results than either anthracite or coke in the iron foundries and for the production of Bessemer steel.

In some of the cantons of Switzerland all the dead, rich as well as poor, are buried at the public expense. Coffins and all other necessary articles are furnished on application to certain undertakers designated by the government. Everything connected with the interment is absolutely gratuitous.

In the city of Durango, Mexico, is an iron mountain 640 feet high, and the iron is from 60 to 70 per cent pure. The metallic mass spreads in all directions for a radius of three or four miles.

The building inspector of Washington, D. C., has declared for day labor on public works, and has made such recommendation to the commissioners of the district.

During the last 50 years Germany, Austria and England have each retained their birth rates undiminished, while that of Italy has slightly increased.

An effort is under way to substitute electricity for steam at the Cripple Creek (Col.) mines. The cost of the coal at the mines is from \$6 to \$7 per ton.

A pair of gloves passes through about 200 hands from the moment the skin leaves the dressers until the gloves are purchased by the intending wearer.

Baltimore has fixed by an ordinance the pay of laborers at \$10 per week, nine hours a day. Philadelphia fixes the rate at \$17.50 for nine hours.

The Alabama legislature has passed a bill exempting cotton factories, hereafter to be built in Alabama, from taxation for ten years.

Boston employs 2,750 laborers, who receive from \$2.02 to \$2.25 a day, and a councilman wants 15 cents added to the pay of each employee.

Unemployed married members of the Minneapolis Typographical Union receive \$7 per week and single men \$5.

Modern progress has indicated the Japanese as the most intelligent of the dark-skinned races of mankind.

DRUNKARDS CAN BE SAVED

The craving for drink is a disease, a nervous cure for which has been discovered called "Anti-Jag," which makes the inebriate lose all taste for strong drink without knowing why, as it can be given secretly in tea, coffee, soup and the like. If "Anti-Jag" is not kept by your druggist send one dollar to the Renova Chemical Co., 66 Broadway, New York, and it will be sent postpaid, in plain wrapper, with full directions how to give secretly. Information mailed free.

THE TRIUMPH OF LOVE!
Happy and Fruitful Marriage.

Every MAN who would know the GRAND TRUTHS, the Old Secrets and the New Discoveries of Medical Science applied to Married Life, who would alone be past follies and avoid future pitfalls, should write for our wonderful little book, called "Complete Manhood and How to Attain It." To any earnest man we will mail one copy entirely free, in plain sealed cover.

ERIE MEDICAL CO., 65 NIAGARA ST., BUFFALO, N. Y.

Graham and rye bread and fresh fruit in plenty, particularly oranges, before breakfast, are of great benefit to persons of constipated habits.

The most painful corn is amenable to a wash of salicylic acid, tincture of Indian hemp and flexible collodion, applied for three nights with a brush or cork.

Never continue keeping the back exposed to the heat after it has become comfortably warm. It is debilitating to do otherwise than merely warm the back by the fire.

Many children, even to seven years of age, have a habit of grinding their teeth in their sleep. A teaspoonful of rhubarb and soda given night and morning will alleviate this tendency.

When the hands have become black and hard from housework, a wash with turpentine, followed by a rubbing with cold cream and a night's sleep in gloves, will do much to restore them to their natural condition.

Very often the hair comes out rapidly after continued malarial and other fevers. In such cases the following mixture will check the tendency: Fluid extract of Jaborandi, two ounces; tincture of cantharides, three drams; sulphate of quinine, one dram; West India bay rum, up to one pint.

If a child is afflicted with loud wheezing from the chest, indicative of bronchitis and asthma, great relief may be obtained by taking four times daily a teaspoonful of a mixture composed of one and one half grains of codeine and three ounces of compound syrup of hypophosphites.

A great many people are alarmed at occasional sticking pains under the heart, or a pain under the left shoulder blade, running down to the hand. The same will usually yield to the following remedy, a teaspoonful as a dose: Iodide of potash, three drams; fluid extract of stinging, sixteen drams; wine of colchicum seed, eight drams; compound fluid extract of sarsaparilla up to four ounces.

CONSUL AT BORDEAUX.

Albion W. Tourgee, the Man Who Has Been Appointed to That Position.

Albion W. Tourgee, the new consul general at Bordeaux, France, is one of the foremost literary men in America. The titles of many of his books are as household words. He is a lawyer, too, and has written much on political matters. But his chief claim to fame is that of the novelist. Mr. Tourgee's most widely read and widely commented upon books are "A Fool's Errand," "Figs and Thistles," "Bricks Without Straw" and "Hot Plowshares." His career has been that of a very versatile man. A brave soldier who fought for the Union, he was severely wounded at Bull Run. He was a member of the constitutional convention of North Carolina in 1867 and again in 1875. He has been a Superior Court judge, and has practiced law in a successful way. In 1889 he became professor in the Buffalo law school, and since that time, while filling his function as a teacher of law, he has used his pen with good effect. His later books have been for the student of law and the jurist. Since his removal from the South he has lived in New York, near Chautauque. Mr. Tourgee is 59 years old.

ALBION W. TOURGEE.

Latest Wheeling Costumes.

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a complicated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

A Relic of Captain Kidd.

An ancient quadrant bearing the name of Robert Kidd, the celebrated pirate, is in possession of a family at Rockland, Me. It is more than 200 years old and it mounted with ivory, which has now turned dark-brown with age.

"Some Things Are Better Left Unsaid"
He—How are you? Keeping strong?
She—No; only just managing to keep out of my grave.
He—Oh, I'm sorry to hear that—
Judy.

Venezuela's Gift to New York.

At his studio at Garretton, Staten Island, Giovanni Tarini, the sculptor, has begun work on an equestrian statue of General Simon Bolivar, the George Washington of Central America. The statue has been ordered by the government of Venezuela, and is to be a gift from that republic to the city of New York. It is to be placed in Central Park in place of the present statue of General Bolivar.

An automatic tension device for wire fences consists of a number of springs fastened to the ends of the wires, the ends of the springs being attached to a well-braced post at the end of the fence.

The large archaeological and ethnographic collection brought together by the government of Costa Rica has now commodiously installed in a building erected for the purpose at San Jose de Costa Rica.

A statistician says that of every 10,000 chimneys, three are struck by lightning, while of the same number of church steeples and windmills, sixty and eighty respectively are struck.

One of Edison's latest patents is a two-pointed receiver for the phonograph which will give two records at once from the same cylinder.

The Japanese government, instead of presenting medals to the soldiers who took part in the war against China, is to give them excellent Swiss watches.

Taking it year in and year out, the coldest hour of each 24 is 6 o'clock in the morning.

DISHONORED DRAFTS.

When the stomach dishonors the drafts made upon it by the rest of the system, it is necessary because its fund of strength is very low. Tonic with Hostetter's Stomach Bitters, it soon begins to pay out vigor in the shape of pure, rich blood, containing the elements of muscle, vigor and brain. As a sequent of the new vigor afforded the stomach, the bowels perform their functions regularly, and the liver works like clock work. Malaria has no effect upon a system thus reinforced.

A captive bee striving to escape has been made to record as many as 15,540 wing strokes per minute in a late test.

HOME PRODUCTS AND PURE FOOD.

All Eastern Syrup, so-called, usually very light colored and of heavy body, is made from glucose. "The Golden Syrup" is made from Sugar Cane and is strictly pure. It is for sale by first-class grocers, in cans only. Manufactured by the Pacific Coast Syrup Co. All genuine "The Golden Syrup" have the manufacturer's name lithographed on every can.

The sea has no herbivorous animal. It is a great slaughter house where all the inhabitants prey on each other.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, O., by F. J. Cheney & Co. Testimonials free. Sold by Druggists, price 75c per bottle. Hall's Family Pills are the best.

New York is not only America's financial and commercial metropolis, but also its greatest manufacturing city.

Two bottles of Piso's Cure for Consumption cured me of a bad lung trouble.—Mrs. J. Nichols, Princeton, Ind., Mar. 29, 1895.

The haggish or myxine, has a custom of getting inside the cod and similar fishes and entirely consuming the interior, leaving only the skin and the skeleton.

In a recently patented attachment for automatically opening a pair of shears the shank of one blade is made wide and has a coiled spring extending from it to the opposite handle.

At Charleston, S. C., an importing and exporting company is being organized to import coffee from South America, and return the vessels with cargoes of cotton cloth.

CAPTURE AND FILES cured; no pay unless cured; send for book. DR. MARSHALL & PORTERFIELD, 328 Market St., San Francisco.

M.P.N.U. No. 705.—S.F.N.U. No. 793

A THOUGHT THAT KILLED A MAN!

HE thought that he could trifle with disease. He was run down in health, felt tired and worn out, complained of dizziness, biliousness, backaches and headaches. His liver and kidneys were out of order. He thought to get well by dosing himself with cheap remedies. And then came the ending. He fell a victim to Bright's disease! The money he ought to have invested in a safe, reliable remedy went for a tombstone.

Safe Cure
is the only standard remedy in the world for kidney and liver complaints. It is the only remedy which physicians universally prescribe. It is the only remedy that is backed by the testimony of thousands whom it has relieved and cured.

THERE IS NOTHING ELSE THAT CAN TAKE ITS PLACE

Scrofula

It's a deep-seated blood disease which all the mineral mixtures in the world cannot cure. S.S.S. (guaranteed purely vegetable) is a real blood remedy for blood diseases and has no equal.

Mrs. Y. T. Buck, of Delaney, Ark., had Scrofula for twenty-five years and most of the time was under the care of the doctors who could not relieve her. A specialist said he could cure her, but he filled her with arsenic and potash which almost ruined her constitution. She then took nearly every so-called blood medicine and drank them by the wholesale, but they did not reach her trouble. Some one advised her to try S.S.S., and she very soon found that she had a real blood remedy at last. She says: "After taking one dozen bottles of S.S.S. I am perfectly well, my skin is clear and healthy and I would not be in my former condition for two thousand dollars. Instead of drying up the poison in my system, like the potash and arsenic, S.S.S. drove the disease out through the skin and I was permanently rid of it."

A Real Blood Remedy.

S.S.S. never fails to cure Scrofula, Eczema, Rheumatism, Contagious Blood Poison, or any disorder of the blood. Do not rely upon a simple tonic to cure a deep-seated blood disease, but take a real blood remedy.

Our books free upon application. Swift Specific Co., Atlanta, Ga.

BE MANLY!

You cannot afford to let physical weakness stifle ambition and mar your future. If you are not the man you should be at your age, if you have wasted your strength, if you feel the need of a remedy that will bring back the vigor of youth, that will restore your energy and strength, do not hesitate. Get that grandest of all remedies,

Dr. Sanden's Electric Belt.

The modern life-giver. It is nature's remedy for weak men. Thousands of young, middle-aged and old men have been renewed invigorated and strengthened by its life-giving current. It cures when medicine fails. Improved electric suspensory free with each Belt. A pocket edition of the celebrated electro-medical work,

"Three Classes of Men"

Illustrated, is sent free, sealed, by mail to all who write, or it can be had at the office upon application. Every young, middle-aged or old man suffering from the slightest weakness should read it. It will show a safe and speedy way to regain manly strength when everything else has failed. Call or address
